

Successful first surgeries in Texas following purchase contract

Fleurieux-sur-l'Arbresle - France – May 12, 2025, 6.00 p.m. Safe Group (FR001400F1V2 – ALSAF), a leader in innovative medical solutions, is proud to announce the successful completion of the first surgeries at a new facility in Texas, where Safe Orthopaedics and Spine Up solutions are newly referenced (see press release of March 12, 2025). These operations mark an important milestone in the deployment of Safe Group's high-quality healthcare in the United States, the world's leading market for spine surgery implants.

The operations were performed by a team of experienced surgeons trained by Safe, using the latest medical technologies offered by SpineUp. Patients benefited from procedures that ensure optimal results.

"We are delighted to announce the success of these first surgeries in Texas" said Nicolas Papillon, Safe Group's Chief Operating Officer. "This achievement is a testament to the synergies between Safe Group and Spine Up solutions, and to our commitment to offering cutting-edge technologies and expanding our presence to better serve our patients."

About Safe Group

Safe Group is a French medical technology group that brings together Safe Orthopaedics, a pioneer in ready-to-use technologies for spine pathologies, and Safe Medical (formerly LCI Medical), a medical device subcontractor for orthopedic surgeries. The group employs approximately 100 people.

Safe Orthopaedics develops and manufactures kits combining sterile implants and ready-to-use instruments, available at any time to the surgeon. These technologies are part of a minimally invasive approach aimed at reducing the risks of contamination and infection, in the interest of the patient and with a positive impact on hospitalization times and costs. Protected by 15 patent families, SteriSpine™ kits are CE marked and FDA approved. Safe Orthopaedics has subsidiaries in the United Kingdom, Germany, the United States.
