Notes:

* In July 2015, Prairie announced that it had secured the Exclusive Right to apply for a Mining Concession for Jan Karski as a result of its Geological Documentation for the Jan Karski deposit being approved by Poland's MoE. The approved Geological Documentation covers areas of all four original Exploration Concessions granted to Prairie (K-4-5, K-6-7, K-8 and K-9) and includes the full extent of the targeted resources within the mine plan for Jan Karski. (The K-4-5, K-8 and K-9 Exploration Concession expired in November 2018 but this was separate to and had no bearing on the access to land and the Exclusive Right (tenure) to apply for a mining concession at Jan Karski). As a result of the Exclusive Right, Prairie was the only entity with a legal right to lodge a Mining Concession application over Jan Karski for the period up and until 2 April 2018. Under the Polish GML, a Mining Concession application comprises the submission of a Deposit Development Plan ("DDP"), approval of a spatial development plan (rezoning of land for mining use) and an Environmental Consent decision. Prairie has previously announced that the DDP and spatial development plans for Jan Karski have already been approved.

However, as of the date of this report, Prairie has not yet received the required Environmental Consent decision, which remains pending. Prairie completed an Environmental and Social Impact Assessment and made submissions to RDOS for an Environmental Consent decision in October 2017. Prairie has not been able to apply for a Mining Concession for Jan Karski due to the delay in the issuance of an Environmental Consent decision.

However, the Environmental Consent proceedings continue to progress and the Company has provided to RDOS supplementary information to the originally submitted Environmental & Social Impact Assessment, as requested by RDOS.

The approval of Prairie's Geological Documentation in 2015 also conferred upon Prairie the legal right to apply for a Mining Usufruct Agreement over Jan Karski for an additional 12-month period beyond April 2018, which precludes any other parties being granted any licence over all or part of the Jan Karski concessions. Under Polish law, the MoE is strictly obligated, within three months of Prairie making an application for a Mining Usufruct Agreement, to grant the agreement. It should be noted that the MoE confirmed Prairie's priority right in two written statements (i.e. in a final administrative decision dated 11 February 2016 and in a formal letter dated 13 April 2016). Prairie applied to the MoE for a Mining Usufruct Agreement over Jan Karski in late December 2017. As of the date of this report the MoE has not made available to Prairie a Mining Usufruct Agreement for Jan Karski, therefore breaching the three-month obligatory period for the agreement to be concluded. Advice provided to Prairie concludes that failure of the MoE to grant Prairie the Mining Usufruct Agreement is a breach of Polish law. Accordingly, the Company commenced legal proceedings, which remain ongoing, against the MoE through the Polish courts in order to protect the Company's security of tenure over the Jan Karski concessions. Since the MoE has not provided a decision within three months regarding Prairie's Mining Usufruct Agreement application, the Polish civil court has the power to enforce conclusion of a Usufruct Agreement in place of the MoE. In the event that a Mining Usufruct Agreement is not made available to the Company on acceptable terms or the Company does not enter into a Mining Usufruct Agreement for any other reason, other parties may be able to apply for exploration or mining rights for all or part of the Jan Karski concession area. In April 2018, the Civil Court approved Prairie's motion for an injunction against the MoE, which prevented them from entering into a usufruct agreement or a concession with any other party besides Prairie. A decision by an Appeal Court in Warsaw has now overturned the injunction in place against the MoE. Prairie believes that the Appeal Court's decision is fundamentally flawed and will therefore consider all other actions necessary to ensure its rights are preserved. The Company's Mining Usufruct Agreement proceedings for Jan Karski remain ongoing and is not impacted by the Appeal Court's decision to lift the injunction.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
