

COMPANY ANNOUNCEMENT

Malta International Airport plc (the “Company”)

November Traffic Results

Date of Announcement	12 December 2025
Reference	455/2025
In terms of Chapter 5 of the Capital Market Rules	

QUOTE

Malta International Airport registered 734,791 passenger movements in November. Operations peaked on the first day of the month, as 207 flights carried 33,557 passengers to and from Malta International Airport just in time for families to make the most of the mid-term holidays.

In total, there were 4,973 aircraft movements throughout the month, translating into an increase of 18.5 per cent over the previous year. While seat capacity increased by 21.5 per cent compared to 2024, a strong seat load factor (SLF) of 82.1 per cent was still recorded in November.

A look at the market leaderboard shows some shifts in ranking from previous months. After a seven-month absence from the top three, Poland ranked as the third most popular market in November, behind the United Kingdom and Italy. The rise in the market’s popularity was supported by increased flight frequencies on most Polish routes, including Warsaw, Krakow and Gdansk.

Germany’s marginal growth (0.9 per cent) over 2024 ranked it fourth, while Spain’s double-digit increase (24.2 per cent) pushed it back into the top five after a lengthy absence.

About Malta International Airport

Malta International Airport welcomed 8.96 million passengers in 2024, registering growth of almost 15% over the previous year. A flight schedule that connected the Maltese Islands to 109 destinations was in part the driver of this result.

The Company continued to invest in the airport campus throughout the year, with one of the most significant achievements being the inauguration of four new aircraft parking stands as part of the Apron 8 South project. New CT scanners at the Security Screening Area and the addition of a new baggage reclaim belt were two other noteworthy investments for 2024 that have contributed to an improved airport experience.

The year 2024 was significant in terms of achievements related to sustainability. The Company published its first Net Zero Carbon Plan and satisfied all criteria to be able to progress to Level 3 of the Airport Carbon Accreditation programme. The Company also kick-started works on a new €4 million photovoltaic farm in the last quarter of the year.

A decade of the Malta Airport Foundation, an independently administered non-profit organisation, was celebrated in 2024. The Foundation has been instrumental in supporting different entities in preserving and promoting the Maltese Islands’ cultural, artistic and environmental heritage. Malta International Airport plc is a public company listed on the Malta Stock Exchange, with its shareholders being the Malta Mediterranean Link Consortium (40%), with Flughafen Wien AG owning a 96% share, the Government of Malta (20%), the general public (29.9%), and VIE Malta Limited (10.1%).
