SUMMARY OF THIRD QUARTER OF 2021

Sales growth was strong in the third quarter and organic net sales rose 7.4% compared with the corresponding period a year ago, of which volume accounted for 4.2% and price/mix for 3.2%. Sales growth, including organic sales growth and acquisitions, amounted to 9.7%. Sales were positively impacted by more favorable market conditions and growing awareness of the importance of hygiene and health. Essity's organic net sales increased 1.9% compared with the third quarter of 2019. Personal Care and Professional Hygiene noted highly favorable organic sales growth during the third quarter of 2021 compared with the third quarter of 2020. Medical Solutions demonstrated strong growth and organic net sales rose 9.7%, with good growth in all product segments.

Organic net sales in mature markets increased 5.9%. In emerging markets, which accounted for 36% of net sales, organic net sales increased 10.2%.

During the quarter Essity has:

- Launched innovations that contribute to improved well-being and increased sustainability in all product categories under leading brands such as TENA, Tork, Jobst, Libero, Plenty, Saba, Tempo and Zewa.
- Increased market shares for approximately 70% of branded sales in the retail trade for the most recent 12-month period
- Increased e-commerce sales organically by 21.7% to about 14% of net sales
- Implemented price increases and prepared further increases to offset higher costs for raw materials, energy and distribution
- Achieved continuous costs savings of SEK 219m. The Manufacturing Roadmap program extends until 2025 and is expected to contribute to Essity's total annual cost savings of SEK 500-1,000m.
- Finalized the acquisitions of the Australian hygiene company Asaleo Care and the Colombian hygiene company Productos Familia S.A.
- Continued the company's active sustainability efforts and commenced tissue production in Mannheim, Germany, based on pulp from wheat straw that will initially be used in tissue products for the German retail market under Essity's market-leading brand for household towels and toilet paper, Zewa. Also invested in the world's first tissue machine running a fully geothermal steam drying process at the production facility in Kawerau, New Zealand.
- Continued the process to establish the Consumer Tissue Private Label Europe division in the Consumer Tissue business area. Work is proceeding on schedule and is expected to be completed at the end of the year. The division's scope has been expanded. The division will include approximately 1,900 employees and seven production facilities in Belgium, France, Germany and Italy. Proforma net sales for the first nine months of 2021 amounted to approximately SEK 5bn.

After the end of the quarter Essity has:

- Decided on new business areas from January 1, 2022. The business areas will be Health & Medical, Consumer Goods and Professional Hygiene. As a consequence of its higher growth ambitions, Essity has also decided on a new sales growth target of more than 5%, which includes both organic sales growth and acquisitions.

The Group's adjusted gross margin for the third quarter of 2021 decreased by 3.7 percentage points year on year to 28.7%. The gross margin was positively impacted by higher volumes, higher prices, an improved mix and cost savings. Higher raw material, energy and distribution costs reduced the margin by 6.7 percentage points. The Group's adjusted EBITA margin decreased 2.9 percentage points to 11.5%. Sales costs, excluding marketing costs, decreased in absolute terms and as a share of net sales. Investments in growth increased marketing costs in absolute terms but decreased as a share of net sales. Adjusted EBITA, excluding exchange rate effects, decreased 11%. The adjusted return on capital employed was 12.3%. Earnings per share increased 21% to SEK 3.90.

EVENTS DURING THE QUARTER

Australian hygiene company Asaleo Care becomes Essity

On July 1, 2021, Essity announced that it had finalized its acquisition of Australian hygiene company Asaleo Care. The new regional unit, Essity AustralAsia, was consolidated into Essity's accounts as of July 1, 2021.

Essity invests in recycling of food and beverage cartons in France

On July 6, 2021, Essity announced that the company is investing approximately EUR 11m (approximately SEK 110m) in its Hondouville tissue mill in France. The investment will allow the extraction of 98% of paper fibers contained in food and beverage cartons, enabling Essity to achieve a recycling capacity of 24,000 tons of carton a year. The fibers from these cartons are used in the fiber mix to manufacture Tork-branded products within the business area Professional Hygiene.

Essity commits to net-zero greenhouse gas emissions by 2050

On July 16, 2021, Essity announced new and updated sustainability targets including a commitment to develop targets to reach net-zero greenhouse gas emissions by 2050 at the latest. This includes raising the ambition level of Essity's current Science Based Targets. Other updated targets include sustainable innovations, occupational safety and responsible sourcing.

Essity completes acquisition of shares in Productos Familia S.A.

On August 31, 2021, Essity announced that the company had finalized its acquisition of 45.8% of the shares in Colombian hygiene company Productos Familia S.A. ("Familia"). Essity now owns 95.8% of Familia. The purchase price amounts to USD 1,540m (approximately SEK 13bn) for 100% of the company on a debt-free basis. The acquisition is expected to be accretive to Essity's earnings per share from 2021.

Essity raises EUR 600m in the bond market

On September 8, 2021, Essity announced that the company had raised EUR 600m in the bond market under its Euro Medium Term Note (EMTN) program. The re-offer yield for the bond was 0.33% with a maturity date of September 15, 2029, corresponding to mid swaps +0.43 percentage points. The purpose of the issue is to refinance maturing loans and to finance operations.

Essity begins tissue production from alternative fibers

On September 30, 2021, Essity announced that the company had made a breakthrough in sustainable tissue production and is beginning production based on pulp from wheat straw. The plant in Mannheim, Germany, is the first of its kind in Europe, and the first for large-scale tissue production in the world.

EVENTS AFTER THE QUARTER

Essity invests in world's first tissue machine running on geothermal steam

On October 6, 2021, Essity announced that the company is investing approximately SEK 95m in enhanced efficiency in the company's site in Kawerau, New Zealand, including the world's first tissue machine running a fully geothermal steam drying process. Together with a reduction in pulp consumption, reduced waste and elimination of the burning of natural gas on the machine, the improvements will contribute to a reduction of carbon emissions by 23 percent from the Kawerau site.

Essity presents new business areas and new sales growth target

On October 22, 2021, Essity announced that the company decided on new business areas from January 1, 2022. The business areas will be Health & Medical, Consumer Goods and Professional Hygiene. As a consequence of its higher growth ambitions, Essity has also decided on a new sales growth target of more than 5%, which includes both organic sales growth and acquisitions.

The new Health & Medical, Consumer Goods and Professional Hygiene business areas will apply as of January 1, 2022. These are aligned with the company's customer and sales channels and will lead to an expansion of the offerings to new and adjacent categories as well as extended service content on the basis of customer and consumer needs. The new areas support the company's new growth target through strategies for organic and acquisition-driven growth and aim to achieve higher growth and profit margins as well as less capital tied up. The business areas will replace the current business areas Personal Care, Consumer Tissue and Professional Hygiene.

The new growth target is to achieve sales growth of more than 5%. This replaces the previous target of organic sales growth of more than 3%. The target will be reached through the continued implementation of Essity's strategy: leveraging favorable market trends, increasing market shares through successful innovation and strong brands, expanding the offering and acquisitions in categories with high margins. Growth, both organic and through acquisitions, is prioritized in the Medical Solutions, Incontinence Products, Feminine Care and Professional Hygiene product categories.

NOTES

1 ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 and recommendation RFR 1 of the Swedish Financial Reporting Board (RFR), and with regards to the Parent Company, RFR 2.

Effective January 1, 2021, Essity applies the following new and amended IFRS:

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

All other applied accounting principles and calculation methods correspond to those presented in Essity Aktiebolag's (publ) Annual and Sustainability Report for 2020.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

Amendments were introduced due to the transition from Interbank Offered Rates (IBORs) to alternative benchmark interest rates. The amendments address issues that may arise when an existing interest rate benchmark is replaced with an alternative benchmark interest rate and describe how any effects resulting from the change of interest rate benchmark is to be recognized. The amendments also include disclosures related to the transition. Essity is monitoring all changes concerning the development of alternative interest rate benchmarks and is continuously evaluating the effects on the financial statements. The EU endorsed the amendments on January 13, 2021 and they came into effect on January 1, 2021.

The assessment is that the above amendments will not have any material effect on the Group's or the Parent Company's earnings or financial position.

Amendment to the consolidation principle for ProNARO

Essity has previously recognized ProNARO as a joint operation according to the proportional method. ProNARO's principal task is to negotiate better prices and optimize inventory levels by pooling timber purchases. ProNARO has expanded its operations and now also sells to external customers other than Essity and Sappi (the other owner). This change of focus means that the company is more independent and Essity has thus made the assessment that the company is to be recognized according to the equity method as of January 1, 2021. This change means that Essity's participation in ProNARO's assets and liabilities is deconsolidated from the accounts. ProNARO's reported net sales amounted to SEK 435m and EBITA to SEK 0m in Essity's accounts for 2020.

2 RISKS AND UNCERTAINTIES

Processes for risk management

Essity's Board of Directors determines the Group's strategic direction based on recommendations from the Executive Management Team. Responsibility for the long-term, overall management of strategic risks corresponds to the company's delegation structure, from the Board of Directors to the CEO and from the CEO to the business unit presidents. This means that most operational risks are managed by Essity's business units at the local level, but that they are coordinated when considered necessary. The tools used in this coordination consist primarily of the business units' regular reporting and the annual strategy process, where risks and risk management are a part of the process.

Essity's financial risk management is centralized, as is the Group's internal bank for the Group companies' financial transactions and management of the Group's energy risks. Financial risks are managed in accordance with the Group's finance policy, which is adopted by Essity's Board of Directors and which – together with Essity's energy risk policy – makes up a framework for risk management. Risks are aggregated and monitored on a regular basis to ensure compliance with these guidelines. Essity has also centralized other risk management.

Essity has a staff function for internal audit, which monitors compliance in the organization with the Group's policies.

Essity's risk exposure and risk management are described on pages 36–41 of Essity's Annual and Sustainability Report 2020. No significant changes have taken place that have affected the reported risks. This also relates to the uncertainty and risks that have arisen on account of the COVID-19 pandemic that may affect Essity's sales, earnings and financial position.

Risks in conjunction with company acquisitions are analyzed in the due diligence processes that Essity carries out prior to all acquisitions. In cases where acquisitions have been carried out that may affect the assessment of Essity's risk exposure, these are described under the heading "Events during the quarter" in the interim and year-end reports.

The total fair value of the above financial liabilities, excluding lease liabilities, is SEK 60,456m (43,947). The fair value of trade receivables, other current and non-current receivables, cash and cash equivalents, trade payables and other current and non-current liabilities is estimated to be equal to their carrying amount.

No transfers between level 1 and 2 were made during the period.

4 Acquisitions and divestments

On May 14, Essity Aktiebolag acquired the remaining 25% of the shares of ABIGO Medical AB, making the company a wholly owned subsidiary. The purchase consideration paid for the remaining 25% amounted to SEK 228m. As per the terms of the transaction, ABIGO Medical's pharma business has been divested and sold to the company's founder Jan G. Smith on July 1.

On July 1, Essity acquired the remaining 63.8% of the shares in the hygiene company Asaleo Care. Up until June 30, Essity – with its holding of 36.2% of the shares – has been the largest shareholder of Asaleo Care, which prior to the acquisition was listed on the Australian Securities Exchange. Up until the acquisition of the remaining shares, Asaleo Care was recognized as an associate according to the equity method.

Essity has paid 1.40 cash per share, a total of AUD 486m. The consideration entails an implicit value for all shares, including the previous holding, of AUD 760m (approximately SEK 4.9bn) and assumed net debt amounts to approximately AUD 196m. Essity's previous holding in Asaleo Care of 36.2% has, according to IFRS, been remeasured on July 1, resulting in a positive extraordinary remeasurement effect of AUD 110m (SEK 706m) in the third quarter. The remeasurement effect was calculated on the basis of the cash offer, less the assessed control premium contained therein.

Since the acquisition, Asaleo Care's reported net sales amounted to SEK 749m, adjusted EBITDA to SEK 124m and adjusted EBITA to SEK 78m. Had Asaleo Care been consolidated as of January 1, 2021, net sales would have amounted to SEK 1,848m, adjusted EBITDA to SEK 322m and adjusted EBITA to SEK 193m.

On August 31, 2021, Essity finalized the acquisition of 45.8% of the shares in the Colombian hygiene company Productos Familia S.A. ("Familia"). Essity now owns 95.8% of Familia. The purchase price amounted to USD 1,540m (approximately SEK 13bn) for 100% of the company on a debt-free basis. Already prior to acquisition of the additional shares, Essity had control of Familia and it was fully consolidated in the Group's accounts. The transaction with shareholders entailed an increase of SEK 5,960m in Essity's net debt and the corresponding decrease in Essity's equity.

5 Use of non-International Financial Reporting Standards (IFRS) performance measures

Guidelines for Alternative Performance Measures (APMs) for companies with securities listed on a regulated market in the EU have been issued by ESMA (European Securities and Markets Authority). These guidelines are to be applied for APMs not supported under IFRS.

This interim report refers to a number of performance measures not defined in IFRS. These performance measures are used to help investors, management and other stakeholders analyze the company's operations. These non-IFRS measures may differ from similarly titled measures among other companies. Essity's 2020 Annual Report, pages 71–76, describes the various non-IFRS performance measures that are used as a complement to the financial information presented in accordance with IFRS. Tables are presented below that show how the performance measures have been calculated.
