

Investor Presentation
March 2023

CHARGING THE CHANGE

IMPORTANT & CAUTIONARY STATEMENT

Important notice

These presentation slides (the “Slides”) have been prepared by Atlantic Lithium Limited (the “Company”) and provides a general overview of the Company and its strategy. These Slides do not comprise an admission document, listing particulars or a prospectus relating to the Company, do not constitute an offer or invitation to purchase or subscribe for any securities of the Company and should not be relied on in connection with a decision to purchase or subscribe for any such securities. The Slides and the accompanying verbal presentation do not constitute a recommendation regarding any decision to sell or purchase securities in the Company.

No reliance may be placed for any purpose whatsoever on the information contained in the Slides and the accompanying verbal presentation or the completeness or accuracy of such information. No representation or warranty, express or implied, is given by or on behalf of the Company, directors, officers, employees, agents or advisors or any other person as to the accuracy or completeness of the information or opinions contained in the Slides and the accompanying verbal presentation, and no liability is accepted by such persons for any such information or opinions or otherwise arising in connection therewith (including in the case of negligence, but excluding any liability for fraud).

The Ewoyaa Lithium Project as described in the Slides is at the exploration and development stage, and potential investors should understand that mineral exploration, development and mining are high-risk undertakings.

The Slides contain statements which may be in the nature of forward-looking statements.

Cautionary Statements

The information in the Slides that relates to the estimation and reporting of Ore Reserves and Mineral Resources for the Ewoyaa Lithium Project was reported by the Company on 22 September 2022. The company released an updated Mineral Resource Estimate on 1 February 2023.

The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters underpinning the Mineral Resource estimates, Ore Reserve estimates, production targets and forecast financial information in that announcement continue to apply and have not materially changed.

Forward-Looking Statements

The Slides contain certain statements and expressions of belief, expectation or opinion which contain ‘forward-looking information’, and which relate, inter alia, to feasibility studies, the Company’s proposed strategy, plans, objectives, performance, outlook, cash flow, projections, targets, and Mineral Resources and Ore Reserves or to the expectations or intentions of the Company’s directors.

Generally, this forward-looking information can be identified by the use of forward-looking information can be identified by the use of forward-looking terminology such as ‘outlook’, ‘anticipate’, ‘project’, ‘target’, ‘likely’, ‘believe’, ‘estimate’, ‘expect’, ‘intend’, ‘may’, ‘would’, ‘could’, ‘should’, ‘scheduled’, ‘will’, ‘plan’, ‘forecast’, ‘evolve’, and similar expressions. Persons reading the Slides are cautioned that such statements are only predictions, and that the Company’s actual future results or performance may be materially different.

Forward-looking information is developed based on assumptions about such risks, uncertainties and other factors set out herein, including but not limited to general business, economic, competitive, political and social uncertainties; the actual results of current exploration and development activities; conclusions of economic, competitive, political and social uncertainties; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of lithium; possible variations of ore grade or recovery rates; failure of equipment or processes to operate as anticipated; accident; labour disputes and other risks of the mining and exploration industry; and delays in obtaining government approvals or financing or in the completion of development activities.

This list is not exhaustive of the factors that may affect forward-looking information. These and other factors should be considered carefully, and readers should not place undue reliance on such forward-looking information.

Accordingly, you should not rely on any forward-looking statements and neither the Company nor SP Angel accept any obligation to disseminate any updates or revisions to such forward-looking statements. Any statement as to the past activities of the Company’s directors should not be relied upon as being an indication of their future performance. Statements regarding plans with respect to the Company’s mineral properties may contain forward-looking statements in relation to future matters that can be only made where the Company has a reasonable basis for making those statements.

OUR VISION

A sustainable lithium supply with positive social impact to support the global transition to a **carbon neutral** future.

GHANA EWOYAA LITHIUM PROJECT – BEST IN CLASS

Strategic location

- Established mining jurisdiction
- Coastal location
- Access to existing infrastructure, local green energy sources and grid power
- Global offtake interest

Sustainability

- Low carbon footprint – low power requirements and short transport distances
- Rejuvenation activities
- Simple DMS processing
- Strong national employment and training programmes

Exceptional financial outcomes*

- Life of Mine revenues exceeding US\$4.84bn
- Post-tax NPV₈ of US\$1.33bn
- IRR of 224% over 12.5 years
- Payback of <5 months

* Refer to important and cautionary statement on Page 2 and PFS release dated 22 September 2022

SIMPLE METALLURGY DELIVERS PREMIUM SC6 PRODUCT

Coarse spodumene

Simple gravity process flow sheet

>6% spodumene concentrate at 10mm crush via conventional DMS

Heavy Liquid Separation recoveries up to 90%

Low contaminants; <1% Fe_2O_3 , <3% combined Na_2O & K_2O

Low capital intensity implied

Battery-grade Li carbonate and Li hydroxide conversion successfully completed at ANSTO

Coarse spodumene in outcrop

Coarse spodumene pegmatite drill core

Spodumene concentrate

Coarse grained P1 & fine P2 pegmatites

EWoyAA LITHIUM PEGMATITE DISCOVERY IN GHANA

- ▲ Updated MRE**
- ▲ 35.3Mt @ 1.25% Li₂O (JORC 2012)
- ▲ 3.5Mt @ 1.37% Li₂O (Measured)
- ▲ 24.5Mt @ 1.25% Li₂O (Indicated)
- ▲ 18.9Mt @ 1.24% Li₂O Reserve (based on previous Resource and Pre-Feasibility Study*)
- ▲ Mining Licence application lodged

Category	Gross		
	Tonnes (Mt)	Grade (% Li ₂ O)	Contained Li Oxide (kt)
Reserves*:			
Proven	-	-	-
Probable	18.9	1.24	234
Sub-total	18.9	1.24	234
Resources**:			
Measured	3.5	1.37	48
Indicated	24.5	1.25	307
Inferred	7.4	1.16	86
Sub-total	35.3	1.25	440

* Based on previous resource and PFS study; refer to important and cautionary statement on Page 2 and PFS release dated 22 September 2022

** Refer to important and cautionary statement on Page 2 and updated MRE release dated 1 February 2023

PRE-FEASIBILITY STUDY DELIVERS ROBUST PROJECT ECONOMICS⁺

Pre-Feasibility Study* - 100% Project Basis

Based on: 30.1Mt @ 1.26% Li₂O

US\$1,359/t SC6

2Mtpa ROM

NPV₈ US\$1.33bn (post tax)

IRR 224%

Payback < 5 months

Mine life 12.5 years

Average LOM Opex (FOB)
Ghana US\$278/t
(After by-product credits)

Annual Production 255,000tpa of SC6

Capex US\$125m

EBITDA US\$248m per annum

Pre-Feasibility Study - Attributable 45% Project basis - when in production

NPV₈ US\$600m (post tax)

EBITDA US\$112m per annum

Revenue LOM US\$2.2bn

Ultimate mining operation overview showing all associated project development infrastructure

* Refer to important and cautionary statement on Page 2 and PFS release dated 22 September 2022

THE ATLANTIC CONNECTION

Serving the growing North American and European EV market from West Africa

BENEFITS TO GHANA

Ewoyaa - Total Projected Revenue

US\$ 4.8 billion

**Life of Mine
12.5 years**

Ewoyaa Economic Contribution to Ghana*

Total economic benefit to Ghana
Approx. US\$ 3 billion

Taxes paid
US\$ 1.01 billion

Ghana profit share
US\$ 187 million

Royalties
US\$ 242 million

Indirect taxes
US\$88 million

Ghanaian local partner
US\$ 42.8 million

Ghanaian local spend – wages, supplies, indirect taxes, etc. Significant portion of **US\$ 1.4 billion** costs**

Community fund
US\$ 15.1 million

*PFS release dated 22 September 2022. Based on previous 30.1Mt @ 1.26% Li₂O MRE and PFS study

** Includes all in-country wages, employee taxes, indirect taxes, contractor services and spend on materials both in and out of country.

Long-term stakeholder benefits

Direct jobs created **more than 500**

Creation of Ghanaian ceramic industry

Ghana national workforce - **>95%**

On-going delivery of community-focused initiatives

Adherence to local content guidelines

PATHWAY TO PRODUCTION

Targeting first concentrate 2025

STAGED DEVELOPMENT

Increasing metal recovery and improving plant efficiency

Stage 1 – DFS Project Development:

- ▲ Crush and screen to 3 size fractions (from 1-10mm) to improve cyclone performance
- ▲ Retain sales of natural occurring fines as a DSO by-product
- ▲ Model various mine throughput scenarios to optimise project outcomes

Stage 2 - Scoping Studies, comprising of three separate value-adding streams:

- ▲ Evaluation of early SC6 production opportunities through the deployment of Modular DMS units to capitalise on the current SC6 price environment
 - ▲ Beneficiation of natural occurring fines to SC6
 - ▲ Production of feldspar by-product to reduce waste and to supply Ghana's growing ceramics industry
-
- **Work ongoing to further optimise the Project's processes and economics**
 - **FEED and DFS progressing well**

EWOYAA LITHIUM CONCENTRATOR

Crushing, DMS and tailings areas

2023 EXPLORATION AND RESOURCE PROGRAMMES

Regional Exploration, Resource Growth & Infill Drilling

1. Exploration Programme

- ▲ 20,000m of auger drilling within Project area and broader Cape Coast Lithium Portfolio - now underway at the Assan target
- ▲ Passive seismic geophysics survey – testing for concealed pegmatite targets
- ▲ 6,500m of follow-up exploration RC drilling, , dependent on results
- ▲ Soil geochemistry survey over the Cape Coast licence - now underway

2. Resource Programme

- ▲ 10,000m of resource infill and extensional RC and DD:
 - ▲ 3,000m of infill drilling to convert Inferred to Indicated at Ewoyaa South 2 – access construction and drill pads underway
 - ▲ 7,000m of step out extensional drilling along strike and at depth – Ewoyaa Main, Ewoyaa NE and Kaampakrom corridor deposits
- ▲ 2,000m of DD for Project studies
- ▲ Analysis of pegmatite drill intersections to help define a feldspar MRE

Significant value upside in 2023

- 1 Exploration and resource programme upside
- 2 DFS to incorporate updated MRE** and consider throughput scenarios at Ewoyaa
- 3 Mining Lease grant
- 4 Permitting milestones
- 5 Build out leadership team

** Refer to important and cautionary statement on Page 2 and updated MRE release dated 1 February 2023

ATLANTIC LITHIUM AT A GLANCE

Flagship Project

Ewoyaa, Ghana - 35.3Mt @ 1.25% Li₂O**

Strong Cash Position

c. A\$19.1m for future growth

Pre-Feasibility Study*

- ▲ Post-Tax NPV US\$1.33bn
- ▲ Internal Rate of Return 224%
- ▲ Maiden Ore Reserve - 18.9Mt @ 1.24% Li₂O⁺
- ▲ US\$4.84bn LOM revenues / US\$248m EBITDA

Proven Premium Product

High grade SC6 with low contaminants / Successful battery grade conversion by ANSTO

Piedmont Partnership

Secured funding of the Ewoyaa project

Excellent Local Infrastructure

Sealed road network / Operational port and power / pro-mining jurisdiction

Significant Exploration Upside

Only 15km² drilled of 1,334km² tenure package in Ghana and Côte d'Ivoire

Strong ESG Credentials

>98% Ghanaian and Ivorian employment / Low carbon footprint

“ Advancing Ewoyaa through studies to become Ghana's first lithium producing mine ”

Neil Herbert
Executive Chairman
