**International Hotel Investments p.l.c.**  
**Interim Financial Statements**  
**For the period from 1 January 2025 to 30 June 2025**

**Directors' Report**

**Six-month period ended 30 June 2025**

**Basis of Preparation**

The published figures for the reporting period have been extracted from the unaudited consolidated financial statements of International Hotel Investments p.l.c. ("the Group") for the six months ended 30 June 2025 and the comparative period in 2024. Comparative balance sheet information as of 31 December 2024 has been extracted from the audited financial statements of the Group for the year ended on that date. This report is being published in terms of Capital Markets Rule 5.74 issued by the Listing Authority and has been prepared in accordance with the applicable Capital Markets Rules and International Accounting Standard 34, 'Interim Financial Reporting'. In terms of Capital Markets Rule 5.75.5, the Directors are stating that this Half-Yearly Financial Report has not been audited or reviewed by the Group's independent auditors.

**Principal Activities**

IHI plc dates its origins to that of its founding shareholder in Malta in 1962. It is engaged primarily in the ownership, development and management of luxury hotels and its proprietary Corinthia brand, but is also involved in related commercial and residential real estate development and project design services. The Company has several subsidiary companies and investments in associate companies through which it promotes the business of the Group.

**Review of Performance**

Significant factors impacting the period under review are the following

- Following a complex redevelopment and re-construction programme, the Corinthia Grand Hotel Astoria in Brussels has been successfully launched as the leading luxury hotel in Belgium. It is already breaking records, achieving the highest room rates in the country, and it is expected to gradually build up occupancy rates over its initial years of operation. The current profitability of the property is, as expected, reflective of an opening and ramp-up phase. The hotel is 50% owned by IHI but is consolidated at 100% in the Profit & Loss Statement.
- C-Rev, the Group's property development arm, has successfully completed the acquisition of two midscale hotels and an adjoining office building in a prime location in Beverly Hills, California, in the United States. Having identified the development opportunity of these buildings and steered the transaction, the Group retains a minority, preferred shareholding in the properties and their future development, alongside blue-chip investors who have come on board. The investors are hotel investment company Action Group of Kuwait and private equity firm The Gores Group of the United States. Part of the funding of the acquisition was raised by way of a Bond issued by the consortium on the Malta Stock Exchange.
- The Group's hotel management arm, CHL Limited, has successfully launched the Surrey, a Corinthia Hotel, in New York, in the United States, and the Corinthia Grand Hotel du Boulevard in Bucharest, Romania. Both hotels are operating at the top end of their respective markets in the luxury segment. Fee income from these hotels will now start accruing to the Group.
- Temporary incidents in downtown Tripoli during the period under review have negatively impacted what was gradually re-establishing itself as a profitable hotel operation. The Group however expects business to return to normal levels of demand for hotel services within a few months. The Tripoli property includes an adjoining office building which remains fully leased to AAA oil sector tenants, which together with the hotel, deliver EBITDA contributions to the Group.

**International Hotel Investments p.l.c.**  
**Interim Financial Statements**  
**For the period from 1 January 2025 to 30 June 2025**

**Directors' Report - continued**

**Period ended 30 June 2025**

- Corinthia London is experiencing challenges in the UK capital due to increased competition resulting from the opening of new competing hotels. On the positive side, however, although room rates in the luxury segment have dropped marginally, Corinthia London has managed to retain its room rates. All other hotel operations, including those owned by the group and others managed by CHL, have increased revenues and profit contributions when compared to the previous year.

Based on these factors and other circumstances, the Group's revenues increased by 10% in the first half of 2025, reaching €149.7 million compared to €135.6 million in the same period last year. When excluding the contributions from the Brussels property, which partially opened in December 2024, and the Beverly Hills hotels, which were leased in March 2025, the comparable year-on-year revenue growth adjusts to 4%.

The Group reports an EBITDA of €20.7 million for the period or a 14% conversion rate. As explained, Corinthia Brussels and the Beverly Hills hotels are still in their early post-opening phases and, are thereby diluting EBITDA contribution. Adjusted EBITDA after removing Brussels and Beverly Hills hotel operations amounts to €25.4 million for 2025 – a conversion rate of 18% and an increase of €2.5 million compared to last year's EBITDA of €22.9 million.

More importantly, the adjusted EBITDA conversion rate of 18% for the first half of the year is stable notwithstanding the continued inflationary pressures on payroll and other costs.

In reviewing the financial results for the first six months of 2025, one should also note the following:

Depreciation and amortisation have increased compared to last year. This increase is driven by the depreciation of the now completed Brussels hotel. This increase is partially offset by the suspension of depreciation on the Lisbon hotel which is now classified as available for sale.

Interest income and expense have marginally increased compared to last year. Interest cost increased by €0.8 million from €21.7million in the corresponding period to €22.5 million on account of further bank loan drawdowns in Brussels to finance the completion of the hotel.

The Group remains focused on debt reduction, through a programme of targeted sales of mature assets, with important developments expected by the year's end.

All the above results in a reported loss after tax of €10.0 million compared to a loss of €10.2 million in the same period last year

The net loss, net of tax, of €7.8 million in the Statement of Comprehensive Income principally reflects the currency translation difference on the Group's non-Euro denominated investments in London and in St Petersburg. The Sterling weakened whereas the Rouble strengthened against the reporting currency of the Group which is the Euro.

**Situation and Outlook**

In line with the Financial Analysis Summary published in June 2025, most hotels are performing better than last year, and the Group is expecting to close the year with increased revenues and EBITDA year on year. In all our hotels and businesses, management remains entirely focused on maintaining tight discipline on all operating costs whilst offering a quality service.

**International Hotel Investments p.l.c.**  
**Interim Financial Statements**  
**For the period from 1 January 2025 to 30 June 2025**

**Directors' Report - continued**

**Period ended 30 June 2025**

All CAPEX remains tightly controlled. As at the end of June 2025, the Group had €89.2 million in cash and bank balances at its disposal.

Through its operating entity Corinthia Hotels Limited, the Company remains focused on a growth strategy that is based on management agreements. Works are now well underway on projects on sites in Rome, Dubai, Doha, Riyadh and Maldives, where Group subsidiary companies are involved as development partners, technical services providers and hotel operators, with practically all the capital funding for these projects being provided by third parties.

The project in Rome, which IHI will lease on its completion, is progressing with a handover date expected at the end of 2025.

In line with our asset strategy, management is continuing with the evaluation of all our assets. We are also actively assessing opportunities to sell non-core or fully mature assets. Net proceeds from such sales of assets would be deployed mostly towards paying down additional debt incurred during the pandemic, as well as a combination of dividends and further investments into new real estate projects.
