# Consolidated Management Report

## Activity

Following the sale of the Burger King operations in Portugal and Spain at the end of November 2022, the activity of all Burger King restaurants in 2022 and the restaurants not yet sold in 2023 are reported as "Discontinued Operations" with regards to financial information reporting.

In the third quarter of 2023 and despite the demanding economic context, namely the pressure on purchasing power resulting from high levels of inflation in parallel with the rise of interest rates in the markets in which we operate, the group recorded a growth of 11% compared with the same period of the previous year.

The monthly evolution of performance in the different geographies reflects the comparability since April with more demanding periods without restrictions in 2022 and the impact of expansion, with the opening of new restaurants in Portugal and Spain, registering a gradual slowdown in the pace of growth, with greater incidence in the summer season, traditionally with greater increase in sales.

In Angola, and despite the good performance in local currency, activity was marked by the sharp devaluation of the AKZ against the EUR, (more than 50%), with an impact since June, causing a reduction in activity in Euros.

The evolution of demand forced an effort to absorb the impact on margins, in order to maintain volumes with occasional price increases. Investments in opening new restaurants also contributed to ensuring a growth in "Continuing Operations" of around 22%, in the first nine months of the year, reaching a total turnover of 310.1 million Euros, which compares with 254.4 million Euros in the same period of the previous year.

Despite the slowdown in the growth of the restaurant market in the geographies in which we operate, the group recorded a growth in all segments, particularly the "Counters" and "Concessions and Catering", with a relative performance exceeding 25% and 28%, respectively compared to the same period in the previous year.

The "Concessions and Catering" segment, heavily penalized by the pandemic and after a faster than expected recovery in 2022, showed once again a sharp growth pace, directly related to the increase in traffic passengers at airports where the group operates restaurants.

In Spain, where the group operates restaurants in seven airports, the third quarter of the year has registered a slowdown in the pace of the recovery of the traffic passenger's levels seen in the same period of 2019, with emphasis on Barcelona airport, still 9% below the pre-pandemic levels in this period.

In Portugal, traffic at airports was 14% higher than in 2019, with emphasis on Madeira and Lisbon, with traffic increases of 41% and 10%, respectively.

During the month of May, the operation of the nine concession restaurants at Madrid airport began on a provisional basis, until the conversion to restaurants in the definitive brands and formats are completed, which is expected to begin by the end of this year.

The resumption in traffic and the beginning of operations in new concessions, led to a sharp growth in the first nine months of 28,3%, compared to the same period of 2022, eliminating the effect of Burger King restaurants located in concession areas.

Counter segment of continued operations maintained its good performance, registering a growth of 25.6% compared to the same period of 2022, to which the impact of the expansion, namely of the KFC and Taco Bell brands, which occurred at the end of 2022, contributed decisively.

Restaurants, which reflect the performance of higher ticket concepts and with a greater component of internal delivery service, more exposed to greater competition from aggregators, registered the highest slowdown in growth rates in the quarter, with a growth of 7.6% compared to the same period of 2022.

In Spain, during the first nine months of the year, 7 restaurants were definitively closed (6 of which were franchised), with the opening of eleven restaurants in Spain (nine in a provisional format at Madrid airport and two new restaurants of KFC and Pans). In Portugal, 3 new restaurants, from Pans, Pizza Hut and KFC brands were opened.

Additionally, the new concession contract at Lanzarote airport began, in which the group ensured the maintenance of the operation of the seven restaurants it already operated and an additional restaurant scheduled to open at the beginning of next year.

At the end of the September, the total number of restaurants was 494 (434 equity and 60 franchises), as shown below:

## Consolidated Financial Performance

The robust growth in activity made it possible to mitigate the impact of three important factors on the cost structure:

- i. Food inflation;
- ii. Increased consumer price sensitivity to price;
- iii. Impact of the operation, in temporary formats, of restaurants operated under new concessions contracts at airports in Spain.

The continued operations operating income at the end of the first nine months amounted to 19.2 million Euros, which compares with 14.5 million Euros in the same period of 2022.

Turnover amounted to 310.1 million Euros, 21.9% higher than the 254.4 million Euros in the same period of 2022, with more 8% directly operated restaurants.

Gross margin was 76.2% of turnover, 0.4 p.p. higher than 2022, evidencing the stabilization of raw material prices after the impact of inflation on food products, with a more pronounced impact in the third quarter of 2022.

The increase in salary costs and the beginning of operation of new concessions with lower productivity due to operating in temporary formats, led to a 23.5% increase in Staff costs, with the weight of this cost representing now 30.2% of the turnover (9M22: 29.8%).

External Supplies and services costs increased 10.8%, representing 29.3% of turnover, which represents a reduction in the weight of this item by 2.9 p.p. compared to the same period of 2022. This reduction, results mainly from the application of IFRS16, through the reversal of rents in Menorca (having reached 2019 traffic in 2022) and the new concession contracts of Lanzarote, Madrid and Tenerife (starting in January, May and July respectively).

Other operating income and costs in the total amount of 3.9 million Euros, represent a reduction of 1.5 million Euros compared to the same period of 2022, a difference that is mainly explained by:

- increase in revenues related to contracts with suppliers in the amount of 2.8 million Euros;
- increase in the net cost related with exchange rate differences in the amount of 1.3 million Euros, mainly due to the exchange rate devaluation that occurred from May 2023 in Angola;
- non-recurring compensation, occurring in the same period of 2022, in the amount of 2.6 million Euros.

Amortisation, depreciation and impairment losses of TFA, Rights of Use, Goodwill and IA in the first nine months amounted to 36.5 million Euros, which compares with 25.9 million Euros of the same period of 2022, of which 22.8 million correspond to amortization of rights of use, compared to 14.1 million in the same period of the previous year.

Therefore EBITDA in the first nine months amounted to 55.7 million Euros, an increase of 37.9% compared to the same period of 2022.

Continued operations EBITDA margin stood at 18% of turnover, which compares with 15.9% in the same period 2022.

The new contracts in Lanzarote Madrid and Tenerife airports in 2023 contributed to EBITDA with an amount of 6.0 million Euros, which mainly results from the application of IFRS16 to these new lease agreements. Eliminating this effect would result in a 16.0% EBITDA margin, similar to same period in 2022.

The Financial Results in the first nine months of the year were negative by 7.1 million Euros, 2.3 million Euros higher compared to the same period of 2022.

Financial expenses and losses totalled 10 million Euros, which represents an increase of 4.3 million Euros compared to the same period in 2022. A part of these expenses and losses corresponds to interest with leases in the amount of 7.0 million Euros (3.1 million Euros in the 9M of 2022), of which 3.3 million Euros correspond to leases interest on new contracts at airports.

Net interest supported and commissions related to financing reached a total of 2.1 million Euros, which equals an average debt cost of 4.7%, reflecting the increase in reference rates and fixed commissions inherent to the lines unused.

Profit before taxes in the amount of 12.1 million Euros was penalized by the start of new concession agreements, to operate on a provisional basis at Lanzarote and Madrid airports, which represent a negative impact in the amount of 3.5 million Euros.

## Financial Situation

Total Assets amounted to 673.8 million Euros and Equity stood at 358.6 million Euros, representing 53% of total assets.

CAPEX amounted to 14.3 million Euros. 11 million Euros incurred in the implementation of the expansion program and the remaining were incurred in the remodelling and modernization of restaurants.

A financial investment was made in a capital increase of the Spanish company Medfood, which indirectly operates 31 KFC restaurants in Spain, for an amount of 3 million Euros, with the option of acquiring the entire capital or exiting for the amount invested with monetary correction, a decision that should be taken until the end of this year.

Current liabilities amount to 134.8 million Euros, of which 25.3 million correspond to liabilities for leases and 16.1 million Euros to current loans. Regarding to current loans, the Group has 50 million Euros related to commercial paper and unused contracted credit lines.

## Outlook

---

As expected, there was a slowdown in growth caused by the effects of inflation and the increase in interest rates that took place over the last year to halt the rise in inflation.

The IMF forecasts for 2023 point to a GDP growth of 2.3% in Portugal and 2.5% in Spain, with inflation rates at around of 5%, with a downward trend that is expected to continue in the coming months.

In a context of fragility in household disposable income, in parallel with the increase of tension in the Middle East and the continuation of the conflict in Ukraine, a reduction in the level of consumer confidence and a consequent impact on private consumption is expected. The IMF's most recent forecasts for next year present a growth of around 1.5% of GDP and a scenario of cost inflation.

This trend places increased challenging on our teams and brand portfolio, in order to guarantee the maintenance of volumes and market shares, as well as efforts to minimize the impact caused by the beginning of the conversion of new concession restaurants at Lanzarote, Madrid and Tenerife airports, which will represent increased pressure on profitability, until the conversion of all restaurants into definitive formats and concepts is concluded.

In terms of expansion of our operations, we will continue with the expansion plans for the Pizza Hut, KFC and Taco Bell brands, with the opening of more than ten new restaurants by the end of the year, as well as the start of Pret A Manger operations at three airports in Spain

## 1.2. Ibersol Group's joint ventures and associates

For the periods ended 30 September 2023 and 31 December 2022 the Group owns the associated company Ziaicos - Serviços e Gestão, Lda and the joint venture UQ Consult - Serviços de Apoio à Gestão, S.A., both based in Porto, and included in the consolidation using the equity method, whose proportion of the share capital is 40% and 50% respectively.

In June, a financial investment of 3 million euros was made in a capital increase of the Spanish company Medfood, which indirectly operates 31 KFC restaurants in Spain. It was decided that, subject to certain conditions and the completion of due diligence processes, Ibersol could make an offer to acquire the remaining share capital or opt to exit for the amount invested with monetary correction. This decision should be made by the end of the year.

At 30 September 2023, this investment is measured using the equity method.

## 1.3. Changes in the consolidation perimeter

### Acquisition of new companies

In the nine months period ended 30 September 2023, in addition to the above, there were no acquisitions of subsidiaries

In the year ended 31 December 2022 the subsidiary Food Orchestrator was acquired, by subscription of 83.7% of its share capital.

### Disposals

In the nine months period ended 30 September 2023 there were no disposals of subsidiaries

On 30 November 2022, the Group sold the subsidiaries Iberking, Restauração S.A. and Lurca S.A.U.

### Other changes in the consolidation perimeter

#### Liquidation of subsidiary

With reference to 13 January 2022, the subsidiary Cortsfood, SL was liquidated.

#### Merge of subsidiaries

With reference to 1 August 2022, the subsidiaries Ibersol Hotelaria e Turismo, Asurebi and Eggon were merged into the subsidiary Ibersol Restauração, S.A..

#### Incorporation of subsidiaries

With reference to 30 December 2022, the subsidiary IBERESPANA CENTRAL DE COMPRAS A.I.E., a purchasing center in Spain, was constituted, which will replace PANSFOOD, FOODSTATION, VIDISCO Y LURCA UTE, extinguished on 31 December 2022.

## 2. Basis of preparation of the financial information

### Introduction

The amounts related to the Burger King operation, concerning both the restaurants already sold and the restaurants to be transferred under this operation ("carve ins") are presented in the consolidated statement of income and other comprehensive income as "discontinued operations". The comparatives for the year 2022 have also been restated to include the Burger King activity as discontinued operations.

### 2.1. Bases of presentation

#### 2.1.1. Approval of the financial statements

The financial statements were approved by the Board of Directors and authorized for issue on 27 November 2023.

#### 2.1.2. Accounting standards

These condensed consolidated interim financial statements were prepared in accordance with International Standard 34 - Interim Financial Reporting, and therefore do not include all the information

required by the annual financial statements, and should be read in conjunction with the company's financial statements for the period ending 31 December 2022.

The interim consolidated financial statements have been prepared in accordance with the historical cost principle.

The Group's Consolidated Financial Statements have been prepared in accordance with the same accounting principles and policies adopted by the Group in the preparation of the annual financial statements, except for the adoption of new standards, amendments and interpretations with mandatory application from 1 January 2023, and essentially including an explanation of the events and changes relevant to an understanding of the variations in the Group's financial position and performance since the date of the annual report. Accordingly, the accounting policies and part of the notes contained in the 2022 financial statements have been omitted, either because they have not changed or because they are not materially relevant to understanding these interim financial statements.

### 2.1.3. Measurement basis

The consolidated financial statements were prepared on a going concern basis, under the historical cost convention, changed to fair value in the case of derivative financial instruments.

The preparation of the financial statements requires estimates and management judgments.

### 2.1.4. Comparability

The consolidated financial statements are comparable in all material respects with the prior year, considering the effects of the restatement arising from what was referred to in the Introductory Note.

### 2.1.5. Presentation currency and transactions in foreign currency

#### 2.1.5.1. Presentation currency

The Financial Statements of each of the Group's entities are prepared using the currency of the economic environment in which the entity operates ("functional currency"). The consolidated Financial Statements are presented in Euros, which is the Ibersol Group's functional and presentation currency.

The foreign currency exchange rates used to convert transactions and balances expressed in Kwanzas at 30 September 2023 and 31 December 2022, were respectively:

| Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting policies           | <p>Following feedback that more guidance was needed to help companies decide what accounting policy information should be disclosed, the Board has today issued amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements.</p> <p>The key amendments to IAS 1 include: i) requiring companies to disclose their material accounting policies rather than their significant accounting policies; clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.</p> <p>The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are consistent with the refined definition of material: "Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements".</p> | 1 January 2023      |
| Amendments to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates             | <p>The IASB has issued amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to clarify how companies should distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates.</p> <p>The amendments introduce a new definition for accounting estimates: clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.</p> <p>The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The effects of changes in such inputs or measurement techniques are changes in accounting estimates.</p> <p>The amendments are effective for periods beginning on or after 1 January 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.</p>                                                                                                                                                                        | 1 January 2023      |
| Amendments to IAS 12: deferred tax related to assets and liabilities arising from a single transaction                              | <p>The IASB ('the Board') issued amendments to IAS 12 - 'Income Taxes', on 7 May 2021.</p> <p>The amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.</p> <p>In specified circumstances, companies are exempt from recognising deferred tax when they recognise assets or liabilities for the first time. Previously, there had been some uncertainty about whether the exemption applied to transactions such as leases and decommissioning obligations—transactions for which companies recognise both an asset and a liability. The amendments clarify that the exemption does not apply and that companies are required to recognise deferred tax on such transactions. The aim of the amendments is to reduce diversity in the reporting of deferred tax on leases and decommissioning obligations.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                          | 1 January 2023      |

The standard introduces significant changes to the way in which the performance of insurance contracts is measured and presented with various impacts also at the level of the financial position. The standard expected to be effective for annual periods beginning on or after 1 January 2023</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 1 January 2023 |
| Amendments to IFRS 17 - Insurance contracts: Initial Application of IFRS 17 and IFRS 9 - Comparative Information | <p>The International Accounting Standards Board (IASB) has issued a narrow-scope amendment to the transition requirements in IFRS 17 - Insurance Contracts, providing insurers with an option aimed at improving the usefulness of information to investors on initial application of the new Standard.</p> <p>The amendment does not affect any other requirements in IFRS 17.</p> <p>IFRS 17 and IFRS 9 Financial Instruments have different transition requirements. For some insurers, these differences can cause temporary accounting mismatches between financial assets and insurance contract liabilities in the comparative information they present in their financial statements when applying IFRS 17 and IFRS 9 for the first time.</p> <p>The amendment helps insurers to avoid these temporary accounting mismatches and, therefore, improve the usefulness of comparative information for investors.</p> | 1 January 2023 |

| Clarification requirements for classifying liabilities as current or non-current (amendments to IAS 1 – Presentation of Financial Statements) | <p>IASB issued on 23 January 2020 narrow-scope amendments to IAS 1 Presentation of Financial Statements to clarify how to classify debt and other liabilities as current or non-current.</p> <p>The amendments clarify an IAS 1 criteria for classifying a liability as non-current: the requirement for an entity to have the right to defer the liability's settlement at least 12 months after the reporting period.</p> <p>The amendments aim to:</p> <ol style="list-style-type: none"> <li>specify that an entity's right to defer settlement must exist at the end of the reporting period and have substance;</li> <li>clarify that covenants with which the company must comply after the reporting date (i.e. future covenants) do not affect a liability's classification at the reporting date. However, when non-current liabilities are subject to future covenants, companies will now need to disclose information to help users understand the risk that those liabilities could become repayable within 12 months after the reporting date; and</li> <li>clarify the requirements to classify the liabilities that an entity will settle, or may settle, by issuing its own equity instruments (e.g. convertible debt).</li> </ol>                                                                                                                                                        | 1 January 2024      |

This means that it will need to identify and re-examine sale-and-leaseback transactions entered into since implementation of IFRS 16 in 2019, and potentially restate those that included variable lease payments.</p> | 1 January 2024      |

| Amendments to IAS 12 – International Tax Reform – Pillar Two Model Rules | <p>On 23 May 2023, the IASB issued International Tax Reform—Pillar Two Model Rules – Amendments to IAS 12 to clarify the application of IAS 12 Income Taxes to income taxes arising from tax law enacted or substantively enacted to implement the OECD Pillar Two model rules.</p> <p>The amendments introduce:</p> <ul style="list-style-type: none"> <li>- A mandatory temporary exception to the accounting for deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and</li> <li>- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.</li> <li>- The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after 1 January 2023, but not for any interim periods ending on or before 31 December 2023.</li> </ul> | 1 January 2024 |

The adoption of the standards and amendments endorsed by the European Union and of mandatory application for annual periods beginning on or after 1 January 2023 did not result in significant impacts on the consolidated financial statements.

The adoption of the new standards and interpretations already endorsed by the EU and of mandatory application on 1 January 2024, as well as of the new standards and interpretations not yet endorsed by the EU is not expected to have a material impact on the Group's consolidated financial statements.

## 3. Operational Risk Management

### 3.1. Risks of the global context

The Ibersol Group attaches particular importance to the global geopolitical context, namely, changes in the global supply chains of food products, which have consequences on the operations and profitability of the business.

The upward trend in energy and fossil fuel prices, which induce food prices increases, also affect the profitability of business in the restaurant sector.

### 3.2. Risks of development and franchise agreements

In previous years, the Group signed development contracts with Taco Bell and KFC (for Portugal and Spain). During 2022 a new development contract was signed with the Pret a Manger brand.

These development contracts guarantee the right and obligation to open new restaurants (in exceptional circumstances, such as the pandemic crisis, readjustments to the development programs were agreed upon). In case of non-fulfillment of the opening plans foreseen in these contracts the franchisors may terminate the respective development contracts.

In addition, the development agreements provide for requirements and conditions to be met prior to the sale of the controlling interest of the subsidiary that operates the agreement, the issuance of capital instruments and/or change of control in those subsidiaries, as well as the sale of the business or restaurants owned by said subsidiaries, which include, among others: the prior agreement of the franchisors, information obligations and several transfer procedures, possible payment of charges or fees, as well as the right of first refusal in favor of the franchisors. The franchise contracts in relation to

some international brands foresee the possibility of termination in case of change of control of Ibersol SGPS, S.A. without the franchisor's prior agreement.

In the restaurants where it operates with international brands, the group enters into long-term franchise contracts: 10 years in the case of Pizza Hut, Taco Bell and KFC and up to 12 years in the case of Prêt A Manger, renewable for another 10 years at the franchisee's option, as long as certain obligations are met.

It has been the practice for these contracts to be renewed upon expiration. However, nothing obliges franchisors to do so, so there may be the risk of non-renewal.

In these contracts it is normal to pay an "Initial Fee" at the beginning of each contract and a "Renewal Fee" at the end of the initial period, in addition to an operating and marketing royalty on sales made.

### 3.3. Quality and food safety risks

Ibersol Group's quality department is responsible for identifying and ensuring control of food quality and safety risks. Thus, various prevention and control measures are implemented for different areas of the Group's business. In this context, some measures stand out, such as: ensuring the implemented Traceability System and the control of the Production Process in the units, through the HACCP (Hazard Analysis & Critical Control Points) System.

### 3.4. Price Risk

Significant changes in commodity prices are largely reflected in the selling prices of products and monitored by the market. However, when commodity price increases are much higher than general inflation, these changes are gradually impacted in selling prices, and in the short term there may be a degradation of the gross margin.

## 4. Operational Performance

### 4.1. Revenue

The revenue from contracts with customers is presented as follows:

After a start to the first half of the year with robust growth in continuing operations, still due to the impact of the Omnicrom variant in the first quarter of 2022, in the second quarter of 2023, despite the

challenging economic context, the group recorded a positive performance across the portfolio of brands and geographies in which it operates.

## 4.2. Segment reporting

Ibersol's Management monitors the business based on the following segments:

Supplementary income essentially derives from revenues related to contracts with suppliers and franchisees (Eat Out group).

Due to the devaluation of the Angolan currency as of May 2023, net charges for exchange rate differences increased by 1.3 million euros compared to the same period in 2022.

A indemnity was received in the amount of 618,320 euros relating to the fire at the Alicante airport (amounts recorded under compensation), and that resulting from the compensation agreement associated with the purchase of the EatOut group in Spain, in the amount of 2 million euros.

## 5. Working Capital

### 5.1. Accounts receivable

The Group's main activity is the operation of restaurants of various own brands and franchises, and the preferred mode of payment of its sales is cash, debit card or other type of card, for example, meal card. With the emergence of sales platforms for home delivery, sales collected through the intermediary are gaining expression. The largest volume of credit results from delivery activity through Aggregators, catering sales, although the model of payment in advance is implemented for most customers, as well as the supply of goods and debit of royalties to franchisees.

At 30 September 2023 and 31 December 2022, the accounts receivable item breaks down as follows:

The value of 2022 decreases essentially corresponds to the effect of the sale of Burger King, in the amount of 88,941,949 euros. The transfer to discontinued operations respects Burger King restaurants located in concessions, essentially Service Areas, whose sale will be completed by the end of 2023.

The value of tangible assets in progress in the amount of €3.9M refers to investments incurred for future openings.

## 6.4. Right of use assets

### Changes in right of use assets

During the nine months period ending in 30 September 2023 and in the year ending 31 December 2022, the movement in the value of the rights of use, as well as in the respective amortization and accumulated impairment losses, is presented as follows:

The value of the increases essentially corresponds to the new lease contracts at Madrid, Lanzarote, Tenerife and Malaga Airports, for which the incremental rate updated with current market conditions was used. And also the effect of remeasurement of contracts by rent updates by the Consumer Price Index and other changes in expected lease payments.

The value of 2022 decreases refers essentially to the effect of the sale of Burger King, in the amount of 65,725,852 euros.

## 6.5. Depreciation, amortization and impairment losses on non-financial assets

### Judgments and estimates

The complexity and level of judgment inherent to the model adopted for the calculation of impairment and the identification and aggregation of cash generating units (CGU's) implies considering this topic as a significant accounting estimate.

For the purposes of impairment tests, the recoverable amount is the higher of the fair value of an asset less costs inherent in its sale and its value in use. The recoverable amount of CGU's derives from assumptions related to the activity, namely, sales volumes, operating expenses, planned investments, refurbishment and closure of units, impact of other market players, internal Management projections and historical performance.

These projections result from the budgets for the following year and the estimated cash flows for a subsequent four-year period reflected in the medium-long-term plans approved by the Board of Directors.

Sensitivity analyzes were also performed on the main assumptions used in the base calculation, as shown below.

Restaurants with signs of impairment are tested, considering operating results less amortization, depreciation and impairment losses of tangible fixed assets, intangible assets and goodwill, as well as other cash-generating units whenever circumstances determine or unusual facts occur.

The negative profitability of the stores is an indication of impairment, and the subsequent impairment analysis considers the projected cash flows of each store. In cases of recent openings, such initial negative profitability may not be representative of the expected profitability pattern for that store and may not constitute an indication of impairment if such behavior was expected for that period.

When an asset has an operating performance that exceeds the projections that previously supported the recording of an impairment loss, such loss is reversed to the extent that the value in use based on the updated projections exceeds the carrying amount.

The assumptions for analyzing impairment of tangible fixed assets, intangible assets, rights of use and goodwill used in the preparation of the financial statements as of December 31, 2022, remain valid and there have been no changes to the underlying facts and circumstances. No relevant signs were identified that would indicate the need to carry out new impairment tests in the first six months of 2023.

Expenses with depreciation, amortization and impairment losses on non-financial assets in the nine months period ending in 30 September 2023 and in the year ending 31 December 2022, were as follows:

## 6.6. Investment Property

The investment properties, which at 30 September 2023 and 31 December 2022 which total 12,914,819 euros and 8,470,400 euros, respectively, relate to real estate assets where 9 Burger King restaurants operate. These assets were subject to a lease agreement with Burger King Portugal.

Based on the terms of negotiation for the sale of Burger King, the Group estimates that the fair value of these assets amounts to approximately 13.4 million euros.

## 7. Financing

### 7.1. Equity

#### 7.1.1. Share capital

As decided at the Annual General Meeting of May 26, 2023, in June 2023 the company reduced the share capital from 46,000,000 euros to 42,359,577 euros, by extinguishing 3,640,423 own shares, to release excess capital.

At 31 December 2022, Ibersol's share capital was fully subscribed and paid up, represented by 46,000,000 registered shares with a nominal value of 1 euro each.

#### 7.1.2. Own shares

In 2023, the Group extinguished 3,640,423 own shares acquired for 11,410,227 euros, as per note 7.1.1, and acquired 296,413 own shares for 2,027,844 euros, starting the Buyback Program approved at the last General Meeting.

At the end of the period, the company held 296,413 own shares acquired for 2,027,844 euros.

#### 7.1.3. Dividends

At the Annual General Meeting of May 26, 2023, it was decided to grant gross dividends of 0.70 euros per share (0.135 euros in 2022), corresponding to a value of 29,651,704 euros (5,724,002 euros in 2022) for the outstanding shares, payment for which was made on June 20, 2023.

#### 7.1.4. Earnings per share

At 30 September 2023 and 2022, basic and diluted earnings per share were calculated as follows:

|                                                       | 2023       | 2022       |

As there are no preferred voting rights, basic earnings per share equals diluted earnings per share.

## 7.2. Bank Debt

At 30 September 2023 and 31 December 2022 current and non-current borrowings had the following detail:

|                         | Sep/ 23           | Dec/ 22           |
|-------------------------|-------------------|-------------------|
| <b>Non-current</b>      |                   |                   |

| <b>Current</b>          |                   |                   |
| Bank overdrafts         | -                 | -                 |
| Bank loans              | 4 536 212         | 12 274 609        |
| Commercial paper        | 11 610 127        | 11 572 417        |
|                         | <b>16 146 339</b> | <b>23 847 026</b> |
| <b>Total borrowings</b> | <b>29 969 134</b> | <b>70 081 886</b> |

For Commercial Paper Programs, when there is a termination date, we consider maturity on that date, regardless of the terms for which they are contracted.

There are commercial paper financing agreements that include cross default clauses. Such clauses refer to contractual non-compliance in other contracts or tax non-compliance, in which case it does not occur.

Some of the bank loans include Financial Covenants, which are being complied with.

The interest rate in force on 30 September 2023 for PPC and borrowings was on average around 4.2% (2.55% on 31 December 2022). Borrowings indexed at variable rates are indexed to Euribor.

The Group had 50 million euros relating to commercial paper and unused contracted credit lines.

### Changes in bank debt

Movements in the nine months period ending in 30 September 2023 and in the year ending 31 December 2022 under current and non-current loans, except for finance leases and bank overdrafts, are presented as follows:

Lease payments include 19,152,216 euros (24,317,016 euros in 2022) of principal and 6,988,441 euros (8,082,545 euros in 2022) of interest.

### 7.4. Treasury Bonds

Ibersol Angola operates with a large component of imports that generate liabilities in foreign currency. In order to reduce the exchange rate risk and face Kwana variations, the company adopted the policy of holding assets indexed to the USD in an amount, at least, of the same order of magnitude as the liabilities.

In addition to holding USD-indexed Treasury Bonds, the company acquired non-adjustable Treasury Bonds (denominated in AKZ) for the financial application of surpluses.

The amount of financial assets refers to investments in Treasury Bonds of the Angolan State. The separation by maturity is as follows:

|                               | Sep/ 23          |                |                  | Dec/ 22        |                  |                  |
|-------------------------------|------------------|----------------|------------------|----------------|------------------|------------------|
|                               | Current          | Non current    | Total            | Current        | Non current      | Total            |
| Angolan Treasury Bonds        | 1 128 942        | 705 355        | 1 834 297        | 607 662        | 2 771 741        | 3 379 403        |
| Accumulated impairment losses | -72 244          | -81 022        | -153 266         | -15 937        | -294 608         | -310 545         |
| <b>TOTAL</b>                  | <b>1 056 698</b> | <b>624 333</b> | <b>1 681 031</b> | <b>591 725</b> | <b>2 477 133</b> | <b>3 068 858</b> |

As there has been no significant increase in credit risk since the initial recognition of Treasury Bonds, expected losses within a period of 12 months were considered.

The indices used for Probability of Default and Loss Given Default of Angolan Treasury Bonds are in accordance with Moodys and S&P publications, the probability of default considered was 7.9% and the loss given default considered to be 59%.

## 7.5. Cash and Bank deposits

At 30 September 2023 and 31 December 2022, the breakdown of cash and cash equivalents was as follows:

|                                                             | Sep/ 22            | Dec/ 22            |

|              | 2 624 648  | 2 343 439 |

At 30 September 2023 the effective tax rate is 22%.

## 8.1.2. Current tax recognized in the statement of financial position

### 8.1.2.1. Income tax recoverable

At 30 September 2023, the amount of tax on income to be recovered amounts to EUR 29,039 (EUR 109,587 in 2022), as follows:

|          | Sep/ 23 | Dec/ 22 |
|----------|---------|---------|
| Spain    | 29 039  | 31 557  |
| Portugal | -       | 78 030  |
|          | 29 039  | 109 587 |

### 8.1.2.2. Income tax payable

At 30 September 2023 and 31 December 2022, the amount of tax payable breaks down as follows:

|          | Sep/ 23   | Dec/ 22 |
|----------|-----------|---------|
| Portugal | 2 457 437 | -       |
| Angola   | 170 018   | 406 730 |
| Others   | -         | 7 135   |
|          | 2 627 455 | 413 865 |

## 8.2. Deferred taxes

### 8.2.1. Deferred tax assets

At 30 September 2023 and 31 December 2022 the detail of deferred tax assets, according to the jurisdiction, is as follows:

|                                                                       | Sep/ 23    | Dec/ 22    |
|-----------------------------------------------------------------------|------------|------------|

|                                                                       | 11 977 278 | 9 989 258  |

#### Deductible temporary differences (IFRS 16)

Deferred taxes resulting from a temporary difference by applying IFRS16 in the Group's consolidated accounts, not applicable in the statutory accounts of the subsidiaries in Spain and Angola.

#### Homogenization of tangible fixed assets and intangible assets

Deferred taxes corresponding to the difference between the net value of fixed assets considered in the individual financial statements of the subsidiaries and the net value they contribute in the consolidated.

#### Tax losses carried forward

In the analysis of the recoverability of deferred tax assets, the Group took into consideration the best estimates of future taxable income projections and the existence of taxable temporary differences against which tax losses, tax credits and deductible temporary differences can be utilized.

Business plans were prepared which, considering the Spanish taxation rules and the specificities of the group of companies, formed the basis for the recoverability assessment. The business plans were approved by management and are based on projections from external entities, such as Eurocontrol in the case of traffic, as well as being consistent with the business plans that served as the basis for the impairment analyses of the Group's assets.

## 8.2.2. Deferred tax liabilities

The detail of deferred tax liabilities at 30 September 2023 and 31 December 2022, according to the jurisdiction and temporary differences that generated them, is as follows:

| Deferred tax liabilities                                              | set/ 23    |           |            | Dec/ 22    |           |            |

### Homogenization of tangible and intangible fixed assets

Deferred taxes that correspond to the difference between the net value of tangible and intangible fixed assets considered in the individual financial statements of the subsidiaries and the net value they contribute in the consolidated.

### Other temporary differences

The amount of other temporary differences refers, essentially, to unused tax benefits. As of 31 December 2022 there are 117,600 of tax benefits associated with the capital increase and 2,975,669 of tax benefits not deducted, to be used in following years. 2,676,201 of RFAI of the year 2022 and 299,468 of CFEI II (165,283 deductible until 2025 and 134,185 until 2026, inclusive). It should be noted that these credits have a reporting period of 10 tax periods, a period whose counting was suspended during the 2020 tax period and during the following tax period, under Law 21/2021, of April 21.

## 9. Other Provisions and Contingencies

### 9.1. Contingent assets and liabilities

The Group has contingent liabilities related to its business (relating to licensing, advertising fees, hygiene and food safety and employees), and Ibersol's success rate in these processes is historically high. It is not estimated that these contingent liabilities will represent any relevant liabilities for Ibersol.

A lawsuit was filed against a subsidiary of the Eat Out Group in Spain for alleged breach of non-competition agreements in the amount of approximately 11.7 million euros. The Board of Directors, supported by the position of the lawyers that are following the process, considers that this situation represents a contingent liability. In addition, it should be noted that the lawsuit concerns facts that occurred before the acquisition of this subsidiary by the Ibersol Group, and is therefore covered by the clauses of responsibility and guarantees provided for in the agreement for the purchase and sale of shares of the Eat Out Group, with a right of return. There is already a decision in favor of Ibersol, and we are awaiting a definitive outcome.

The agreement for the sale of the Burger King operation includes indemnity clauses in the event of the verification of certain conditions attributable to the sold entities and on events prior to the sale date (30 November 2022).

## 10. Commitments not included in the consolidated statement of financial position

Commitments undertaken and not included in the consolidated statement of financial position include bank guarantees given to third parties and contractual commitments for the acquisition of fixed tangible assets.

### 10.1. Guarantees

At 30 September 2023 and 31 December 2022, the liabilities not reflected in the balance sheet by the companies included in the consolidation are comprised mainly of bank guarantees provided on their behalf, as follows:

|                 | set/ 23    | Dec/ 22    |
|-----------------|------------|------------|
| Bank Guarantees | 37 508 037 | 38 674 924 |

At 30 September 2023 the bank guarantees are detailed, by type of coverage, as follows:

| Concessions and rents | Other supply contracts | Fiscal and legal proceedings | Other     | Other legal claims |
|-----------------------|------------------------|------------------------------|-----------|--------------------|
| 30 996 941            | 20 683                 | 61 682                       | 6 408 000 | 20 731             |

The bank guarantees arise mainly from the concessions and rents of the Group's stores and commercial spaces, and may be executed in the event of non-compliance with lease contracts, namely for non-payment of rents.

The relevant amount derives from the guarantees required by the owners of spaces under concession (ANA Airports and AENA Airports, in Spain) or leased (some malls and other locations) in concessions and rents, of which 26,936,000 euros with AENA Airports.

In other guarantees, and following the sale of the Burger King units, the Group provided a bank guarantee of 6.4 M to BK Portugal, S.A., to cover the asset relating to existing receivables at IberKing and unused at the date of the transaction, regarding CFEI II and RFAI, for a period of 5 years with decreasing annual values.
