Important event to report: regulated tariffs applicable as of January 01, 2021

The National Power Grid Company Transelectrica SA informs the investor public that Romania's Official Gazette 1213/11.12.2020 published ANRE Order 214/09.12.2020 approving the average tariff of transmission services, the transmission tariff components for electricity injection (T_G) and electricity taking (T_L) from the network; the tariff of system services and the regulated price of reactive electricity charged by the Company. Consequently regulated tariffs of electricity transmission services and system services applicable beginning with January 01, 2021 are:

Service	Tariff applicable as of 1 July 2020	Tariff applicable as of 1 January 2021
	Lei/MWh	Lei/MWh
Transmission service tariff	17.97	20.55
System service tariffs, of which:	14.45	11.96
I. Functional system services	2.49	-
II. Technological system services	11.96	11.96

Beginning with January 01, 2021 electricity transmission tariffs register the functional service component of system services in accordance with ANRE regulations issued in 2020. Thus the average transmission tariff approved and applicable as of January 01, 2021 provides about 0.4% increase compared to the current level to date (calculated, for comparability, as sum between the average transmission tariff and the functional service component of system tariffs).
