Subject of activity of Besler Gıda ve Kimya Sanayi ve Ticaret A.Ş. ("Besler" or the "Company") and its subsidiaries (the "Group") are the production of frozen and canned food, oil and margarine and the sales and marketing of these products in Türkiye and in foreign markets. The products in the frozen product category are bakery products, vegetable and fruit products, potato and croquette products, meat products, sweets and frozen bakery products. Canned product categories are canned tuna and canned vegetables. In the oil category, there are consumer margarine, out-of-home consumption and cooking oil products. The company was established in 1978 with the aim of exporting aquacultural resources and has been one of the leading companies in the food sector since 1990 with the investments it has made over the years.

The Group sells the products that are produced its facilities throughout Türkiye through its dealers and own direct distribution channels, as well as exports its products.

The Company's head office is located at Kısıklı Mah. Ferah Cad. No:1/A Üsküdar/İstanbul.

The Company is registered with the Capital Markets Board ("CMB") and its shares have been traded on the Borsa İstanbul A.S. ("BIST") since 1994.

The shareholding structure of the Company as of September 30, 2025, and December 31, 2024, is as follows:

	30 September 2025		31 December 2024	
Partnership	Share Ratio (%)	Amount (TRY)	Share Ratio(%)	Amount (TRY)
Yıldız Holding A.Ş.	60.53	400,675,745	60.53	400,675,745
Murat Ülker	9.98	66,079,898	9.98	66,079,898
Other	29.49	195,244,357	29.49	195,244,357
Total	100	666,000,000	100	662,000,000

The details of the subsidiaries of the Group as of September 30, 2025 and December 31, 2024 are provided below.

	Direct and indirect effective ownership ratios (%)	
Subsidiaries	30 September 2025	31 December 2024
Kerpe Gıda Sanayi ve Ticaret A.Ş.	100.00	100.00

Opened in 2017, the factory produces consumer margarine, catering/pastry products, industrial fats, and cooking fats. Our Brunei factory has a closed area of 6,000 m² and a total area of 20,000 m², with an annual production capacity of 60,000 tons.

IV. MATERIAL EVENTS DURING PERIOD

Rating of Besler Gıda ve Kimya Sanayi ve Ticaret A.Ş. has been preserved compared to last year in the report dated January 24, 2025 and prepared by the credit rating agency JCR Eurasia Rating, and has assigned "AA- (tr)" long term national issuer credit rating and "J1+ (tr)" short term national issuer credit rating with "Stable" outlook. JCR Eurasia Rating has assigned "BB" long term foreign and local currency international issuer credit rating for our company with "Stable" outlook.

In accordance with the resolution of our Board of Directors dated December 27, 2024, it was resolved to change the company name to 'Besler Gıda ve Kimya Sanayi ve Ticaret Anonim Şirketi' and to amend Article 3 of our company's articles of association, titled 'Company Name'. Our application for the amendment planned for Article 3 of our Company's Articles of Association, which is the subject of our material event disclosure dated December 30, 2024, was approved by Capital Markets Board's letter dated January 27, 2025 and numbered E-29833736-110.03.03-66880. Immediately afterwards, our application to the Ministry of Commerce General Directorate of Domestic Trade, requesting a favorable opinion on the amendment of the articles of association, was approved by the letter of the Ministry of Commerce dated February 10, 2025 and numbered E-50035491-431.02-00106063234.

As of April 28, 2025, the Deputy Chairman of the Board of Directors, Mr. Ali Ülker, has resigned from his positions as Deputy Chairman and Member of the Board of Directors. On April 28, 2025, it was resolved to appoint Mr. Yahya Ülker as a Member of the Board of Directors to serve for the remainder of Mr. Ali Ülker's term and to be submitted for approval at the next general assembly meeting. It was also resolved to appoint Mr. Mehmet Tütüncü as Chairman of the Board of Directors and Mr. Fahrettin Günalp Ertik as Deputy Chairman of the Board of Directors.

The Ordinary General Assembly meeting for the year 2024 was held on May 8, 2025, at 14 pm at the address Kısıklı Mahallesi Ferah Caddesi No: 1 Büyük Çamlıca Üsküdar-İSTANBUL. The resolutions of the Company's 2024 Ordinary General Assembly Meeting have been registered by the Istanbul Trade Registry Office and announced in the Turkish Trade Registry Gazette dated May 15, 2025, issue no. 11332. Following the registration and announcement, the Company's trade name has been changed to "BESLER GIDA VE KİMYA SANAYİ VE TİCARET ANONİM ŞİRKETİ".

Following our change of trade name, the Company's current trading code "KERV" on the Borsa Istanbul Stars Market has been changed to "BESLR," effective as of June 2, 2025.

Our company has taken a significant step toward the future of sustainable agriculture with an innovative project. Through our AI-powered R&D initiative, SAFER, which aims to monitor the potato production process in the field and assess product quality before harvest—focusing on potatoes, one of the most consumed vegetables in Türkiye—we have been awarded €2.8 million in funding from the European Institute of Innovation and Technology (EIT Food), which supports innovation and sustainability-focused R&D projects.

V. MATERIAL EVENTS AFTER THE PERIOD

There is no material event after the period.

VI. INDUSTRY OF THE GROUP AND ITS PLACE IN THE INDUSTRY

Frozen and Canned Food Industry

The frozen food sector, which is among the main business lines in which Besler operates, is a food industry branch that operates from the supply of raw materials suitable for freezing, (seed selection, production, purchase) to transporting raw material to the facilities under suitable conditions, from being stored in the premises to selection, picking, washing, sizing and processing with product-specific techniques and to the monitoring of customer results as a result of storage, loading, transportation, distribution, and consumption, by deep freezing and being packed in the appropriate ways and techniques.

The frozen food market has grown 17-times in the retail channel over the past 6 years, reaching TRY 30.9 billion with a 62% revenue increase in the YTD September 2025 period.⁽¹⁾ With a 16% volume growth, it has become one of the fastest-growing categories within FMCG Food. Meanwhile, the canned tuna market reached TRY 6.9 billion in revenue with a 39% increase and 16.6 thousand tons in volume with a 10% increase in the YTD September 2025 period.⁽²⁾

SuperFresh is the clear leader in the frozen food sector with a 37% ⁽³⁾ market share. With a wide product portfolio of over 400 SKUs across retail, out-of-home consumption, and export channels, SuperFresh was chosen as the 'Most Beloved Frozen Food Brand' ⁽⁴⁾ of 2024 due to its communication, product innovation, and sustainability-focused approaches.

Since the 1930s, frozen food market has grown to nearly \$290 billion per year. Consumption per capita is over 30 kg in countries such as the U.S., Germany, and the UK. In the Türkiye market, per household consumption is 7.8 kg ⁽⁵⁾, which shows that there is growth potential.

(4) The 'Türkiye's Lovemarks 2024', conducted in collaboration with MediaCat magazine and Ipsos.

(5) Ipsos, Household Panel, Frozen Food Market Report, MAT September 2025

Edible Fats & Oil Industry

In September YTD 2025, the Turkish consumer fats market grew by 55% compared to 2024, reaching a revenue value of 90.9 billion TL. The margarine category, which is the most open to branding, achieved 25% revenue growth in the same period, reaching a revenue value of 9.1 billion TL. ⁽¹⁾

As Besler, we have a wide portfolio of leading brands such as Ülker Bizim Yağ, Ülker Teremyağ, and Luna, and we are the clear leader with a 67% ⁽²⁾ revenue share.

VII. GOODS AND SERVICES PRODUCTION ACTIVITIES

Frozen and Canned Food Business Unit

Production

The Company operates in the frozen and canned food sectors under the SuperFresh and DFU brands and has an advanced production infrastructure in this business unit.

In facilities equipped with advanced production technologies, products are flash-frozen at -40°C using the IQF (Individual Quick Freezing) method, thus preserving the freshness and nutritional value as on the day they were harvested.

Thanks to cold chain logistics, products stored at -18°C are delivered to consumers in their original state. Quality standards are meticulously monitored and regularly reported. With an established organization for customer relations, consumer feedback is closely followed, and a continuous improvement process is maintained to enhance satisfaction with the products.

Sales and Distribution

SuperFresh has a strong distribution network reaching over 137 thousand sales points with 57 dealers, 195 distribution vehicles, and 20,135 freezers. It serves through dealers in traditional and out-of-home consumption channels, and through a direct sales organization in the modern channel. Products are also offered to discount markets and international markets through Private Label collaborations.

Research and Development Activities

In the first nine months of 2025, we launched and relaunched 20 new products at SuperFresh, ensuring that 18% of our total retail SuperFresh revenue came from new products.

Highlighted launches in frozen food:

- New large-size pizza varieties: margherita & kumru pizza
- Value-added vegetable products: Organic Peas, Organic Broccoli, Gourmet Okra, and a category-first innovation — Spicy and Oily Practical Vegetable Sauté, which transforms into a ready-to-eat meal in just 9 minutes.
- New varieties in dumplings: minced meat pelmeni & potato dumplings
- New varieties in pastries: apple roll pastry & layered cheese pastry
- Entry into the frozen ready meal category: Lasagna
- Launch of tuna salad in the “ready to eat” category with the “Open & Eat” format: Mexican Bean, Corn, and Quinoa Tuna Salad varieties.
- Communication-focused packaging relaunches: Limited Edition Peas launched with the contribution of “Women Stars of Agriculture”, Ramadan-themed packaging, packaging emphasizing the brand as Türkiye’s most beloved frozen food brand

Communication Campaigns:

- The main communication campaign "What's in the Fridge? SuperFresh" was launched 360 degrees to heroize the freezers at sales points, aiming to increase frequency and consumer pull. All-time sales records were broken; with a 40% tonnage growth and a +3 point penetration increase. (YTD 2025 vs 2024) As part of the “What’s in the Fridge?” follow-up communication, the campaign concept was adapted for the Ramadan and summer periods, and in-store and digital communication activities were implemented.
- Integrated communication campaigns were launched to announce the achievement of being selected — for the first time through consumer research — as Türkiye’s most beloved frozen food brand (LOVEMARK), strengthening brand image scores. In October 2025, SuperFresh further improved its score and was honored with the title of most beloved frozen food brand for the second time.
- As the leader in the frozen pizza category, February 9th World Pizza Day continued to be traditionally embraced. Occasional TV communication was carried out, supported by special discount setups for customers and online communication.
- With our pioneering project “Women Stars of Agriculture”, firsts were achieved in the category. For the first time, a social responsibility project was transformed into a tangible product; the *“Harvested Peas from the Aegean with WSA’s Effort”* product was launched exclusively for Migros. The product, which was featured on the menu of a Michelin-recommended restaurant, achieved high sales during the harvest season when fresh produce is abundant. High reach was obtained through the launch event, in-store activations, news coverage, and digital communication activities. With the aim of inspiring young people and ensuring the sustainability of employment in the agricultural sector, an internship program was implemented for the first time under TKY sponsorship.

- High visibility achieved through public relations efforts. In the first 9 months, our communication activities reached a total of 40 million people. Key outputs included: 16 press releases, 3,278 media articles, 2 press events, 5 million influencer reach, 31 special ads across 14 publications, 12 editorial news pieces. Highlighted initiatives: Controlled communication of Besler's corporate transformation, Press announcement of the pioneering innovation project Safer, Launch of the new pea product under Women Stars of Agriculture, Pre-launch news coverage of the pea harvest, As the first Eyebrand in the category, we took part in the Blindlook platform for the visually impaired, focusing on inclusivity, and became the first brand to publish recipes in the application.
- Our 2024 Sustainability Report and our first-ever TSRS-Compliant Report were published. Through press releases and social media announcements, we reached a total of 5 million people.
- As the category's first Eyebrand, we joined the Blindlook platform for visually impaired individuals, emphasizing our commitment to inclusivity. We became the first brand to publish a recipe within the app — a pioneering move in accessible communication.
- To test the irresistible taste of SuperFresh pizza — even when you're full, a special “full stomach tasting test” was conducted with consumers who had just finished their meals. The appetizing and sincere moments captured during the test were compiled into the film “We Asked the Full”, which achieved 11.6 million impressions, 3.7 million views, and 2.2 million engagements in digital media.
- **A total of 23 awards were won through our sustainability and brand communication efforts:** “What's in the Fridge” campaign: 2 Crystal Apple Awards, 1 AAwards, 1 Stevie Award SuperFresh & Karaca Social Flavors campaign: 2 Brandverse Awards, 1 Best of Sales Network (BoSA) Award Women Stars of Agriculture: 2 Mixx Awards, 1 International Awareness Award from Women-Friendly Brands, 1 Stevie Award, 1 The Hammers From Soil to Plate Zero Food Waste project: 1 Brandverse Award Blindlook collaboration: 1 BoSA Award “The Story of That Potato” campaign: 1 Brandverse Award SAFER innovation project: 3 Stevie Awards, 1 The Hammers SuperFast Recipes with Refika: 2 Stevie Awards

Export

SuperFresh exports to more than 30 countries on 5 continents. Its main export markets include Iraq, Cyprus, Azerbaijan, Greece, Georgia, Europe, the USA, the Middle East and Asia. It expands its distribution network by participating in food fairs in Türkiye and around the world.

SuperFresh participated in Anuga 2025, one of the world's most prestigious food fairs.

Its rich product portfolio and innovative approach attracted significant attention from both existing business partners and potential customers.

This important participation not only created new business opportunities but also strengthened our brand's position in the global market and once again showcased the power of the Turkish food industry on the international stage.

Edible Fats & Oil Business Unit

Production

With our productions in 3 factories across 2 countries, we continuously develop our product portfolio to meet different needs and introduce innovative products to our customers with a forward-thinking approach.

We detail our production processes as determining the oil composition, preparing phases, emulsifying, and crystallizing. After the production of our products is completed, we ensure they are packaged and stored under the right conditions and delivered to our consumers through our strong sales and marketing network.

Margarine is a finely crystalline food substance made from a mixture of various oils, water, and non-fat milk. It is made entirely from vegetable oils, and the saturated fat content of tub margarines is almost the same as that of liquid oils like olive oil and sunflower oil. It does not contain cholesterol or trans fats. Packaged margarines have approximately 70% fat content, while tub margarines have about 60% fat content.

Vegetable oils such as palm, sunflower, soybean, cottonseed, canola, and their derivatives are commonly used in margarines produced in Türkiye. None of the oils found in nature, except extra virgin olive oil, can be consumed raw. They are made edible through various physical and chemical processes.

There is no single way to produce margarine, but the process involves relatively simple ingredients. First, the appropriate oil composition is determined. Then, this composition is mixed with non-fat milk or milk protein, necessary vitamins, and water to achieve the desired taste and nutritional values.

Sales and Distribution

With our widespread and strong domestic and international sales network, we aim to bring our products to our customers whenever needed. The sales of our consumer products are managed by Horizon, a subsidiary of Yıldız Holding, in the traditional channel, and by our own organizational structure in the modern channel. The sales of our secondary brands Halk, Yayla, and Luna in the traditional channel are also managed by our own organization. Our Private Label products are sold by Yeni Teközel, a Yıldız Holding group company.

The sales of industrial products are carried out by Besler, pastry and catering products by G2M Eksper, and export products by the Marsa sales organization.

Communication Campaigns:

Ülker Bizim Yağ

Ülker Bizim Yağ, the most widely used⁽²⁾ and loyal consumer brand in the brick margarine market, continues to lead with a 35%⁽¹⁾ revenue share.

- “Dough Is Our Business”, Türkiye’s first and only YouTube channel with a gold plaque focused on dough-based recipes, has maintained its position as the #1 channel in Türkiye, reaching over 120 million views and 1.6 million subscribers. With its subscriber count, the channel also ranks #1 globally in the Fast-Moving Consumer Goods (FMCG) category. ⁽³⁾
- At the International Stevie Awards, “Dough Is Our Business” received three prestigious honors: Gold in the Most Innovative YouTube Channel category, Gold in the Community Engagement category, Silver in the Most Interactive Community of the Year category.
- By reaching 565,000 followers on Instagram, SuperFresh has maintained its position as the most-followed and most-engaging brand in the FMCG food sector in Türkiye. ⁽³⁾
- Entered the sunflower oil category, which has the highest volume in Türkiye. Ülker Bizim Sunflower Oil was made available at A101 for the first time.

Ülker Teremyağ

In the tub margarine segment, Ülker Teremyağ has reached a 59% revenue share, maintaining its clear leadership and further strengthening its position ⁽¹⁾.

- Teremyağ maintained its position as the second most engaging brand in the FMCG food category. ⁽³⁾
- At the Hammers Marketing Awards, the team won the Silver Award in the category of Best Marketing Team in Fast-Moving Consumer Goods (FMCG).
- Teremyağ, as the brand with the highest brand desire, became the brand with the highest growth in tonnage in its category ⁽²⁾.

⁽¹⁾ Nielsen, Margarin Report, without discounters, September 2025

⁽²⁾ Ipsos, BHT Report, H1 2025

⁽³⁾ Boomsocial Report, October 2025

New Category Launch

For the first time, stepping into a new area outside the edible fats category, a launch was carried out in the spread category with the Ülker Sürmix Ekmeküstü brand. Innovative flavors such as Cheese & Chocolate and Cheese & Honey were introduced to the market, offering a different approach. The products were distributed nationwide to consumers through national and local chains. In discount markets, they were placed on shelves with in-and-out applications in different

varieties and sizes. All these efforts were reinforced with digital communication supports, ensuring the brand's engagement with consumers.

Out-of-Home Consumption

In the out-of-home consumption category of pastry oils, "Ustam Pastry Oils" brand is the market leader with its wide product portfolio, ease of use, taste, and strong communication, and continues to strengthen its position.

We are taking this leadership one step further by launching our new product, "Plain Butter Croissant", developed under our Ustam brand. At the same time, we are introducing a new croissant-oriented product under our Terem brand, strengthening our presence in the laminated dough category.

With all these innovations, we continue to strengthen and expand the out-of-home consumption portfolios of our Ustam, Bizim Yağ, and Terem brands, offering professionals more options, more flavor, and more confidence.

Research and Development Activities

Our prominent launches in the edible fats category:

- Ülker Sürmix
- Ülker Bizim Sunflower Oil 5L was launched as an in & out product at A101.
- Launch of Sabah Bereketli Mutfağım 200g in the economy segment.

Export

According to TURKSTAT data, in the first three quarters of 2025, Marsa single-handedly accounted for 35% of Türkiye's total oil exports. Reaching over 50 countries across five continents, we continued to demonstrate our global strength.

Our export destinations include neighboring markets such as Iraq, Syria, and Georgia, as well as a wide geography across Europe, the Middle East, Asia, and Africa. In the consumer margarine category, we have been active for over 30 years in Iraq and Georgia under our Ona brand, and we continue our presence in Madagascar as well. In the out-of-home consumption segment, we are market leaders in pastry in Albania, and in catering in Iraq and Romania.

In Bulgaria, we achieved 19% growth across catering, pastry, and consumer product categories, while exports originating from Türkiye to this market increased by 3%. In Romania, Türkiye-origin exports grew by 10%. In Africa, 70% of total exports were carried out by our subsidiary Marsa. In Nigeria, Libya, and Egypt, we alone accounted for 60% of Türkiye's exports in industrial, consumer, and pastry categories.

In line with our 2025 vision to transform consumer habits and reshape the category, we continued to develop need-based innovative products. In Georgia, our 2024 launch of Ustam Haçapuri, targeted at home bakers and open market sellers, achieved nearly 50% growth in volume. In 2025, we made a strong entry into the growing bowl margarine segment in Georgia with our innovative Ona Bowl product, which was distributed to over 1,700 sales points upon launch.

In the Middle Eastern retail market, we launched our Ülker Bizim breakfast product in October, and within just one month, exported over 100 tons to Syria with this single item.

2025 has also been a year of strategic communication in target countries. In September, we launched social media communications for Ona in both Iraq and Georgia, and we continue our engagement in Uzbekistan through Ona's social media accounts managed with our local partner. In Georgia, we supported our new bowl margarine launch with in-store advertising, while in Madagascar, we carried out outdoor campaigns for our Evin and Niva brands.

As Türkiye's largest margarine exporter, we participated in the industry's most prestigious trade fairs in the first nine months of 2025 to expand our distribution network and reinforce our global presence. By showcasing our extensive product portfolio at events such as Gulfood Dubai, Prodexpo Moscow, Senegal Agrifood, and Anuga Cologne, we added over 20 new customers to our portfolio and further increased our export capacity.

IX. RISK MANAGEMENT POLICIES

Internal Control

Besler has established an internal control system to effectively manage its operations, minimize risks, and achieve its targets. This system is designed to protect the integrity of the Company's assets and information, increase operational efficiency, and ensure compliance with legal regulations. The internal control system is regularly evaluated in areas such as operational processes, financial reporting, risk management, and compliance by the Internal Audit Department established within the Holding. In addition to analyzing and evaluating the internal control systems, the Internal Audit Department also provides improvement suggestions to Besler's senior management. The Internal Audit Department shares the results of its activities with the Besler Audit Committee four times a year.

Risk Management

Risks identified through risk management processes are systematically monitored and measured using quantitative and qualitative measurement criteria in line with written risk policies in accordance with international standards and the Company's corporate risk appetite within the scope of risk management strategies that are vital for the Company's sustainable performance. These processes both increase transparency and ensure a more systematic assessment of risks in investment and operational decisions.

The Investor Relations and Risk Management Department, which operates under the Financial Affairs Directorate, carries out its activities in order to identify all kinds of risks that may jeopardize the existence, development, and continuity of the Company and that affect the decisions to be adopted or have already been adopted within the scope of the Company's activities, together with the risk owners, to plan and implement the necessary measures and actions, to ensure that the risks are managed in a coordinated manner within a management system, to review them, and to report them to the Senior Management. Senior executives are responsible for the management of risks related to their business functions or organizations, and for taking and monitoring the necessary actions to mitigate the impact and probability of such risks within the framework of action plans. Besler Early Detection of Risk Committee carries out, on the other hand, the activities for establishing the corporate risk management system implemented throughout the Company, ensuring its development, observing and monitoring its effective functioning, and reporting it to the Board of Directors.
