Explanatory notes

Vilkyskiu pienine AB was established in 1934. In 1985 it was closed and its equipment was dismounted. In 1993 a group of like-minded people decided to revitalize the company and in May of the same year they started the reconstruction works of the former dairy, and already in November the company has started separating milk. After a year the dairy of Vilkyskiai started producing fermented cheese and after two years the dairy opened a butter production workshop. All the necessary service structure was created, all equipment of the company was bought and new workshops were built (cheese workshop, salting workshop, freezing unit, ripening workshop).

Vilkyskiu pienine AB is one of the most modern cheese factories in Lithuania which occupies about 17 % of national cheese market. According to this criterion, the company takes the fourth place among the producers of the country. The Company constantly increases its in-house capacities: the Company expands the assortment of cheese, in 2007 it opened a modern whey processing workshop where whey is processed into whey concentrate. At present Vilkyskiu pienine AB produces even 11 types of cheese of 56 different names.

Vilkyskiu pienine AB started expanding in June 2001 by acquiring Taurage workshop. In January 2006 it acquired Modest UAB, the activity of which was transferred to Taurage workshop. At present Vilkyskiu pienine AB controls 87 % of block of shares. In 2008, having invested LTL 3.6 million, new Mozzarella cheese production line was mounted and started operating. In 2008 Kelmes pienine AB, which is strong and perspective company, joined the group of companies of Vilkyskiu pienine AB. Vilkyskiu pienine AB took an ownership to 99.09 percent of Kelmes pienine AB shares. As Kelmes pienine AB, which specializes in the production of curd products, has joined the group of companies of Vilkyskiu pienine AB, Vilkyskiu pienine AB has entered a market of fresh products.

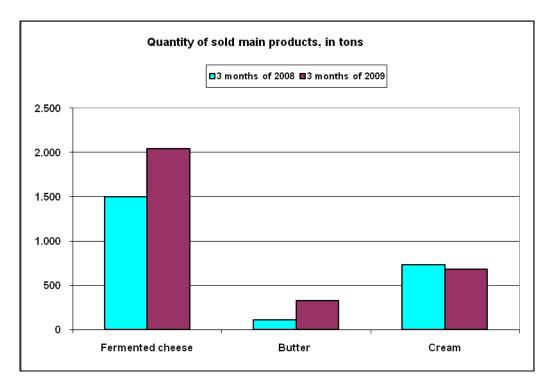

The main clients of the Company are all major Lithuanian trade networks, the purchasers of EU countries and Russia. At present the following value added cheeses are the most known and the most liked: Prussia, Maasdam, Memel Blue and Mozzarella. The group of companies, utilizing the assortment of fresh products of Kelmes pienine AB, enters into the market of Estonia and of other countries, and this allows the group of companies to utilize better its productive capacities.

Currently, the number of employees of Vilkyskiu pienine AB is 433, and together with the employees of Modest UAB, which is owned by Vilkyskiu pienine AB, the total number of employees amounts to 722.

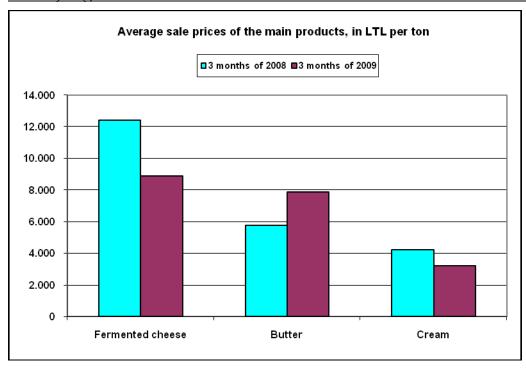

Despite the year 2007 was very successful, the year 2008 was loss-making for the group of companies of Vilkyskiu pienine AB. Consolidated loss reached LTL 11.9 million. The main reasons of loss were decreased prices of dairy products due to the excess of production in the Europe, the reappraisal of stock and onetime expenses because of the acquisition of Kelmes pienine AB and its integration into the group of companies.

The Company expects that the results of the year 2009 will be more successful because of lower price of raw milk compared with the price of year 2008 and because of significantly reduced expenses of production, management and administration as well as because the European Commission has renewed the means of dairy market balancing: European Commission has revived export subsidies for some dairy products and has created the system of intervention warehouse. The actions of the EU institutions and the inducement of intervention purchases strike a balance between the demand and supply of production, whereas the prices of production, which have not been falling lately, demonstrates the period of stability

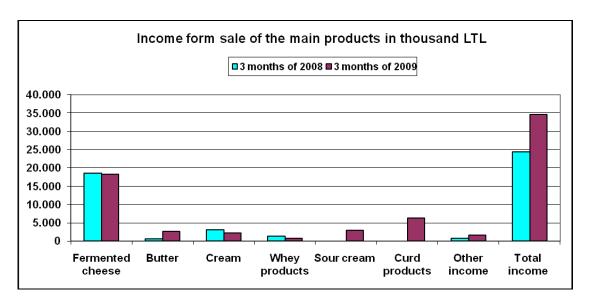

In the nearest future the Company plans to automate and optimize the processes of production, to develop fresh dairy products, to strengthen the department of sales, to introduce new means of marketing and to search for new markets. Moreover, the Company plans to carry out the purposeful transfer from the production of industrial cheese to brand cheese (having unique trade mark), to strengthen the trademarks of the Company and of certain products both in Lithuanian and in foreign markets by expanding the assortment with new exceptional types of cheese.
