Infosys Wins Three Prestigious Oracle Excellence Awards for Specialized Partner Cloud Services

Bengaluru - October 03, 2017: [Infosys](#) (NYSE: INFY), a global leader in consulting, technology, outsourcing and next-generation services and Cloud Elite member of Oracle PartnerNetwork, today announced it has been awarded three Oracle Excellence Awards for expertly delivering solutions based on Oracle technology.

Infosys has been awarded the 2017 Oracle Excellence Award for Specialized Partner of the Year under CX Cloud category both globally and in North America. Infosys earned these two recognitions for its ability to deliver innovative customer experiences with a mobile-first approach. The company's offerings cover the entire spectrum of Oracle CX Cloud, including pre-built Industry solutions and integrations through PaaS solutions.

Infosys has also won the 2017 Oracle Excellence Award for Specialized Partner of the Year in North America for the on-premise-to-cloud Business Model Transformation category. This award recognizes Infosys for providing a comprehensive, end-to-end Oracle Cloud solution spanning Software-as-a-Service, Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS), and lift-and-shift on-premise legacy applications to the cloud.

"Our goal was to provide our sales representatives, sales managers and sales leaders with meaningful intelligence that they can actually use to manage and measure their business," said **Anil Roy, VP, Enterprise Applications, Ricoh USA Inc.** "Infosys partnered with us for this CRM Transformation initiative to create the roadmap for future technology architecture for the organization. Together, we have started migration to Oracle Cloud PaaS to provide meaningful analytics to our sales teams. We not only expect significant cost savings but also anticipate a reduction in the time taken for a new business requirement to production deployment."

Infosys is also an Oracle Cloud Managed Service Provider (MSP), helping enterprises accelerate their cloud journey and achieve compelling business value by combining Oracle's IaaS and PaaS with expertise from Infosys Cloud Consulting, implementation and managed services. Infosys' differentiated tools and solutions, such as Infosys Workload Migration Suite and Infrastructure Management Suite, together with Oracle Infrastructure-as-a-Service can empower enterprises to leverage their existing IT investments while accelerating their journey to the cloud.

In addition to Infosys, two of its clients – **Cummins and Ricoh** – have also been recognized by Oracle with the 2017 Oracle Proactive Support Champion Individual Award and 2017 Oracle Innovation Award - Application Development, respectively, based on solutions Infosys helped these two companies implement.

Ravi Kumar S., President and Deputy COO, Infosys, said, "Winning Oracle Excellence Awards under CX Cloud and On-Premise to-Cloud Transformation categories this year is an endorsement of our innovation, investments and expertise in Oracle Cloud Applications, platform and infrastructure. We are also proud to be collaborating with Oracle as a Cloud Elite Partner in empowering and accelerating our customers' journey to the cloud. Together, Infosys and Oracle reinvent enterprises, making them agile, connected and ready to succeed in the digital economy."

Camillo Speroni, Vice President Worldwide Strategic Alliances, Oracle, said, "We congratulate Infosys in achieving the 2017 Oracle Excellence Award for Specialized Partner of the Year for CX Cloud (North America and Global) and On-Premise-to-Cloud Transformation (North America) categories. This achievement is a testament to the company's commitment to providing differentiated customers solutions and services that drive real business value and results."

About Infosys Ltd

Infosys is a global leader in technology services and consulting. We enable clients in 45 countries to create and execute strategies for their digital transformation. From engineering to application development, knowledge management and business process management, we help our clients find the right problems to solve, and to solve these effectively. About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle's products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program – an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud. Safe Harbor

Certain statements in this press release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that

could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2017. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of the date of this press release. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
