Ericsson Nikola Tesla Group

Management Report on the Company and Ericsson Nikola Tesla Group business performance with comments on the financial results for H1 2021

Highlights:

Sales revenue: MHRK 1,014.2

Gross margin: 15.2%

Operating profit: MHRK 119.3

Profit before tax: MHRK 120.8

Net profit: MHRK 101.4

Cash flow from operating activities: MHRK 141.8

Gordana Kovačević, the President of Ericsson Nikola Tesla, commented:

"Ericsson Nikola Tesla Group has continued to achieve outstanding business results, despite a very challenging market environment. Compared to H1 2020, all key business indicators are growing. Sales revenue increased by 5%, recording growth in all market segments. Gross margin recorded a strong growth to 15.2% (H1 2020: 7.8%), as a result of lower transition and transformation costs, the effect of cost efficiency programs and favorable business mix. Accordingly, operating profit increased by 179.1% year-over-year to MHRK 119.3, while net profit increased by 190% to MHRK 101.4. A strong cash flow from operating activities was also realized, amounting to MHRK 141.8, and at the end of H1 2021, cash and cash equivalents, including short term financial assets amounted to MHRK 436.3.

The uncertainty caused by the COVID-19 pandemic has remained present during H1 2021, and is likely to continue to some extent. Although the emergence of new variants of the virus is causing caution, at the local and global level restrictions of movement are being eased and the global economy is slowly opening up. However, the political situation in certain markets in which we operate, such as in Belarus, continues to worsen. Most of our activities on the Belarusian market are in the operator segment. In Q4 2020, we entered in the Industry and Society segment by signing an agreement covering the implementation of the central software platform of the centralized eHealth system of Belarus, the implementation of which is ongoing as planned.

Considering the new circumstances, Ericsson Nikola Tesla Group has been continuously monitoring and estimating potential risks, with a strong focus on quality and timely delivery of contracted business deals, maintaining business continuity and collection of receivables. Our focus on risk perception and mitigation is best reflected in our business results. An important basis for overcoming risks in Ericsson Nikola Tesla Group is the process of an integrated business risk management system (Enterprise Risk Management), which has been an integral part of our management system for many years. The focus on all forms of compliance remains a continuous priority for our Group. The driving force behind our organizational culture are high ethical standards in business, ensuring that all decisions are made transparently and with integrity.

In the domestic market, at the end of May, the Croatian Network Regulatory Agency (HAKOM) launched the longawaited public auction procedure for issuing licenses for the use of RF spectrum for the fifth generation (5G) mobile communications networks, and allocation of licenses are expected soon. With our partners HT and A1 Hrvatska, we have continued the activities on the implementation of strategic projects, in order for them to be able to offer their users real gigabit 5G network of high quality, capacity and low latency. In the ICT segment for Industry and Society, we have been working intensively on innovative solutions in the field of e-health, e-business and public safety, which strengthened our overall business results. With the State Geodetic Administration and the Ministry of Justice and Public Administration, we have signed a two-year framework agreement related to the maintenance services of the Joint Information System of Land Registry and Cadaster (JIS). We are proud of our team of experts, who developed and tested the upgrades of the CEZIH system in an extremely short time and, in cooperation with the Ministry of Health and the Ministry of the Interior and partners, integrated it into a complete solution for the EU digital COVID certificate. In this way they contributed to positioning Croatia as the first EU member that secured prerequisites, tested and implemented the system for issuing and border control of COVID certificate. Regarding export markets, I would like to highlight the contract with the operator HT Eronet, which includes the implementation of the latest technological version of the IP Multimedia Subsystem (IMS), which continues our successful long-term cooperation.

The delivery of services to Ericsson has been continuously growing, and all activities and deliveries are ongoing as planned. I would like to highlight the contribution of many of our experts, who consciously and productively work for the global organization on research and development, and other expert activities. Their contribution to Group's results has been stable and significant.

Our employees and their health have been and remain our priority. During the COVID-19 pandemic we have approached to solving many challenges strategically and responsibly, and in the moment when it was possible, we have organized the vaccination of Ericsson Nikola Tesla Group's employees at the Company's premises. A team of doctors vaccinated approximately 700 employees, and many employees have been vaccinated in the meantime in accordance with the national program of vaccination. With the desire to act timely and long-term, and take a comprehensive approach to employees' health, the company had decided to take a step further, and launched a program PrevENTion. The program includes a series of activities aimed at preventing and improving mental and physical health and increasing the balance between private life and work.

The results achieved in the first six months, as well as a large number of important and complex projects on which we work on, as well as the knowledge, motivation and commitment of our employees, strengthen our belief in achieving the Group's targets for 2021. More than ever before, the strategic role of ICT industry for the development of society as a whole and the acceleration of reforms through digital transformation has been recognized which makes us optimistic about new business opportunities. We continue to invest in 5G and new technologies, Industry 4.0 in the field of health, land registry and cadaster, transport, agriculture, environment, smart cities, etc., the Group's digital transformation, retaining key employees and attracting new talents, as well

as competence development, because only through technological leadership and with excellent and motivated experts we can create and implement modern ICT solutions that accelerate the digital transformation of the society and contribute to the economic recovery and raising the competitiveness of Croatia."

Financial Highlights for the Group:

- Sales revenue amounted to MHRK 1,014.2 (H1 2020: MHRK 966.3), up by 5% year-over-year. In total sales revenue, domestic market accounted for 44.1%, services to Ericsson accounted for 44.9%, while other export markets accounted for 11.0%.
- Sales in the Networks segment amounted to MHRK 468.3 (H1 2020: MHRK 543.0), Digital Services amounted to MHRK 282.3 (H1 2020: MHRK 213.7), Managed Services amounted to MHRK 260.1 (H1 2020: MHRK 205.4), and Emerging Business and Other amounted to MHRK 3.5 (H1 2020: MHRK 4.2).
- Gross profit was MHRK 154.3 (H1 2020: MHRK 75.2), up by 105.1% year-over-year, due to lower transition
 and transformation costs, the effect of cost efficiency program and favorable business mix. Gross margin
 increased to 15.2% (H1 2020: 7.8%).
- Selling and administrative expenses increased by 2.9% year-over-year to MHRK 43.0 (H1 2020: MHRK 41.8). Despite an increased engagement on the presale activities related to 5G radio access and core networks, and projects of broadband network implementation, the share of selling and administrative expenses in sales revenue amounted to 4.2% (H1 2020: 4.3%).
- Operating profit amounted to MHRK 119.3, which is an increase by 179.1% year-over-year (H1 2020: MHRK 42.7), because of a significant gross profit increase.
- Gain from financial activities amounted to MHRK 1.5 (H1 2020: MHRK 0.9) because of positive exchange differences and interest income.
- Profit before tax increased by 176.6% year-over-year to MHRK 120.8 (H1 2020: MHRK 43.7).
- Net profit was MHRK 101.4 (H1 2020: MHRK 35), up by 190% year-over-year. Return on sales (ROS) is 10% (H1 2020: MHRK 3.6%).
- Cash flow from operating activities amounted to MHRK 141.8 (H1 2020: MHRK 157.6) because of good cash collection from certain customers.
- Working Capital Efficiency, expressed in WCD, was 10 days (H1 2020: 42 days), and excluding services
 to Ericsson, Working Capital Efficiency was 22 days (H1 2020: 87 days). The reduced number of Working
 Capital Days is the result of finalization of demanding network modernization projects, which until now
 required a longer and a more intense engagement of material and human resources.
- Cash and cash equivalents, including short term financial assets, as at June 30, 2021 amounted to MHRK 436.3 (34.4% of the total assets), while at the end of 2020, they amounted to MHRK 314.0 (31.6% of the total assets). The increase in the total cash is the result of good cash collection from customers, advanced payments on certain contracts and less investment outflows /activities in the first six months.
- The Group has a solid balance sheet with the total assets of MHRK 1,267.2 as at June 30, 2021, up by 27.4% compared to end of 2020. The increase of balance sheet is mainly contributed by the work-in progress (WIP) due to the dynamics of contract execution, new receivables, as well as a strong growth of

July 27, 2021

cash in the observed period. Equity ratio is 26.8% (end of 2020: 34.8%). Decrease in the equity ratio is a result of dividend distribution. Since dividend will be paid out in July 2021, at 30 June 2021 the dividend payable in the amount of MHRK 109.2 is presented in the balance sheet within "Trade and other payables".

- With related parties, the transactions were as follows: sales of products and services amounted to MHRK 455.3 (H1 2020: MHRK 439.1), while procurement of products and services amounted to MHRK 143.1 (H1 2020: MHRK 181.6).
- As at June 30, 2021, balances outstanding with related parties were as follows: receivables amounted to MHRK 105.6 (end of 2020: MHRK 89.0), and payables amounted to MHRK 54.0 (end of 2020: MHRK 10.9).

Business situation in major markets

In the domestic market, sales revenue amounted to MHRK 447.0 (H1 2020: MHRK 421.1), up by 6.2% year-over-year.

With the strategic partner Hrvatski Telekom intensive activities continue on the development of optical access network, i.e. the realization of FTTH connections based on the Management Services Agreement for the construction and maintenance of fixed and mobile telecommunications infrastructure, supervision of the telecommunications network, and field maintenance of the active access and passive networks with the planned annual realization even greater than the record 2020, during which more than 75,000 new households were covered by the new optical infrastructure.

The implementation of Ericsson's state-of-the-art technology from radio access network domain and 5G continues through a multi-year cooperation agreement. HT's 5G network, which currently operates on Dynamic Spectrum Sharing (DSS) technology, covers a total of 76 Croatan cities, 11 municipalities and two million of Croatian citizens.

Testing in Zagreb, by connecting the commercial users on the frequency of 3.5 GHz, which Hrvatski Telekom started in March 2021, showed excellent results and reached speeds higher than 1.2 gigabits. Testing continues in a limited scope on the part of commercial users, as well as with the creation of the necessary preconditions for the introduction of 5G in rural and hard-to-reach areas including islands, through deliveries related to the modernization of microwave transmission technologies.

With the strategic partner A1 Croatia, after signing an agreement on multi-year extension of cooperation in the field of radio network including 5G, the implementation of state-of-the-art technological solutions has been intensified, including 5G based on Dynamic Spectrum Sharing (DSS). The first testing of 5G technology in Croatia in the 700 MHz frequency range was achieved with excellent results. Testing continues in the 3.5 GHz frequency band in a limited scope, as part of preparations for the commercial introduction of 5G technology following the allocation of frequencies by the regulator. In the past period, modernization has continued, as well as capacity expansion on LTE technology and microwave transmission systems. The preparations for the introduction of 5G technology are also taking place by introducing new functionalities within the core network.

With the mobile operator Telemach Hrvatska, we have been working on the expansion of capacities of core and transport network, and maintenance of core network.

In ICT solutions for Industry and Society, a two-year framework agreement was signed with the State Geodetic Administration and the Ministry of Justice and Public Administration related to the maintenance services of the Joint Information System of Land Registry and Cadaster (JIS). The agreement includes basic, adaptive and perfection maintenance services of JIS, special services, support to the digital geodetic study and import of

July 27, 2021

cadastral municipalities into JIS and the establishment of a Land Database. An agreement was also signed with the Ministry of Justice and Public Administration for the establishment of eService for the purpose of connecting JIS with other systems of state administration bodies. In the field of healthcare, we continued to upgrade CEZIH system with the functionalities required for the process of issuing COVID certificates.

In export markets (Ericsson market excluded) sales revenue amounted to MHRK 111.5 (H1 2020: MHRK 105.4), up by 5.7% year-over-year. The execution of regular business activities has been aggravated by the political and economic crisis in certain export markets, primarily in Belarus and Bosnia and Herzegovina, as well as the impact of the COVID-19 pandemic.

In the operator segment, sales revenues decreased, which was offset by an increase in revenues in the Industry and Society segment to a large extent from the Belarusian contract related to healthcare informatization.

With the operator HT Eronet (Bosnia and Herzegovina) we have contracted the implementation of the latest technological version of IP Multimedia Subsystem (IMS). We have also contracted an upgrade of the network performance measurement system, and the implementation of the new Ericsson Diameter Signaling Controller solution. We have continued the activities on the modernization and maintenance of telecommunication networks with the operators Crnogorski Telekom (Montenegro) and IPKO (Kosovo). In Belarus, with caution and focus on risk reduction, we have continued the activities with the operator beCloud on LTE network expansion, and with the operator A1 Belarus on the expansion of transmission network.

In ICT solutions for industry & Society, the most significant activities are related to the implementation of the Central Software Platform for the Centralized e-Health System of the Republic of Belarus. During Q2 2021, the first phase of the project was successfully delivered.

In Ericsson market, sales revenue amounted to MHRK 455.7 (H1 2020: MHRK 439.8), up by 3.6% year-over-year.

Ericsson Nikola Tesla's R&D Center has continued its activities on strategic business/projects. All work and deliveries are ongoing as planned. In the business segment Networks, development of significant number of features related to classic and 5G products is ongoing, at the same time new assignments for Radio software development have been agreed. Within the business segment Digital Services in the area Mobile Switching Center, development of the number of features is ongoing. In the area of Home Location Register, transfer of full operational responsibility to our center was formally concluded in April, new features were delivered in several projects and competence development and organizational setup is ongoing. Cloud development activities released new components and verified new features and Centralized User Database delivered all committed features for H1. In Service Area Networks, Wireline and Legacy, the latest Software was deployed in several live networks, number of customer support activities were successfully executed, and several integration projects are ongoing including new, complex features for specific customers.

The experts from the Services and Solutions Center for Networks, in addition to the projects for the customers of Ericsson Nikola Tesla Group, are included in the activities of integration and optimization of various technologies for Ericsson customers in the United Kingdom, Germany, Sweden, Ireland, Spain, Denmark, Norway, Belgium, Czech Republic, Lithuania, Greece, Malta, Canada, Saudi Arabia, Kenya, India, Pakistan, Japan, Indonesia, Malaysia, Taiwan, Vietnam, Hong Kong, Brazil, South African Republic, etc. We have continued to work on the development and implementation of software tools for management and optimization of mobile networks (SRS/Smart Rollout Support, ESI/Ericsson Site Integration, RAMT/Rehoming Automation Management Tool, RNPT/ Radio Network Proposal Tools & Gynt) that are used in the network rollout by many operators worldwide, with which Ericsson and Ericsson Nikola Tesla do business.

Experts from Services and Solutions Center in the field of Digital Services, Media and Operations, in addition to projects for the customers of Ericsson Nikola Tesla Group, were also engaged on projects for Ericsson customers

July 27, 2021

in the United Kingdom, Germany, Sweden, Switzerland, Denmark, Finland, France, Luxembourg, the Netherland, Ireland, Norway, Lithuania, Italy, Czech Republic, Australia, Tahiti, Pakistan, Mexico, etc. These are complex projects of introduction of 5G technology, operational and business support systems, as well as projects of introduction of core solutions in Cloud.

The teams working in IT& Engineering Services, in addition to providing excellent support and are achieving excellent results on test environment management projects and IT operations for Ericsson corporation, also have a key role in our company's transformation and provide a quality support for a smooth work from home and remote support to customers.

The segment of ICT for Industry and Society, in addition to many projects for Ericsson Nikola Tesla, also achieves quality results on projects in IoT platforms and Connected Urban Traffic for the needs of Ericsson corporation.

Ericsson Nikola Tesla's research teams are working on many projects in the field of Industry 4.0, most of which are partially funded by the EU. Areas of our interest are health, ecology, and business process automation through the application of big data analysis, machine learning and artificial intelligence.

Other information

At Ericsson Nikola Tesla, joint-stock company, Annual General Meeting, held on June 29, 2021, among other decisions, a decision was passed to pay a dividend of HRK 82 per share out of retained earnings from the year 2019 and 2020.

The dividend shall be paid out on July 28, 2021 to all the Company's shareholders who had the Company shares registered on their securities account in the Central Depository & Clearing Company on July 02, 2021.

The Shareholders Annual General Meeting reached a decision to allocate HRK 25,000,000.00 from retained earnings for 2019 to reserves for treasury shares and gave the consent to the Management Board to award up to 25,000 treasury shares to the Company's employees.

Decisions were reached on appointment of Petra Vranjes, Head of Finance and Business Control for Segment Digital Services in Ericsson, and Ana Vrsaljko Metelko, Attorney at Law, as the new members of the Supervisory Board.

Furthermore, the Remuneration Policy for the Management Board, Decision on the Remuneration of the Members of the Supervisory Board, and Remuneration Report for Supervisory Board members and Management Board in 2020, were approved.

NOTES TO FINANCIAL STATEMENTS - TFI (drawn up for quarterly reporting periods)

Name of the issuer: ERICSSON NIKOLA TESLA D.D.

Personal identification number (OIB): 84771175

Reporting period: Q2 2021

Notes to financial statements for quarterly periods include:

- a) explanation of business events relevant to understanding changes in the statement of financial position and financial performance for the reporting semi-annual period of the issuer with respect to the last business year: information is provided regarding these events and relevant information published in the last annual financial statement is updated (items 15 to 15C IAS 34 - Interim financial reporting)
- b) information on the access to the latest annual financial statements, for the purpose of understanding information published in the notes to financial statements drawn up for the semi-annual reporting period
- c) a statement explaining that the same accounting policies are applied while drawing up financial statements for the semiannual reporting period as in the latest annual financial statements or, in the case where the accounting policies have changed, a description of the nature and effect of the changes (item 16.A (a) IAS 34 - Interim financial reporting)
- d) a description of the financial performance in the case of the issuer whose business is seasonal (items 37 and 38 IAS 34 -Interim financial reporting)
- e) other comments prescribed by IAS 34 Interim financial reporting
- f) in the notes to quarterly periods financial statements, in addition to the information stated above, information in respect of the following matters shall be disclosed:
- 1. undertaking's name, registered office (address), legal form, country of establishment, entity's registration number and, if applicable, the indication whether the undertaking is undergoing liquidation, bankruptcy proceedings, shortened termination proceedings or extraordinary administration
- 2. adopted accounting policies (only an indication of whether there has been a change from the previous period)
- 3. the total amount of any financial commitments, guarantees or contingencies that are not included in the balance sheet, and an indication of the nature and form of any valuable security which has been provided; any commitments concerning pensions of the undertaking within the group or company linked by virtue of participating interest shall be disclosed separately
- 4. the amount and nature of individual items of income or expenditure which are of exceptional size or incidence
- 5. amounts owed by the undertaking and falling due after more than five years, as well as the total debts of the undertaking covered by valuable security furnished by the undertaking, specifying the type and form of security
- 6. average number of employees during the financial year
- 7. where, in accordance with the regulations, the undertaking capitalised on the cost of salaries in part or in full, information on the amount of the total cost of employees during the year broken down into the amount directly debiting the costs of the period and the amount capitalised on the value of the assets during the period, showing separately the total amount of net salaries and the amount of taxes, contributions from salaries and contributions on salaries
- 8. where a provision for deferred tax is recognised in the balance sheet, the deferred tax balances at the end of the financial year, and the movement in those balances during the financial year
- 9. the name and registered office of each of the undertakings in which the undertaking, either itself or through a person acting in their own name but on the undertaking's behalf, holds a participating interest, showing the proportion of the capital held, the amount of capital and reserves, and the profit or loss for the latest financial year of the undertaking concerned for which financial statements have been adopted; the information concerning capital and reserves and the profit or loss may be omitted where the undertaking concerned does not publish its balance sheet and is not controlled by another undertaking
- 10. the number and the nominal value or, in the absence of a nominal value, the accounting par value of the shares subscribed during the financial year within the limits of the authorised capital
- 11. the existence of any participation certificates, convertible debentures, warrants, options or similar securities or rights, with an indication of their number and the rights they confer
- 12. the name, registered office and legal form of each of the undertakings of which the undertaking is a member having unlimited liability
- 13. the name and registered office of the undertaking which draws up the consolidated financial statements of the largest
- group of undertakings of which the undertaking forms part as a controlled group member

 14. the name and registered office of the undertaking which draws up the consolidated financial statements of the smallest group of undertakings of which the undertaking forms part as a controlled group member and which is also included in the group of undertakings referred to in point 13
- 15, the place where copies of the consolidated financial statements referred to in points 13 and 14 may be obtained, provided that they are available
- 16. the nature and business purpose of the undertaking's arrangements that are not included in the balance sheet and the financial impact on the undertaking of those arrangements, provided that the risks or benefits arising from such arrangements are material and in so far as the disclosure of such risks or benefits is necessary for the purposes of assessing the financial position of the undertaking
- 17. the nature and the financial effect of material events arising after the balance sheet date which are not reflected in the profit and loss account or balance sheet

Explanation of business events relevant to understanding changes in the statement of financial position and financial performance are published in Press info/Management letter.

The financial statements have been prepared in accordance with International Financial Reporting Standards adopted by the European Union (IFRSs), on the historical cost basis, with the exception of financial instruments which are carried at fair value through profit or loss. Policies have been consistently applied to all the periods presented.
