For **Infosys Limited**

A.G.S. Manikantha
Company Secretary

Infosys Launches Infosys Business Assurance Store to Drive Productivity and Accelerate Business Agility

Bengaluru – January 16, 2018: [Infosys](#) (NYSE: INFY), a global leader in consulting, technology and next-generation services, today announced the launch of the Infosys Business Assurance Store, a unique knowledge-based solution with a repository of more than 1 million test assets across various industry domains, technologies, products and packages. This solution enables clients to enhance productivity in test planning, aids continuous testing and minimizes dependency on subject matter experts.

The Infosys Business Assurance Store is built on the experience of the Infosys validation teams, and integrates with third-party solutions like HPE Application Lifecycle Management (ALM), MS SharePoint among others. The store helps clients drive greater operational efficiencies and accelerate business agility through improved test design. This solution uses machine learning tools for traceability, knowledge clustering and optimization. Clients can access the solution through the Infosys Quality Assurance Workbench, an artificial intelligence based platform built for supporting all leading digital technologies such as Mobile, Internet of Things, and Cloud among others.

Highlights

- Infosys' Business Assurance Store fast forwards the testing lifecycle across industry domains – such as Financial Services, Retail, Insurance, Health Care, Life Sciences, Manufacturing, Telecom, Energy, Utilities, Services and others, using technologies such as Java, .Net, MDM, Mainframe, and Middleware
- The solution covers industry leading products and packages like VisionPLUS, Global Pay Plus (GPP), Calypso, Murex, SAP modules, Oracle EBIS, Warehouse Management System (WMS), among many others, and will provide customers starter kits for specialized testing services like security, Internet of Things, big data, and other validation services
- The solution also has numerous test cases on various regulations and compliances which will ensure extensive risk coverage and help customers adhere to different standards across geographies

Dominique Raviart, IT Services Practice Director, NelsonHall, said, "With Infosys Business Assurance Store, Infosys has invested in a systematic approach for creating a repository of test scenarios, across industries, and across application technology. This repository is part of Infosys' strategy to continue automating the full testing lifecycle, adding its own proprietary IP to complement commercial off the shelf solutions (COTS)."

Ravi Kumar S, President and Deputy Chief Operating Officer, Infosys, said, "Testing has taken a paradigm shift from being an end-of-lifecycle activity to managing user experience in the digital landscape. This solution is about expediting testing and utilizing test cases, built through our years of experience in delivering agility to our customers' businesses. Infosys Business Assurance Store is an endeavor to bring in transformation and fuel automation in the testing space and this solution is testimony of our deep experience of over 15 years."

About Infosys Ltd.

Safe Harbor

Certain statements in this press release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2017. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of the date of this press release. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
