

Branicks

Quarterly statement

3/2025

Dear Shareholders,

despite a persistently challenging environment and geopolitical uncertainty, the first nine months of 2025 were stable and successful overall for Branicks, as our operational strength and the systematic implementation of our financial strategy continued to bear fruit. We further consolidated our debt situation by repaying all of the promissory note loans due in 2025, a total of more than EUR 293 million, while our strong relationships with financial institutions enabled us to refinance our real estate bank loans.

The stable performance of our operations in the first half of the year continued through the first three quarters, with funds from operations (FFO) after non-controlling interests coming to EUR 33.4 million after the first nine months of the year. Our operational strength is still evident in our letting performance, which saw rents in the Commercial Portfolio grow by 1.0% on a like-for-like basis. We once again increased our average rent per square metre in the Commercial Portfolio to EUR 10.34 by the end of September 2025. Demand for our high-quality office and logistics properties remains strong, reflecting the strong appeal of our portfolio. Our letting performance improved by an impressive 18% from 218,000 sqm in the previous year to 256,500 sqm in the first nine months of 2025. This total consists of 113,900 sqm in new leases and 142,600 sqm in lease renewals.

Our transaction activities followed the usual seasonal patterns in the first nine months of the year, with activity increasing markedly in line with expectations in Q2 and Q3. After we were able to report the signing of the sale of one logistics property from the Commercial Portfolio and the closing of the sale of a logistics property from our Institutional Business in the first quarter, we notarised the sale of nine properties from our proprietary portfolio in the second quarter. We announced a total of four notarised sales in the third quarter, three of which were also completed during the third quarter.

Our stable operational performance, strong transaction record even in challenging market conditions, and clear strategic focus on optimising the Group's structure are what sets Branicks apart. On behalf of my Management Board colleagues, I would like to thank all of our employees for their dedication and commitment and would also like to thank you, our shareholders, for placing your continued trust in our company.

Kind regards,

Frankfurt am Main, November 2025

We stay steadily on track and have a solid plan

Financial consolidation fully on track: all promissory note loans due in 2025 have been repaid as planned

- Promissory note loan totalling EUR 225 million repaid in the first half of 2025; further repayment of EUR 68 million made at the end of July
- The loan amounts granted under the promissory note loan agreements in 2024, which were the subject of the StaRUG procedure at that time, have been fully repaid.
- Debt reduction remains a high priority, with all covenants having been met

Well-stocked sales pipeline ensures a strong Q3 transaction performance

- Sale of 14 properties (COP) worth EUR 386 million signed by Q3, of which sales worth EUR 381 million have been completed by Q3
- Branicks is confident of meeting its guidance of generating sales volume of EUR 600 to 800 million in its overall portfolio

Commercial portfolio drives sustainable cash flows

- Stable and robust rental growth (thanks to a high-quality portfolio and rent indexation) ensures consistent and predictable cash flows.
- Ongoing portfolio optimisation shows like-for-like rental growth of 1.0 %
- Continued strategic focus on office and logistics properties (81% of market value as of 30 September 2025)
- Increase in average rent from EUR 9.63/sqm in the previous year to EUR 10.34/sqm as of 30 September 2025

Institutional Business remains a stabilising factor

- Focus on assets under management (EUR 8.4 billion as of 30 September 2025)
- Like-for-like rental growth at 0.1%
- Strong and robust positioning; ready for the market upswing (especially regarding transaction fees)

On track with cost discipline that contributes to an increase in FFO

- Significantly reduced cost base achieved through various measures; continued cost discipline
- OPEX as of 30 September 2025 down 5.8 % year-on-year

Portfolio optimisation driven by sales

Assets under management total EUR 10.7 billion

Assets under management

Assets under management (AuM) on the Branicks platform as of the end of September 2025 came to EUR 10.7 billion, down EUR 1.4 billion on the previous year (30 September 2024: EUR 12.1 billion). Of this total, EUR 2.3 billion was attributable to the proprietary portfolio (Commercial Portfolio) and EUR 8.4 billion to the third-party business for institutional investors (Institutional Business). On 30 September of the previous year, EUR 3.2 billion was in the Commercial Portfolio and EUR 8.9 billion in the Institutional Business. The decreases are mainly due to successfully completed transaction activities.

The regional portfolio structure at the end of the period under review was very similar to that reported for the third quarter of 2024, with 7 % of assets under management in the North region, 13 % in the East region, 31 % in the Central region, 26 % in the West region and 23 % in the South region (30 September 2024: 8 %, 12 %, 28 %, 25 % and 27 % respectively).

Transactions

Sales from the proprietary portfolio with a total value of around EUR 131 million were notarised in the third quarter of 2025, with three of the sales having already completed the transfer of possession, benefits and associated risks in the same quarter. The most recent sale is a partial sale, which is expected to see its closing in December 2025. Since the third quarter usually is stronger in terms of sales than Q1 and Q2, its performance is therefore in line with the usual quarterly distribution. Overall, notarisations as of 30 September 2025 came to EUR 386 million, with the transfer of possession, benefits and associated risks having already been completed for transactions worth EUR 381 million.

A key highlight in the third quarter was the sale of a majority stake in a building complex in Offenbach's Kaiserlei district by way of a club deal. The complex has a fully let area of 14,000 square meters. There was also the completion of the transfer of possession, benefits and associated risks for a sale notarised in November 2024 in the first quarter of 2025 in the Institutional Business Segment.

One purchase in the Institutional Business segment worth around EUR 77 million was executed in the third quarter.

Letting performance remains strong

Like-for-like rental income up 0.3 %

Letting business

In the third quarter of 2025, **letting performance by area** at around 256,500 sqm was up 18 % year-on-year (previous year: around 218,000 sqm).

Annualised rental income amounted to around EUR 38.2 million (previous year: around EUR 31.5 million). This 21% year-on-year increase was driven by both new leases and lease renewals, with the office asset class accounting for 68 % of annualised rental income, while 16 % of the rents contracted came from the warehouse and logistics asset class. This distribution highlights the attractiveness of Branicks' core asset classes.

Of the **rental income contracted** in the reporting period, around EUR 14.2 million relates to the Commercial Portfolio and around EUR 24.0 million to the Institutional Business (previous year: EUR 7.0 million and EUR 24.5 million, respectively).

Renewals accounted for a rental volume of EUR 24.1 million and new leases for EUR 14.1 million (previous year: EUR 26.2 million and EUR 5.3 million, respectively).

Like-for-like rental income (not including portfolio additions and disposals) for the entire portfolio under management rose by 0.3% in the 12 months to 30 September 2025. Like-for-like growth reached 1.0% in the Commercial Portfolio and 0.1% in the Institutional Business. Around 65 % of the lease expiry volume relates to 2029 onwards. Branicks is already holding proactive discussions with users regarding larger leases set to expire in 2025 and 2026 in particular.

Commercial Portfolio

Strategic focus on logistics and office

The Commercial Portfolio segment represents the Branicks Group’s proprietary real estate portfolio, where Branicks generates steady cash flows from rental income, optimises the value of its portfolio assets, and realises gains from well-timed sales. Branicks also generates income from equity investments.

As of 30 September 2025, the directly held portfolio consisted of 125 properties (30 September 2024: 144). The market value of the portfolio was EUR 2,343.7 million (30 September 2024: 3,222.8 million) and the rental space totalled around 1,107,600 sqm (30 September 2024: around 1,430,700 sqm).

Based on annualised rental income of EUR 125.6 million (excluding project developments and repositioning properties), this corresponds to a gross rental yield of 5.4 % (30 September 2024: EUR 156.0 million and 5.1 %). The EPRA vacancy rate was 9.8 % (30 September 2024: 7.0 %), with the weighted average lease term (WALT) remaining unchanged from the previous year at 4.3 years.

As part of the ongoing optimisation of its portfolio, Branicks is increasingly focusing on the two strategic asset classes of logistics and office properties, which collectively accounted for 81 % of the Commercial Portfolio’s market value as of the 30 September 2025 reporting date (30 September 2024: 79 %).

The office properties asset class is the largest asset class at 52 % of market value. At EUR 65.5 million, it accounts for around 52 % of annualised rents. Logistics properties follow in second place, representing a share of 29 % of the portfolio’s market value or 27 % of rents. Retail properties only represent 8 % of market value and 10 % of rents.

The proportion of Green Buildings within the Commercial Portfolio’s market value (Green Building ratio) stood at 50.1 % at the end of September 2025 (31 December 2024: 52.9 %).

Although additional properties obtained certification, the ratio decreased as a result of portfolio sales of certified green buildings.

As of 30 September 2025, the ten largest tenants in the Commercial Portfolio collectively accounted for 31.5 % of annualised rent. The focus on office and logistics properties is also reflected in these top tenants.

Institutional Business

Focus on optimising the portfolio

As of 30 September 2025, assets under management in the third-party business totalled EUR 8,369.3 million for 148 properties (30 September 2024: EUR 8,879.4 million for 179 properties). The decrease in the number of properties is mainly due to the expiry of the VIB Retail Balance I mandate.

The Branicks Group currently manages 30 vehicles (16 pool funds totalling EUR 5.3 billion, nine club deals totalling EUR 1.7 billion and five separate accounts totalling EUR 1.4 billion) for a total of 169 institutional investors.

Around 59 % of equity comes from investors who have invested in more than one Branicks investment product.

P&L – Commercial Portfolio segment

Rental income impacted by sales

Commercial Portfolio

Net rental income at EUR 96.3 million decreased by EUR 16.6 million year-on-year (previous year: EUR 112.9 million), mainly due to sales.

Depreciation, amortisation and impairment losses were impacted by write-downs of EUR 178.2 million due to sales. The segment's **operating expenses** decreased by around 5.8% to EUR 19.4 million (previous year: EUR 20.6 million), driven mainly by a significant drop in administrative costs, which were down EUR 1.6 million to EUR 9.5 million (previous year: EUR 11.1 million). This was partially offset by a slight increase in personnel costs to EUR 9.9 million (previous year: EUR 9.5 million).

The net interest result improved considerably to EUR –47.5 million (previous year: EUR –83.1 million), mainly due to lower interest costs as a result of the on-time repayment of promissory note loans totalling EUR 293 million in the first three quarters and the bridging loan in financial year 2024.

The segment's FFO contribution after deducting non-controlling interests rose to EUR 28.1 million (previous year: EUR 27.4 million) despite lower rental income, primarily on account of the improved net interest result and significantly lower operating expenses (OPEX).

P&L – Institutional Business Segment

Current fees affected by sales

Institutional Business

In a persistently challenging market environment, real estate management fees came to a solid EUR 30.2 million compared with the previous year (previous year: EUR 37.4 million). Recurring asset, property and development fees at EUR 28.2 million decreased primarily due to the conclusion of the asset management mandate in the VIB Retail Balance I fund (previous year: EUR 30.9 million). The prior-year period included the performance fee due to the successful conclusion of the Global Tower mandate. Branicks generated EUR 2.0 million in transaction-based fees and performance fees in the reporting period (previous year: EUR 6.5 million).

The **share of the profit or loss of associates** increased slightly to EUR 3.2 million (previous year: EUR 2.2 million).

Operating expenses decreased by EUR 1.6 million overall to EUR 26.3 million (previous year: EUR 27.9 million), mainly due to the EUR 1.9 million decline in personnel costs to EUR 15.9 million (previous year: EUR 17.8 million).

The segment's FFO contribution after non-controlling interests decreased to EUR 5.3 million, primarily on account of a decrease in assets under management resulting from transactions, and lower transaction-based fees and performance fees (previous year: EUR 8.7 million).

Balance sheet

Dominated by sales activities

- 1 As of 30 September 2025, **total assets** decreased by EUR 684.1 million compared to the end of 2024 due to sales and loan repayments in particular.
- 2 The drop in **non-current assets** by EUR 437.4 million compared with 31 December 2024 is mainly attributable to the decline in investment property resulting from sales.
- 3 The decrease in **current assets** by EUR 246.7 million compared with 31 December 2024 is mainly attributable to the reduction in cash and cash equivalents by EUR 153.7 million, particularly due to loan repayments. The main drivers here were the repayment of the promissory note loans due in the first half of the year amounting to EUR 225 million and further repayments of EUR 68 million made in July 2025.
- 4 **Equity** as of 30 September 2025 was EUR 177.7 million lower than at the end of 2024, with the loss for the period having an impact of EUR –160.5 million (previous year: EUR –153.2 million). At a solid 31.1%, the **equity ratio** was slightly up on the figure as of 31 December 2024 (30.2%).
- 5 **Liabilities** declined by a total of EUR 506.4 million compared with the end of 2024. The increase in current loans and borrowings is mainly attributable to the reclassification of the EUR 398.0 million Green Bond maturing in September 2026 to current loans and borrowings.
