II. Recent developments

1. Industrial activity

Sopharma Group has twelve manufacturing facilities, which are compliant with EU regulations and are located in Bulgaria and one facility in the Ukraine certified and acknowledged by the local authorities and all countries from the CIS. With the exception of the facility in the Ukraine all other facilities have been examined and certified according to the EU GMP.

The production activities of the Group are carried out and developed in the following areas:

- Production of pharmaceutical products;

- Substances and preparations based on vegetable raw materials (phytochemical production);
- Veterinary vaccines;
- Infusion solutions;
- Concentrates for hemodialysis;
- Medical disposable products for human and veterinary medicine;
- Injection molded products for the industry, agriculture and households.

The Company has a portfolio of more than 210 products: mainly generics and 15 original products, of which 12 products are phyto-based. The original products of the Group (and in particular Carsil and Tempalgin) are key contributors to its revenue from export markets, while for the domestic sales the most important products are generics, of which the leading drug is Analgin.

2. Distribution

Sopharma Trading

The company is a leading distributor of pharmaceutical products and cosmetics in Bulgaria with a market share of pharmaceutical products of 21% (according to IMS). Sopharma Trading is the only distributor on the Bulgarian market of particular pharmaceutical products for several leading international pharmaceutical and other companies the field of healthcare such as Amgen, Astra Zeneca, GE Healthcare, Johnson and Johnson, Abbot Diagnostics, Hartmann, Novartis and Novo Nordisk.

The Group offers more than 10 000 products (particularly pharmaceutical products, medical equipment and devices, accessories, cosmetics, vitamins and food supplements) in its portfolio, including the brands of Sopharma, and holds exclusive rights for Bulgaria over brands of strategic partners such as Aboca, Colief, Jamieson, Planter's, Premax, Skincode, SVR Laboratories, US Pharmacia and Wyeth, specialized services (such as software solutions for pharmacies and advice and consulting services) and national logistics services. Sopharma Trading cooperates with more than 400 partners and over 3 000 clients.

3. Revision of the activities of the Group and the main risks it faces (art. 39, item 1 of the Accounting Law)

Risks relating to the Group's business and the industry the Group operates in

- ✦ The Group faces significant competition.
- ✦ Reputation of the Group may be adversely affected by untrue or misleading information available on websites containing the name “Sopharma”, including www.sopharma.com, which have not been authorized by the Group.
- ✦ The Group is dependent on regulatory approvals.
- ✦ Government regulations affecting the Group's business may change, thus possibly increasing compliance costs or otherwise affecting its operations.
- ✦ Part of the Group's revenues, in particular in Bulgaria, depend on the inclusion of the Group's medicines on reimbursement lists.
- ✦ The Group's production facilities and processes are subject to strict requirements and regulatory approvals that may delay or disrupt the Group's operations.
- ✦ The Group's ability to pay dividends depends on a number of factors and there can be no assurance that the Group will be able to pay dividends in accordance with its dividend policy or at all in any given year.
- ✦ The Group is subject to operational risk, which is inherent to its business activities.
- ✦ The Group is subject to numerous environmental and health and safety laws and regulations and is exposed to potential environmental liabilities.
- ✦ Litigation or other out-of-court proceedings or actions may adversely affect the Group's business, financial condition and results of operations.

Risks relating to Bulgaria and other markets in which the Group operates

- ✦ The macroeconomic environment, particularly in Bulgaria, Russia and Ukraine, has a significant effect on the Group's operations and position.
- ✦ The political environment in Bulgaria has a significant effect on the Group's operations and financial condition.
- ✦ The political environment in the Group's export markets, especially in Russia and Ukraine, has a significant effect on the Group's operations and financial condition.
- ✦ Risks related to the Bulgarian legal system.
- ✦ Developing legal frameworks in some countries in which the Group sells its products, in particular Russia and Ukraine, may negatively impact the Group's operations in such countries.
- ✦ Risks relating to exchange rates and the Bulgarian Currency Board.
- ✦ Interpretations of tax regulations may be unclear and tax laws and regulations applicable to the Group may change.

Currency risk

The Group companies carry out their activities in active exchange with foreign suppliers and customers and are therefore exposed to currency risk.

Through the companies in Belarus and Ukraine, the group carries out business operations in these countries and, accordingly, has substantial exposures in Belarusian rubles and Ukrainian hryvnia. The currency risk is related to the negative movement of the exchange rates of these currencies against the Bulgarian lev in the future business operations, the recognized assets and liabilities in foreign currency and the net investments in foreign companies. The rest of the companies abroad are selling mainly on local markets, leading to currency risk and against their currencies - Polish zloty, Lithuanian litas, US dollars, British pounds and Kazakhstan tenge, and for Kazakhstan the Group minimizes risk through forward transactions.

Most of the operations of the Group companies are usually denominated in Bulgarian leva and the Bulgarian lev is fixed to the euro, which reduces the potential currency volatility for these companies in the Group.

To control the currency risk, a system is in place throughout the Group for import planning, for foreign currency sales, as well as procedures for day-to-day monitoring of movements in the US dollar exchange rate and for control over pending payments. The exposures of the subsidiaries in Bulgaria to currency risk are insignificant as almost all sales are realized on the local market in Bulgarian leva. Imports of goods are fully realized in euro. Loans when denominated in foreign currency are mainly denominated in euro.
