(1) Includes the 50% holding in Unipress, the 50% holding in SIRS and the 37.37% holding in NOS;

(2) Includes equity method, and fair value adjustments related with NOS, ZAP, AVP funds and other minority stakes, net of taxes.

**Consolidated Turnover** reached €5.1m in 2Q25, slightly below 2024.

**EBITDA** reached €34.3m in 1H25 (€17.5m in the 2Q25), below 1H24, mainly driven by the lower contribution of NOS results through equity method.

**Equity method contributions** decreased from €52.7m to €40.0m in 1H25 (€29.1m to €20.2m in the 2Q25) driven by the lower contribution of NOS net income, which in 1H24 were positively impacted by non-recurring extraordinary effects including the capital gain from the sale of a tower portfolio to Cellnex and gains from favorable legal proceedings.

**Direct Results** decreased to €37.2m in 1H25 (€18.6m in 2Q25), from €50.9m in 1H24, driven by the lower EBITDA level.

**Indirect Results**, were negative by €15.4m in 1H25 (negative by €10.4m in 2Q25), mainly explained by the negative impact from the exchange rate evolution at Bright Pixels' portfolio, which in 1H24 had the opposite impact, despite being offset by some fair value adjustments on Bright Pixel's portfolio.

**Net income group share** stood at €21.4m, below the €49.2m presented in 1H24 (€7.7m in the 2Q25 vs €23.7m in 2Q24), driven by both direct and indirect results evolution.

The **net cash position** stood at €221.3m at the end of 1H25, €54.8m above YE24. This performance was driven essentially by (i) the €23.6m of investments in Bright Pixel's portfolio; (ii) the €77m of dividends received from NOS; (iii) the €8.6m dividend paid; and (iv) the positive operating cash-flow, financial activity and taxes amounting to €9.6m.

## NOS

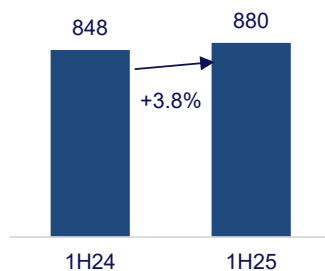

NOS reported its 2Q25 results to the market on July 21<sup>st</sup>, reaffirming its commitment to delivering the best mobile and fixed network infrastructure and the most advanced communication services.

Amid a demanding market context, consolidated revenue grew to €879.6m in 1H25 (€458m in 2Q25) driven by a solid performance of the core Telco business, with a highlight to the significant growth in the corporate segment. Consolidated EBITDA increased to €395.3m in 1H25 (€203m in 2Q25), with all the businesses contributing positively for this performance. Further details are available on the company's website [here](#).

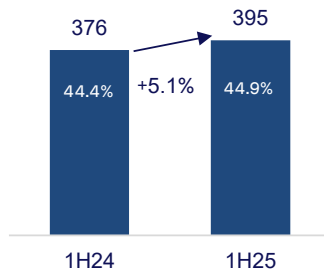

On Sonaecom's consolidated accounts, NOS equity method results reached €40.0m in 1H25 (€20.2m in 2Q25), compared to €52.7m in 1H24 (€29.1m in 2Q24). While operational profitability improved this year, last year's figures were positively impacted by extraordinary gains from the sale of towers and activity fees from ANACOM following a favourable court ruling.

In April, NOS paid an ordinary dividend of €0.35 per share (in line with last year), and an extraordinary dividend of €0.05 per share relating to 2024 results, which resulted in a €77m cash-in for Sonaecom.

## 1.4 Subsequent events

Until the date of approval of this document, no relevant subsequent events that merit disclosure in this report have occurred.

## 1.5 Basis of preparation

The condensed consolidated financial statements for the period ended on 30 June 2025, were prepared in accordance with IAS 34 - Interim Financial Reporting. Consequently, these financial statements do not include all the information required by the International Financial Reporting Standards ("IFRS"), so they should be read with the consolidated financial statements for the year ended at 31 December 2024. The accounting policies and measurement criteria, adopted by the Group on 30 June 2025 are consistent with those used in the preparation of 31 December 2024 financial statements.

The condensed consolidated financial statements of Sonaecom Group were prepared on the assumption of continuity of operations, based on the books and accounting records of the companies included in the consolidation, which were prepared in accordance with the International Financial Reporting Standards ("IFRS") as adopted and effective in the European Union and, based on historical cost, except for the revaluation of certain financial instruments.

## 1.6. New accounting standards and their impact in these consolidated financial statements

During the period there were no changes in accounting policies, except for the adoption of new standards whose application became effective on 1 January 2025 which had no material impact on the Group's condensed financial statements.

The following standards, interpretations, amendments, and revisions have been approved (endorsed) by the European Union, and have mandatory application to the financial years beginning on or after 1 January 2025 and were first adopted in the period ended on 30 June 2025:

Standards	Effective date (for financial years beginning on or after)
<b>IAS 21 – The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability</b>	<b>1-Jan-25</b>
Requirements to determine if a currency can be exchanged for another currency and, when it is not possible to make the exchange for a long period, the options for calculating the spot exchange rate to be used. Disclosure of the impacts of this situation on the entity's liquidity, financial performance, and financial position, as well as the spot exchange rate used on the reporting date.	

The Group concluded that the application of these standards does not produced materially relevant impacts on financial statements.

The following standards, interpretations, amendments, and revisions have been endorsed by the European Union up to the date of approval of these financial statements and are mandatorily applicable in future financial years:

Standards	Effective date (for financial years beginning on or after)
<b>IFRS 7 and IFRS 9 – Amendments to the Classification and Measurement of Financial Instruments</b>	<b>1-Jan-26</b>
Introduction of a new exception to the definition of derecognition date when the settlement of financial liabilities is carried out through an electronic payment system. Additional guidance to assess whether the contractual cash flows of a financial asset are solely payments of principal and interest. Requirement for new disclosures for certain instruments with contractual terms that may alter cash flows. New disclosures about fair value gains or losses recognized in equity in relation to equity instruments designated at fair value through other comprehensive income.	
<b>IFRS 7 and IFRS 9 – Contracts Negotiated with Reference to Electricity Generated from Renewable Sources</b>	<b>1-Jan-26</b>
Regarding the accounting for Power Purchase Agreements (PPAs) for electricity generated from renewable sources with respect to: i) clarifying the application of the 'own use' requirements; ii) allowing hedge accounting if renewable energy contracts are designated as hedging instruments; and iii) adding new disclosure requirements about the entity's financial performance and cash flows.	
<b>Annual Improvements – Volume 11</b>	<b>1-Jan-26</b>
Some clarifications to Standards: IFRS 1, IFRS 7, IFRS 9, IFRS 10, and IAS 7.	

The Group did not proceed with the early adoption of this standard in the financial statements for the period ended 30 June 2025, as its application is not mandatory. No significant impacts on the financial statements are expected from its adoption.

The following standards, interpretations, amendments and revisions were not, until 30 June 2025, approved ("endorsed") by the European Union:

Standards	Effective date (for financial years beginning on or after)
<b>IFRS 18 – Presentation and Disclosure in Financial Statements</b>	<b>1-Jan-27</b>
Presentation and disclosure requirements in financial statements, focusing on the income statement, through the specification of a model structure, with the categorization of expenses and income into operating, investing, and financing activities, and the introduction of relevant subtotals. Improvements in the disclosure of management performance measures and additional guidance on the application of aggregation and disaggregation principles.	
<b>IFRS 19 – Subsidiaries without Public Accountability: Disclosures</b>	<b>1-Jan-27</b>
A standard that only deals with disclosures, with reduced disclosure requirements, which is applied in conjunction with other IFRS accounting standards for recognition, measurement, and presentation requirements. It can only be adopted by 'Eligible' subsidiaries that are not subject to the obligation of public financial reporting and have a parent company that prepares publicly available consolidated financial statements in accordance with IFRS.	

The Group did not proceed with the early adoption of any of these standards in the financial statements for the period ended 30 June 2025, as their application is not mandatory, and is currently in the process of analysing the expected effects of these standards.

## 2. Operational Activity

### 2.1 Segment information

During the periods ended on 30 June 2025 and 2024 were identified the following business segments:

- Media;
- Technologies; and
- Holding activities.

These segments were identified taking into account the following criteria/conditions: the fact that they are units of the group that develop activities where income and expenses can be separately identified, for which separate financial is prepared, their operating results are regularly reviewed by management and decisions are made regarding, for example, allocation of resources, the fact that they have similar products/services and also taking into account the quantitative threshold (as provided in IFRS 8).

The segment “Holding activities” includes the operations carried out by the parent company whose main activity is the management of shareholdings.

Excluding the ones mentioned above, the remaining activities of the Group are classified as unallocated.

Inter-segment transactions during the periods ended on 30 June 2025 and 2024 were eliminated in the consolidation process. All these transactions were made at market prices.

Inter-segment transfers or transactions were entered under the normal commercial terms and conditions that would also be available to unrelated third parties and were mainly related to interest on treasury applications and management fees.

The main information regarding the business segment existing as of 30 June 2025 and 2024, prepared in accordance with the same accounting policies and criteria adopted in the preparation of the consolidated financial statements, is as follows:

	Media		Technologies		Holding Activities		Subtotal		Eliminations and others		Total

## Investment in NOS

The value of the investment held in NOS is measured using the equity method.

At NOS's General Meeting in April 2025, shareholders approved the payment of an ordinary dividend of 0.35 euros per share (in line with the previous year) and an extraordinary dividend of 0.05 euros per share relating to the 2024 financial year. The dividend was paid on 24 April and resulted in a receipt of 77 million euros by Sonaecom.

Sonaecom holds directly 192,527,188 shares in NOS, representing approximately 37.37% of its share capital and 37.65% of the voting rights.

Taking into account the percentage of ownership, directly attributable to Sonaecom, it was analysed in the light of what is described in IFRS 10, whether Sonaecom could exercise control over NOS. From this analysis, it was concluded that Sonaecom does not control the aforementioned company, insofar as it does not hold the majority of the share capital and voting rights of NOS and, that it is not clear that i) it is possible for Sonaecom to make decisions for itself only and ii) that the existence of a majority contrary to its intentions is unlikely. In view of the above and given that Sonaecom has the opportunity to participate in NOS' decision-making processes, we are facing a situation of significant influence, with the respective investment being classified as "Investments in associates" and recorded in Sonaé's consolidated accounts using the equity method.

For the period ended 30 June 2025, it was considered the assumptions used in the impairment tests carried out in 2024 did not have material changes.

## NOS group provisions

The evolution in provisions occurred during the first 6 months of 2025 compared to 31 December 2024 was as follows:

### 1) Legal actions with regulators and Competition Authority (AdC)

Regarding the challenge by NOS, S.A., NOS Açores, and NOS Madeira to the acts of Anacom concerning the assessment of the "Taxa Anual de Atividade", by ruling of 29 October 2024, the Constitutional Court declared the unconstitutionality, with general binding force, of the rules of the aforementioned Ordinance 1473-B/2008, of 17 December, as amended by Ordinance 296- A/2013, of 2 October, insofar as they determine the incidence and the rate to be applied in relation to providers of electronic communications networks and services included in tier 2, for violation of the constitutional reserve of formal law. During the years ended 31 December 2023, 2024, and the half ended 30 June 2025, NOS recognised income of 38.5 million euros, 78.1 million euros and 6.1 million euros, respectively, corresponding to the amount relating to the pending impugnation processes whose assessments were issued under the rules deemed unconstitutional.

Regarding the July 2020 notification from the Competition Authority concerning digital marketing on the Google search engine, in December 2024, NOS was notified by the Competition Authority of a new statement of objections (accusation), reiterating the previous allegations, to which NOS submitted its defence in 2025. The Board of Directors of NOS believes, based on the information available, that it will be able to demonstrate several arguments in support of its defence. It is, however, believed that the outcome of the proceedings should not result in any significant additional impacts beyond those already reflected in NOS's financial statements.

## 2) Action brought by DECO

Trial sessions were held in June and September 2024, followed by the closing arguments phase. The proceedings were subsequently suspended at the request of the parties, with the suspension period expiring without an agreement being reached. At that point, the parties requested a new suspension of the proceedings, and as no decision was issued on the request, final arguments were submitted. The Board of Directors of NOS believes that the claimant's arguments will not be upheld in relation to several categories of customers covered by the case. However, it is believed that the outcome of the proceedings should not result in any significant additional impacts beyond those already reflected in NOS's financial statements.

## 3.2. Financial assets at fair value

### 3.2.1. Through other comprehensive income

As of 30 June 2025 and 31 December 2024, this caption was composed as follows:

	30 June 2025	31 December 2024
Iriusrisk	7,124,896	7,124,896
Others	1,584,560	1,584,560
	<b>8,709,456</b>	<b>8,709,456</b>

As of 30 June 2025, these investments correspond to shareholdings in unlisted companies in which the Group does not have significant influence.

According to IFRS 9 these investments are classified as "Financial Assets at Fair Value Through Other Comprehensive Income" as they are held as long-term strategic investments that are not expected to be sold in the short to medium term and, therefore, have been irrevocably designated as fair value through other comprehensive income. For investments with a maturity of less than a year, their acquisition cost was considered a reasonable approximation of their respective fair value. For investments with a maturity greater than a year, subsequent changes in fair value are presented through other comprehensive income. The fair value of investments is determined in the currency of the country of investment and converted to euros at the end of the reporting period.

### IriusRisk

Investments classified as “Financial Assets at fair Value Through Profit or Loss” in accordance with IFRS 9 are those not irrevocably designated at initial recognition as fair value through other comprehensive income. Also classified under this category are investments in associates held by venture capital organizations or equivalents, where the Group has opted, at initial recognition, to measure at fair value through profit or loss in accordance with IFRS 9. For investments made less than 1 year ago, their acquisition cost was considered a reasonable approximation of their respective fair value. For investments over 1 year, subsequent changes in fair value are presented through profit or loss. The fair value of investments is determined in the currency of the country of investment and converted to euros at the end of the reporting period.
