Dear Shareholder,

Extraordinary General Meeting for the approval of change to Investment Policy //

The Board wishes to take this opportunity to propose a change to the Company's existing published investment policy (the "**Investment Policy**"). The purpose of this document is to explain the reasons for this proposed change, to convene an extraordinary general meeting of the Company to propose a resolution to approve the proposal (the "**Extraordinary General Meeting**") and to recommend that Shareholders vote in favour of such resolution.

The Extraordinary General Meeting will be held at The Old Government House Hotel, St Ann's Place, St Peter Port, Guernsey GY1 2NU, Channel Islands at 11.30 a.m. on 15 December 2016. The business to be considered at the Extraordinary General Meeting is contained in the formal notice convening the Extraordinary General Meeting on page 9 of this document.

Revised Investment Policy //

The Board proposes amending the Investment Policy so that the Company may make an incremental investment in Canadian International Oil Corp. ("**CIOC**") such that the total value of the Company's investment in CIOC may represent up to 35 per cent. of the Company's gross assets, including cash holdings, at the time of such incremental investment. The Investment Policy currently limits single investments of the Company to 25 per cent. of its gross assets. The proposed increase is being sought solely to facilitate the exercise by the Company of the Warrants in CIOC held by it and relates only to the Company's investment in CIOC. It is not proposed to increase the relevant limit more generally or in respect of other investments.

As further described in the Investment Policy, the Company utilises the Partnership to make investments. Accordingly, the Company's gross assets are calculated by reference to the gross unrealised portfolio value of the Partnership, as well as cash and cash equivalents held by each of the Partnership and the Company.

Reasons for the proposed change

The Investment Policy, as amended, is set out in full in Part II of this document. The amendment to the Investment Policy is being proposed in order to allow the Company to exercise the 69.8 million warrants in CIOC acquired (indirectly) by the Company following a successful tender offer for up to 100 per cent. of the then outstanding common shares ("**Common Shares**"), and warrants to purchase Common Shares ("**Warrants**"), of CIOC (the "**Tender Offer**") by a Riverstone-controlled entity in November 2015. Under the terms of the Warrants held by the Company, it is able to exercise the Warrants and purchase Common Shares at a price which is at a discount to the Investment Manager's current valuation at any time up until March 2017¹.

On completion of the Tender Offer, the Company's investment in CIOC represented 19.6 per cent. of the gross assets of the Company. As at the date of this document, the investment in CIOC represents approximately 27.7 per cent. of the gross assets of the Company¹, the increase being the result of appreciation in the value of the investment, and therefore not a breach of the Investment Policy.

¹ By reference to the Investment Manager's latest unaudited published quarterly portfolio valuations as at 30 September 2016.

Under the current Investment Policy, the Company would now be prevented from making any further investment into CIOC, including by exercising the Warrants it owns, which, at the Investment Manager's current valuation, are deeply in the money. The Company estimates that, were it to exercise all of the Warrants held by it, immediately following such exercise, the Company's investment in CIOC would represent approximately 31 per cent. of the Company's gross assets². The amendment proposed by the Board would allow the Company to exercise the Warrants held by it without breaching the Investment Policy, leaving an additional buffer of approximately 4 per cent. to allow for any short-term currency movements and/or changes in the value of CIOC and the Company's other investments which may increase the percentage of the Company's gross assets represented by its investment in CIOC in the period between the adoption of the amended Investment Policy and the exercise of the Warrants by the Company.

The Board believes that the Company's investment in CIOC is highly attractive, as evidenced by its valuation at 30 September 2016 at 2.0 times the Company's cost base. When the Company initially invested in CIOC, CIOC was producing 3,000 barrels of oil equivalent per day ("BoE/d") from 14 wells. Since then, CIOC has been successful in developing its acreage and rapidly growing production, having significantly increased production capacity to 20,000 BoE/d by November 2016. By year-end 2016, CIOC is expected to have drilled fewer than 40 wells from an inventory of over 2,000 net undeveloped well locations. The Board and the Investment Manager believe that exercising the Warrants represents a highly attractive opportunity to increase the Company's holdings in this successful investment. The exercise of all of the outstanding Warrants (by the Company and all other Warrantholders), would raise approximately CAN\$ 180 million (approximately US\$ 134 million) for CIOC, which would be used to fund drilling for continued development and delineation of its asset base.

The Company currently owns 30 per cent. of the outstanding Common Shares in CIOC, and 46 per cent. of the outstanding Warrants, which equates to a fully diluted equity ownership of 35 per cent.² The Company's investment in CIOC is valued on a fully diluted basis, with significant value attributed to the Warrants in the Investment Manager's current valuation of the Company's portfolio¹. The exercise of the Company's portion of the Warrants would require an investment by the Company of CAN\$ 84 million (approximately US\$ 63 million), for which the Company would receive Common Shares worth materially more than the exercise cost of the Warrants. If the Company were to let the Warrants expire unexercised, this would result in a decrease in the value of the Company's investment in CIOC of approximately US\$ 100 million. In addition, the Company does not believe that there is an active secondary market for the Warrants such that it can realise materially similar value via a secondary sale of the Warrants. The Company intends to fund the exercise of its portion of the Warrants using available cash³.

Shareholders should note that, were the Company to implement the proposed change to the Investment Policy and exercise the Warrants held by it, the relative size of the Company's investment in CIOC would be significantly greater than its investment in any other portfolio company. Consequently, the Company's concentration risk in respect of CIOC (and the energy sub-sectors and geographies in which CIOC operates) would be increased, and the aggregate returns which the Company realises may be disproportionately adversely affected were its investment in CIOC to perform poorly or the value of that investment to be substantially written down.

The Board does not expect the Company to invest material capital in CIOC beyond the exercise of the Warrants, and expects its investment in CIOC to remain below the limit of 35 per cent. of the Company's gross assets being proposed. The remaining 65 per cent. of the Company's gross assets would still be represented by 15 separate portfolio companies, representing a diverse portfolio of exploration, production and midstream companies operating across multiple basins in the United States and Canada as well as in the North Sea and Mexico.

Extraordinary General Meeting //

A notice convening the Extraordinary General Meeting of the Company to be held at The Old Government House Hotel, St Ann's Place, St Peter Port, Guernsey GY1 2NU, Channel Islands on Thursday 15 December 2016, at 11.30 a.m. The business to be considered at the Extraordinary General Meeting is contained in the formal notice convening the Extraordinary General Meeting on page 9 of this document.

The purpose of the resolution proposed at the Extraordinary General Meeting is to approve the proposed change to the Investment Policy (the "**Proposal**"). This resolution is to be proposed as an ordinary resolution under Guernsey law and so will require a simple majority of the shares voted on the resolution to pass.

¹ By reference to the Investment Manager's latest unaudited published quarterly portfolio valuations as at 30 September 2016.

² Pro forma for exercising the Warrants (and assuming all outstanding Warrants are exercised), the Company would own 35 per cent. of the fully diluted Common Shares.

³ As at 30 September 2016, the Company had available cash of approximately US\$ 240 million.

Recommendation //

The Board considers that the Proposal is in the best interests of Shareholders as a whole. Accordingly, the Board recommends Shareholders to vote in favour of the resolution to be proposed at the Extraordinary General Meeting, as all the Directors intend to do in respect of their own beneficial holdings totalling 69,000 Ordinary Shares in aggregate (representing approximately 0.081 per cent. of the Company's issued share capital) as at 25 November 2016, being the latest practicable date prior to the publication of this document.

The Board understands that each of Riverstone Energy Limited Capital Partners LP and Riverstone Coinvestment, LP (each a person closely associated with each of David Leuschen, Pierre Lapeyre, Jr. and Kenneth Ryan) intends to vote in favour of the Proposal in respect of their aggregate holding of 5,269,833 Ordinary Shares representing, in aggregate, approximately 6.24 per cent. of the Company's issued share capital (as at 25 November 2016, being the latest practicable date prior to the publication of this document).

Yours sincerely,

Richard Hayden
Chairman

PART II

Revised Investment Policy //

The Company's investment policy highlighting the change to be proposed at the Extraordinary General Meeting is as follows:

"The Company's investment objective is to generate long term capital growth by making investments in the global energy sector, with a particular focus on opportunities in the global exploration and production, midstream, energy services and power and coal sub-sectors.

For so long as the Investment Manager (or any of its affiliates) remains the investment manager of the Company, the Company shall participate in all Qualifying Investments in which the Private Riverstone Funds invest.

For these purposes:

"**Private Riverstone Funds**" are Fund V and all other private multi-investor, multi-investment funds that are launched after Admission and are managed or advised by the Investment Manager (or one or more of its affiliates). In this context, "**Private Riverstone Funds**" excludes Riverstone employee co-investment vehicles and any Riverstone managed or advised private co-investment vehicles that invest alongside either Fund V, Fund VI or any multi-investor, multi-investment funds that the Investment Manager (or one or more of its affiliates) launches after Admission.

"**Qualifying Investments**" are all investments in which Private Riverstone Funds participate which are consistent with the Company's investment objective where the aggregate equity investment in each such investment (including equity committed for future investment) available to the relevant Private Riverstone Fund and the Company (and other co-investees, if any, procured by the Investment Manager or its affiliates) is US\$100 million or greater, but excluding any investments made by Private Riverstone Funds where both (a) a majority of the Company's independent directors and (b) the Investment Manager have agreed that the Company should not participate.

The Company shall acquire its interests in each Qualifying Investment at the same time (or as near as practicable thereto) as, and on substantially the same economic and financial terms as, the relevant Private Riverstone Fund which may involve the Private Riverstone Fund acquiring all or some of such Qualifying Investment and selling it on to the Company on the same terms on which the Private Riverstone Fund acquired the transferred interest in the Qualifying Investment.

The Company and either Fund V or Fund VI will participate in each Qualifying Investment in which Fund V or Fund VI, respectively, invests in a ratio of one-third to two-thirds. This investment ratio will be subject to adjustment on a case-by-case basis (a) to take account of the liquid assets available to each of the Company and Fund V for investment at the relevant time and any other investment limitations applicable to either of them or otherwise if (b) both (i) a majority of the Company's independent directors and (ii) the Investment Manager agree that the investment ratio should be adjusted for specific Qualifying Investments.

For each Private Riverstone Fund subsequent to Fund V which is of a similar target equity size as Fund V (i.e. US\$7.7 billion) and has a similar investment policy to the Company Riverstone shall seek to ensure that, subject to the investment capacity of the Company at the time, the Company and the Private Riverstone Fund invest in Qualifying Investments in an investment ratio of one-third to two-thirds or in such other ratio as the Company's independent directors and the Investment Manager agree at or prior to the first closing of such Private Riverstone Fund.

Such investment ratio may be adjusted by agreement between the Company's independent directors and the Investment Manager on subsequent closings of a Private Riverstone Fund having regard to the total capital commitments raised by that Private Riverstone Fund during its commitment period, the liquid assets available to the Company at that time and any other investment limitations applicable to either of them.

The Investment Manager will typically seek to ensure that the Company and the Private Riverstone Funds dispose of their interests in Qualifying Investments at the same time and on substantially the same terms, and in the case of partial disposals, in the same ratio as the relevant Qualifying Investment was acquired, but this may not always be the case.

In addition, the Company may at any time make investments consistent with its investment policy independent from Private Riverstone Funds, which may include investments alongside Riverstone employee co-investment vehicles or other Riverstone-managed co-investment arrangements.

The Company may hold controlling or non-controlling positions in its investments and may make investments in the form of equity, equity-related instruments, derivatives or indebtedness (to the extent that such indebtedness is a precursor to an ultimate equity investment). The Company may invest in public or private securities. The Company will not permit any investments to be the subject of stock lending or sale and repurchase.

In selecting investments, the Investment Manager will target investments that are expected to generate long term capital growth and, in particular, investments that are expected to generate a Gross IRR of between 20 and 30 per cent.

Save for the Company's investment in Canadian International Oil Corp., which may represent up to 35 per cent. of the Company's gross assets, including cash holdings, measured at the time the investment is made, ~~no~~ no one investment made by the Company may (at the time of the relevant investment) represent more than 25 per cent. of the Company's gross assets, including cash holdings, measured at the time the investment is made. The Company shall utilise the Partnership and its Investment Undertakings or other similar investment holding structures to make investments and this limitation shall not apply to its ownership interest in the Partnership or any such Investment Undertaking.

The Company may, but shall not be required to, incur indebtedness for investment purposes, working capital requirements and to fund own-share purchases or redemptions up to a maximum of 30 per cent. of the last published NAV as at the time of the borrowing, or such greater amount as may be approved by the Shareholders passing an ordinary resolution. The consent of a majority of the Company's Directors shall be required for the Company or the Partnership to enter into any credit or other borrowing facility. This limitation will not apply to portfolio level entities in respect of which the Company is invested or is proposing to invest.

For so long as the Ordinary Shares are listed on the Official List, no material change may be made to the Company's investment policy other than with the prior approval of both the Company's shareholders and a majority of the independent directors of the Company, and otherwise in accordance with the Listing Rules."

The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy, must, in order to be valid, be transmitted so as to be received by the issuer's agent (ID RA10) by 11.30 a.m. on 13 December 2016. For this purpose, the time of receipt will be taken to be the time (as determined by the time stamp applied to the message by the CREST applications host) from which the issuer's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service provider(s) should note that Euroclear does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time.
