Section D – Risks

D.2	Key information on the key risks that are specific to the Issuer:	<p>There is a risk of financial loss and reputational harm to the Issuer due to a borrower or counterparty failing to meet its obligations to the Issuer in accordance with the contractual terms of its direct lending activities or from trading, investment, and hedging activities. These borrowers or counterparties may default on their obligations to the Issuer due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons, adversely impacting the Issuer's financial position and prospects.</p> <p>Competitive pressure from digital disruptors, both global technology leaders and smaller financial technology entrants, is increasing and the risk of disintermediation is growing due to the level of sophistication of these non-traditional competitors.</p> <p>The Issuer's financial assets, including positions in currencies, securities and derivatives held in the Issuer's trading portfolios, and the Issuer's earnings from its retail banking business, investment portfolios and other non-trading activities may be negatively affected by adverse changes in underlying market factors, including interest and foreign exchange rates, credit spreads, and equity and commodity prices. The Issuer has experienced some losses in its oil and gas portfolio as prices have remained weak, and if the trend continues, the Issuer could experience an acceleration of losses in future quarters.</p> <p>There is a risk of the Issuer having insufficient cash resources to meet financial obligations as they fall due (including obligations under the Notes), in their full amount and stipulated currencies, without raising funds at adverse rates or selling assets on a forced basis.</p> <p>There is a risk of loss if the Issuer's business strategies are ineffective or if the Issuer fails to effectively execute business strategies, including potential financial loss due to the failure of acquisitions or organic growth initiatives.</p> <p>The Issuer faces intense competition in all aspects of its business from established competitors and new entrants in the financial services industry. The Issuer's success in developing and introducing new products and services, expanding distribution channels, developing new distribution channels and realizing revenue from these channels could affect the Issuer's revenues and earnings.</p> <p>There is a risk of operational losses at the Issuer resulting from the Issuer's inadequate or failed internal processes, systems, human error or external events.</p>
-----	--	--

		<p>There is a risk that legal proceedings and judicial or regulatory decisions against the Issuer, or legislative and regulatory developments in the jurisdictions where the Issuer operates, may adversely affect the Issuer's results.</p> <p>The Issuer's revenues and earnings are substantially dependent on the economies of Canada, the United States and the Caribbean which can in turn be affected by general business and economic conditions worldwide. Movements of the Canadian dollar relative to other currencies, in particular the U.S. dollar and the currencies of other jurisdictions in which the Issuer has operations, may adversely affect the Issuer's revenues, expenses and earnings.</p>
D.3	Key information on the key risks that are specific to the Notes:	<p>The Notes are not insured under the <i>Canada Deposit Insurance Corporation Act</i>. If the Issuer goes out of business or becomes insolvent, Noteholders may lose all or part of their investment in the Notes.</p> <p>The market value of the Notes may be adversely affected in the event that a rating assigned to the Notes or the Issuer is subsequently suspended, lowered or withdrawn for any reason.</p> <p>Notes may have no established trading market when issued, and one may never develop or may be illiquid.</p> <p>The Notes may be redeemed prior to maturity in the event additional amounts become payable due to changes in tax legislation after the Issue Date and an Investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.</p> <p>The Notes may be subject to withholding taxes in circumstances where the Issuer is not obliged to make gross up payments and this would result in holders receiving less interest than expected and could adversely affect their return on the Notes.</p> <p>A change in law or administrative practice relating to the governing law of the Notes could materially adversely impact the enforceability of or value of the Notes.</p>

Section E – Offer

E.2b	Reason for the offer and use of proceeds	The net proceeds from each issue of Notes will be applied by the Issuer for its general corporate purposes.
E.3	Terms and Conditions of the offer	<p>The terms and conditions of each offer of Notes will be determined by agreement between the Issuer and the relevant Manager at the time of issue and specified in the applicable Final Terms.</p> <p>There is no Public Offer.</p> <p>The issue price of the Notes is 100.00 per cent. of their nominal amount (the “Issue Price”).</p>

E.4	Interests material to the issue/offer including conflicting interests	<p>The relevant Dealer or Manager may be paid fees in relation to any issue of a Tranche of Notes under the Programme. Certain of the Dealers and their affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business. Certain of the Dealers or their affiliates may have a lending relationship with the Issuer and, if so, may hedge their credit exposure to the Issuer.</p> <p>Save for any fees payable to the Manager, so far as the Issuer is aware, no person involved in the issue or offer of the Notes has an interest material to the issue or offer, including conflicting interests.</p>
