Title Changes in the Management Board of Enefit Green

The Supervisory Board of Enefit Green has appointed Juhan Agurauja, who has been leading Adven's Baltic business, as the new Chairman of the Management Board. He will assume his position on October 14. According to Articles of Associations, a member of the Management Board is elected for a term of 3 years. Aavo Kärmas, the current CEO of Enefit Green, will step down from his role by mutual agreement with the Supervisory Board, effective July 1.

Until Juhan Agurauja takes office, the current Management Board member and Chief Development Officer, Andres Maasing, will act as the interim Chairman of the Management Board starting from July 1, as decided by the Supervisory Board.

Juhan Agurauja has been a member of the Management Board of Adven Eesti AS and the head of Adven's Baltic business since 2022. Prior to that, he held various positions at Danpower Eesti AS, serving as a Management Board member responsible for technology and business development from 2020 to 2022, and earlier as a Technical Manager, Project Development Manager, and Project Engineer.

He holds a Master's degree in Thermal Power Engineering from Tallinn University of Technology. Agurauja owns 825 shares of Enefit Green through his company AJ Energia OÜ.

Additionally, Enefit Green will be seeking a new Management Board member and Chief Financial Officer soon, as Veiko Räm, has decided not to seek another term after his mandate ends. Räm's contract is valid until September 24. He has been a member of the Management Board and CFO of Enefit Green since 2017.

The Management Board of Enefit Green will temporarily continue to work with three members. Alongside Andres Maasing and Veiko Räm, the Board includes Innar Kaasik, who is responsible for production and asset management.
