On May 15, the company announced its strategic transformation into an Ethereum Treasury Company, with the objective of accumulating a reserve of Ethers to capture the future value of this “fuel” essential to the Ethereum network, which will underpin the transformation of finance through the blockchainization and tokenization of financial and real-world assets.

The company officially changed its name following the approval of the Extraordinary General Meeting held on September 3, 2025.

<i>(in € thousands)</i>	<b>H1 2025</b>	<b>H1 2024</b>
