Comments by the President and CEO

Strong performance

Today we announce strong results in a challenging market environment. Our sales grew 10%, driven by very strong acquired net growth of 11%, while organic sales declined 1% and the operating margin was strong at 16.0%. The continued solid non-residential development in the US contributed to good organic sales growth of 3% in the Americas division while EMEIA's organic sales grew 1%. In Entrance Systems, organic sales were flat, where much lower demand for loading docks in the US were offset by strong growth in Pedestrian. Organic sales in Asia Pacific and Global Technologies declined by 5% and 7% respectively. The decline in Asia Pacific was mainly because of continued low construction activity in China, while high comparable sales figures last year due to the backlog catchup in Physical Access Control remained a challenge for Global Technologies.

The operating profit increased by 11% to SEK 6,085 M, corresponding to an operating margin of 16.0%. Strong operational execution through implementation of cost actions of about SEK 300 M, continued strong price realization, lower direct material costs and HHI contributed to the strong bottom line performance. The operating cash flow was excellent in the quarter, SEK 5,604 M, with a cash conversion of 107%.

Acquired growth is a key pillar for our growth strategy

To deliver on our 10% annual growth target we work with strategic activities shared across our divisions. One of these activities is to continue our acquisition journey. This has been a vital part of our strategy since the foundation, and it is further underscored by the strong growth in the first half of 2024. After a record of 24 acquisitions in 2023, we have closed another 11 acquisitions in the first six months of 2024. Given our robust pipeline and strong financial performance, we can continue our successful acquisition strategy. We are also convinced that the combination of our well-structured M&A process, our local knowledge and clear-cut investment criteria, provide a solid base for continued synergy realization while also enabling accelerated organic growth over time.

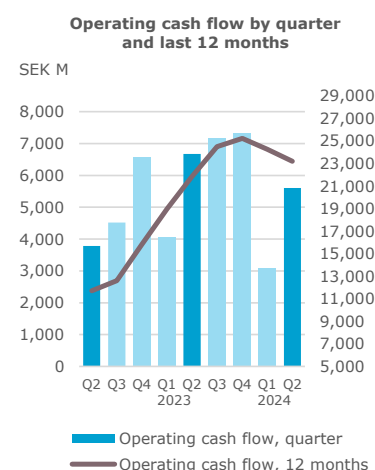

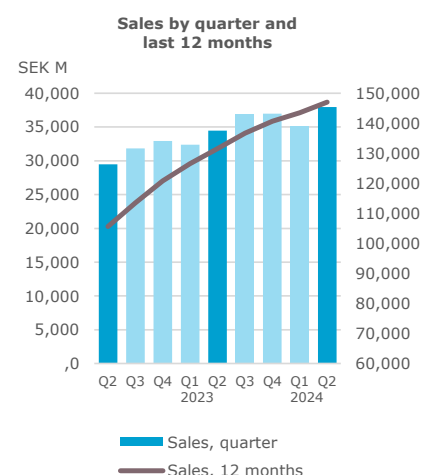

This report marks the one-year anniversary of ASSA ABLOY becoming the proud owner of HHI. Since the consolidation last year, I've had the opportunity to visit most of HHI's facilities and factories. This has left me with a very good impression of the operations, the HHI team and all the opportunities going forward. The integration of HHI continues according to plan and we are even more confident than a year ago that we will be able to realize USD 100 M in synergies. It is also encouraging that HHI, on a standalone basis in the quarter, delivered a high-single digit sales growth with a sequentially improved operating margin. We are confident that this positive trend will continue.

We can look back on a strong financial performance in the first half of 2024 and I am convinced that the Group is in an excellent position to continue to lead the industry and generate significant value for all our stakeholders.

Stockholm, July 17, 2024

Nico Delvaux
President and CEO

Second quarter

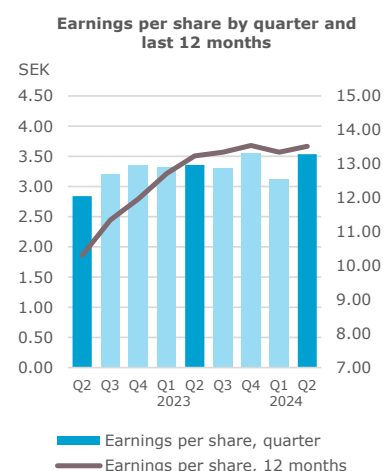

The Group's sales increased by 10% to SEK 37,968 M (34,474). Organic growth amounted to -1% (3). Net growth from acquisitions and divestments was 11% (6), of which 14% (7) were acquisitions and -3% (-1) were divestments. Exchange rates affected sales by 0% (8).

The Group's operating income² (EBIT) amounted to SEK 6,085 M (5,500), an increase of 11%. The corresponding operating margin was 16.0% (16.0). Exchange-rates had an impact of SEK 38 M (355) on EBIT. Operating income before amortizations from acquisitions² (EBITA) amounted to SEK 6,434 M (5,722). The corresponding EBITA margin was 16.9% (16.6).

Net financial items amounted to SEK -849 M (-445), primarily due to higher net interest costs compared to last year. The Group's income before tax² was SEK 5,236 M (5,054), an increase of 4% compared to last year. Exchange-rates had an impact of SEK 41 M (335) on income before tax². The corresponding profit margin was 13.8% (14.7). The estimated effective income tax rate in 2024, on an annualized basis and excluding items affecting comparability, is 25.0% (23.4% for the full year 2023).

Earnings per share before and after dilution² amounted to SEK 3.54 (3.36), an increase of 5% compared to last year. Operating cash flow totaled SEK 5,604 M (6,671), which corresponds to a cash conversion² of 1.07 (1.32).

The net-debt/equity ratio amounted to 0.68 (0.70) at the end of the quarter. Financial net debt totaled SEK 68,198 M (64,109). New bonds were issued during the quarter for a total value of SEK 2,049 M while SEK 968 M in maturing long-term loans were repaid. The Group's long-term borrowing totaled SEK 51,414 M (49,917) while the short-term borrowing totaled SEK 13,333 M (9,833).

First half-year

The Group's sales for the first half of 2024 totaled SEK 73,168 M (66,865), representing an increase of 9%. Organic growth was -2% (5). Growth from acquisitions and divestments was 11% (6), of which 14% (6) came from acquisitions and -3% (0) from divestments. Exchange-rates affected sales by 0% (8).

The Group's operating income (EBIT)² amounted to SEK 11,512 M (10,686), an increase of 8% compared to last year. The corresponding operating margin was 15.7% (16.0). Operating income before amortizations from acquisitions² (EBITA) amounted to SEK 12,174 M (11,101). The corresponding EBITA margin was 16.6% (16.6).

Earnings per share before and after dilution² for the first half-year amounted to SEK 6.65 (6.68). Operating cash flow totaled SEK 8,701 M (10,741), which corresponds to a cash conversion² of 0.88 (1.09).

² Excluding items affecting comparability. Please see the "Items affecting comparability" section in the report for further details about the financial effects in 2024. For information about items affecting comparability in 2023, please see the Year-end report 2023, available at assaabloy.com.

Items affecting comparability, first half-year

Smart Residential divestment

Costs related to last year's divestment of the Smart Residential in the U.S. and Canada totaled SEK 31 M for the first half-year. The corresponding cost after income tax was SEK 24 M.

Restructuring measures

Restructuring payments totaled SEK 138 M (146) for the second quarter. The programs proceeded according to plan. At the end of the quarter provisions of SEK 514 M remained in the balance sheet for carrying out these programs.

Quarterly comments by division

Opening Solutions EMEIA

Sales for the quarter in EMEIA totaled SEK 6,391 M (6,202), with an organic sales growth of 1% (-5). Organic sales growth was strong in Central Europe, good in the Nordics and stable in South Europe, Middle East/Africa/India and UK/Ireland. Sales growth from acquisitions was 2%. Operating income excluding items affecting comparability totaled SEK 872 M (777), which represents an operating margin (EBIT) of 13.6% (12.5). Return on capital employed, on an annualized basis and excluding items affecting comparability, amounted to 15.5% (15.3). Operating cash flow before non-cash items and interest paid totaled SEK 899 M (841).

Opening Solutions Americas

Sales for the quarter in the Americas totaled SEK 11,562 M (8,549), with an organic sales growth of 3% (4). Organic sales growth was strong in both North America's non-residential segment and in the Latin America segment. Net sales growth from acquisitions and divestments was 33%. Operating income excluding items affecting comparability totaled SEK 2,198 M (1,755), which represents an operating margin (EBIT) of 19.0% (20.5). Return on capital employed, on an annualized basis and excluding items affecting comparability, amounted to 12.2% (28.1). Operating cash flow before non-cash items and interest paid totaled SEK 2,344 M (2,229).

Opening Solutions Asia Pacific

Sales for the quarter in Asia Pacific totaled SEK 2,430 M (2,765), with an organic sales growth of -5% (-2). Organic sales declined in Pacific, South Korea and China and declined significantly in South-East Asia. Net sales growth from acquisitions and divestments was -5%. Operating income excluding items affecting comparability totaled SEK 203 M (215), which represents an operating margin (EBIT) of 8.3% (7.8). Return on capital employed, on an annualized basis and excluding items affecting comparability, amounted to 5.9% (2.9). Operating cash flow before non-cash items and interest paid totaled SEK 166 M (350).

Global Technologies

Sales for the quarter in Global Technologies totaled SEK 5,939 M (5,869), with an organic sales growth of –7% (20). Organic sales growth was very strong in Citizen ID, strong in Identity & Access Solutions, but declined in Secure Issuance and Identification Technology and declined significantly in Extended Access and Physical Access Control. Sales growth in Global Solutions was strong. Sales growth from acquisitions was 9%. Operating income excluding items affecting comparability totaled SEK 937 M (1,082), which represents an operating margin (EBIT) of 15.8% (18.4). Return on capital employed, on an annualized basis and excluding items affecting comparability, amounted to 13.8% (14.9). Operating cash flow before non-cash items and interest paid totaled SEK 831 M (1,253).

Entrance Systems

Sales for the quarter in Entrance Systems totaled SEK 12,196 M (11,715), with an organic sales growth of 0% (0). Organic sales growth was strong in Pedestrian, but declined in Perimeter Security, Residential and Industrial. Net sales growth from acquisitions and divestments was 4%. Operating income excluding items affecting comparability totaled SEK 2,077 M (1,899), which represents an operating margin (EBIT) of 17.0% (16.2). Return on capital employed, on an annualized basis and excluding items affecting comparability, amounted to 20.4% (19.2). Operating cash flow before non-cash items and interest paid totaled SEK 2,330 M (2,473).

Acquisitions and divestments

Acquisitions

Eight acquisitions were completed during the quarter. The combined acquisition price for all the businesses acquired during the year, including adjustments from prior-year acquisitions, totaled SEK 4,364 M. The corresponding acquisition price on a cash- and debt- free basis totaled SEK 4,656 M. Preliminary acquisition analyses indicate that goodwill and other intangible assets with indefinite useful life totaled SEK 3,126 M. Estimated deferred considerations for acquisitions made during the year totaled SEK 318 M.

On June 25, 2024, it was announced that ASSA ABLOY had acquired Wesko Locks, a Canadian manufacturer and supplier of electronic and specialty locks. Sales for 2023 amounted to about SEK 170 M.

On April 3, 2024, it was announced that ASSA ABLOY had acquired Messerschmitt Systems, a well-established German developer and manufacturer of access control hardware and software solutions for the hospitality market, including products for access control and in-room control. Sales for 2023 amounted to about SEK 130 M.

On January 23, 2024, it was announced that ASSA ABLOY had signed an agreement to acquire Amecor, a South African manufacturer of security communication equipment in the South African security market. The acquisition was subject to regulatory approval and customary closing conditions and was completed during the second quarter of 2024.

Sustainable development

ASSA ABLOY' long-term climate target of being net-zero no later than 2050 has been ratified by the Science Based Targets initiative. This further demonstrates our commitment and willingness to lead our industry to a more sustainable future.

Energy consumption continues to be the key driver of our Scope 1 and 2 carbon emissions. We remain focused on improving our energy effectiveness and efficiency. One example is installing electrical, compressed air and temperature sub-meters to better understand energy waste hotspots in our manufacturing sites and identify dedicated energy reduction projects. To further reduce our carbon footprint, we are continuing to roll out solar PV installations across our sites. In 2024, we installed a 1.1 MWp solar PV array at our HID manufacturing facility in Malaysia. The installation includes over 2,000 solar panels, which will reduce carbon emissions at the site by 815 tons per year. The project provides a significant energy cost saving and helps us to meet our science-based targets climate commitment.

Parent company

Other operating income for the parent company ASSA ABLOY AB totaled SEK 3,491 M (4,319) for the first half-year of 2024. Operating income for the same period totaled SEK 848 M (1,530). Investments in tangible and intangible assets totaled SEK 14 M (3). Liquidity is good and the equity ratio is 23.4% (26.9).

Accounting principles

ASSA ABLOY applies International Financial Reporting Standards (IFRS) as endorsed by the European Union. The same accounting and valuation principles have been applied as in the last Annual Report. No new or amended standards with material impact on the Group's financial reports have been applied for the first time in 2024.

This Report was prepared in accordance with IAS 34 "Interim Financial Reporting" and the Swedish Annual Accounts Act. The Report for the Parent Company was prepared in accordance with the Annual Accounts Act and RFR 2 "Reporting by a Legal Entity".

ASSA ABLOY makes use of a number of financial performance measures that are not defined in the reporting rules that the company uses described as "alternative performance measures." For definitions of financial performance measures, refer to Page 19 of this Report. Information about how these measures have been calculated is available on the company's website, www.assaabloy.com.

To reconcile how the financial measurements have been calculated for current and earlier periods, refer to the tabulated figures in this Quarterly Report and to the company's Annual Report. The Annual Reports for the years 1994 to 2023 appear on the company's website.

All comparative numbers for income statement and cash flow items relate to the corresponding period last year, unless otherwise indicated. Comparative numbers for the balance sheet relate to the most recent year-end, unless otherwise indicated.

Totals quoted in tables and statements may not always be the exact sum of the individual items because of rounding differences. The aim is that each line item should correspond to its source, and rounding differences may therefore arise.

Transactions with related parties

No transactions that significantly affected the company's position and income have taken place between ASSA ABLOY and related parties, except for matters in the normal course of business such as paying dividends to shareholders.

Risks and uncertainty factors

ASSA ABLOY is an international Group with a wide geographical spread, involving exposure to various forms of strategic, operational, and financial risks. Strategic risks refer to changes in the business environment with potentially significant effects on ASSA ABLOY's operations and business objectives. Operational risks comprise risks directly attributable to business operations, entailing a potential impact on the Group's financial position and performance. Financial risks mainly comprise financing risk, currency risk, interest-rate risk, credit risk, and risks associated with the Group's pension obligations.

Risk-taking in itself provides opportunities for continued economic growth, but naturally the risks may also have a negative impact on business operations and company goals. It is therefore essential to have a systematic and efficient risk assessment process and an effective risk management program in general.

The purpose of risk management at ASSA ABLOY is not to avoid risks, but to take a controlled approach to identifying, managing and minimizing the effects of these risks. This work is based on an assessment of the probability of the risks and their potential impact on the Group.

The war in Ukraine and the conflict in the Middle East may have a negative business impact on ASSA ABLOY in both the short- and long-term, but the direct business effects are currently seen as limited. For a more detailed description of particular risks and risk management, please see the 2023 Annual Report.

M&A and FX guidance

The guidance below relating to two key figures is provided to facilitate financial modeling but should not be viewed as forecasting market outlooks or ASSA ABLOY's business performance.

Acquisitions and divestments

It is estimated that completed acquisitions and divestments, on a rolling 12-month basis as of June 30, 2024, will have an effect of 4% on sales in the third quarter of 2024 versus the same period last year, while the effect on the operating margin is estimated to be accretive in the third quarter of 2024.

Exchange-rate effects

On the basis of the currency rates on June 30, 2024, it is estimated that the weighted currency effects on sales in the third quarter of 2024 versus the same period last year will be -2%, while the effect on the operating margin is estimated to be neutral in the third quarter of 2024.

Certification

The Board of Directors and the President and CEO declare that this half-year report gives an accurate picture of the Parent Company's and the Group's operations, position and income and describes significant risks and uncertainty factors faced by the Parent Company and the companies making up the Group.

Review Report

ASSA ABLOY AB, org.no 556059-3575

Introduction

We have reviewed the condensed interim report for ASSA ABLOY AB as at June 30, 2024 and for the six months period then ended. The Board of Directors and President and CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 Review of Interim Financial Statements Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.

Derivatives - held for trading	170	170		170	
Total financial liabilities	77,890	77,129	-	331	1,045

Financial liabilities at fair value through profit and loss pertains to deferred considerations, i.e. additional payments for acquired companies. The size of a deferred consideration is usually linked to the earnings and sales performance in an acquired company during a specific period of time.

Deferred considerations are initially measured on the day of acquisition based on management's best estimate regarding future outcomes and belong to level 3 in the hierarchy.

Definitions of financial performance measures

Organic growth

Change in sales for comparable units after adjustments for acquisitions, divestments and exchange rate effects.

Operating margin (EBITDA)

Operating income before depreciation and amortization as a percentage of sales.

Operating margin (EBITA)

Operating income before amortization of intangible assets recognized in business combinations, as a percentage of sales.

Operating margin (EBIT)

Operating income as a percentage of sales.

Profit margin (EBT)

Income before tax as a percentage of sales.

Items affecting comparability

Restructuring costs and significant non-recurring operating expenses such as revaluation of previously owned shares in associates, revaluation of inventory in business combinations and goodwill impairment.

Operating cash flow

Cash Flow from operating activities excluding restructuring payments and tax paid on income minus net capital expenditure and repayment of lease liabilities.

Cash conversion

Operating cash flow in relation to income before tax excluding items affecting comparability.

Net capital expenditure

Investments in, less disposals of, intangible assets and property, plant and equipment.

Depreciation and amortization

Depreciation, amortization and impairment of intangible assets, property, plant and equipment and right-of-use assets.

Capital employed

Total assets less interest-bearing assets and non-interest-bearing liabilities including deferred tax liability.

Average adjusted capital employed

Average capital employed excluding restructuring reserves for the last twelve months.

Net debt

Interest-bearing liabilities less interest-bearing assets. See the table on net debt for detailed information.

Net debt/EBITDA

Net debt at the end of the period in relation to EBITDA for the last twelve months.

Net debt/Equity ratio

Net debt in relation to equity.

Equity ratio

Shareholders' equity as a percentage of total assets.

Shareholders' equity per share

Equity excluding non-controlling interests in relation to number of outstanding shares after any potential dilution.

Return on capital employed

Operating Income (EBIT), excluding Items Affecting Comparability, for the last twelve months as a percentage of average adjusted capital employed.

Return on equity

Net income attributable to parent company's shareholders for the last twelve months as a percentage of average equity attributable to parent company's shareholders for the same period.

Earnings per share before and after dilution

Net income attributable to parent company's shareholders divided by weighted average number of outstanding shares. None of the Group's outstanding long-term incentive programs are expected to result in significant dilution in the future.

Earnings per share before and after dilution and excluding items affecting comparability

Net income attributable to parent company's shareholders excluding items affecting comparability, net of tax, divided by weighted average number of outstanding shares. None of the Group's outstanding long-term incentive programs are expected to result in significant dilution in the future.

Information on how these performance measures have been calculated can be found on the company's website www.assaabloy.com. To check the calculations of the financial measurements for current and earlier periods, refer to the tabulated figures in this Quarterly Report and to the company's Annual Report. The Annual Reports for the years 1994 to 2023 appear on the company's website.
