# INTERIM CONSOLIDATED MANAGEMENT REPORT

# **01.** Interim Consolidated Management Report

### 1. Analysis of economical-financial performance

2012: Pro-forma data using the equity consolidation method for Indaqua

With a 33% and 18% growth in the African and Latin American markets, respectively, the turnover for the Group in the first quarter of 2014 reached € 488 million (first quarter of 2013: €471 million).

These two markets have increased enormously in importance in the Group's turnover and now represent over 68% (first quarter of 2013: 55%) of the total consolidated turnover. The maintenance of high backlog levels in these markets and the expansion of business in Africa to new countries lead to the expectation of a sustained international development for the Group. Once again it is stressed that this behaviour is in line with the strategic objectives set out in the Strategic Plan for the Group: Ambition 2.0 although the conditions in the markets result in a change to the mix expected with a reduction in the weighting from Europe and a greater contribution from other regions.

2012: Pro-forma data using the equity consolidation method for Indaqua

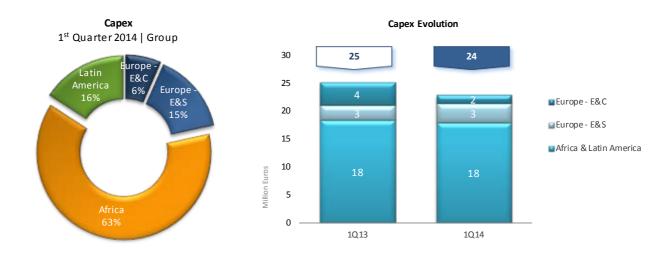

In terms of operational profitability, the period under analysis presented an excellent performance, with EBITDA growing around 22%, i.e., more €13.5 million compared to the first quarter of 2013. This behaviour was, once again, due essentially to the African market (EBITDA margin close to 22%), being also of relevance the margin in Europe over 10%, and maintenance of margin in Latin America at 8%.

## **01.** Interim Consolidated Management Report

As a result the African and Latin American markets increased their contribution to Group operational profitability which now stands at 77% (first quarter of 2013: 64%).

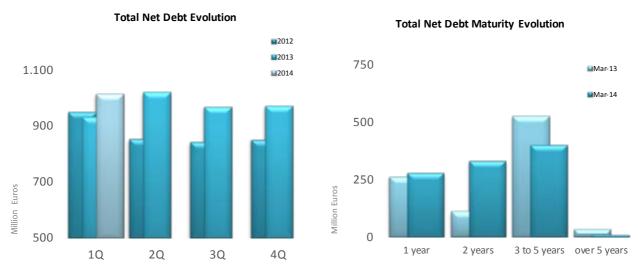

The growth recorded in the consolidated EBITDA to more than 16% in the first quarter of 2014 compares with 13% for the same period in the previous year and is the product of the change in the mix of turnover and margins, having as consequence the reduction of impacts that seasonality usually has in the Group businesses, an aspect that although reasonably transversal, is more evident in the European segment. This margin performance can also be the result of the ability to select projects and the transversal application of best practices in the Group for their execution.

During the first quarter of 2014, consolidated net investment reached €24 million (first quarter of 2013: €25 million), with the African and Latin American markets contributing naturally with the higher amounts (first quarter of 2014 and 2013: €18 million). Assessing total investment by nature, it is evident that expansion investment totalled €11 million (including €10 million in Africa and Latin America) and maintenance investment amounted to approx. €13 million.

# **01.** Interim Consolidated Management Report

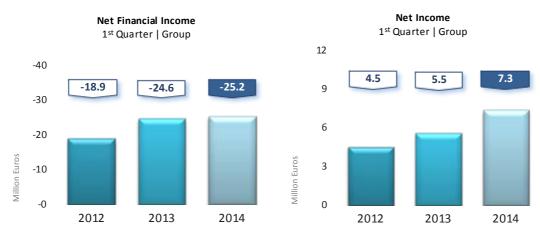

2012: Pro-forma data using the equity consolidation method for Indaqua

In the first quarter of 2014, although with a moderate investment, total net debt increased only €42 million, compared to December 31, 2013. Despite this variation, gross debt reduced about €37 million.

Maturity of Group debt, which in previous years relied heavily in the short term, witnessed in the last quarters a significant increase, remaining stable in the first quarter. From the total net debt, including leasing and factoring, due over one year, at March 31, 2014 was around 70%, i.e. roughly €850 million.

After March 31, 2014 and in line with the strategy of adapting debt maturity, the Group issued new bonds due in five years amounting to €110 million, as well as contracting of new financing lines at 3 and 5 years to reimburse those due for the year, amounting to approx. €124 million.

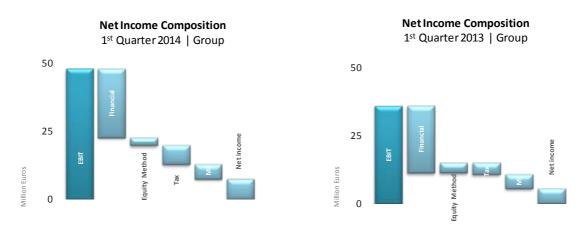

2012: Pro-forma data using the equity consolidation method for Indaqua

## **01.** Interim Consolidated Management Report

For the first quarter of 2014, financial results contributed to the net result of the Group with a negative amount of €25.2 million (first quarter of 2013: negative €24.6 million), representing an increase of 2.5€ of the net financial charges.

As for earnings and losses in associated companies (Equity Method in the diagram), this contributed negatively to the result with €2.8 million (first quarter of 2013: positive €3.6 million). ASCENDI, a sub-holding for the concessions area, contributed in the first quarter of 2014 with €2.9 million for this heading (first quarter of 2013: €4.4 million).

As a result of this operational and financial performance, the net result for the group increased 32.6% to €7.3 million (first quarter of 2013: €5.5 millions).

The backlog, by the end of March 2014, amounted to € 3.9 billion, of which approx. €3.2 billion in external markets, representing around 81% of total. As usual, backlog outside the construction business represents only the service provision contracts for the waste and maintenance segments. The Group does not consider in its order portfolio the expectable income deriving from water and sanitation concession contracts and operation of port terminals exploration.

# **01.** Interim Consolidated Management Report

### 2. Analysis by business area

### Europe

2012: Pro-forma data using the equity consolidation method for Indaqua

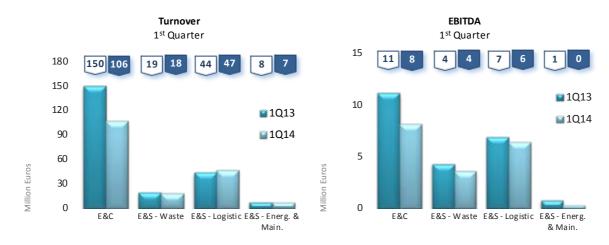

The European business includes the engineering and construction companies together with those in the field of the environment and services which the Group has in Portugal and in Central Europe or which are controlled by the regional management structure. In the area of the environment and services, logistics, re-cycling, water management and power and maintenance are the main business activities.

The turnover for the Mota-Engil Group in Europe reached, in the first quarter of 2014, € 177 million (first quarter of 2013: €220 million), with a reduction of 20% compared to the same period in 2013. This drop comprised a reduction in the engineering and construction areas (-29%) which was not compensated for by the rise in volume for the environment and services. Over all, the environment and services segments achieved a consolidated turnover of € 72 million (first quarter of 2013: €72 million).

The operating profitability obtained in Europe, in spite of maintaining an EBITDA margin (10.4%), saw a drop of around 20% in the absolute value of the indicator to €18.5 million (first quarter of 2013: €23 million), mainly due to the fall-off in business in engineering and construction.

## **01.** Interim Consolidated Management Report

In the first quarter of 2014, the waste disposal business in Europe reached levels identical with those of the previous year in terms of both activity (first quarters of 2014 and 2013: turnover €19 million and €18 million, respectively) as well as in operational performance terms (first quarters of 2014 and 2013: EBITDA €4 million).

The logistics business continues to play a major part in the turnover for the environment and services having grown by 6.8% in comparison with the values obtained last year (€ 46.6 million turnover in the first quarter of 2014, compared to €43.6 million for the same period in 2013) maintaining EBITDA (€6.4 million for the first quarter of 2014 and €6.8 million for the first quarter of 2013). This achievement is the result of all segment companies, operating in a more integrated manner, seeking to respond to the demands of all stakeholders and anticipating the sector movements at global level.

The companies in the field of maintenance and power saw a slight reduction in business while maintaining the same level of EBITDA as a result of their exposure to the national market, being our conviction that it is possible to recover to values similar to those from previous year.

# **01.** Interim Consolidated Management Report

#### **Africa**

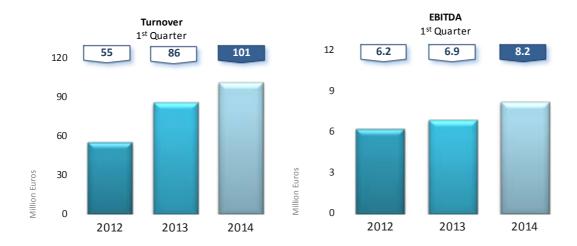

Business in Africa now represents some 47% of the total of the Mota-Engil Group activities (first quarter of 2013: 37%). In the first quarter of 2014, turnover in Africa reached € 231 million with an increase of 33.2% in comparison with the value achieved the previous year of € 173.7 million. The EBITDA for this business increased from 19% in the first quarter of 2013 to 21.7% in the same period for 2014 which, jointly with the increase in turnover resulted in the highly positive out-turn for operating profit and in absolute terms reaching the sum of € 50.3 million (first quarter of 2013: € 33 million)

The order book for the region now stands at € 1,666 million as of March 2014 (December 2013: €1.621) which is the basis for the excellent prospects for growth in Group turnover in the region and denotes a noteworthy capacity for organising and planning which is the only way to attend to the needs of a group of companies in a phase of sustained growth.

## **01.** Interim Consolidated Management Report

#### **Latin America**

In Latin America the Mota-Engil Group is currently focusing its attention on Peru, Mexico, Brazil and Colombia. The region already makes up 21% of the Group's business (first quarter of 2013: 18%). The awards notified in the end of 2013 and early 2014, in the total value of € 900 million lead to the expectation of sustained business growth for the Group in the region in line with the objectives drawn up in the Ambition Strategic Plan 2.0 (2015: Latin America to represent 27% of the Mota-Engil Group turnover).

In the first quarter of 2014, turnover in the region amounted to €101.1 million, which represents a growth of about 17.6% compared to the same period last year (first quarter of 2013: €86 million).

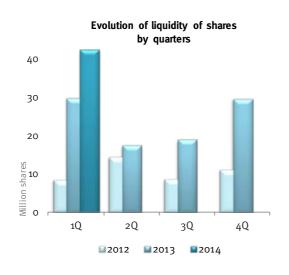

Regarding operational profitability, there was a slight increase from 8% in EBITDA margins for the 1st quarter of 2013, to 8.1% in 2014.

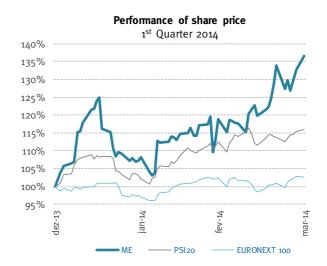

In March 2014, the backlog for the region amounted to €1,348 million.

## **01.** Interim Consolidated Management Report

### 3. Behaviour of shares and dividends

In a context marked by progressive regained credibility of Portugal from external entities, in particular among investors, both for bonds as stocks, shares of Mota-Engil SGPA, SA appreciated 36.5% during the first quarter of 2014, reaching €5.90 on the last day of that period, contrasting with a recovery of 16% of the PSI 20 index. When comparing with the price on the last day of the first quarter last year, the valuation reached 217.5%, significantly higher than the 30.7% appreciation of the PSI 20 index

41.6 million shares were traded during the first quarter of this year compared with 29.25 million in the first quarter of 2013, a performance which was not unconnected the fact that on February 26, 2014, 34,3 million shares of Mota-Engil were sold and placed with institutional investors (11,101,379 own shares and 23,198,621 shares sold by the founder shareholder, Mota Gestão e Participações, SGPS, SA). The purpose of the sale was to increase the free float of the company and therefore to increase the group's visibility in the capital markets.

## **02.** Interm Consolidated Financial Information

The consolidated financial statements are presented in Euro (thousands). The financial statements of the subsidiaries in foreign currency were converted into Euro in accordance with the accounting policies described in subparagraph xv) of the main valuation criteria presented in the 2013 Consolidated Report and Accounts. All estimates and assumptions made by the Board of Directors were based on their knowledge of the events and transaction in course, as at the date of approval of the financial statements.

In preparing the consolidated financial statements, in conformity with IAS/IFRS, the Group's Board of Directors adopted certain assumptions and estimates which affect the reported assets and liabilities, as well as the income and costs incurred relative to the reported periods, which are described in subparagraph xxv) of the main valuation criteria presented in the 2013 Consolidated Report and Accounts.

### 2. Business Segments

The Group uses its internal organization for management purposes and as base for its reporting of information by operation segments. The Group is organized into the following geographical areas: Europe, Africa and Latin America.

Values concerning MOTA-ENGIL SGPS, MESP and Group companies in the Tourism area are included in "Others, eliminations and intra-group", which also included the amounts related to flows and balances between operational segments.

The first three months of 2014 had no materially relevant alterations regarding the consolidation perimeter and therefore the effects over the main headings of the financial and results statements are not presented. The companies included in the consolidation and relevant consolidation methods, head offices, real participation percentages, activity, incorporation date and date of acquisition of shares are those presented in Annex A.

The main alterations occurred in the consolidation perimeter for the period ended March 31, 2014 are referred in Note 10. Perimeter Alterations.

The financial information by operational segments can be analysed as follows:

### 4. Earnings per share

The company issued only common shares and therefore there are no special dividend or voting rights.

There is no situation in the Group which might lead to a reduction of earnings per share as a result of options, warrants, convertible bonds or other rights associated to ordinary shares.

Therefore, there is no dissimilarity between the calculation of basic earnings per share and the calculation of diluted earnings per share.

During the periods ended in March 31, 2013 and 2014 no common shares were issued.

During the periods ended in March 31, 2014, as approved in the General Meeting held December 27, 2013, the Group sold all its own shares (11,101,379 shares) in a private offer (out of the stock market) at 4.65€ per share. As such, Mota-Engil SGPS, S.A. no longer has own shares.

For the periods ended in March 31, 2013 and 2014, the earnings per share were as follows:
