What are the key risks that are specific to the Issuer?

All references to "Group" refer to the Issuer and its subsidiary undertakings.

Current economic and market conditions may adversely affect the Group's results

The Group's earnings are affected by global and local economic and market conditions. In particular, the Group has faced and may continue to face the following challenges to its operations and operating model in connection with these factors: economic uncertainty; geopolitical risks; credit demand; market conditions; and other economic factors. The occurrence of any of these events or circumstances could have a material adverse effect on the Group's business, financial condition, results of operations, prospects and customers.

The Group is subject to political, social and other risks in the countries in which it operates

The Group's operations are subject to potentially unfavourable political, social, environmental and economic developments in the jurisdictions in which the Group operates, which may include; coups, armed conflicts or acts of terrorism; political and/or social instability; geopolitical tensions; epidemics and pandemics; climate change, acts of God and natural disasters; and infrastructure issues, such as transportation and power failures. Each of the above could impact risk-weighted assets, and the financial losses caused by any of these risk events or developments could impair asset values and the creditworthiness of customers.

These risk events or developments may also give rise to disruption to the Group's services and some may result in physical damage to its operations and/or risks to the safety of its personnel and customers. Geopolitical tensions could have significant ramifications for the Group and its customers and could have a material adverse impact on the Group's business, financial condition, results of operations, prospects, strategy and reputation, as well as on the Group's customers.

The Group is subject to financial and non-financial risks associated with Environmental, Social and Governance ('ESG') related matters, such as climate change, nature-related and human rights issues

ESG-related matters such as climate change, society's impact on nature and human rights issues bring risks to the Group's business, customers and wider society. If any of these risks materialise, this could have financial and non-financial impacts for the Group which could, in turn, have a material adverse effect on the business, financial condition, results of operations, reputation, prospects and strategy of the Group.

The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel

Meeting the demand to recruit, retain and develop appropriate senior management and skilled personnel remains subject to a number of challenges. If any of the Group's business units fails to staff its operations appropriately or loses one or more of their key senior executives and fails to successfully replace them in a satisfactory and timely manner, or fails to implement successfully the organisational changes required to support the Group's strategy, the Group's business, financial condition, results of operations, reputation and prospects, including control and operational risks, could be materially adversely affected.

The Group could incur losses or be required to hold additional capital as a result of model limitations or failure

The Group uses models for a range of purposes in managing its business, including regulatory capital calculations, stress testing, credit approvals, calculation of ECLs on an IFRS 9 basis, financial crime and fraud risk management and financial reporting. The Group could face adverse consequences as a result of decisions that may lead to actions by management based on models that are poorly developed, implemented or used, or as a result of the modelled outcome being misunderstood, or the use of modelled information for purposes for which it was not designed, or by inherent limitations arising from the uncertainty inherent in predicting or estimating future outcomes. If regulatory approval for key capital models is not achieved in a timely manner or if those models are subject to negative feedback from regulators, the Group could be required to hold additional capital. Risks arising from the use of models, could have a material adverse effect on the Group's business, financial condition, results of operations, prospects and capital position and reputation.

The Group is subject to numerous new and existing legislative and regulatory requirements, and to the risk of failure to comply with applicable regulations

The Group's businesses are subject to ongoing regulation, policies, voluntary codes of practice and interpretations in the UK, the EU and the other markets in which the Group operates. A number of regulatory changes affecting the Group's business have effects beyond the country in which they are enacted. In recent years, regulators and governments have focused on reforming both the prudential regulation of the financial services industry and the ways in which the business of financial services is conducted. The measures taken include enhanced capital, liquidity and funding requirements, the separation or prohibition of certain activities by banks, changes in the operation of capital markets activities, the introduction of tax levies and transaction taxes and changes in compensation practices. With regard to conduct, there is a focus on customers and markets, payments and e-money, ESG, including governance, and operational resilience. Such regulatory changes could have a material effect on the Group's business, financial condition, results of operations, prospects, capital position, reputation and strategy.

Risks to the Group's strategy

The Group's strategy has been impacted by the global economic, geopolitical, legal and regulatory environment. The Group has taken into consideration global trends such as technology, customer needs and competition. The development and implementation of the Group's strategy requires difficult, subjective and complex judgements, including forecasts of economic conditions in various countries. The Group may fail to correctly identify the relevant factors in making decisions as to capital deployment and cost reduction. The Group may also encounter unpredictable changes in the external environment that are unfavourable to its strategy, such as the Russia-Ukraine war. The Group's ability to execute strategic change may be limited by its operational capacity, effectiveness of its change management controls, challenges in integrating any newly acquired businesses into the Group's business and instituting and maintaining appropriate transitional arrangements and the potential for unforeseen changes in the market and/or regulatory environment in which it operates. The European economic outlook continues to remain uncertain due to the likelihood of relatively modest economic growth in the near to medium term, heightened inflation, changes in legislation and geopolitical tensions. Therefore, there remains a risk that, in the absence of an improvement in economic conditions, the Group's cost and investment actions may not be sufficient to achieve the expected benefits. The failure to successfully deliver or achieve the expected benefits of these key strategic initiatives could have a material adverse effect on the Group's customers, business, financial condition, results of operations, prospects, operational resilience and reputation.

SECTION C – KEY INFORMATION ON THE NOTES

What are the main features of the Notes?

- (a) The Notes do not bear interest.
- (b) The Notes are "**Underlying Security-Linked Notes**" in relation to which payments are linked to an underlying security (the "**Underlying**").

Noteholders will receive two types of payment in respect of the Notes: the "Final Redemption Amount" and, any "Additional Payments", each as detailed below.

The **Final Redemption Amount** will be the greater of 0.03 per cent. of the issue price per Note and the Net Realisable Sale Price per Note. The Net Realisable Sale Price shall be the Realisable Sale Price per Note less the Administration Fee. The Realisable Sale Price per Note will be equal to:

- (i) if the Issuer or any of its affiliate(s) hold Underlying Securities and dispose of them, the amount per Note received from such disposal;
- (ii) if neither the Issuer nor any of its affiliate(s) hold Underlying Securities but is party to a hedge or other arrangement relating to the Notes being redeemed, the effective price at which such hedge or other arrangement was realised or unwound;; or
- (iii) if neither the Issuer nor any of its affiliate(s) hold Underlying Securities nor are party to a hedge or other arrangement relating to the Notes being redeemed, the amount per Note a notional, direct holder of Underlying Securities would receive from disposing of them on expiry,

in each case, less any costs and converted into the currency of the Notes (if applicable).

If, during the period from and including the Issue Date to but including the final valuation date in relation to the Notes, the Underlying Securities are marked on the relevant exchange as ex-dividend or ex-distribution, then, where in the determination of the Calculation Agent, such dividend or distribution is to be paid, the Issuer shall make an **Additional Payment** per Note calculated as follows:

- (i) if the Issuer or its affiliate(s) hold such Underlying Securities, the aggregate amount of the net cash dividend or distribution received;
- (ii) if the Issuer or its affiliate(s) hold a hedge or other arrangement for the purposes of performing its obligations under the Notes, the net cash dividend or distribution equivalent payment received under the hedge or other arrangement;
- (iii) if the Issuer or its affiliate(s) do not hold such Underlying Securities or are not party to a hedge or other arrangement relating to the Notes, the net amount a notional, direct holder of Underlying Securities would receive by way of cash dividend or distribution; or
- (iv) if a non-cash dividend or distribution is made, the Issuer may in its absolute discretion, pay to the Noteholders the net cash value of such non-cash dividend or distribution or, if the Issuer or its affiliate(s) holds a hedge or other arrangement relating to the Notes, the net cash adjustment or settlement received in respect of such non-cash dividend or distribution under such hedge or other arrangement, in respect of the underlying securities, such as an issue of warrants or preference shares,

in each case, less any costs and converted into the currency of the Notes (if applicable).

Adjustments in respect of the Underlying

The occurrence of a Potential Adjustment Event or an Extraordinary Event in relation to the Underlying may result in adjustments to the conditions of the Notes or early redemption of the Notes.

- (c) The Notes are series PALMS 1937, tranche 1 and will be represented by a combined global registered note deposited with and registered in the name of a common depository (or its nominee) for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**"). The ISIN of the Notes is XS2935892831.
- (d) The settlement currency of the Notes is USD (the "**Settlement Currency**"). The aggregate principal amount of the Notes to be issued is USD 247,350,000. The denomination of the Notes is USD 49.47. The Maturity Date of the Notes is 28 November 2025.
- (e) Rights attaching to the Notes:

Early redemption for illegality - If the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason, the Issuer will be entitled to redeem the Notes and pay the relevant investor an amount per Note equal to the fair market value of such Note or such other amount specified in the Final Terms.

Early redemption for taxation reasons- If the Issuer were required under the terms and conditions of the Notes (as applicable) (the "**Conditions**") to pay additional amounts in respect of tax, the Issuer may subject to prior notice to the

holders of such Notes, redeem all but not some only, of such Notes and pay the relevant investor an amount per Note equal to the fair market value of such Note or such other amount specified in the relevant Final Terms.

Modification and substitution - Modifications to the Conditions may be made without the consent of any holders of Notes to cure any ambiguity or manifest error or correct or supplement any Conditions provided that: (i) the modification is not materially prejudicial to the interest of holders of Notes; (ii) the modification is of a formal, minor or technical nature or is to correct a manifest error or is to comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or (iii) the modification corrects inconsistency between the Conditions and the relevant termsheet relating to the Notes. The Notes permit the substitution of the Issuer with its affiliates without the consent of any holders of Notes where the Issuer provides an irrevocable guarantee of the affiliate's obligations.

Events of default of the Notes - The following events constitute events of default (each, an "**Event of Default**") under the Notes and would entitle the Noteholder to accelerate the Notes: (i) the Issuer fails to remedy a default in the repayment of any principal and/or the payment of any Additional Payment and/or Supplementary Amount due on the Notes, in each case within 14 days of notice of such default having been given by any Noteholder, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to HSBC Bank plc, acting in its capacity as principal paying agent (the "**Principal Paying Agent**"); or (ii) the passing of a winding-up order in relation to the Issuer. On an Event of Default the Notes will be redeemed against payment of an amount per Note equal to the fair market value of such Note.

Meetings of Noteholders - The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Taxation - All payments by the Issuer in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, including United Kingdom taxes, unless the Issuer is required by law to withhold or deduct any such taxes. Therefore, Noteholders may be liable for and/or subject to any taxes, duties and other similar charges, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Notes.

- (f) The Notes will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). The exercise by HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (as applicable) of any powers under the Banking Act 2009 (including especially the bail-in power) could lead to the holders of the Notes losing some or all of their investment or may adversely affect the rights of holders of the Notes, the market value thereof or the Issuer's ability to satisfy its obligations thereunder.
- (g) The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes. The Issuer and HSBC Bank plc (the "**Dealer**") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials in Australia, Brazil, the Dubai International Financial Centre, the European Economic Area, France, Hong Kong, India, Indonesia, Italy, Japan, the Kingdom of Bahrain, Korea, Malaysia, Mexico, the People's Republic of China, Pakistan, Philippines, Russia, Saudi Arabia, Singapore, Spain, Sri Lanka, Switzerland, Taiwan, Thailand, The Netherlands, the United Arab Emirates (excluding the Dubai International Financial Centre), the United Kingdom, the United States of America and Vietnam.

In addition, investors of the Notes, by their purchase of the Notes, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements

Where will the Notes be traded?

Application will be made to admit the Notes to the Official List of the United Kingdom Financial Conduct Authority and to trading on the regulated market of the London Stock Exchange plc.

What are the key risks specific to the Notes

The Notes are direct, unsubordinated and unsecured obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under

the Notes (the Issuer's credit risk), and investors would not be able to enforce security as a method of recouping payments due under the Note. In a worst case scenario, investors in the Notes could lose all of their invested amounts.

The Notes are not ordinary debt securities. The Notes do not pay interest and, depending on the performance of the Underlying as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to redemption, dividend rates on the Underlying or the Component Securities or, where applicable, the number and type of Underlyings included in a basket to which the relevant Notes relate), may upon redemption return less than the amount invested or nothing.

An investment in the Notes is not equivalent to an investment in the Underlying. Ownership of the Notes does not confer any legal or beneficial interest or any voting or dividend rights in the Underlying or the Component Securities and the value of the Notes may not exactly correlate with the value of the Underlying to which the Notes relate.

Consequences of Disruption. The occurrence of certain events (including but not limited to disruption in relation to the Underlying and/or the exchange on which the Underlying is traded, increased cost of the hedging arrangements and/or currency exchange restriction or disruptions may lead to suspension or postponement of payments, postponement or adjustment of valuations, adjustment of terms agreed to by the holders of Notes or early redemption of the Notes which may have an adverse effect on the value of the Notes and the position of Noteholders.

Illegality or changes in tax law may cause the Notes to be redeemed early. In such circumstances, the Issuer may pay a sum representing the fair market value of such Notes. As a result holders of Notes will forgo any future appreciation in the relevant Underlying and may suffer a loss of some or all of their investments.

Commission, cost of hedging and taxes may be borne by Noteholders. The Issue Price of the Notes may include fees, commission and hedging costs, or such amounts may be deducted from the Final Redemption Amount. Payments under the Notes may be decreased to take into account the effect of taxes, duties or other similar charges and Noteholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Note and any payments under the Notes (in each case including any taxes or duties imposed or increased by a change of tax law or practice).

Currency and Settlement Risks. Amounts payable under the Notes will be payable in the Settlement Currency. Following the imposition or modification of exchange restrictions and controls, the Issuer may suspend its obligations to make any payment under any Notes and holders shall not be entitled to any interest or other compensation in respect of any such suspension. As the Underlying is referenced in SAR, amounts payable under the Notes may be affected by multiple currency conversion costs which may be passed on to investors.

Emerging market risks: The Underlying in relation to the Notes is located in or listed on an exchange in Saudi Arabia. Investments in emerging markets, and specifically Saudi Arabia, are subject to greater risks than well-developed western markets. Institutions relied upon for the efficient functioning of capital markets, such as stock exchanges, economic, legal and regulatory institutions, systems for the clearing, settlement and registration of securities, may be less developed. Political conditions in certain geographic locations where the issuers of Underlyings may operate may be volatile or unstable, and there could be increased price volatility.

Certain affiliates of the Issuer may also be the counterparty to the hedge of the Issuer's obligations under an issue of Notes and the Calculation Agent is responsible for making determinations and calculations in connection with the Notes in its sole and absolute discretion acting in good faith. The Issuer or its affiliates may from time to time advise the issuer or obligors of, or publish research reports relating to, the Underlying. The views or advice may have a positive or negative effect on the value of the Underlying and may be inconsistent with purchasing or holding the Notes relating to the Underlying.
