7. Terms and Conditions of the Non-exempt Offer

Applicable. MARIANA INVESTMENT PARTNERS (the "**Financial Intermediary**") will manage a plan (the "**Plan**") which will be offered to the public in the United Kingdom in accordance with the arrangements listed below. The Financial Intermediary has selected the Certificates as the securities into which the Financial Intermediary will invest on behalf of investors in the Plan. The proceeds invested by investors in the Plan will be used by the Financial Intermediary to purchase the Certificates. It is understood that the performance of the Plan will be related to the performance of the Certificates throughout their term. Therefore, the amounts payable by the Financial Intermediary on the redemption

of the Plan are linked to the amounts paid by the Issuer pursuant to the terms and conditions of the Certificates.

Offer Price:

A prospective investor in the Plan should contact the Financial Intermediary for details of the Offer Price.

If any commissions or fees discount relating to the issue and sale of the Certificates have been paid or are payable by the Manager to any intermediary then such intermediary may be obliged to fully disclose to its clients the existence, nature and amount of any such commissions or fees (including, if applicable, by way of discount) as required in accordance with laws and regulations applicable to such intermediary, including Regulation (EU) No. 600/2014 on markets in financial instruments as it forms part of UK domestic law by virtue of the EUWA and regulations made thereunder ("**UK MiFIR**"). Potential investors in these Certificates intending to purchase Certificates through an intermediary (including by way of introducing broker) should request details of any such commission or fee payment from such intermediary before making any purchase thereof.

Conditions to which the offer is subject:

Offers of the Plan in its current form by the Financial Intermediary are conditional on the issue of the Certificates by the Issuer and subject to the contractual arrangements in place between the Manager and Financial Intermediary.

The Issuer reserves the right to not issue the Certificates at any time on or prior to the Issue Date. As between the Manager and its customers (including the Financial Intermediary) offers of the Certificates are further subject to such conditions as may be agreed between them and/or as are specified in any arrangements in place between them. As between the Financial Intermediary and its customers, offers of a beneficial interest in the Certificates pursuant to the Plan are further subject to such conditions as may be agreed between them and/or as are specified in any arrangements in place between them. The Issuer will not be a party to any such arrangements with prospective investors (other than the Manager) in connection with the offer or sale of the Certificates or beneficial interests in the Certificates through the Plan and accordingly the Base Prospectus and these Final Terms will not contain such information and an Investor must obtain such information from the Financial Intermediary.

The Issuer reserves the right to modify the total number of Certificates which investors can subscribe for, curtail the offer of the Securities or withdraw the offer of the Securities and/or,

if the Securities have not yet been issued, cancel the issuance of the Securities for any reason at any time on or prior to the Offer End Date (as defined above) and advise the Financial Intermediary accordingly. For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such a right to withdraw the offer, each such potential investor shall not be entitled to subscribe or otherwise acquire the Securities.

Any offer of the Plan by the Financial Intermediary will be made in its own name and on its own behalf and not as an agent of the Issuer, the Guarantor or the Manager and only the Financial Intermediary will be liable for the offer in the United Kingdom. None of the Issuer, Guarantor or Manager accepts any liability for the offer or sale by the Financial Intermediary of an investment in the Plan to investors in the United Kingdom.

Description of the application process:

A prospective investor in the Plan should, prior to the end of the Offer Period (as defined above), contact the Financial Intermediary for details of the application process to purchase an interest in the Plan during the Offer Period. A prospective investor in the Plan will invest in accordance with the arrangements existing between the Financial Intermediary and its customers relating to a subscription of products generally. Prospective investors will not enter into any contractual arrangements directly with the Issuer, Guarantor or the Manager related to the subscription for the Certificates. If an investor in any jurisdiction other than the United Kingdom wishes to purchase Certificates or to make an investment in the Plan, such investor should (a) be aware that sales in the relevant jurisdiction may not be permitted; and (b) contact its financial advisor, bank or financial intermediary for more information.

These Final Terms may only be used in connection with and within the terms of this offer. The Final Terms do not authorise, and may not be used by the Financial Intermediary or any other party in connection with, the subsequent offer or sale of any Certificates outside the terms of the offer or the Offer Period.

With the exception of the United Kingdom no action has been or will be taken in any jurisdiction by the Issuer, Guarantor or the Manager that would permit a public offering of the Certificates, or possession or distribution of any offering material in connection with the issue of the Certificates in any country or jurisdiction where action for that purposes is required. The Financial Intermediary must comply with all applicable laws and regulations in the United Kingdom in connection with the offer and sale of Certificates at its own expense.

Details of the minimum and/or maximum amount of the application:	A prospective investor in the Plan should contact the Financial Intermediary for details of any minimum and/or maximum amount of the individual applications for an interest in the Plan.

Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised:	A prospective investor in the Plan should contact the Financial Intermediary for details of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised.
Process for notification to applicants of the amount allotted and indication whether dealing may begin before notification is made:	Prospective investors in the Plan will be notified by the Financial Intermediary in accordance with the arrangements in place between the Financial Intermediary and its customers. For the avoidance of doubt no dealings in the Certificates may take place prior to the Issue Date.

Most material risk factors pertaining to the guarantor

1. A substantial increase in new provisions or a shortfall in the level of previously recorded provisions exposed to credit risk and counterparty risk could adversely affect the BNP Paribas Group's results of operations and financial condition

3. The BNP Paribas Group may incur significant losses on its trading and investment activities due to market fluctuations and volatility
4. The BNP Paribas Group's access to and cost of funding could be adversely affected by a resurgence of financial crises, worsening economic conditions, rating downgrades, increases in sovereign credit spreads or other factors
5. Adverse economic and financial conditions have in the past and may in the future significantly affect the BNP Paribas Group and the markets in which it operates
6. Laws and regulations in force, as well as current and future legislative and regulatory developments, may significantly impact the BNP Paribas Group and the financial and economic environment in which it operates.

What are the key risks that are specific to the securities?

Most material risk factors specific to the securities

There are also risks associated with the Securities, including:

1. Risks related to the structure of the securities:

The return on the Securities depends on the performance of the Underlying Reference(s) and whether knock-in or knock out features apply. Auto-callable Products include automatic early redemption mechanisms. Depending on the applicable formula, if an automatic early redemption event occurs investors may be exposed to a partial loss of their investment. Investors may be exposed to a partial or total loss of their investment.

2. Risks related to the underlying and its disruption and adjustments:

BNP Paribas Issuance B.V. and BNPP may issue Preference Share Certificates, as more fully described in the "Annex to the Additional Terms and Conditions for Preference Share Certificates". If as a result of the performance of the Preference Share Underlying, the performance of the preference shares is negative, the value of the Preference Share Certificates will be adversely affected. Purchasers of Preference Share Certificates risk losing all or a part of their investment if the value of the preference shares does not move in the anticipated direction.

The Issuer will redeem the Preference Share Certificates in whole at the Early Redemption Amount if, in the determination of the Calculation Agent, an illegality, force majeure, Potential Adjustment Event, Additional Disruption Event, Optional Additional Disruption Event or Extraordinary Event occurs or if the Preference Share Issuer delivers a notice to the Issuer in respect of early redemption of the preference shares. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment and Holders will not benefit from any appreciation of the preference shares that may occur following such redemption. Holders will also face this risk if the Preference Share Certificates include an auto-call feature which triggers an automatic early redemption of the Preference Share Certificates if the performance of the Preference Share Underlying satisfies certain conditions.

Holders of Preference Share Certificates are exposed to the credit risk of the Preference Share Issuer, as Preference Share Certificates are linked to the performance of the relevant preference shares issued by the Preference Share Issuer. The Preference Share Issuer is not an operating company whose sole business activity is the issue of redeemable preference shares and does not otherwise have any cashflows. As its funds are limited, a deterioration in the creditworthiness of or any misappropriation of funds or other fraudulent action by the Preference Share Issuer (or person acting on its behalf) would have a significant adverse effect on the value of the preference shares, and thus, a significant adverse effect on the value of the Preference Share Certificates.

3. Risks related to the trading markets of the securities:

The trading price of the Securities may be affected by a number of factors including, but not limited to, the relevant price, value or level of the Underlying Reference(s), the time remaining until the scheduled redemption date of the Securities, the actual or implied volatility associated with the Underlying Reference(s) and the correlation risk of the relevant Underlying Reference(s). The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

4. Legal risks:

The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.
