<b>Total current liabilities</b>	<b>67.9</b>	<b>53.9</b>
<b>TOTAL LIABILITIES</b>	<b>161.0</b>	<b>155.4</b>

<sup>2</sup> Corrected data, see press release dated April 29, 2021.

<sup>3</sup> Includes elements relating to rights of use (IFRS 16).

**Inventories** at the end of the period decreased by (-€2.3m). This inventory level represents around 2 months of the Group's turnover.

At 28 February 2021, **accounts receivables** amounted to €28.1m (versus €21.8m at end-February 2020), which represented less than 2 months of the Group's turnover. The increase was mainly due to the invoicing of equipment delivered to a French banking group at the end of February.

**Current financial receivables** increased by €16.3m. This increase mainly corresponds to the classification of all of Blade's receivables (even those that were initially long-term, such as those corresponding to the 2020 contracts) as current receivables, since that company is currently in court-ordered liquidation. Receivables relating to 2020 contracts are partially provisioned (€2.5m) pending recovery and verification of all corresponding equipment; receivables relating to 2017 and 2018 contracts are not provisioned, since they are covered by the recovery agreement signed with hubiC, the amount of which was paid by the latter after the end of the fiscal year.

**Non-current assets** changed from €62.1m to €55.9m. This change is mainly due to the decrease in property, plant and equipment, particularly rights of use related to leases (IFRS16), whose net book value decreased by €1.4m, and the classification of Blade's financial receivables as current receivables, as previously indicated.

2CRSi's **shareholders' equity** amounted to €40.7m at 28 February 2021, compared with €45.1m one year earlier. The decrease is due to the net income for the financial year and translation differences related to currency movements.

**Net financial debt** excluding lease liabilities (IFRS 16) came to €52.4m, of which €41.5m was in debt with credit institutions (including bank loans and accrued interest). It represented €41.7m at end-February 2020. 2CRSi benefited from €10m in loans guaranteed by the State (PGEs). Lease financial liabilities amounted to €16.9m, compared to €17.6m at end-February 2020.

### CASH POSITION AT THE END OF MAY 2021

As a reminder, as at May 31, 2021, the Group's cash position was €10.9m. In addition, there are financing lines available for a total of €7.2 million (bank overdraft, undrawn short-term credit lines).

### OUTLOOK REMINDER

As mentioned in the press release of June 15, 2021, 2CRSi is in working order for the financial year 2021/22.

Although the component shortage situation calls for increased vigilance, its impact remains limited at this time. The Company has sufficient inventories, completed by recovered Blade<sup>4</sup> equipment, which presently allow it to cope with the lengthened supply deadlines due to the shortage. Furthermore, the Group is seeing a continuation of the positive sales momentum observed in the second half of 2020/21 and is going forward with its investments for future growth, both in increasing the Group's production capacity and strengthening the offering of green compute power and the Group's presence in the US.
