Notes on segment information:

### Principal segments

The company's operations predominantly relate to providing technology services, delivered to clients globally, operating in various industry segments. Accordingly, revenues represented along industries served constitute the primary basis of the segmental information set out above.

### Segmental capital employed

Assets and liabilities used in the company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. The management believes that it is not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.
