Letter to Shareholders

Dear Shareholders and Business Partners, Ladies and Gentlemen,

In the first six months of the current financial year, the German economy initially recorded moderate and then increasingly positive results in the second quarter of 2013. For the full year, experts currently anticipate economic growth of 0.4 %. The unemployment rate in Germany stood at 6.6 % at the end of June and therefore on a par with the previous year. The inflation rate is rising slowly and was recorded at 1.8 % in June. This figure, however, will likely remain substantially below the two-percent mark, the medium-term inflation target of the European Central Bank, for the full year 2013.

The European Central Bank is leaving the key interest rate on the main refinancing operations unchanged at the record low of 0.5 % p.a. It is anticipating a gradual recovery of the European economy and is aiming to support this development with continued low interest rates.

This generally stable environment formed the foundation for the upbeat business development of Fair Value REIT-AG in the first half of 2013. As part of this development, the occupancy rate of our proportionate real estate portfolio increased slightly from 94.4 % to 94.6 % in the reporting period. The average remaining lease terms totalled 5.6 years as of June 30, 2013, following 5.7 years at the end of the previous year.

Consolidated net income in the first half of 2013 came in at around € 3.4 million, more than 70 % higher than the previous year period (€ 2.0 million). The previous year figure was impacted by valuation expenses totalling around € 1.0 million. Consolidated net income adjusted for sales earnings and changes in market values, or FFO earnings, was € 2.85 million in the first half of 2013, some 3 % higher than the previous year's figure of € 2.78 million.

As of the balance sheet date, consolidated equity amounted to € 81.7 million. As a result, the balance sheet net asset value increased by 5 % in the first half of 2013 to € 8.76 per share in circulation. The REIT equity ratio rose from 52.6 % to 55.0 % of immovable assets.

We regard the results from the first half of 2013 as confirmation of our expectations and are maintaining our forecast for the current financial year. This means that for 2013 as a whole, we are still anticipating adjusted consolidated net income (FFO) of € 5.3 million, or € 0.57 per share.

Munich, August 5, 2013
Kind regards

Frank Schaich, CEO

The Share

The Fair Value Share and Development of the Stock Market

Following the rather weak development in the first quarter 2013, there were substantial gains on the German stock market at times during the second quarter. Real estate shares, however, were unable to benefit from the general upwards trend. The DAX achieved a new all-time high on May 22, 2013 with 8,531 points. However, by the end of the first half year, the index had reversed back below the 8,000 point mark.

While the Fair Value share generally recorded sideways movement in the first three months, overall the share price dipped slightly from April to June. The share closed Xetra trading at the end of 2012 at a price of € 4.55. On the last trading day of the reporting period under review, June 28, 2013, the share closed at € 4.20. By the end of the second quarter, the Fair Value REIT AG share had recorded a market capitalisation of € 39.5 million. The highest price to date in 2013 was € 4.85 achieved on February 14. The lowest price in the period under review was € 4.20 and was recorded on multiple days during the second quarter. Overall, the Fair Value share lost around 7.7 % during the first half of 2013.

The Fair Value share therefore recorded similar development as the DAX Subsector Real Estate benchmark index, which fell by 6.1 %. In the period under review the DAX was able to gain 2.3 %.

Business report

Business activities and general conditions

Real estate portfolio and Group structure

The occupancy rate of the real estate managed by the Group and its associated companies calculated on a proportional basis in relation to Fair Value increased slightly to 94.6 %, compared with 94.4 % on December 31, 2012. The weighted remaining terms of the lease agreements as of June 30, 2013 totalled 5.6 years, compared with 5.7 years as of December 31, 2012.

The following table provides an overview of the real estate assets attributable to the Group (€ 125 million) and its associated companies (€ 333 million) as of June 30, 2013. The market values of the properties are based on property-specific evaluations by the external experts CBRE GmbH as of December 31, 2012, to which reference is made individually on pages 124 to 129 of the Annual Report 2012. The buildings in Boostedt, Emmerich, Helgoland and Rheda-Wiedenbrück have since been sold.

- 7) Contractual rents as of June 30, 2013 as of % of the proportionate market values

Macroeconomic and sector-specific conditions

Macroeconomic situation During the period under review, the German economy recorded moderately positive development. In particular, in the second quarter 2013, production was expanded in the industrial sectors and investment in construction and equipment rose slightly again. While the increase in the gross domestic product (GDP) in the first quarter was only 0.1 %, the German Institute for Economic Research (DIW) anticipates a rise of 0.4 % for the second quarter. For both subsequent quarters, experts are expecting growth of 0.6 % respectively, meaning that economic growth will prospectively total 0.4 % for the full year 2013.¹⁾

The German employment market remains stable. At the end of June, almost 2.9 million people were registered as unemployed. The unemployment rate stood at 6.6 % and was therefore on a par with the previous year.²⁾ In June 2013, consumer prices in Germany were 1.8 % higher than in the same month of the previous year. Inflation therefore accelerated somewhat after growth of 1.5 % and 1.2 % was recorded for May and April respectively.³⁾

Real estate market in Germany **The leasing market** **Office space** After the weak result in the first quarter, the leasing performance in the seven German office centres⁴⁾ was somewhat better in the second quarter at around 770,000 m². In total, the sales volume in the first six months of 2013 came in at 1.36 million m², around 11 % less than in the previous year period. According to estimates from Jones Lang LaSalle (JLL), this decrease was not only a reflection of cautious demand, but also partially the lack of modern space on offer. While a slightly improved result compared to the previous year period was achieved in Düsseldorf, sales in Frankfurt and Berlin were down by more than 20 %. Vacancies fell by almost 6 % to 7.67 million m², which represents a vacancy rate of 8.7 %. In Düsseldorf, the top rent increased by 10 %, while it remained constant at the other locations.⁵⁾

Retail space In total, in the first half of the year, 263,000 m² of retail space was leased, only 5,000 m² less than in the previous year period. As a result, the retail leasing market has recorded stable development for the third year in succession. Around 30 % of the space turnover stemmed from the ten large centres, compared to around 40 % during the first half of the previous year. Top rents for Germany as a whole rose from the end of June 2012 to the end of June 2013 by around 2.4 %.⁶⁾

The investment market On the German investment market, the buoyant dynamics of the previous year continued in the first half of 2013. Transaction volumes were up 37 % year on year to € 13.1 billion. Of this amount, around 60 % stemmed from the seven largest German office centres, with Frankfurt (€ 1.8 billion), Berlin (€ 1.55 billion) and Munich (€ 1.48 billion) recording the highest transaction volumes. The largest portion of sales was made up of office properties with 43 %, followed by retail real estate with 29 % and mixed-use properties with 10 %. The most important buyer groups were asset and fund managers with a volume of almost € 2.5 billion as well as special funds totalling € 2.1 billion.⁷⁾

Overall Statement of the Management on Business Performance

Compared with the previous year, rental income in the first half of 2013 fell slightly by 3 % due to of property sales. On the back of the higher property-related expenses in connection with new lettings in the period under review, net rental income within the Group came in at € 3.4 million, and was therefore 19 % down on the € 4.2 million reported in the previous year. However, these lower proceeds were more than offset by substantially reduced net interest expenses, which also led to higher results from equity-accounted participations.

The Fair Value Group's consolidated net income adjusted for extraordinary effects (EPRA earnings or FFO) stood at € 2.85 million, around 3 % up on the previous year figure of € 2.78 million:

Consolidated net income	3,359	1,953	1,406	72

1) Consolidated net income adjusted (see explanation in Note 10)

Total revenues totalled € 6.21 million, some € 0.24 million or 4 % down on the previous year figure. The decline resulted from reduced rental income and incidental cost reimbursements, mainly on the back of the sale of properties. Net rental income came in at € 3.39 million, around € 0.79 million or 19 % down on the € 4.18 million reported in the previous year. The additional expenditure resulted from the rental-related reconstruction costs at two properties owned by subsidiaries.

In contrast, after higher other operating income and an improved sale and valuation result, the operating result was recorded at € 2.44 million and was therefore around € 0.44 million or 22 % up on the € 2.0 million reported in the previous year.

Income from participations in equity-accounted associated companies were recorded at € 3.41 million, which represents an increase of 32 % over the previous year figure of € 2.58 million. The improvement of € 0.82 million was 55 % attributable to the valuation of interest rate hedges effective in profit or loss, 33 % to the lower net interest expenses and 12 % to other earnings improvements as well as a gain from the sale of a property by the associated company BBV 10 (Rheda-Wiedenbrück: sale of € 2.9 million – market value as of December 31, 2012: € 2.69 million).

The net interest expenses in the Group came in at € 1.83 million and were therefore € 0.49 million or 21 % down on the € 2.32 million reported in the previous year. The previous year figure contains liquidity-neutral expenses from the market valuation of interest hedging transactions worth € 0.16 million.

After deduction of minority interests in the result of € -0.63 million (previous year: € -0.31 million), the Fair Value Group concluded the first half of the current financial year 2013 with consolidated net income of € 3.36 million, or € 0.36 per share (previous year: € 1.95 million or € 0.21 per share).

Financial position

Cash flow from operating activities The cash inflow from operating activities in the period under review totalled € 3.26 million and was therefore € 0.90 million or 38 % up on the previous year mark of € 2.35 million. The increase compared to the previous year figure largely resulted from the collection of purchase price receivables for property sold in the previous year.

Cash and cash equivalents		
in € thousand	1/1–6/30/2013	1/1–6/30/2012
Cash flow from operating activities	3,256	2,351
Cash flow from investment activities	1,356	1,196
Cash flow from financing activities	(3,215)	(3,430)
Change of cash and cash equivalents	1,397	117
Cash and cash equivalents – start of period	5,861	7,725
Cash and cash equivalents – end of period	7,258	7,842

Cash flow from investment activities On the back of the carrying amount disposal of three properties sold in the current financial year, a net cash inflow of € 1.45 million resulted from investment activities. This relates to two directly-held properties (Boostedt and Helgoland) and one property at the subsidiary BBV 06 (Emmerich). The net cash inflow was partially offset by a rental-related investment in the Pinneberg medical building (directly-held by Fair Value) totalling € 0.09 million. The previous year figure resulted from the disposal of the sold property in Frechen (subsidiary BBV 06).

Cash flow from financing activities Cash outflow from financing activities totalling € 3.22 million (previous year: € 3.43 million) was made up of the balance of dividend payments (€ 0.93 million), increase of liabilities to banks worth € 0.70 million as well as scheduled and unscheduled repayments of liabilities to banks totalling € 2.98 million. The unscheduled repayments totalling € 1.74 million resulted from property sales in the previous year and in the current financial year.

Liquidity In the first half of 2013, cash and cash equivalents in the Group rose by € 1.40 million to € 7.26 million (previous year period: € 0.12 million increase to € 7.84 million).

Net asset position

Assets Total assets as of June 30, 2013 amounted to € 185.54 million, and were therefore slightly up compared with December 31, 2012.

Non-current assets totalling around € 176.94 million accounted for 95 % of total assets (December 31, 2012: 95 %). Of this amount, investment properties accounted for € 125.33 million or 71 % (December 31, 2012: € 126.67 million or 72 %). An amount of € 51.48 million from the equity-accounted participations in the associated companies (December 31, 2012: € 49.47 million) is included in the non-current assets.

A total of around 84 % of the current assets of € 8.60 million (December 31, 2012: € 8.55 million) comprise cash and cash equivalents, while 16 % are receivables and other assets.

Equity and liabilities As of June 30, 2013, 44 % of assets were financed by equity and 56 % by debt. It should be noted that the minority interests in subsidiaries amounting to € 15.59 million are shown under liabilities in accordance with IFRS. If minority interests in subsidiaries were considered equity, as proposed in the REIT Act, equity would total € 97.29 million. This represents around 52 % of total assets (December 31, 2012: 50 %) or 55 % of immovable assets (December 31, 2012: 52.6 %).

Financial liabilities The Group's financial liabilities of € 80.71 million as of June 30, 2013 accounted for 43 % of total assets, compared with 45 % or € 82.98 million as of December 31, 2012. Of these, 16 % or € 13.26 million (December 31, 2012: 16 % or € 13.11 million) were due within one year.

Equity / Net asset value (NAV) The net asset value (NAV), calculated as the sum of the market values of the properties and the participations, after taking the other balance sheet items into account, amounted to € 81.71 million as of June 30, 2013, compared with € 77.66 million on December 31, 2012.

Based on 9,325,572 shares in circulation as of the balance sheet date, the NAV per share was € 8.76, compared to € 8.33 on December 31, 2012.

Balance sheet NAV		
in € thousand	6/30/2013	12/31/2012¹⁾

Equity-accounted participations	51,480	49,469
Miscellaneous assets minus miscellaneous liabilities	2,273	881
Minority interests	(15,585)	(15,030)
Financial liabilities	(80,707)	(82,984)
Other liabilities	(1,081)	(1,346)
Net Asset Value	81,705	77,662
Net Asset Value per share (in €)	8.76	8.33

The "Best Practice Recommendations" of the European Public Real Estate Association (EPRA) are accepted recommendations which complement the IFRS reporting of real estate companies by providing guidance on a transparent net asset value calculation. The EPRA-NAV indicator shown below was calculated on the basis of these recommendations; it eliminates the market values of derivative financial instruments and therefore represents the real-estate-related net asset value. As deferred taxes are not relevant to Fair Value REIT-AG as a result of its REIT status, the EPRA-NAV figures shown below also correspond to the NNAV indicator used by some experts.

EPRA-NAV		
in € thousand	6/30/2013	12/31/2012¹⁾
NAV pursuant to consolidated balance sheet	81,705	77,662
Market value of derivative financial instruments	5,441	6,685
Thereof due to minority interests	(26)	(52)
Market value of derivative financial instruments of equity-accounted participations (proportionate)	1,309	2,265
EPRA-NAV	88,429	86,560
EPRA-NAV per share (in €)	9.48	9.28

1) Adjustments of previous year figures (see explanations in Note 2 and Note 10)

Supplementary report

Subsidiary IC 01

After the sale of the Alzey property in the previous year, the liquidation of the subsidiary IC 01 was agreed and the corresponding process passed over to the fund manager as liquidator. The final payment attributable to Fair Value from the liquidator was received on July 18, 2013. The subsidiary IC 01 can therefore be deconsolidated in the third quarter 2013.

Associated company BBV 10

In July 2013, the DIY store chains Praktiker and Max Bahr filed for insolvency due to their inability to pay and due to excess debt. Fair Value REIT-AG is impacted by this insolvency via the associated company BBV 10. In particular, this relates to the two properties in Celle and Eisenhüttenstadt, which are partly leased to Praktiker. The rents at both locations totalled 3.4 % of contractual rents attributable to Fair Value.

The rental space in Celle was switched to the Max Bahr concept last year in connection with the extension of the lease agreement by 10 years. For the space in Eisenhüttenstadt, negotiations over a 6-year extension were successfully completed based on a fair market rent with a subsequent switch to the Max Bahr concept shortly before the insolvency filing. It is currently not foreseeable whether the result of the negotiations in Eisenhüttenstadt will be contractually implemented and how the issue in Celle will develop. Up to now, the responsible insolvency administrator has not made any use of the right of cancellation.

In the case of a cancellation of the Praktiker lease agreements for Celle and Eisenhüttenstadt, the current occupancy rate of the Fair Value portfolio would be temporarily reduced to approx. 91 % on a yearly basis. In this case, EPRA-Earnings/FFO for 2013 would be slightly reduced by a maximum of € 0.2 million as the situation currently stands. Earnings under commercial law 2013 for Fair Value REIT-AG will be reduced by approx. € 0.36 million on the back of a waiver of the expected profit distribution of the associated company BBV 10 for reasons of commercial prudence. However, the Management Board is anticipating that this effect will be balanced out by higher income from other sources.

Risk report

The Fair Value Group's business activities expose it to a wide range of risks. In addition to general economic risks, these are essentially occupancy risks, rental default risks, interest rate risks and liquidity risks. The risk management activities and the general risks faced by the company are described on pages 50 to 56 of the Fair Value REIT-AG Annual Report 2012.

The Management Board does not expect any risks to materialise in the coming 12 months that could pose a threat to the continued existence of Fair Value REIT-AG.

Opportunities and forecast

The developments in the first half of 2013 were highly pleasing overall. The occupancy rate of the Fair Value portfolio was increased slightly to 94.6 % (December 31, 2012: 94.4 %). Net sales were 4 % down on the previous year figure due to property sales, while net rental income fell by 19 % on the back of rental-related increased property-related expenses. Higher income from the associated companies and substantially lower net interest expenses allowed an adjusted consolidated net income (FFO) of € 2.85 million or € 0.31 per share, which corresponds to an increase of 3 % over the previous year figure.

Confirmation of the forecast for 2013

The upbeat results in the first half of 2013 form a solid basis for further development in the current financial year. As a result, the Management Board is reiterating its forecast for the full year 2013. This provides for adjusted IFRS consolidated net income (EPRA earnings or FFO) of € 5.3 million for 2013, corresponding to € 0.57 per share.

Notes

(1) General Information about the Company

Fair Value REIT-AG is headquartered in Munich, Germany, and does not have any branch offices. As a real estate investment firm, the Company focuses on the acquisition and management of commercial properties in Germany. Investment activities focus in particular on office and retail properties in regional centres. Fair Value REIT-AG invests directly in real estate as well as indirectly in real estate partnerships via the acquisition of participations. Following its registration as a public company on July 12, 2007, Fair Value REIT-AG ("the Company") has been listed on the stock exchange since November 16, 2007. It became a REIT on December 6, 2007.

As a result of its participations in a total of eleven closed-end real estate funds, the company must prepare consolidated financial statements.

(2) Key Accounting and Valuation Methods

Basis of the preparation The Interim Consolidated Financial Statement has been prepared on the basis of the International Financial Reporting Standards ("IFRSs") in compliance with IAS 34 "Interim Financial Reporting".

Investment properties and financial derivatives are valued at fair value; interests held in associated companies are equity-accounted. All other valuations are based on cost.

Consolidation All subsidiaries are included in the consolidated financial statement. The composition of the consolidated group of companies has not changed since December 31, 2012.

Accounting and Valuation Methods The same accounting and valuation methods are used for the quarterly report as for the consolidated financial statement on December 31, 2012.

Comparative Figures The figures used for comparison in the balance sheet and the statement of change in the equity capital are from the reporting date December 31, 2012. The comparative figures used for the profit and loss account, the statement of income and accumulated earnings and the cash flow statement in general relate to the period from January 1 to June 30, 2012.

Net assets as of December 31, 2012 contained an error correction in minority interests in line with IAS 8, which came about from the recalculation of the percentage of minority interests at the subsidiaries IC07, BBV03 and BBV06 as of December 31, 2012. Minority interests therefore fell by € 269,000 to € 15,030,000. At the same time, group equity increased by € 269,000 to € 77,662,000 compared with December 31, 2012.

(3) Intangible Assets

The intangible assets include a contractual right that was valued individually within the framework of a company acquisition and will be amortized over a useful life of five years. Amortization totalling € 18,000 of € 125,000 were carried out in the quarter under review.

(4) Investment Property

Development of investment property			
in € thousand	Direct investments	Subsidiaries	Total
Acquisition costs			
Balance at January 1, 2013	49,147	113,515	162,662
Disposals (sale)	(778)	(1,400)	(2,178)
Reclassifications	—	(185)	(185)
Additions (subsequent acquisition costs)	91	—	91
Balance at June 30, 2013	48,460	111,930	160,390
Changes in value			
Balance at January 1, 2013	(5,435)	(30,555)	(35,990)
Reclassifications	—	185	185
Write-downs	(91)	—	(91)
Disposals (sale)	91	740	831
Balance at June 30, 2013	(5,435)	(29,630)	(35,065)
Fair values			
Balance at January 1, 2013	43,712	82,960	126,672
Balance at June 30, 2013	43,025	82,300	125,325

The fair values used for the remaining investment properties otherwise are those determined on December 31, 2012 by CBRE GmbH, Frankfurt. Two directly-held properties (Boostedt and Helgoland properties) were sold in the period under review. Sales related costs amounting to € 33,000 were incurred. In addition, a retail building in Emmerich was sold by the subsidiary BBV06 for € 750,000. Sales related costs amounting to € 15,000 were incurred. The reclassification recognised directly in equity relates to a renovation measure at BBV06, which was already carried out in the previous financial year and was already taken into account in the valuations carried out as of December 31, 2012.

(5) Equity-accounted Participations

Development of equity-accounted participations							
in € thousand	IC 12	IC 15	BBV 02	BBV 09	BBV 10	BBV 14	Total
Proportionate equity							
Balance at January 1, 2013	2,495	7,090	113	11,082	12,891	18,970	52,641
Additions (acquisition costs)	—	—	—	—	—	7	7
Income from favourable purchase of participations	—	—	—	—	—	5	5
Withdrawals	—	(216)	—	(511)	—	(1,022)	(1,749)
Proportionate earnings	19	369	12	1,296	842	865	3,403
Profit from cash flow hedge	—	—	—	—	345	—	345
Balance at Juni 30, 2013	2,514	7,243	125	11,867	14,078	18,825	54,652
Value adjustment							
Balance at January 1, 2013/June 30, 2013	(118)	(377)	(49)	(431)	(1,086)	(1,111)	(3,172)
Carrying amounts							
Balance at January 1, 2013	2,377	6,713	64	10,651	11,805	17,859	49,469
Balance at June 30, 2013	2,396	6,866	76	11,436	12,992	17,714	51,480

This refers to participations with holdings of between 20 % and 50 %. The increase of € 2,013,000 in the carrying amounts compared to December 31, 2012 consists of the proportionate earnings allocation to Fair Value for the period under review totalling € 3,403,000, plus the proportionate change in the reserve for changes in value recorded directly in equity totalling € 345,000 less the distributions received including the withholding tax on interest income and the solidarity surcharges totalling € 1,749,000. The acquisition of interests in BBV14 led to income from the favourable acquisition of interests of € 5,000. The value adjustments arises from the net present value of company expenses not taken into account in the market valuations of the properties. For further information regarding the difference in value, please refer to the explanations on page 81 of the Annual Report 2012.

(6) Reserve for Changes in Value

Included in the reserve for changes in value currently reducing the total equity are changes in value (with no effect on net income) relating to interest rate hedges, to the extent that these fulfil the requirements for "Hedge Accounting". During the reporting period, the revaluation reserve decreased on balance by € 1,616,000. After deduction of the units held by minority shareholders, the share held by the group decreased by € 1,271,000. In contrast, there was a reduction of the reserve by € 345,000 related to the equity-accounted participations, to the extent that these resulted from cash flow hedges made by the participating companies.

(7) Financial Liabilities

The long-term and short-term financial liabilities of € 80,707,000 in total decreased by € 2,277,000 compared to December 31, 2012. This was because of scheduled repayments of € 1,233,000 and unscheduled repayments of a total of € 1,744,000. Of this amount, € 502,000 was attributable to property sales from the previous year (Bönningstedt and Ellerau) and € 492,000 from the directly held properties in Helgoland and Boostedt in the current financial year. At the subsidiary BBV 06, € 750,000 was used for an unscheduled repayment as part of the property sale in Emmerich. Moreover, Fair Value REIT-AG used a partial amount of € 700,000 from its unused creditline. Current financial liabilities increased by € 149,000 to € 13,260,000 compared with December 31, 2012. This is due to the fact that the repayment instalments due in the quarter under review would only be balanced out in the following quarter at Fair Value REIT-AG (€ 250,000) and at IC07 (€ 62,000).

(8) General Administrative Expenses

in € thousand	1/1–6/30/2013	1/1–6/30/2012
Personnel expenses	222	199
Office costs	23	23
Travel and vehicle expenses	16	22
Accounting	67	58
Stock market listing	71	50
Annual general meeting	45	48
Financial reports	95	69
Events	5	7
Valuations	47	66
Legal and consulting costs	72	128
Audit expenses	97	100
Remuneration (Supervisory and Advisory Boards, General Partner)	31	29
Fund management fees	160	157
Trustee fees	57	58
Amortization and depreciation	19	18
Other	31	45
Non-deductible VAT	110	117
Total general administrative expenses	1,168	1,194

Of the general administrative expenses, € 820,000 (70 %) are attributable to Fair Value (€ 878,000 or 74 % in the previous year). To the subsidiaries € 348,000 (30 %) are attributable (€ 316,000 or 26 % in the previous year).

(9) Interest Expenses

in € thousand	1/1–6/30/2013	1/1–6/30/2012
Valuation of derivative financial instruments	(8)	(158)
Other interest expenses	(1,826)	(2,160)
Total interest expenses	(1,834)	(2,318)

Interest expenses include costs relating to the change in the fair value of derivative financial instruments (interest rate hedges) amounting to € 106,000.

(10) Segment Revenues and Results

	1/1–6/30/2013		1/1–6/30/2012 ¹⁾	
in € thousand	Segment revenues	Segment results	Segment revenues	Segment results
Direct investments	1,810	1,222	1,826	1,403
Subsidiaries	4,402	1,934	4,621	2,775
Total segment revenues and results	6,212	3,156	6,447	4,178
Central administrative expenses and other		(718)		(2,178)
Earnings from equity-accounted participations		3,403		2,584
Income from favourable purchase of participations		5		—
Net interest expense		(1,831)		(2,324)
Income tax		(22)		—
Minority interest in the result		(634)		(307)
Net income		3,359		1,953

¹⁾ The segment results of the previous year quarter were reduced by € 147,000 at a subsidiary ("IC03"). The segment revenues of the previous year included a rent prepayment totalling € 150,000 over 25 years for the use of the roof space for operating a photovoltaic system, which was accrued as part of the annual financial statements 2012 at a total of € 144,000. This accrual was now taken into account on a quarterly basis, meaning that the proceeds from the payment totaled € 3,000 in the previous year quarter.

The following table shows the income statement of the segments, with the “subsidiaries” segment being broken down according to the individual fund companies.

Disclaimer This interim report contains future-oriented statements, which are subject to risks and uncertainties. They are estimations of the management board of Fair Value REIT-AG and reflect its current views with regard to future events. Such expressions concerning forecasts can be recognised by terms such as "expect", "estimate", "intend", "can", "will" and similar expressions with reference to the enterprise. Factors, that can cause deviations or effects can be (without claim on completeness): the development of the property market, competition influences, alterations of prices, the situation on the financial markets or developments related to general economic conditions. Should these or other risks and uncertainty factors take effect or should the assumptions underlying the forecasts prove to be incorrect, the results of Fair Value REIT-AG could vary from those, which are expressed or implied in these forecasts. The Company assumes no obligation to update such expressions or forecasts.
