To the Shareholders

Pursuant to the legal requirements, the Board of Directors of Altri, SGPS, S.A. ("Altri") hereby presents its Management Report for the first half of 2024.

MESSAGE FROM THE CEO

The encouraging trends observed at the end of 2023 and beginning of 2024 were affirmed in the first half of the year. We experienced robust demand for cellulosic fibers during the first six months, particularly in Europe and North America.

The trend shift in the latter half of the previous year led to consecutive hikes in BHKP pulp prices, peaking at \$1,440 per ton in May, with an anticipated price adjustment expected soon. Given these circumstances, which contrast sharply with last year's period, Altri Group increased its production by 6.2% and sales in volume by 9.4% in the first half of this year when compared to the same timeframe of the previous year.

With the collective effort of our entire team, we have not only boosted production and sales but also managed to regulate costs effectively. This approach has empowered the Altri Group to conclude the first half of the year with an EBITDA of 124 million Euro, witnessing a substantial rise in the EBITDA margin to 26.8%.

Our teams' efforts led to impressive financial results, with a significant increase in free cash-flow. Our net profit for the quarter was nearly five times that of the same period last year, reaching a profit of 62 million Euro at the semester's close, which is a 121.7% rise from the first half of 2023.

We continue to work every day to pursue this strategy of sustainable growth of the Altri Group. This includes ongoing investments to enhance our operations' efficiency and developing diversification and expansion initiatives across our production units. Notably, we are working on the project of recovery and valorisation of acetic acid and furfural from renewable sources, at Caima, set for completion by end of 2025. Additionally, the Gama Project in Galicia (Spain) is in the process to receive the integrated environmental license. We are developing this process to make the final investment decision.

José Soares de Pina
Altri's CEO

INTRODUCTION

Altri was incorporated in February 2005 and, as a result of relevant and complex acquisitions, namely Biotek, S.A. ("Biotek") and, later, Celbi, S.A. ("Celbi"), industrial units that joined the already owned Caima, S.A. ("Caima"), quickly became known and recognized as a reference European producer of cellulose fibres for paper applications and, more recently, of cellulose fibres for special applications, mainly for the textile sector. It is also a reference player in the renewable forest-based energy sector, namely in industrial cogeneration through black liquor and biomass, insofar as its forestry strategy is based on the full use of all the components provided by the forest: pulp, black liquor and forest waste.

All the shares representing Altri's share capital are admitted to trading on a regulated market - Euronext Lisbon - integrating its main reference index, PSI.

Altri's success is due to a variety of factors, most notably the high level of investment made, especially in recent years - Altri has invested in the last ten years more than 550 million Euro in industrial units in Portugal, equipping them with the most advanced technology available on the global market. Therefore, Altri's industrial units are now national and international references in terms of best practices and environmental compliance.

Altri has three cellulosic fiber mills in Portugal: Celbi, in Figueira da Foz, Biotek, in Vila Velha de Ródão and Caima, in Constância, with an installed capacity of production of cellulosic fibres of more than 1 million tonnes per year in the three units in 2023.

The forest is a strategic asset for Altri. Currently, Altri manages 92.8 hectares of forest in Portugal. Altri's management practices are certified by the main sustainable forest management certification systems, a guarantee that the Group will achieve its goals, now and in the future.

In these lands, eucalyptus stands out as the main crop of Altri's forest, ensuring a self-supply that complements the supply provided by the wood and biomass market. These lands are fully certified by the Forest Stewardship Council® (FSC®) and the Programme for the Endorsement of Forest Certification (PEFC), two of the most renowned certification bodies worldwide.

Although Altri's forests are scattered across the country, they are mostly concentrated in Tejo's valley, a fact that makes them even more relevant due to their proximity to Altri's manufacturing units. This proximity is extremely relevant from the strategic point of view, because it allows optimising transportation costs, while ensuring a greater efficiency in the mobilisation of wood when compared to the production of wood located at farther distances.

The pursuit of Altri's industrial strategy is based on integrated forest management in Portugal, which aims at optimising the forest, guaranteeing that all its components are fully used. Thus, eucalyptus is processed in Altri's mills, producing cellulosic fibers and electricity (cogeneration), while the bark, the branches and the forest waste are used to generate electricity using biomass.

Altri's development strategy is clearly based on the reinforcement of its operational efficiency and, at the same time, on the diversification of the sources of revenue for segments with higher added value and that enable an evolution in the value chain. Thus, in order to comfortably compete in the commodity market, the Group must reduce its operating costs and, on the other hand, invest in the manufacture of products with higher added value, which will allow the Group to grow.

Altri aims to become the most efficient producer of cellulosic fibres on a global scale providing a door-to-door service to its customers.

With this goal in mind, Altri defined four strategic development vectors that focus its activity and future investments:

- Valuing People
- Developing and Valuing the Forest
- Investing in Operational Excellence and Technological Innovation
- Affirming Sustainability as a Factor of Competitiveness

The functional organisational structure of the Altri Group, as of 30 June 2024, is as follows:

THE GROUP’S ACTIVITY

For the production of cellulosic fibers, Altri currently holds three industrial units, Biotek, Caima, and Celbi. Specifically, the main activity of Biotek and Celbi is the production of BEKP (Bleached Eucalyptus Kraft Pulp), mainly used to produce paper for domestic use, printing, and writing. In Caima, although the main activity is similar, dissolving cellulosic fibers DWP (Dissolved Wood Pulp) are produced to be mainly used in the production of manmade cellulosic fibers, such as lyocell and viscose, which are used in the manufacture of textiles.

At the national level, Altri is present in 163 municipalities, managing forest areas which are located there. It is also in three of these municipalities that are located the industrial units, **Biotek** in Vila Velha de Ródão, **Caima** in Constandência, and **Celbi** in Figueira da Foz.

In various geographies where it has areas under management, Altri has also developed Biodiversity Stations (EBIO). EBIO are classified habitat areas with high conservation value, actual or potential. Altri’s work is based on the promotion of natural values in the different geographies so that it can rehabilitate and promote them. It is in the Group's interest to associate species with their habitats, to foster the preservation and improvement of habitats and, consequently, the number and diversity of species.

On a global scale, Altri markets its products in more than 30 countries, mainly the bleached cellulosic fibers (BEKP) and dissolving cellulosic fibers (DWP). The BEKP are predominantly intended for European countries, while DWP's main focus is Asia, especially China, which represents Altri's main market.

STOCK EXCHANGE EVOLUTION

(Note: PSI was regarded as an index with an initial value identical to that of the security under analysis in order to enable a better comparison between share prices)

During the first half of 2024, PSI index appreciated 1.31% over the end of 2023, while Altri Group shares appreciated, in the same period, 17.07%.

Stock Exchange evolution of Altri's shares and PSI (%)

Altri's share price closed in the first half of 2024 at 5.385 Euro per share. The market capitalization at the end of that period was around 1,105 million Euro.

During the first half of 2024, Altri's shares were traded at a maximum price of 5.615 Euro per share and at a minimum of 4.276 Euro per share. In total, around 49 million shares were traded in the first half of the year, which is equivalent to 24% of the share capital issued.

The main events that marked the evolution of the Group's shares in the first half of 2024 can be described chronologically as follows:

Altri's stock exchange evolution

OPERATIONAL AND FINANCIAL PERFORMANCE

Pulp Market

Global demand for pulp during the first five months of 2024 recorded an increase of 3.9% vs the same period of the previous year, while the evolution of demand for Hardwood pulp was more positive, with a 6.3% increase over the same period of the previous year, according to the PPPC (World Chemical Market Pulp Global 100 Report – May 2024).

In regional terms, and focusing on the Hardwood pulp market, which is the most relevant for the Altri Group, we positively highlight Western Europe (+16.9%), Eastern Europe (+22.7%) and North America (+10.5%). Asia, particularly China (+3.7%), showed a slowdown compared to the first quarter of the year, but still has positive figures after a very strong 2023.

One of the relevant factors to assess the balance of demand and supply of pulp in the European market is the level of stock in European ports. As a result of the global destocking trend in the pulp and paper industry's value chain for a great part of 2023, port stocks reached levels well above historical averages, peaking at 1.8 M tons in June 2023. Since September 2023, we have seen a sustained reduction. The year 2023 thus ended with a level of stocks in European ports below the historical average, close to 1.2 M tons, a level that remained similar during the first five months of 2024.

During the 2Q24, the price of the PIX pulp index (BHKP) in Europe continued the upward trend that started on September 2023, ending the second quarter of 2024 at US\$ 1,440/ton. The price of the European PIX pulp index (BHKP) recorded, in average terms, an increase of 21% in 2Q24 vs. 1Q24 in US\$, equivalent to an increase of 22% in Euro. The year-on-year comparison with 2Q23 is higher in around 23% in US\$ and 25% in Euro.

The destocking process we are witnessing in the pulp and paper sector's value chain led to higher volatility in pulp prices during 2023, with a sharp reduction in prices until the summer of that year. Since then, and despite the new capacity of pulp in the sector, several effects have led to a sustained recovery in global pulp prices, namely the normalization of value chains, the recovery of demand in Europe and North America and the maintenance of relatively strong demand in the Chinese market.

Global demand for dissolving pulp (DWP) rose by 5.7% in the first four months of 2024 compared to the same period last year, according to Numera Analytics (Global DP Demand Report - April 2024). It should be remembered that DP is essentially directed at textiles and used mainly in Asia, a region that absorbs around 85% of demand. During 2Q24, DP prices rose by 4% compared to both 2Q23 and 1Q24.

Operational Performance

In half-year terms, pulp production reached 552.1 thousand tons, an increase of 6.2% when compared to 1H23. With the improvement of the level of demand for pulp in global terms and in the European market, the total volume of pulp sales in the 1H24 increased 9.4% to 575.2 thousand tons. In order to optimize management of stocks of finished goods, the Group has been trying to adjust the production levels to the sales estimates, but also taking into account the scheduled downtimes.

The P&W (Printing and Writing) segment regained part of the weight it lost in 2023, but it evolved at a lower level than in 1Q24. Other segments such as Dissolving Pulp, for which the main end use is the textile industry, and Specialties, increased its weight. In regional terms, Europe (including Portugal) accounts for 64% of sales, followed by the Middle East and North Africa with 24%, with Turkey being the main destination in this geographic segment.

Note: Financial information in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS-EU)

During the 1H24, total revenues of the Altri Group reached € 462.7 M, an increase of 8.5% over the 1H23. This increase, as already mentioned, is attributable to a favorable evolution of Hardwood pulp prices, as a result of a more favorable global demand.

EBITDA has reached € 124.0 M in the first half of 2024, an increase of 52.7% vs the 1H23, which corresponds to a margin of 26.8%, which translates into an improvement of 7.8 p.p. when compared to the same period of last year. The Net Profit of the Altri Group in 1H24 reached € 62.0 M, an improvement of 121.7% over the € 28.0 M recorded in 1H23.

The total net investment (i.e., payments in the period relating to acquisitions of property, plant and equipment) made by the Altri Group during the first half reached € 16.2 M, which compares with € 36.2 M in the same period of last year.

The Altri Group's net debt reached € 324.8 M at the end of June 2024, a decrease vs € 339.9 M at the end of March 2024, despite the distribution of a dividend of € 51.3 M during the quarter. This level of debt is equivalent to a Net Debt/EBITDA LTM ratio of 1.8x. The total net debt, (i.e., when adding lease liabilities), was around € 401.7 M at the end of 2Q24. The reduction in the level of debt during the quarter is essentially due to an improvement in the level of EBITDA, to an investment figure below the quarterly average, and to a strict and continuous management of working capital needs. By the end of June 2024, around 34% of the debt of the Altri Group was remunerated at a fixed rate (including interest rate swap contracts).

SUSTAINABILITY

The Altri Group has defined four strategic development vectors that focus its activity and its future investments:

- To Value the People
- Develop and Enhance the Forest
- Focus on Operational Excellence and Technological Innovation
- Affirming Sustainability as a Competitiveness Factor

Based on this strategy, the main sustainability objectives for the Group were identified, in line with the Sustainable Development Goals (SDGs) of the United Nations, and with the expectations of our stakeholders, resulting in the definition of the “2030 Commitment” of the Altri Group. Every quarter we see progress towards a more sustainable Group, of which we highlight:

- ✓ **Sustainalytics rating update** – During the second quarter of 2024, the Altri Group obtained an improvement of its rating with Sustainalytics to 14.5 (from 14.7), maintaining a rating of Low Risk and obtaining a ranking of 8th global company out of 85 companies in the sector of Paper and Forest. A thorough update of the rating prepared by Sustainalytics is expected in the coming weeks.
- ✓ **Various initiatives with the community** – i) Forest Day celebrated at Altri Florestal with various schools in the area; and ii) Association with local authorities and support for beach cleaning in the Figueira da Foz area.
- ✓ **4th Edition of Altri Heart Month** – As part of the Health Literacy program, we promote various internal initiatives dedicated to raising awareness of health issues, particularly cardiovascular diseases. The 4th edition of the Altri Heart Month brought the Altri Walk back to Quinta do Furadouro, promoting physical exercise and the mental health of the participants. Throughout the month, the physical activities carried out by employees were converted into Heart Coins, the value of which will be donated to charitable organizations chosen by the most dedicated participants.

PERSPECTIVES

After a resurgence in the pulp market demand since summer 2023 and a dynamic first half of 2024 across Europe and North America, we could be approaching more stable demand levels. In China, having witnessed an all-time high in 2023 followed by a strong start to 2024, the demand is beginning to level off as the year progresses, likely influenced by a less vigorous local paper market. While Europe and North America are experiencing continued robust demand, it is anticipated to align with the medium-term trends seen in the Chinese market.

The rising pulp prices observed since September 2023 are set against a backdrop of significant capacity expansion in the sector, including China's contribution. As new supply enters the market and temporary disruptions such as port strikes, floods, and fires from 2024 subside, we might anticipate a short-term price correction for pulp. Following continuous monthly announcements of price hikes from September 2023 to June 2024, the benchmark price for BHKP pulp in Europe is now US\$1,440 per ton..

After a fairly significant decrease in costs during 2023, we expect Altri Group's variable costs to remain steady at the levels seen in the first half of 2024. The group will persist in ensuring that costs are managed effectively to maintain robust profit margins.

The Altri Group is focused on developing several projects of diversification and growth, as seen by its project at Caima to recover and valorise acetic acid and furfural from renewable resources, set to conclude by the end of 2025. For the Gama project in Galicia (Spain), the process to receive the integrated environmental license is underway, a crucial move towards the final investment decision.

The Chartered Accountant

The Board of Directors

1. INTRODUCTORY NOTE

Altri, SGPS, S.A. ('Altri' or 'the Company') is a public company incorporated on 1 February 2005, whose head office is located at Rua Manuel Pinto de Azevedo, 818, in Oporto, and its main activity involves managing shareholdings, while its shares are listed at Euronext Lisbon.

Altri is dedicated to managing shareholdings primarily in the industrial sector, as the parent company of the group of companies shown under Note 4 and referred to as the Altri Group. There is no other company above it that includes these consolidated financial statements. The Altri Group's current activities focus on producing cellulosic fibres at three production plants. Faced with this reality, the Board of Directors considers, with reference to 30 June 2024, there is only one business segment, namely the production and commercialization of cellulosic fibers (Note 16).

The Altri Group's condensed consolidated financial statements are presented in Euro, in amounts rounded off to the nearest Euro. This is the currency used by the Group in its operations and, as such, is deemed to be the functional currency. The exchange rates used for the conversion of balances and transactions in currencies other than Euro to Euro were as follows:

	30.06.2024	
	Closing of the period	Average of the period included in the financial statements
Swiss Francs	0.96260	0.96148

2. MATERIAL ACCOUNTING POLICIES AND BASIS OF PRESENTATION

a) Material Accounting Policies

The condensed consolidated financial statements, for the six months period ended on 30 June 2024, were prepared in accordance with IAS 34 – Interim Financial Reporting and include the condensed consolidated statement of financial position, the condensed consolidated income statement, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows, as well as, the selected explanatory notes. These condensed consolidated financial statements do not include all the information required to be published on the annual financial statements, and should, therefore, be read together with the condensed consolidated financial statements of the Altri Group for the financial year ended 31 December 2023.

The accounting policies adopted for preparation of the attached condensed consolidated financial statements were consistently applied during the periods being compared.

b) Basis of Presentation

The Board of Directors assessed the capacity of the Company, its subsidiaries, joint ventures and associates to operate on a going concern basis, based on the entire relevant information, facts and circumstances, of financial, commercial or other nature, including events subsequent to the condensed consolidated financial statements' reference date, as available regarding the future. As a result of the assessment conducted, the Board of Directors concluded that it has adequate resources to keep up its operations, which it does not intend to cease in the short term. Therefore, it was considered appropriate to use the going concern basis in preparing the condensed consolidated financial statements.

The attached condensed consolidated financial statements were prepared based on the accounting books and records of the company, its subsidiaries, joint ventures and associates, adjusted in the consolidation process, in the assumption of going concern basis. When preparing the condensed consolidated financial statements, the Group used historical cost as its basis, modified, where applicable, via fair value measurement of i) biological assets measured at fair value; ii) financial assets measured at fair value; and iii) certain financial instruments, which are recorded at their fair value.

The preparation of condensed consolidated financial statements requires the use of estimates, assumptions and critical judgements in the process of determining accounting policies to be adopted by the Group, with significant impact on the book value of assets and liabilities, as well as on income and expenses for the period. Although these estimates are based on the best experience of the Board of Directors and on its best expectations regarding current and future events and actions, current and future results may differ from these estimates. Areas involving a higher degree of judgement or complexity, or areas with significant assumptions and estimates are disclosed in Note 2.4 of the accompanying notes to the consolidated financial statements of the Group for the financial year ended 31 December 2023.

3. CHANGES IN ACCOUNTING POLICIES AND COMPARABILITY OF THE CONSOLIDATED FINANCIAL STATEMENTS

During the period, there were no changes in accounting policies. Likewise, no material errors were recognised in relation to previous financial years.

The adoption of these standards and interpretations had no relevant impact on the Group's condensed consolidated financial statements.

No new accounting standards or interpretations, with mandatory application in future economic years, have been endorsed by the European Union until the date of approval of these condensed consolidated financial statements.

The following standards, interpretations, amendments and revisions were not endorsed by the European Union at the date of the approval of the condensed consolidated financial statements:

5. CHANGES IN THE CONSOLIDATION PERIMETER

During the six months period ended 30 June 2024 there were no changes in the consolidation perimeter compared to 31 December 2023 (Note 4).

Following the reorganisation operation that led to the separation of Altri's two autonomous business units (the cellulosic fiber sector and the electricity generation sector) and the consequent distribution of Greenvolt shares to shareholders, the remaining interest in Greenvolt was recognised at fair value through other comprehensive income.

During the year ended 31 December 2023, the Altri Group carried out a distribution of Greenvolt shares to its shareholders, followed by a private placement of the remaining shares. Following the conclusion of these operations and as of 31 December 2023, the Altri Group did not hold any interest in Greenvolt's share capital.

In 2023, until the date of completion of these operations in relation to the remaining participation, a reduction of 30.7 million Euro was recognized in the fair value through other comprehensive income of the financial participation that the Altri Group held in Greenvolt.

Thus, the Group's tax returns since 2020 may still be subject to review.
