Alfa Laval wins another power order in China, value SEK 90 million

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won another order for plate heat exchangers to the rapidly growing power industry in China. The order value is about SEK 90 million. Delivery is scheduled for 2010.

“This is the third order in a short period of time connected to the power industry and it confirms the positive trend within our customer segment Energy and Environment,” says Lars Renström, CEO and President of the Alfa Laval Group.

Did you know that Central and Eastern Europe, Asia and Latin America during 2007 accounted for about 50% of Alfa Laval's total order intake and that China alone was Alfa Laval's second largest market accounting for 12 % of the Group's order intake?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on the Nordic Exchange, Nordic Large Cap, and, in 2007, posted annual sales of about SEK 25 billion (approx. 2.7 billion euros). The company has some 11,500 employees.
