## Q 2, 2018

Current earning capacity amounted to SEK 17.97 (14.47), an increase of 24 %. The net asset value and share price is 14-15 % higher than on the same date last year, thus the share price in terms of valuation is unchanged relative to net asset value but lower relative to earnings.

Investments during the first half of 2018 amounted to SEK 5.7 billion. These investments included our first deal in Germany where we acquired 7 hotels in cooperation with Ligula. It feels reassuring for us in a new market to complete transactions together with one of our best and most experienced customers. During Q2, we also agreed to build a hotel at Järntorget in Gothenburg (Draken hotel) in cooperation with Folkets Hus and Nordic Choice.

As part of Balder's long-term investment in urban and project development, we can now add another large and important undertaking through our agreement with Upplands Väsby Municipality. We are going to develop Väsby Entré together and I look forward to cooperation that will extend far into the future. I am impressed by the friendly and professional reception from Upplands Väsby.

These companies continued to perform well with increased profit from property management and continued good business and development opportunities going forward. In Collector, a change of CEO was announced (again) from Liza Nyberg to Martin Nossman. My fundamental belief in Collector has not changed but sometimes the CEO and company are not perfectly aligned and then a change must occur. As I said before, I am still optimistic about the long-term development of the company.

With this interim report, Balder has been established in its present form for 13 years. Net asset value and subscription/share price development have been as follows as of 30 June each year:

Year	Net asset value	Share price (2005 refers to subscription price)
2005	6.59	7.075
2006	11.08	13.33
2007	16.46	17.50
2008	23.44	11.15
2009	22.39	9.00
2010	26.57	16.47
2011	36.04	31.70
2012	44.85	31.30
2013	54.41	48.50
2014	70.82	90.50
2015	106.16	127.90
2016	169.39	212.90
2017	215.59	204.00
2018	246.51	233.80

To date, we have made the assessment that the best total yield for Balder's shareholders is achieved by reinvestment of the profits generated. The goal is also the same going forward and I am optimistic about the possibility of being able to continue finding investments over time that will generate a reasonably good return.

FASTIGHETS AB BALDER · INTERIM REPORT JANUARY-JUNE 2018 3

## Current earning capacity

Balder presents its earning capacity on a twelve-month basis in the table below. It is important to note that the current earning capacity should not be placed on a par with a forecast for the coming 12 months. For instance, the earning capacity contains no estimate of rental, vacancy, currency or interest rate changes.

Balder's income statement is also impacted by the development in the value of the real estate portfolio as well as future property acquisitions and/or property divestments. Additional items affecting the operating result are changes

in value of derivatives. None of the above has been considered in the current earning capacity.

The earning capacity is based on the real estate portfolio's contracted rental income, estimated property costs during a normal year as well as administrative costs. The costs of the interest-bearing liabilities are based on the group's average interest rate level including the effect of derivative instruments. The tax is calculated using the effective tax rate during each period.

## Changes in real estate portfolio

The value of Balder's real estate portfolio is based on internal valuations. The properties in Sweden, Denmark, Norway and Germany are mainly valued using the cash flow based method. In Finland, in addition to the cash flow based method, the sales comparison method and valuation at acquisition cost are used. Properties under construction and real estate projects are valued at market value reduced by estimated building expenditure and project risk, which usually results in valuation at cost. On 30 June, Balder's average yield requirement amounted to 5.0 % (5.0) excluding project and development properties, which is unchanged compared to year-end.

In order to quality-assure its internal valuations, Balder regularly allows parts of its portfolio to be externally valued during the period or at each year-end. Historically, deviations between external and internal valuations have been insignificant.

### Project real estate

On 30 June, Balder had ongoing projects with an expected total investment of SEK 11.0 billion, of which about SEK 5.8 billion was already invested. Most of the ongoing projects refers to residential projects. The projects mainly comprise of about 1,000 apartments in Sweden, about 1,000 apartments in Copenhagen and about 1,000 apartments in Helsinki. The investments in Copenhagen and Helsinki relate to owner apartments for rental use and the investments in Sweden mainly refer to apartments for sale.

### Unrealised changes in value

The overall carrying amount of Balder's properties amounted to SEK 109,740m (89,047) on 30 June.

The unrealised change in value during the period amounted to SEK 2,967m (2,572) and was mainly attributable to improved net operating income.

### Investments, acquisitions and divestments

During the period, a total of SEK 5,708m (2,532) was invested, of which SEK 2,839m (940) related to acquisitions and SEK 2,868m (1,592) related to investments in existing properties and projects. During the period only condominiums and land have been divested at a sales value of SEK 114m (2,789). Profit from property sales amounted to SEK 35m (137). The change in the real estate portfolio during the period is presented in the table below.

# Customers

In order to limit the risk of lower rental income and consequently a weakened occupancy rate, Balder strives to develop long-term relationships with the company's existing customers. Balder has a good diversification as regards the distribution between commercial properties and residential properties as well as the geographical distribution. The diversification strengthens the possibilities of maintaining a

steady and satisfactory occupancy rate. Balder's commercial leases have an average lease term of 7.7 years (7.0). Balder's 10 largest leases represent 5.0 % (5.6) of total rental income and the average lease term amounts to 10.8 years (11.5).

No individual lease accounts for more than 0.7 % (0.8) of Balder's total rental income and no individual customer accounts for more than 4.0 % (4.4) of total rental income.

# Other disclosures

## Events after the end of the period

After the end of the reporting period no significant events has occurred.

## Related party transactions

Balder receives fees from associated companies and Erik Selin Fastigheter AB for property and company management services. These fees amounted to SEK 25m (21) during the period and are reported in management and administrative costs. In addition, services are bought from Collector AB (publ).

## Risks and uncertainties

Balder's operations, financial position and results may be affected by a number of risks and uncertainty factors. These are described in the Annual Report for 2017, on pages 54-57. Otherwise, no significant changes has been noted.

## Accounting policies

Balder applies IFRS (International Financial Reporting Standards) as adopted by the European Union in its consolidated accounts and the interpretations of these (IFRIC). This interim report is prepared in accordance with IAS 34, Interim Financial Reporting. In addition, relevant provisions of the Swedish Annual Accounts Act and the Swedish Securities Markets Act have also been applied. The parent company has prepared its financial statements in accordance with the Annual Accounts Act, the Securities Markets Act and RFR 2, Accounting for Legal Entities.

## New accounting policies from and including 1 January 2018

From and including 1 January 2018, the Group has adopted the following new standards:

### *IFRS 9 Financial Instruments*

The change with IFRS 9 compared to previously applied principles relates to the new model for measurement of credit losses. The model measures expected credit losses by taking account of future-oriented information. Compared with the previous model, which was based on actual losses, this will mean an earlier recognition of credit losses. In the Annual Report for 2017, the impact of the transition was presented in Note 1 with an increased provision for accounts receivable losses, which had a net effect on equity of SEK -16m. In connection with the preparation of the Q1 report, it has also been noted that the associated company Collector reported an impact of the transition with regard to recognition of expected credit losses, whereupon the total impact of the transition on the Balder Group's equity amounted to SEK -92m for the introduction of IFRS 9.

In accordance with the standard's transitional arrangements, comparative figures have not been restated for 2017.

Besides this the accounting policies and calculation methods applied are unchanged compared with the Annual Report for 2017.

## New accounting policies from and including 1 January 2019

### *IFRS 16 Leases*

IFRS 16 will impact the Balder Group's accounting of the leases where the company is a lessee. It is expected that the introduction of the standard will have a limited impact on the financial statements, as the Group essentially operates as a lessor, and leases where the Group is a lessee only arise to a limited extent relative to the rest of the Group's operations. The effects will be quantified during 2018.

This interim report has not been subject to review by the company's auditors.

## Signature and verification

The Board of Directors and the CEO declare that the undersigned interim report provides a true and fair overview of the parent company's and the group's operations, financial position and performance as well as describing material risks and uncertainties facing the parent company and other companies in the group.
