and before the close of business on 21 November 2018 (after which date the Rights will lapse) at a zero exercise price; and
(E) 1,447,285 Long Term Incentive (LTI) Performance Rights (options) exercisable from 22 November 2016 and before the close of business on 21 November 2018 (after which date the Rights will lapse) at a zero exercise price and subject to the following performance conditions:

- The Performance Rights will be granted in two equal tranches.
- Tranche 1 (50% of the grant) will be subject to a relative TSR performance condition, with a Selected Financial Services comparator group; and
- Tranche 2 (50% of the grant) will be subject to a relative TSR performance condition, with a S&P/ASX50 comparator group; and
- The proportion of Performance Rights that become exercisable will depend upon the TSR achieved by ANZ relative to the companies in the applicable comparator group for each tranche. Both tranches will be measured over the same period (since date of grant) and calculated as at the end of the three year performance period. Performance equal to the median TSR of the relevant comparator group will result in half of the Performance Rights for that tranche becoming exercisable. Each tranche is measured independently.
- Performance above median will result in further Performance Rights for that tranche becoming exercisable, increasing on a straight-line basis until all of the Performance Rights for that tranche become exercisable where ANZ's TSR is at or above the 75th percentile of TSR in the relevant comparator group. Where ANZ's performance falls between two of the comparators TSR is measured on a pro-rata basis. The actual relative level of TSR, rather than simple ranking, will determine the level of vesting. An averaging calculation will be used for TSR over a 90 trading day period for start and end values in order to reduce share price volatility.

Each TSR performance hurdle for the two tranches of Performance Rights will only be tested once at the end of the three year performance period. The percentage of Performance Rights in a tranche that vest as a result of the TSR calculation will be fixed for the duration of the exercise period. If the Performance Rights do not pass the

performance hurdle on the testing date, or they are not exercised by the end of the exercise period (5 years from the date of grant), they will lapse.

Appendix 3B – Annexure 1

Calculation of placement capacity under rule 7.1 and rule 7.1A for eligible entities

Introduced 01/08/12 Amended 04/03/13

Part 1

Rule 7.1 – Issues exceeding 15% of capital	
Step 1: Calculate “A”, the base figure from which the placement capacity is calculated	
Insert number of fully paid +ordinary securities on issue 12 months before the +issue date or date of agreement to issue	
Add the following: • Number of fully paid +ordinary securities issued in that 12 month period under an exception in rule 7.2 • Number of fully paid +ordinary securities issued in that 12 month period with shareholder approval • Number of partly paid +ordinary securities that became fully paid in that 12 month period Note: • <i>Include only ordinary securities here – other classes of equity securities cannot be added</i> • <i>Include here (if applicable) the securities the subject of the Appendix 3B to which this form is annexed</i> • <i>It may be useful to set out issues of securities on different dates as separate line items</i>	
Subtract the number of fully paid +ordinary securities cancelled during that 12 month period	
“A”	

+ See chapter 19 for defined terms.

Step 2: Calculate 15% of “A”	
“B”	0.15 <i>[Note: this value cannot be changed]</i>
Multiply “A” by 0.15	
Step 3: Calculate “C”, the amount of placement capacity under rule 7.1 that has already been used	
Insert number of +equity securities issued or agreed to be issued in that 12 month period <i>not counting</i> those issued: • Under an exception in rule 7.2 • Under rule 7.1A • With security holder approval under rule 7.1 or rule 7.4 <i>Note:</i> • This applies to equity securities, unless specifically excluded – not just ordinary securities • Include here (if applicable) the securities the subject of the Appendix 3B to which this form is annexed • It may be useful to set out issues of securities on different dates as separate line items	
“C”	
Step 4: Subtract “C” from [“A” x “B”] to calculate remaining placement capacity under rule 7.1	
“A” x 0.15 <i>Note: number must be same as shown in Step 2</i>	
Subtract “C” <i>Note: number must be same as shown in Step 3</i>	
Total [“A” x 0.15] – “C”	<i>[Note: this is the remaining placement capacity under rule 7.1]</i>

+ See chapter 19 for defined terms.

Part 2

Rule 7.1A – Additional placement capacity for eligible entities	
Step 1: Calculate “A”, the base figure from which the placement capacity is calculated	
“A” <i>Note: number must be same as shown in Step 1 of Part 1</i>	
Step 2: Calculate 10% of “A”	
“D”	0.10 <i>Note: this value cannot be changed</i>
Multiply “A” by 0.10	
Step 3: Calculate “E”, the amount of placement capacity under rule 7.1A that has already been used	
Insert number of +equity securities issued or agreed to be issued in that 12 month period under rule 7.1A Notes: • This applies to equity securities – not just ordinary securities • Include here – if applicable – the securities the subject of the Appendix 3B to which this form is annexed • Do not include equity securities issued under rule 7.1 (they must be dealt with in Part 1), or for which specific security holder approval has been obtained • It may be useful to set out issues of securities on different dates as separate line items	
“E”	

+ See chapter 19 for defined terms.

Step 4: Subtract “E” from [“A” x “D”] to calculate remaining placement capacity under rule 7.1A	
“A” x 0.10 <i>Note: number must be same as shown in Step 2</i>	
Subtract “E” <i>Note: number must be same as shown in Step 3</i>	
Total [“A” x 0.10] – “E”	<i>Note: this is the remaining placement capacity under rule 7.1A</i>

+ See chapter 19 for defined terms.
