Pyrum Innovations AG - Annual General Meeting 2025

- Annual General Meeting approves management proposals with large majority

Dillingen / Saar, July 24, 2025 - Pyrum Innovations AG ("Pyrum") today held its Annual General Meeting on which the shareholders present approved all agenda items with a large majority.

The voting results of the Annual General Meeting are published on the website under <https://www.pyrum.net/investoren/hauptversammlung/>.

Furthermore, the presentation on the Annual General Meeting will also be published on the website in the coming days.

About Pyrum Innovations AG

Pyrum Innovations AG has revolutionised the recycling market for end-of-life tyres. Since 2008, the company has been developing an innovative thermolysis technology that enables end-of-life tyres and plastics to be recycled with virtually no emissions. The process can recover high-quality products such as thermolysis oil and rCB (recovered Carbon Black), which are used by renowned partners such as BASF, Continental and Schwalbe to manufacture new products. In this way, the company closes the material cycle and pursues a sustainable business model in line with climate targets. Since 2020, the first plant at the company's headquarters in Dillingen/Saar has been in continuous operation, and two further plants have been added as part of the site expansion in 2024. Thanks to respected certificates such as REACH and ISCC Plus, the products are high-quality, sustainable and renewable. Pyrum has already received multiple awards for its innovative solutions and continues to research potential waste streams.
