PRESS RELEASE

Infosys and Roland-Garros Partner for Digital Innovation

Strategic partnership aims to reimagine the tennis experience for fans and players globally

Paris – March 20, 2019: Infosys (NYSE: INFY), a global leader in next-generation digital services and consulting, and Roland-Garros, today announced a strategic three-year technology partnership. The collaboration is aimed at enriching the game by providing fans, players and coaches with a completely new experience, leveraging Infosys' expertise in digital technologies such as artificial intelligence, big data & analytics, mobility, virtual and augmented reality.

Bernard Giudicelli, President of the French Tennis Federation, said, "We are truly delighted that Infosys has joined us as a partner of Roland-Garros. This partnership centres around digital innovation, a key pillar of the tournament, and will offer tennis fans an even richer experience. We are convinced that Infosys will help us deliver the tournament's digital transformation objectives to ensure Roland-Garros remains at the cutting edge of technology."

Pravin Rao, Chief Operating Officer, Infosys, said, "Roland-Garros stands for its rich history and culture and today, Infosys is proud to become a part of this heritage. We're excited to partner with Roland-Garros to showcase how digital technologies can enhance the boundaries of this tournament by leveraging data, insights and digital experiences. We are committed to helping Roland-Garros further expand its global following in the physical and the virtual world powered by digital innovation where fans and players alike can experience game-changing innovations."

As part of this partnership, Infosys and Roland-Garros will work on several new digitally enabled experiences. These include:

- **Re-imagined fan experience powered by data and analytics** – An innovative, intuitive and fun user interface and analytics tool to let fans follow live scores, feel the pulse of live matches, delve deeper into match analytics and understand what ultimately influenced the outcome of the match. The tool will be available on the official Roland-Garros website during the tournament.
- **Empowering players and coaches with the power of AI** – Development of an advanced digital platform for players and coaches to study and analyse their game throughout the tournament. This platform will be powered by rich data science and AI-led video analytics to help them understand what's working well and what's not, aid their strategy for upcoming matches and enable decision making.
- **Roland-Garros Fan Engagement amplified with VR & AR** – A highly immersive virtual and augmented reality experiences at the Infosys fan zone will transport fans to the heart of the

tournament, offering them a chance to experience what it is like stepping onto the Philippe-Chatrier court and play tennis on the sacred clay, just like their favourite players.

About Roland-Garros

In the eyes of sports fans, and indeed the general public, the Roland-Garros tournament is an unmissable event that enjoys immense prestige. In 2018 Roland-Garros set new records with more than 480,000 spectators attending the tournament and was broadcast in 224 countries worldwide, confirming the tournament's status as a premium, truly global sporting event. Organized by the French Tennis Federation, Roland-Garros is the only Grand Slam tournament to be played on clay, one of the oldest and most noble surfaces in the history of tennis.

Safe Harbor

Certain statements in this press release are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, including statements concerning our future business opportunities and growth prospects. Such forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2018. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of the date of this press release. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
