Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer:	<p>There is a risk of financial loss and reputational harm to the Issuer due to a borrower or counterparty failing to meet its obligations to the Issuer in accordance with the contractual terms of its direct lending activities or from trading, investment, and hedging activities. These borrowers or counterparties may default on their obligations to the Issuer due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons, adversely impacting the Issuer's financial position and prospects.</p> <p>Competitive pressure from digital disruptors, both global technology leaders and smaller financial technology entrants, is increasing and the risk of disintermediation is growing due to the level of sophistication of these non-traditional competitors.</p> <p>The Issuer's financial assets, including positions in currencies, securities and derivatives held in the Issuer's trading portfolios, and the Issuer's earnings from its retail banking business, investment portfolios and other non-trading activities may be negatively affected by adverse changes in underlying market factors, including interest and foreign exchange rates, credit spreads, and equity and commodity prices. The Issuer has experienced some losses in its oil and gas portfolio as prices have remained weak, and if the trend continues, the Issuer could experience an acceleration of losses in future quarters.</p> <p>There is a risk of the Issuer having insufficient cash resources to meet financial obligations as they fall due (including obligations under the Deposit Notes), in their full amount and stipulated currencies, without raising funds at adverse rates or selling assets on a forced basis.</p> <p>There is a risk of loss if the Issuer's business strategies are ineffective or if the Issuer fails to effectively execute business strategies, including potential financial loss due to the failure of acquisitions or organic growth initiatives.</p> <p>The Issuer faces intense competition in all aspects of its business from established competitors and new entrants in the financial services industry. The Issuer's success in developing and introducing new products and services, expanding distribution channels, developing new distribution channels and realizing revenue from these channels could affect the Issuer's revenues and earnings.</p> <p>There is a risk of operational losses at the Issuer resulting from the Issuer's inadequate or failed internal processes, systems, human error or external events.</p> <p>There is a risk that legal proceedings and judicial or regulatory decisions against the Issuer, or legislative and regulatory developments in the jurisdictions where the Issuer operates, may adversely affect the Issuer's results.</p>

		<p>The Issuer's revenues and earnings are substantially dependent on the economies of Canada, the United States and the Caribbean which can in turn be affected by general business and economic conditions worldwide. Movements of the Canadian dollar relative to other currencies, in particular the U.S. dollar and the currencies of other jurisdictions in which the Issuer has operations, may adversely affect the Issuer's revenues, expenses and earnings.</p>
