Our condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and interpretations as issued by the International Accounting Standards Board ("IASB").

As of June 30, 2010, we owned and operated 206 supermarkets in this segment. Overview of our Activities during the First Six Months of 2010

Operating Overview

Our operating profit continued to improve as a result of, among other things, the strategic changes we have undertaken in the last year and a half and due to the improvement in the macro-economic conditions in Israel as compared to the previous period.

- The operating profit in the first half of 2010 grew to 3.8% of the revenues as compared to 3.3% of revenues in the first half of 2009.
- The net income for the first half increased by 16.7% as compared to the first half of 2009.

Operating Overview of our Segments

- In the Supermarket segment:
 - Our operating profits was 4.2% and 3.9% of revenues in the second quarter and in the first half of 2010, respectively.
 - We plan to continue with the implementation of the main elements of our strategic plan that include
 - The expansion of the "Mega Bool" chain, and.

- The expansion of the private brand "Mega", which constituted over 7.5% of total revenues in the six month period ended June 30 2010.
- In the Non-Food segment:
 - o there were one-off costs of NIS 2.9 million. The one-off costs resulting from the transfer to the new Non-Food segment group logistics center and the consolidation of the Bee Group center and move to single new offices.

Investments

- **Investment in IT Systems in the Supermarket Segment**
 - o We are still in the process of making significant investments in the main IT operating systems. These investments have a long term impact and include installation of new modern cash-registers and upgrading the trading and the chain of delivery management systems.
- **New Investments in our Real Estate Segment**
 - o In June 2010, our subsidiary BSRE, in our Real Estate segment, entered into agreements to purchase, along with Gindi Investments 1 Ltd. and an additional corporation controlled by Moshe and Yigal Gindi ("the purchasers"), building rights for 97,460 square meters for a period ending August 31, 2099 in part of the wholesale market complex in Tel Aviv, from the Tel Aviv Municipality and The Wholesale Company for Agricultural Produce in Tel Aviv Ltd. (the sellers) for a total consideration estimated at NIS 950 million. The Sellers are also entitled, depending on certain sales targets, to additional consideration, calculated by reference to the sale price of apartments that are sold in the apartment buildings complex. The final agreements were subject to the approval of the Minister of the Interior, which was received on July 11, 2010. The development will include construction and marketing of a project that includes an apartment building complex, areas for commercial use and areas for multi-purpose use. After the balance sheet date the purchasers started to market the project.
 - o In addition, in July 2010 Gindi won the auction to Build Operate and Transfer ("BOT") a parking lot in Tel Aviv for approximately 1,000 parking places for a period of 23 years. In August 2010, BSRE joined Gindi in this project as a 50% joint venturer. The final agreement is subject to further approvals and conditions which have not been completed as of the date of the signing of these financial statements.
 - o During the period, BSRE acquired land in Point Wells, near Seattle (USA) from Alon USA, a related company, for an amount of \$19.5 million (approximately NIS 82 million). BSRE intends to change the zoning of the land from heavy industrial use to urban center zoning. In case BSRE were to sell the land the subsidiary of Alon USA may participate in the consideration net of costs as defined in the agreement. BSRE has granted Alon USA the right to use the land for a period of up to ten years. In return the subsidiary of Alon USA will make a quarterly payment of \$440 thousand (approximately NIS 1.7 million) starting July 1, 2010.

- **New Acquisitions and Dividend Distribution**

On June 28, 2010 the shareholders' general meeting approved the acquisition of Dor Alon Energy Israel (1988) Ltd. ("Dor Alon") from its controlling shareholder Alon Israel Oil Company Ltd. ("Alon"). Dor Alon, whose shares are traded on the Tel Aviv stock exchange, is one of the four largest fuel retail companies in Israel based on number of gas stations and is a leader in the convenience stores sector. Dor-Alon is engaged in the development, construction and operating of gas stations, adjacent commercial centers and independent convenience stores, marketing of fuel products and other products through the gas stations and convenience stores and direct marketing of fuel oil and other petroleum products directly to residential and commercial customers. Dor-Alon operates in three principal operating segments: The fueling and commercial sites segment, the direct marketing segment and the jet-fuel marketing segment.

Through the acquisition, the Company acquired from Alon all its holdings in Dor Alon constituting approximately 80% of Dor Alon's outstanding shares. In exchange for each Dor Alon share held by Alon the Company issued 1.8 ordinary shares in the Company. The Company issued 20,327,710 new ordinary shares in the aggregate significantly increasing the issued and outstanding share capital of the Company. According to the outline of the acquisition, the Company will pay dividend distribution in an amount of NIS 800 million by way of a capital reduction. After the balance sheet date, the Company received approval of the distribution from the district court. RESULTS OF ALON HOLDINGS BLUE SQUARE - ISRAEL

Six Months Ended June 30, 2010 Compared To Six Months Ended June 30, 2009

Revenues for the first half of 2010 decreased by 0.3% to NIS 3,599.5 million (U.S.^(A) \$928.9 million), compared to NIS 3,608.7 million in the corresponding period of 2009. The decrease was partially due to a 6.2% decrease in the Non-food segment to NIS 14.9 million in the aggregate, mainly due to a decrease in the houseware sector (to NIS 17.6 million in the aggregate), offset by an increase in the leisure sector. This decrease was partially offset by a 0.2% increase in our Supermarkets segment, mainly due to the net addition of 12 new stores from the beginning of 2009, which contributed NIS 179.3 million to our sales, partially offset by a decrease of approximately 2.1% (NIS 68.2 million) in same store sales (SSS). For more information, please see "Segment Information Analysis" below.

Gross Profit for the first half of 2010 amounted to approximately NIS 1,026.7 million (U.S. \$ 265.0 million) (approximately 28.5% of revenues) compared to gross profit of approximately NIS 1,004.8 million (27.8% of revenues) in the first half of 2009, an increase of NIS 21.9 million (U.S. \$ 5.7 million). The increase in the gross profit margin mainly derived from the Supermarket segment as a result of the increase in the sales of private label goods, which made up more than 7.5% of sales and an improvement in the terms of trade with suppliers and was partially offset by a decrease in the gross profit in the Non-Food segment as a result of the decrease in sales in that segment.

Selling, General, and Administrative Expenses for the first half of 2010 increased by 0.9% to approximately NIS 891.6 million (U.S. \$ 230.1 million) (24.8% of revenues) compared to NIS 884.0 million (24.5% of revenues) in the first half of 2009. The main increase was recorded in the Supermarkets segment due to the net addition of 12 new stores from the start of 2009, which contributed NIS 51.1 million to our expenses. Furthermore, the decrease in same stores selling expenses was NIS 13.1 million approximately 2% and mainly derived from the efficiency measures and the decrease in wage and salary costs. In the Real Estate segment there was an increase in expenses as a result of the start of construction and development projects, mainly the Wholesale Market and Seattle projects.

Operating Income (before income and other expenses and increase in the fair value of real estate) in the first half of 2010 amounted to approximately NIS 135.1 million (U.S \$ 34.9 million) (3.8% of revenues) compared to operating income of NIS 120.9 million (3.3% of revenues) in the first half of 2009. The increase in the operating income was due to the increase in the gross profit partially offset by an increase in selling, general and administrative expenses.

EBITDA (Earnings before Interest, Taxes, Depreciation, and Amortization)^(B) in the first half of 2010 was NIS 226.3 million (U.S. \$ 58.4 million) (6.3 % of revenues) compared to NIS 206.2 million (5.7% of revenues) in the corresponding period of 2009.

Increase in the fair value of Investment Property In the first half of 2010, the Company recorded gains from the appreciation of investment property in the amount of NIS 13.2 million (U.S \$ 3.4 million) compared to NIS 1.7 million in the first half of 2009.

Other Gains and losses, Net: In the first half of 2010 the Company recorded other expenses, net of NIS 7.1 million (U.S. \$ 1.8 million), compared to other expenses, net of NIS 0.6 million in the first half of 2009. In the first half of 2010 the other expenses mainly included expenses relating to the transfer of the companies in the Bee group to the new logistics center in Beer Tuvia and the removal of property and equipment in the Supermarket segment because of the closure of stores and changing to Windows based cash registers.

Operating Income before financial expenses, net in the first half of 2010 was NIS 141.1 million (U.S. \$ 36.4 million) (3.9% of revenues) compared to operating income of NIS 122.0 million (3.4% of revenues) in the first half of 2009.

Financial Expenses, Net for the first half of 2010 were NIS 56.7 million (U.S. \$14.6 million) compared to financial expenses, net of NIS 47.2 million in the first half of 2009, an increase in net financial expenses of NIS 9.5 million (U.S. \$ 2.5 million). The increase in net finance expenses was mainly due to a reduction in finance income of NIS 17.9 million (U.S. \$ 4.6 million) net of a decrease in finance expenses in the amount of NIS 8.4 million (U.S. \$ 2.2 million). The decrease in finance income was mainly due to a reduction in finance income from hedging transactions on the Israeli CPI of NIS 17.9 million (U.S. \$ 4.6 million), a reduction in the income from revaluation of the conversion component of financial instruments in the amount of NIS 6.1 million (U.S. \$ 1.6 million) net of an increase in income from securities in the amount of NIS 7.0 million (U.S. \$ 1.8 million). The decrease in finance expenses was mainly due to the revaluation of the conversion component of the Company's debentures and from capitalization of borrowing costs in construction projects.

Taxes on Income for the first half of 2010 were approximately NIS 25.7 million (U.S. \$6.6 million) (30.6% effective tax rate compared to a statutory tax rate of 25%) compared to NIS 24.8 million (effective tax rate of 33.2% compared to a statutory tax rate of 26%) in the first half of 2009. The decrease in the effective tax rate is mainly due to the reduction in finance expenses from the revaluation of the conversion component of the Company's convertible debentures for which the Company does not record deferred taxes. The high effective tax rate compared to the statutory rate is due to the recording of deferred taxes at the tax rate expected to apply when the taxes are utilized, which is lower than the statutory rate and from losses in some of the Group companies for which no deferred tax assets were recorded.

Net Income for the first half of 2010 was NIS 58.2 million (U.S. \$ 15 million) compared to net income of NIS 49.9 million in the first half of 2009. The increase in the net income in the first half of 2010 compared to the first half of 2009 was mainly due to an increase in operating profit and from an increase in the appreciation of investment property value offset by an increase in finance expenses. The net income for the first half of 2010 attributable to the equity holders of the company was NIS 47.7 million (U.S. \$12.3 million), or NIS 1.08 per share (U.S. \$ 0.28), while the portion attributable to the non-controlling interests was NIS 10.5 million (U.S. \$2.7 million).

Results for the Second Quarter of 2010

Revenues for the second quarter of 2010 were NIS 1,768.7 million (U.S. \$456.4 million) compared to revenues of approximately NIS 1,844 million in the comparable quarter last year, a decrease of 4.1 %.

The decrease in the revenues compared to the comparable quarter last year was mainly due to the timing of the Passover holiday, which fell this year on March 29 as compared to April 8 last year. The Passover sales in the Non-food and Supermarket segment were mainly included in the first quarter this year and last year they were mainly included in the second quarter.

The Non-food segment was affected more strongly by the timing of the holiday.

For more information, please see "Segment Information Analysis" below.

Gross Profit for the second quarter of 2010 amounted to approximately NIS 513.0 million (U.S. \$ 132.4 million) (approximately 29.0% of revenues) compared to gross profit of approximately NIS 501.7 million (27.2% of revenues) in the comparable quarter of 2009. The increase in the gross profit mainly derived from the same reasons described in the analysis for the first half year.

Selling, General and Administrative Expenses in the second quarter of 2010 amounted to NIS 450.5 million (U.S. \$ 116.3 million) (25.5% of revenues) compared to approximately NIS 441.1 million (23.9% of revenues) in the comparable quarter of 2009, an increase of approximately 2.1%. The increase was due to the expenses related to the net increase of new stores of approximately NIS 9.4 million or 42% and from an increase in the advertising expenses of approximately NIS 8.8 million or 52%.

Operating Profit (before other gains and losses and increases in the fair value of investment property) in the second quarter of 2010 amounted to NIS 62.5 million (U.S \$ 16.1 million) (3.5% of revenues) compared to NIS 60.7 million (3.3% of revenues) in the second quarter of 2009, an increase of 3%.

EBITDA (Earnings before Interest, Taxes, Depreciation, and Amortization): In the second quarter of 2010, EBITDA was NIS 108.6 million (U.S. \$ 28.0 million) (6.1 % of revenues) compared to NIS 103.6 million (5.6% of revenues) in the corresponding period of last year.

Increase in the Fair Value of Investment Property In the second quarter of 2010, the Company recorded gains from appreciation of investment property in the amount of NIS 10.9 million (U.S \$ 2.8 million) compared to NIS 1.7 million in the comparable quarter last year.

Other Gains and Losses, Net In the second quarter of 2010, the Company recorded other expenses, net of NIS 5.9 million (U.S. \$ 1.5 million), compared to net expenses of NIS 2.8 million in the comparable quarter. The expenses this quarter included costs of certain companies in the Bee Group related to the transfer of the Bee Group companies to the new logistic center in Beer Tuvia, which is expected to serve the Non Food segment and the removal of property and equipment as described above in the analysis for the first half of the year.

Operating Profit before financing expenses, net amounted to approximately NIS 67.5 million (U.S. \$ 17.4 million) (3.8% of revenues) compared to operating profit of NIS 59.6 million (3.2% of revenues) in the second quarter of 2009.

Financial Expenses, net, for the second quarter of 2010 were NIS 42.3 million (U.S. \$10.9 million) compared to financial expenses, net of NIS 35.2 million in the comparable quarter last year. The increase in financial expenses, net in this quarter compared to the same quarter last year was mainly due to changes in the value of hedging contracts of the Israeli CPI, which contributed a gain of NIS 2.6 million (U.S. \$0.7 million) in this quarter compared to a gain of NIS 12.7 million in the comparable quarter last year.

The increase in financial expenses, net was offset mainly by an increase in financial income from securities which contributed NIS 5.5 million (U.S. \$1.4 million) this quarter compared to income of NIS 2.2 million in the comparable period last year.

Taxes on Income for the second quarter of 2010 amounted to NIS 4.1 million (U.S. \$1.1 million) (effective tax rate of 16.3% compared to a statutory tax rate of 25%) compared to tax expenses of NIS 6.9 million (effective tax rate of 28.2% compared to a statutory tax rate of 26%) in the corresponding quarter. The low effective tax rate as compared to the statutory rate was due to the provision of deferred tax liabilities during the quarter at the rate of tax that is expected to apply on realization, which is lower than the statutory rate.

Net Income for the second quarter of 2010 amounted to NIS 21.1 million (U.S. \$ 5.4 million) compared to a net income of NIS 17.5 million in the second quarter of 2009. The increase in the net income in this quarter compared to the corresponding quarter last year resulted from the increase in operating income and decrease in tax expense as discussed above. The net income for the second quarter of 2010 attributable to equity holders of the Company, was NIS 19.0 million (U.S. \$4.9 million), or NIS 0.42 per share (U.S. \$ 0.11), while the portion attributable to the non-controlling interests was NIS 2.1 million (U.S. \$0.6 million).

The increase was mainly due to an increase in revenue from existing lease agreements (which are linked to the Israeli consumer price index ("CPI") and therefore were affected by the increase in the CPI), new rent agreements and improvements in rates of renewed rental agreements.

Increase in the fair value of Investment Property In the first half of 2010, the Real Estate segment recorded a gain from appreciation of investment property, as a result of the advancement in the planning and operation of the Company's developments as well as the increase in the rental rates achieved for new rental agreements, in the amount of NIS 13.2 million (U.S \$ 3.4 million) compared to NIS 1.7 million in the corresponding period of the previous year.

The decrease in revenues was mainly due to a reduction in SSS at a rate of 5.2% because of the timing of the Passover holiday and partially offset by the opening of net 7 new stores from the beginning of the second quarter of 2009 with an area of 10,400 square meters. The SSS during the second quarter of 2010 were NIS 1,559.2 million compared to NIS 1,646.2 million in the corresponding period last year. The increase in the segment profit was due to the effects of the Company's strategic plan, which were reflected in the improvement in the gross profit and the reduction in the losses of Eden Teva and the improvement in the macro-economic situation in Israel.

The following discussion presents an analysis of our cash flows for the six months and three months ended June 30, 2010 compared to six months and three months ended June 30, 2009.

Cash Flows from Investing Activities: Net Cash flows used in investing activities in the first half of 2010 amounted to NIS 376.9 million (U.S. \$97.3 million) compared to net cash flows of NIS 485.5 million used in investing activities in the first half of 2009. Cash Flows from Operating Activities: Net cash flows deriving from operating activities in the second quarter of 2010 amounted to NIS 64.3 million compared to NIS 133.4 million in the second quarter of 2009. The decrease in cash flows from operating activities derives from the acquisition of real estate inventories in the amount of NIS 121.7 million (U.S.\$31.4 million), an increase in the balance of trade payables mainly as a result of the timing of payments.

Cash Flows used in Investing Activities: Net Cash flows used in investing activities in the second quarter of 2010 amounted to NIS 327.5 million (U.S. \$84.5 million) compared to net cash flows of NIS 35.5 million from investing activities in the corresponding quarter of the previous year. Capital Resources and Requirements

Our capital resources consist of a variety of short and long-term financial instruments, including loans from financial institutions, commercial paper, listed and non-listed debentures and convertible debentures. In addition, other capital resources consist of liquid resources such as cash and cash equivalents, future cash flows from operating activities and current available-for-sale financial assets.

Our capital requirements include, among others, scheduled debt service, regular capital spending, ongoing cash requirements from operating activities, and dividend payments.

Total debt relates to our debentures, loans from banks, and other financial indebtedness such as commercial paper. Total debt is comprised of short-term debt and current maturities of long-term debt as well as long-term debt, as stated on the consolidated statements of financial position.

Total liquidity refers to the liquid financial assets we had available at the respective balance sheet dates to fund our business operations and pay for near-term obligations. Total liquidity is comprised of cash and cash equivalents as well as currently available financial assets, as stated on the consolidated balance sheets.

Net debt results from total debt less total liquidity. Management uses the net debt measure for internal corporate finance management, as well as for external communication with rating agencies, and accordingly we believe that presentation of net debt is useful for investors. Net debt should not be considered in isolation as an alternative to short-term debt and long-term debt as presented in accordance with IFRS.

EBITDA is a measure that is not in accordance with Generally Accepted Accounting Principles (Non-GAAP) and is defined as income before financial income (expenses) net, other gains (losses) net, changes in fair value of investment property taxes, depreciation and amortization. It is presented because it is a measure commonly used in the retail industry and is presented as an additional performance measure since it enables comparisons of operating performances between periods and companies while neutralizing potential differences resulting from changes in capital structures, taxes, age of property and equipment and its related depreciation expenses. EBITDA, however, should not be considered as an alternative to operating income or income for the year as an indicator of our operating performance. Similarly, EBITDA should not be considered as an alternative to cash flow from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under Generally Accepted Accounting Principles (GAAP) and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of our historic operating results nor is it meant to be predictive of potential future results

NOTE 2 - BASIS OF PREPARATION OF FINANCIAL STATEMENTS (continued):

The exchange rate of the US dollar at June 30, 2010 is US\$1 = NIS 3.875

c) Convenience translation into U.S. dollars

The condensed financial statements as of June 30, 2010 and for the six month period then ended have been translated into U.S. dollars using the representative rate of exchange at that date (U.S. \$ 1 = NIS 3.875). The translation was made solely for the convenience of the reader.

The U.S. dollar amounts presented in these financial statements should not be construed to represent amounts receivable or payable in dollars or convertible into dollars, unless otherwise indicated.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the annual financial statements for the year ended December 31, 2009, except for the adoption of new Standards and Interpretations as of January 1, 2010, noted below:

- a) IFRS 3 (revised), "Business combinations" and consequential amendments to IAS 27, "Consolidated and separate financial statements", IAS 28, "Investments in associates" and IAS 31, 'Interests in joint ventures', effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after July 1, 2009.

The revised standard continues to apply the acquisition method to business combinations, with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently re-measured through the statement of income. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interests in the acquiree either at fair value or at the non-controlling interests proportionate share of the acquiree's net assets. All acquisition-related costs are expensed.

As the Company has adopted IFRS 3 (revised), it is required to adopt IAS 27 (revised), "consolidated and separate financial statements", at the same time. IAS 27 (revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting for when control is lost. Any remaining interest in the entity is re-measured to fair value, and a gain or loss is recognized in profit or loss. Accordingly, the effect of these transactions with non-controlling interests has been reclassified in the cash flow statement from cash flows from investing activities to cash flows from financing activities. Apart from this reclassification there has been no impact of IAS 27 (revised) on the current period.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES (continued):

- b) The amendment to IAS 17 "Leases" (hereafter – IAS 17) represents part of the annual improvement project of the IASB which was published in April 2009. The amendment cancels the specific directives relating to the classification of land leases, by canceling the inconsistency with the general directives for classifying leases. Under the amendment, the unequivocal determination included in the past in IAS 17, under which a lease of land in which the ownership is not expected to be transferred to the lessee at the end of the lease period will be classified as operating lease was omitted. Under the amendment, the Company will assess the land classification as financial lease or operating lease under the general directives in IAS 17 for classifying leases. The amendment is applicable retroactively for annual periods beginning January 1, 2010 or thereafter. The Company applies the above amendment to IAS 17 effective January 1, 2010 retroactively.

As a result of the application of the amendment, amounts paid in respect of leased land that were classified in the past as operating leases and thus were presented as prepaid expenses, were reclassified as finance leases and accordingly are included within the property and equipment, net.

As a result of the retroactive application, the prepaid expenses balances as of December 31, 2009 and June 30, 2010 were decreased by NIS 193,228 thousand and NIS 190,605 thousand, respectively, and the property and equipment balances were increased by NIS 199,196 thousand and NIS 196,572 thousand, respectively. The balances of NIS 3,915 thousand and NIS 979 thousand, resulting from a change in the computation of the annual expenses were carried to accumulated deficit and non-controlling interests, respectively. The effect on the net income for the six month and annual periods ended June 30, 2009 and December 31, 2009, was immaterial.

NOTE 4 - EFFECT OF SEASONALITY:

The Company's operations are characterized by the effect of the timing of the Jewish religious holidays, in particular "Rosh-Hashanah" (New Year) and "Passover", with increases of sales in the quarters when these holidays take place. In view of this, the results for the three-month period ended June 30, 2010 do not necessarily provide an indication of the results to be expected for the entire year ended December 31, 2010.

NOTE 5 – INVESTMENT IN DOR ALON ENERGY IN ISRAEL (1988) LTD.

On October 3, 2010, the Company completed the acquisition of approximately 80% of the shares in Dor Alon Energy in Israel (1988) Ltd ("Dor Alon"), a company listed on the Tel Aviv stock exchange, from its controlling shareholder Alon, which is also the Company's controlling shareholder. Dor-Alon is engaged in the development, construction and operating of vehicle fueling stations, adjacent commercial centers and independent convenience stores, marketing of fuel products and other products through the fueling stations and convenience stores and direct marketing of distillates to customers. Dor-Alon operates in three principal operating segments: The fueling and commercial sites segment, the direct marketing segment, and the jet-fuel marketing segment. In return for the Dor Alon shares, the Company issued 20,327,710 shares to Alon in such a way that each Dor Alon share held by Alon was exchanged into 1.8 shares of the Company.

The purchase price for the acquisition of Dor Alon is NIS 966 million based on the Company's ordinary share price of NIS 47.51 (based on the closing price on October 3, 2010 on the Tel Aviv stock exchange). According to the outline of the acquisition, the Company will pay a dividend distribution in an amount of NIS 800 million by way of a capital reduction after having received the relevant legal approvals in September 2010, see also note 36b to the Company's annual financial statements.

On September 14, 2010 the District Court in Israel approved the dividend distribution, not out of profits, in the amount of NIS 12.307 per share (U.S.\$ 3.39 per share/ADS, based on the representative exchange rate as of October 4, 2010), totaling NIS 800 million (U.S.\$ 220.5 million) and on September 16, 2010 the CEO of the Tel Aviv Stock Exchange approved the registration for trade of another 20,327,710 of the Company's shares. The ex-div date for this dividend distribution was October 5, 2010 and the payment date will be October 18, 2010.

The Company has acquired control in Dor Alon to allow the companies to combine the retail operations of the Company and Dor Alon and will enable the combined Company to become one of the largest retail groups in Israel and would enable the combined group to enjoy the benefits of economies of scale;

The acquisition will be accounted for using the acquisition method (at fair value basis).

As the acquisition was completed subsequent to June 30, 2010, the consolidated condensed interim financial statements do not include the results or the financial position of Dor Alon.

NOTE 5 – INVESTMENT IN DOR ALON ENERGY IN ISRAEL (1988) LTD (continued)

The acquisition date fair values of Dor Alon's assets, which are preliminary as the transaction was only completed on October 3, 2010 and may be adjusted as a result of obtaining additional indications as to their values, are as follows:

	Unaudited NIS in millions
Current assets	1,405
Property and equipment	940
Intangible assets	342
Other non-current assets	223
Current liabilities	(1,331)
Deferred taxes	(52)
Other non-current liabilities	(1,053)
Total identifiable net assets at fair value	474
Goodwill arising on acquisition	663
Non - controlling interests(*)	171
Purchase consideration transferred	966
Analysis of cash flows on acquisition-Net cash acquired with Dor Alon	56

(*) The non - controlling interests have been included at fair value which was calculated based on Dor Alon's ordinary share price of NIS 60.44 (based on the closing price on October 3, 2010 on the Tel Aviv stock exchange).

If the combination had taken place at the beginning of the year, the Company's net income for the six month period ended June 30, 2010 including income from discontinued activities, which relate to the transfer of gas exploration operations to the Dor Alon shareholders at the time of the transfer, would have been NIS 82 million (unaudited) and revenues would have been NIS 6,969 million including government levies and NIS 5,657 million net of government levies (unaudited).

The goodwill recognized above is attributed to the expected synergies and other benefits from combining the assets and activities of Dor Alon with those of the Company.

The total acquisition related costs are expected to be NIS 3 million of which approximately 2 million have been recorded as of June 30, 2010 and are included in other losses in the condensed consolidated interim statement of income and are part of operating cash flows in the statements of cash flows.

None of the goodwill recognized is expected to be deductible for income tax purposes.

NOTE 5 – INVESTMENT IN DOR ALON ENERGY IN ISRAEL (1988) LTD (continued)

In connection with the acquisition Alon and the Company obtained a preruling from the Israeli Tax Authority. The pre-ruling is subject to various conditions and provides, among other things, that the cost basis and the purchase date of the shares of Dor Alon for tax purposes in the possession of the Company following the acquisition will be the original price and acquisition date, respectively, as they had been for Alon prior to the acquisition. Alon has clarified to the Company that, in connection with the payment of tax at the time of any future sale by the Company of all or part of its shares in Dor Alon, if any, to a third party, Alon will pay that portion of any applicable tax payable in an amount equal to the amount of tax deferred by the Tax Authority in its pre-ruling (*i.e.*, the amount of tax that would have been payable by Alon in connection with the acquisition had the acquisition not been tax exempt according to the pre-ruling).

NOTE 6 - SHARE CAPITAL:

- a. In the six month period to June 30, 2010, additional convertible debentures with a par value of NIS 5,804 were converted to 288,844 shares of the Company. In addition, 716,000 shares were issued upon the exercise of employee share options.
- b. On February 25, 2010, the Company paid a cash dividend in the amount of NIS 1.704 per share, totaling approximately NIS 75 million.
- c. Following approval by the Company's Audit Committee and Board of Directors, on March 25, 2010, the Company purchased 89,888 of its own shares ("treasury shares") from certain officers of the Company, including the Chief Executive Officer, which shares were acquired by the executives upon their exercise of vested options granted to them under the Company's 2008 Share Option Plan. The total amount paid by the Company for such shares was NIS 4.3 million. The amount paid by the Company to the officers for the shares are deemed a distribution by the Company for purposes of Israeli law, and the payment reduced the amount available for distribution as dividends to shareholders.
- d. As the result of the dividend distribution subsequent to June 30, 2010 (see note 5) the conversion ratio of the convertible debentures was amended and is currently 6.083 and the adjusted exercise price of the employee share options was adjusted in accordance with the terms of the grant. The effect of the amendment of the conversion ratio resulted in an increase the fair value of the embedded conversion feature, which is expected to be approximately NIS 23 million and will be recorded in financial expenses in the fourth quarter of 2010.

NOTE 9 – EVENTS DURING THE PERIOD:

a. On April 15, 2010, the audit committee and board of directors of BSRE, approved the agreements to purchase land rights in part of the wholesale market area in Tel Aviv as part of the development, construction and marketing of a project that includes an apartment building complex, areas for commercial use and areas for multi-purpose use, in a joint ventures (50%:50%) with a third party (a company under the control of Moshe and Yigal Gindi and Gindi investments 1 Ltd. - together referred to hereinafter as "Gindi"). The Company obtained financing to allow acquisition of the land from a bank.

Under these agreements, BSRE and Gindi ("the Joint Venturers") will jointly acquire (50% each) the rights to the long term land lease (through 31.8.2099), in the specified area located in the wholesale market site in Tel Aviv (the "Property") from the municipality of Tel Aviv and the Wholesale Market for Agricultural Produce in Tel Aviv Company Ltd. (the "Sellers"), for the total consideration of NIS 950 million to be paid in installments according to project milestones. Part of the first installment in the amount of approximately NIS 185 million was transferred to a trustee on May 20, 2010, and the remaining approximately NIS 75 million subsequent to June 30, 2010. NIS 660 million will be paid when the project's first construction permit is available, or after 24 months have elapsed from the date of signing the purchase agreements, whichever comes first, and the balance when Form 4 of construction completion is available.

The Sellers are also entitled, depending on certain sale targets, to additional consideration, calculated by reference to the sale price of apartments that are sold in the apartment buildings complex. The agreement provided for a restriction period during which the Purchasers are not able to sell their rights in the project to third parties.

The Joint Venturers have also undertaken to plan and construct public buildings and parking lots for the sellers, for a consideration based on the costs incurred that will not exceed NIS 102 million.

In an agreement of principles signed between BSRE and Gindi, BSRE agreed to pay 60% of the first NIS 260 million of the consideration paid by the Joint Venturers and 60% of any additional payment that will be required to develop the project until the second installment and will be eligible to receive the excess amount (the 10% difference from its 50% share of the project), not later than eight years after the signing of the agreement of principles, including linkage differences and interest. Gindi is to provide management services for the Project, including, inter alia, services relating to its selling and marketing, in exchange for a management fee to be paid by the Joint Ventures calculated as 16% of the profits from the residential part and 16% of the profit from the commercial part, computed as defined in the agreement of principles between the parties. An advance of NIS 15 million will be paid on account of the management services for the five years period that started after the agreements were signed. BSRE's share of this payment in accordance with the agreement is 50%.

The signing of the final agreements was approved by an extraordinary meeting of the shareholders of BSRE on June 2, 2010. The final agreements, which were signed on June 3, 2010, were subject to the approval of the Minister of the Interior, which was received on July 11, 2010.

NOTE 9 – EVENTS DURING THE PERIOD (continued):

In addition, in July 2010 Gindi won the auction to Build Operate and Transfer ("BOT") a parking lot in Tel Aviv for approximately 1,000 parking places for a period of 23 years. In August 2010, BSRE joined Gindi in this project as a 50% joint venturer. The final agreement is subject to further approvals and conditions which have not been completed as of the date of the signing of these financial statements.

b. During the period, a subsidiary of BSRE acquired land in Point Wells, near Seattle (USA) from a subsidiary of Alon USA, a related company, for an amount of \$19.5 million (approximately NIS 82 million). BSRE intends to change the zoning of the land from heavy industrial use to urban center zoning. In case the Company were to sell the land the subsidiary of Alon USA may participate in the consideration net of costs as defined in the agreement. BSRE has granted Alon USA the right to use the land for a period of up to ten years. In return the subsidiary of Alon USA will make a quarterly payment of \$440 thousand (approximately NIS 1.7 million) starting July 1, 2010.

c. On April 26, 2010, Standard & Poors Maalot entered the rating for the debentures of the Company of ilA+ into Credit Watch with negative outlook, due to the Wholesale Market transaction of BSRE.

NOTE 10 – CONTINGENCIES:

- a. In July 2010 a claim was filed against Mega Retail Ltd. Including a request for it to be approved as a class action, alleging that the Company is misleading the customer when it sells certain products in closed packaging, for an amount per item rather than by weight, even though there are differences in weight between the packages, and without an indication of the weight of each package. The plaintiff's personal claim is estimated by him at NIS 14, and if the claim is certified as a class action, the approximate claim is estimated by the plaintiff at NIS 6 million. The Company is currently reviewing the claim and denying all above allegations, however, at this time, given this matter is preliminary in nature, our financial statements currently do not provide for any amount. We will continue to assess this matter as the request for the class action develops.
- b. In August, 2010 the Company was served with a claim in which it is being sued by a former supplier of fruits and vegetables claiming that the company breached the agreements between the parties regarding the supply of fruits and vegetables, a breach that allegedly resulted in damages assessed by the plaintiff at approximately NIS 178 million. As mentioned in the claim, due to court fees, it was filed for the sum of NIS 100 million.

The Company is currently reviewing the claim and denying all above allegations. The Company believes it acted according to all binding agreements and is not liable to any damages claimed. The Company further denies that any damages were at all caused to the plaintiff. However, at this time, given this matter is preliminary in nature, our financial statements currently do not provide for any amount. We will continue to assess this matter as the claim develops.
