### Alfa Laval wins SEK 70 million energy-efficiency order in Russia

**Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order for compact heat exchangers from a refinery in Russia. The order value is approximately SEK 70 million, it was booked late September and delivery is scheduled for 2013.**

The Alfa Laval compact heat exchangers will be used in the vacuum section of the crude oil distillation, where they will preheat the feed stream re-using heat from other parts of the process, thereby resulting in an energy-efficient process solution.

“It is our second large order this year, from the same Russian refinery”, says Lars Renström, President and CEO of the Alfa Laval Group. “It proves our ability to supply energy-efficient solutions for these demanding refinery applications.”

**Did you know...** that during the past five years compact heat exchangers are preferred in nine times out of ten when Russian refineries choose heat transfer technology for the distillation process?

#### **About Alfa Laval**

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval wins SEK 70 energy-efficiency order in Russia

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2011, posted annual sales of about SEK 28.6 billion (approx. 3.2 billion Euros). The company has today about 16 000 employees.
