Alfa Laval wins SEK 60 million natural gas order in Russia

Alfa Laval – a world leader in heat transfer, centrifugal separation and fluid handling – has won an order to supply compact heat exchangers to a gas plant being built in Russia. The order, booked in the Energy & Environment segment, has a value of approximately SEK 60 million and delivery is scheduled to start in 2013 and be finalized in 2014.

The Alfa Laval compact heat exchangers will be installed in a new gas plant in the Urengoy gas field in Russia. They will be used for heat recovery in the gas compression process, resulting in an energy-efficient process solution.

“We continue to see good demand from the gas industry. This is yet another large gas order, within a short period of time, proving our ability to provide reliable and efficient equipment to an industry with very high demands”, says Lars Renström, President and CEO of the Alfa Laval Group.

Did you know that... Russia's five biggest gas companies stand for 90 percent of the country's total gas production – and that all five are customers to Alfa Laval?

About Alfa Laval

Alfa Laval is a leading global provider of specialized products and engineering solutions based on its key technologies of heat transfer, separation and fluid handling.

The company's equipment, systems and services are dedicated to assisting customers in optimizing the performance of their processes. The solutions help them to heat, cool, separate and transport products in industries that produce food and beverages, chemicals and petrochemicals, pharmaceuticals, starch, sugar and ethanol.

Alfa Laval's products are also used in power plants, aboard ships, in the mechanical engineering industry, in the mining industry and for wastewater treatment, as well as for comfort climate and refrigeration applications.

Alfa Laval's worldwide organization works closely with customers in nearly 100 countries to help them stay ahead in the global arena.

Alfa Laval is listed on Nasdaq OMX, and, in 2012, posted annual sales of about SEK 29.8 billion (approx. 3.5 billion Euros). The company has today about 16 400 employees.
