GDF SUEZ

January 13 2008

GDF SUEZ issued a bond transaction worth more than € 4 Billion

GDF SUEZ issued a € 4.25 Billion bond transaction. The issue was oversubscribed more than 2 times. It is the most important bond transaction issued by an industrial Group since 2004. The great success of this placement clearly illustrates the creditworthiness of GDF SUEZ as an issuer and confirms the market confidence in the long term prospects of the Group.

The transaction consists in three tranches:

- a long 3 years totaling €1.75 Billion, 4.375%, maturing 01/16/2012,
- a long 7 years totaling €1.5 Billion, 5.625%, maturing 01/18/2016,
- a long 12 years totaling €1 Billion, 6.375%, maturing 01/18/2021.

This issue is in line with the active liquidity management of the Group. It's extending the average maturity of the Group's debt while sustaining its strong level of liquidity. It completes the bond transaction issued in 2008 on the euro, sterling and Switzerland francs markets for a total amount of € 3.6 billion. International Financing Review magazine just awarded the Group with the « Euro Bond Issue of the year » for the euro bond transaction issued last October.

The transaction was jointly lead managed by par HSBC, Calyon, BSCH and Merril Lynch.
