9 – Months’ Report 2007/2008

July 01st, 2007 – 31st March, 2008

The economic situation continued to remain sturdy and contrary to expectations shows no noticeable weakness as concerns the field of investments important to us.

During first 9 months of FY 2007/08, the turnover of 31.9 million EUR again was at same level as last year amounting to 31.3 million EUR. The business result before interest and tax once again improved to 1.96 million EUR compared to the good result of previous year of 1.90 million EUR.

The profit after tax of 1.314 million EUR could be increased again compared to previous year’s figure of 1.045 million EUR which is due to the better financial results and a lower tax rate. The profit per share raised from 38 to 44 Cent during these 9 months.

Strategy and risks – as referred to in detail in “Half-Year- Report 2007/08” - still exist to full extent.

Since the stress situation of the financial markets did not yet show any strain to the real economy and FORTEC actually benefits from the weak dollar, we again expect a successful result in operative business for the 4th quarter.

Annexe.

The balancing and evaluation methods of fiscal year 2006/07 according to IAS/IFRS remain unchanged. The number of full-time employees amounts to 108 (prev. year 74). The product folio is marketed under the segment Embedded Solutions; therefore a segment report divided into product groups is not necessary. In view of the 31 million EUR turnover in general, 32 million EUR were achieved nationally and 7 million EUR within Europe.
