

Extraordinary Announcement of 4iG Plc.
on concluding non-binding Memorandums of Understanding

4iG Public Limited Company (hereinafter referred to as: “4iG”) hereby informs the participants of the capital market that today three non-binding Memorandums of Understanding were signed between 4iG Space and Defence Technologies Private Limited Company (hereinafter referred to as “4iG S&D”) - a member of 4iG Group - and EDGE Group PJSC (hereinafter referred to as “EDGE”).

The Parties concluded a non-binding Memorandum of Understanding in order to provide a supplementary framework to further enhance the areas of cooperation (UAS, CUAS and Space solutions) set out in the MoU signed on 9 April 2025 between the Parties. The collaboration would aim to expand both EDGE's and 4iG S&D's technological and business capabilities in Central and Eastern Europe and Africa.

The Parties signed today another non-binding Memorandum of Understanding to express their shared intent to collaborate in the fields of co-development, production, enhancement and joint business development of unmanned aerial vehicles and advanced air defence systems in Europe and to explore the opportunity for creating a joint venture in Hungary. The Parties intend to explore the viability and feasibility of joint activities regarding the production, further co-development, and enhancement of the Shadow 25/50 Unmanned Aerial Vehicle and the SkyKnight system in Hungary, as well as identifying potential sales opportunities for the respective systems.

The Parties entered into the third non-binding Memorandum of Understanding to identify potential collaboration opportunities in connection with the applicability and enhancement of the VEGA system (Unmanned Traffic Management System) and the ORION system (Drone Fleet Management system) in Hungary.

EDGE is a leading technology group in the UAE, with 35 portfolio companies developing agile, innovative and disruptive solutions for the defence and other industries. Its mission is to transform everyday life, foster a safer future and make UAE a global hub for the industries of tomorrow. EDGE has a particular focus on the application of technologies of the Fourth Industrial Revolution (4IR), including autonomous capabilities, cyber-physical systems, advanced propulsion systems, robotics and smart materials.

4iG Space and Defence Plc. is a stand-alone holding company covering the space and defence industrial interests of the 4iG Group with the aim to enter the global market in the fields of satellite development, manufacturing and operation, satellite services, UAS manufacturing, counter UAS development and defence digitalization services.
