

### Interim period January – September 2021

- Net asset value was SEK 305.9 per share compared to SEK 239.6 at the beginning of the year, corresponding to an increase of 27.7 per cent.
- Bure's net asset value was SEK 22,681M compared to SEK 17,763M at the beginning of the year.
- Total return on the Bure share was 24.4 per cent, while the SIX Return Index increased 24.0 per cent.
- Group earnings after tax amounted to SEK 5,081M (2,536). Earnings per share amounted to SEK 68.4 (35.7).

### Interim period July – September 2021

- Net asset value was SEK 305.9 per share compared to SEK 287.0 at the beginning of the quarter, corresponding to an increase of 6.6 per cent.
- Vitrolife entered into an agreement to acquire 100 per cent of shares in Igenomix for EUR 1.25M (SEK 12.7 billion). During the quarter, a directed rights issue of SEK 3.6 billion was made to part-finance the acquisition. Bure acquired shares for SEK 41M from the issue. Igenomix is a global leader in female health and tests for reproductive genetics for IVF clinics. The transaction was financed with rights issues, cash and cash equivalents, and bank credits. Bure also entered into an agreement to acquire shares in Vitrolife from the sellers of Igenomix for SEK 305M.
- Bure acquired shares in Ovzon's rights issue for SEK 32M.
- Bure divested shares in MedCap for SEK 279M.

### Events after the end of the period

- Net asset value amounted to 310.6 per share on 10 November 2021, corresponding to an increase of 29.6 per cent since the beginning of the year.
- Vitrolife held an extraordinary general meeting which voted to approve the Board's proposal for a non-cash issue of approximately SEK 6.4 billion for partial financing of the Igenomix acquisition.
- In October 2021, XVIVO entered into an agreement to acquire Star Teams Inc. in the United States, for an initial purchase price of USD 12.6M plus a potential additional purchase price of up to USD 13.8M. Star Team collects and delivers organs to transplant centres around the US. The acquisition was financed through a directed rights issue, which raised SEK 250M before transaction costs. Bure acquired shares in the rights issue for SEK 15 million.

CEO Bure Equity AB

Bure's net asset value per share increased 6.6 per cent during the quarter, while the SIX RX Index increased 1.8 per cent. However, there were fairly significant net asset value changes throughout the period. Performance was especially strong during the summer, although in September we saw a modest decline in the stock market which affected several of Bure's listed companies.

Our portfolio companies' quarterly reports were broadly in line with expectations. Vitrolife continued to perform strongly. All of Vitrolife's business areas reported growth, but sales increased most in the Technology business unit, by 81 per cent. Vitrolife's acquisition of Igenomix was well received by the stock market. The share increased 29.9 per cent during the quarter, making it the single largest driver of the increase in Bure's net asset value. However, the transaction is yet to receive final regulatory approval, which is expected in the fourth quarter. With the acquisition, Vitrolife's ownership structure will be strengthened with, for example, a number of new major Swedish institutions participating in the financing of the acquisition.

In September, the remaining shares in MedCap were divested. With the transaction, Bure has sold its entire holding of three million shares for approximately SEK 600M. The majority of the investment in MedCap was made 9 years ago, in 2012. Since then, Bure has been represented on the MedCap board and it is gratifying to note that this has been a successful investment for Bure with an annual return, known as IRR, of around 37 per cent.

Lastly, after the end of the period, net asset value per share has increased and to date has risen by 29.6 per cent.

# Interim report

## January – September 2021

Bure is an investment entity, which means that the holdings varies in line with its acquisitions and divestitures. Since this makes the Group's consolidated statements difficult to analyse, the development and financial position of the companies should also be analysed on an individual basis. More detailed information on portfolio companies are presented on pages 6–12.

### Consolidation principles from 1 January 2021

As of the beginning of the first quarter of 2021, the Board of Directors of Bure has judged that the criteria for IFRS 10 investment entity - have been met and decided to classify the company as an investment entity.

An investment company does not consolidate subsidiaries in accordance with IFRS 10 Consolidated Financial Statements and does not apply IFRS 3 Business Combinations, with the exception of subsidiaries that are active in investment activities. An investment entity values portfolio companies at fair value in accordance with IFRS 9 Financial Instruments.

Since 1 January 2021, the Bure Group consists of the parent company Bure Equity AB, Atle Investment Management AB, and Bure Growth AB. For more information, please see Note 1 – Accounting principles and Note 8 – Accounting for investment entities according to IFRS 10 for consolidated accounts.

## Significant risks and uncertainties

In view of the rapid on the financial markets, special emphasis is placed on monitoring the effects of Bure's investments and their valuations. Bure has a number of basic principles regarding the management of risk. Bure's financial policy states that the Parent Company shall be essentially debt-free. Furthermore, each portfolio company shall be financially independent from the Parent Company, which means that the Parent Company is not financially liable for portfolio companies' obligations, and that portfolio companies are responsible for their own financing.

Financing of respective portfolio companies shall be appropriate to each company's specific circumstances, such that overall risk is managed through a balance between operational and financial risk.

Bure's 2020 annual report provides a detailed description of the Group's risk exposure and risk management in the administration report and in Note 21. Bure's assessment is that no significant risks have arisen other than those described in the annual report and in this interim report.

## Auditor's report

### Introduction

We have reviewed the interim financial information (interim report) of Bure Equity AB (publ) as of 30 September 2021 and the nine-month period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

### Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

2) Net asset value consists of the market value of Bure's listed and unlisted holdings, short term investments, other net assets and cash and cash equivalents.

3) There was no dilution effect during the periods.

# Notes

## Note 1 – Accounting policies

Bure applies International Financial Reporting Standards (IFRS) as endorsed for application in the EU. This interim report has been prepared in compliance with IAS 34, Interim Financial Reporting, the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2, Accounting for Legal Entities.

### Group consolidation principles

As of the beginning of the first quarter of 2021, the Board of Directors of Bure has judged that the criteria of IFRS 10 investment entity – have been met and decided to re-classify the company as an investment entity.

An investment company does not consolidate subsidiaries in accordance with IFRS 10 Consolidated Financial Statements and does not apply IFRS 3 Operating Acquisitions with the exception of subsidiaries that are active in investing activities. An investment company values portfolio companies at fair value in accordance with IFRS 9 Financial Instruments.

Since 1 January 2021, the Bure Group consists of the parent company Bure Equity AB, Atle Investment Management AB and Bure Growth AB.

This change is purely forward-looking, but a recalculation of comparison periods has been carried out to simplify comparisons. In the consolidated accounts, recalculated historical financial data is presented under "Re-calculated" in addition to historical financial data.

In its assessment prior to the decision to classify the company as an investment company in accordance with the criteria in IFRS 10 - Investment Entities, the Board of Directors of Bure Equity has considered the following:

- Bure is an investment entity whose goal is to create long-term total returns and thereby be a competitive investment alternative in the stock market. The starting point in Bure's operations is to actively participate in and develop wholly owned or partly owned companies and operations to increase the value of these assets over time through value growth or dividends.
- Since 2010, Bure has reported the net asset value of all portfolio companies valued at fair value.
- Bure is an investment entity that advocates active and long-term ownership. Bure assesses each investment and business opportunity over a period of three to five years, but investment horizons may be longer than this. Portfolio companies are continuously evaluated by Bure with an emphasis on development potential, valuation, risk, and alternative investment opportunities. When portfolio companies do not meet Bure's objectives and criteria, the holding may be sold in part or in its entirety. Over the years, Bure's portfolio has changed substantially.

### Changes in accounting principles in the parent company

The parent company's principles for reporting investments in portfolio companies, (subsidiaries, associated companies, and other financial assets) were changed voluntarily in the first quarter of 2021, after which investments in participations in portfolio companies have been reported at fair value through profit or loss in the same way as in the investment entity. The change is only forward-looking, but a recalculation of comparison periods has been carried out to simplify comparisons. In the parent company's accounts, recalculated historical financial data is presented under "Recalculated" in addition to historical financial data.

For further information on accounting and valuation principles, please see Note 1 in the 2020 annual report.

New accounting principles applied from 1 January 2021: revised or amended IFRS standards are not considered to have any significant impact on earnings or balance statements. Bure continuously updates its analysis of upcoming changes.

## Note 2 – Segment reporting

All activities in the entity are considered to constitute a single segment.

## Note 3 – Effects of changed estimates and assessments

Important estimates and assessments are presented in Note 1 in the 2020 annual report. No changes to these estimates and assessments have been that could have a significant impact on the current interim report.

## Note 4 – Financial instruments

### Fair value and book value of financial assets and liabilities

Fair value has been calculated for all financial assets and liabilities in accordance with IFRS 13. Fair value is estimated to be equal to the book value of accounts receivable and other receivables, other current receivables, cash and other cash and cash equivalents, accounts payable, and other liabilities and borrowing. Book value less write-downs is an estimated fair value for accounts receivable and accounts payable. For long-term non-interest-bearing liabilities, fair value has been calculated by discounting future cash flows with current market interest rates regarding the term of the debt.

The investment entity's financial assets and liabilities are classified in accordance with IFRS 13 in the following three categories

Level 1: Listed prices in an active market for identical assets or liabilities.

Level 2: Other observable data for the asset or liability other than listed prices included in Level 1, either directly or indirectly.

Level 3: Data for the asset or liability that are not in their entirety based on observable market data.

Bure reports listed holdings at fair value with changes in value in the income statement (level 1). Bure's listed holdings consist of ACQ Bure AB, Cavotec SA, MedCap AB, Mentice AB, Mycronic AB, Ozon AB, Vitrolife AB, and Xvivo Perfusion AB.

Bure has reported investments in unlisted associated companies and subsidiaries (level 3) at fair value since 1 January 2021. Unlisted associated companies have previously been valued according to the equity method in accordance with IAS 28 - Holdings in Associates and Joint Ventures, while subsidiaries have been reported at accrued acquisition value. Unlisted associated companies and subsidiaries consist of Allgon AB, Alcur Fonder AB, Atle Investment Services AB, BioLamina AB, Fondbolaget Fondita AB, Investment AB Bure, Mercuri International Group AB, My Driving Academy Sweden AB, ScandiNova Systems AB, and Teknik Innovation Norden Fonder AB. Since the introduction of IFRS 9, Yubico AB has been continuously revalued.

Bure has chosen to market value all financial assets based on International Private Equity and Venture Capital Valuation Guidelines (IPEV). The guidelines describe a number of methods for determining the fair value of each holding. Considerable emphasis is placed on recently completed market transactions in the company, e.g., share issues or the acquisition of existing shares. Transactions in comparable companies can also be used. Other valuation methods include discounting of forecast cash flows with relevant discount rates and applying valuation multiples such as EV/Sales, EV/EBITDA, EV/EBITA, EV/EBIT, PER and P/AuM which are adjusted to take into account differences in market, business, and risk. In general, a liquidity discount is also applied for unlisted assets. Valuation takes place on an ongoing basis and is published in conjunction with quarterly reports.

# Definitions

## Basic earnings per share

Profit/loss after tax divided by the average number of shares outstanding during the year. For the Group, net profit less the non-controlling interests' share in profit for the year.

## Diluted earnings per share

Profit after tax divided by the average number of shares outstanding during the year after dilution. For the Group, net profit less non-controlling interests' share in profit for the year. The average number of shares after full dilution is calculated according to the rules in IFRS, IAS 33 Earnings per Share.

## Earnings per share

Earnings after tax divided by the average number of outstanding shares during the period. For the parent company, net earnings is used less the minority share of earnings for the period.

The average number of shares after dilution is calculated according to IFRS regulation, IAS 33 Earnings per share.

## EBIT

Operating profit after amortization of goodwill/acquisition-related surplus values and amortization of fixed assets.

## Equity per share

Equity divided by the number of shares outstanding. As of the transition to IFRS on 1 January 2005, non-controlling interests are included in total equity.

## Equity/asset ratio

Equity in relation to total assets. As of the transition to IFRS on 1 January 2005, non-controlling interests are included in total equity.

## Growth

Increase in net sales in relation to net sales for the previous year. The key figure thus includes both organic and acquisition-driven growth.

## IRR

Internal Rate of Return.

## Management costs/net asset value

Management costs during the period divided by net asset value at the end of the period.

## Market capitalization

Share price multiplied by the total number of shares outstanding.

## Net asset value

Market value, (valued at fair value), of Bure's listed and unlisted holdings and short-term investments plus accrued acquisition value of other net assets and cash and cash equivalents.

## Net loan liability

Same definition as net loan receivable, but is used when interest-bearing liabilities exceed interest-bearing assets.

## Net loan receivable

Financial interest-bearing assets minus interest-bearing liabilities.

## Return on equity

Profit/loss after tax divided by average equity.

## Share buyback

For several years, Swedish companies have been permitted to repurchase up to 10 per cent of their own outstanding shares, provided that this is approved by the Annual General Meeting within the framework of non-restricted equity.

## Total return

The total of the year's share price growth and reinvested dividends divided by the share price at the beginning of the year.
