PRESS RELEASE

Infosys Finacle Teams with Oracle to Offer Finacle on Oracle Cloud

Bangalore – November 23, 2015: Infosys Finacle, part of EdgeVerve Systems, a product subsidiary of Infosys (NYSE: INFY), today announced the launch of a new offering 'Finacle as a managed service on Oracle Cloud'. This offering will enable banks globally to leverage Finacle's industry-leading solution suite, along with other enterprise-class applications hosted on premise or in an external environment, to gain agility and cost efficiencies. With this offering, Finacle becomes one of the first comprehensive banking platforms to be available as a managed service on Oracle Compute Cloud.

Highlights:

- The offering will enable banks of all sizes to run enterprise-class banking applications such as payments and core banking on the cloud
- A range of services will be offered to help banks flexibly design their cloud journey:
 - Finacle on Oracle Cloud will offer a choice of no-maintenance cloud infrastructure that can be used on demand for infrequent and seasonal activities such as development, testing, and training
 - Finacle clients can also use the managed service for production environments with the new Oracle Database Exadata Cloud Service, for utmost resilience. A pre-integrated suite of solutions will help clients minimize costs, complexity and efforts of implementations. Finacle's clients can now reduce infrastructure and application management costs, and service customers efficiently across channels, with a real-time platform
- Banks can choose to leverage the entire banking platform as a managed service or can use specific services such as payments
- The service ensures that banks always have the latest Finacle capabilities available-on-demand to keep pace with changing consumer expectations

Quotes:

Michael Reh, Executive Vice President and CEO (designate), EdgeVerve:

"Up to now, the banking industry has been wary of adopting cloud solutions. The combination of Finacle and Oracle allows financial institutions to benefit from the flexibility and scalability of the cloud with confidence."

Thomas Kurian, President, Product Development, Oracle:

"Infosys Finacle and Oracle have been working together for over a decade now. With the Oracle and Infosys Finacle offerings, banks across the globe can take advantage of the latest Finacle stack along with our industry leading enterprise cloud infrastructure."

About Infosys Finacle

Finacle is the industry-leading universal banking solution from EdgeVerve Systems, a wholly owned subsidiary of Infosys. The solution helps financial institutions develop deeper connections with stakeholders, power continuous innovation and accelerate growth in the digital world. Today, Finacle is the choice of banks across 84 countries and serves over 547 million customers – nearly 16.5 percent of the world's adult banked population.

Finacle solutions address the core banking, e-banking, mobile banking, CRM, payments, treasury, origination, liquidity management, Islamic banking, wealth management, and analytics needs of financial institutions worldwide. Assessment of the top 1000 world banks reveals that banks powered by Finacle enjoy 50 percent higher returns on assets, 30 percent higher returns on capital, and 8.1 percent points lesser costs to income than others.

Safe Harbor

Certain statements in this press release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental

fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2015. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. Any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of this date. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
