

Interim report January-September 2012

SEKm	3-12	Quarter 2-12	3-11	January-September 2012	January-September 2011	Full year 2011
Net turnover	4 230	4 569	4 518	13 577	14 026	18 656
EBITDA	615	694	838	2 097	2 511	3 240
Operating profit*	394	488	519	1 442	1 570	5 573
Profit after tax*	249	313	343	950	1 015	3 955
Earnings per share, SEK*	3.0	3.7	4.1	11.3	12.1	47.1
Return on equity, %*	5.0	6.4	8.1	6.4	8.1	23.1

*In Q4 2011 revaluation of forest was included: + SEK 3 593 million before tax and SEK 2 648 million after tax.

- Profit after tax for January–September 2012 was SEK 950 million (January–September 2011: SEK 1 015 million).
- Earnings per share amounted to SEK 11.3 (12.1).
- Return on equity was 6.4 per cent (8.1).
- Operating profit totalled SEK 1 442 million (1 570). The contribution from currency hedges fell, while the change in the value of forests rose.
- The operating profit from the third quarter was SEK 394 million, SEK 94 million lower than in the preceding quarter. Earnings at Holmen Skog were low but improved at Iggesund Paperboard as a result of good production and a high level of deliveries. Staff costs were seasonally low.
- The market situation for paperboard was stable during the quarter, while demand for printing paper and sawn timber was weak.

Holmen Paper	Quarter			January-September		Full year
SEKm	3-12	2-12	3-11	2012	2011	2011

Operating profit	46	77	105	157	231	228
Investments	47	39	52	114	149	210
Operating capital	6 046	6 246	6 855	6 046	6 855	6 606
EBITDA margin, %	12	13	14	12	13	12
Operating margin, %	2	4	5	3	4	3
Return on operating capital, %	3	5	6	3	4	3
Production, '000 tonnes	407	425	416	1 254	1 278	1 673
Deliveries, '000 tonnes	414	419	402	1 239	1 246	1 668

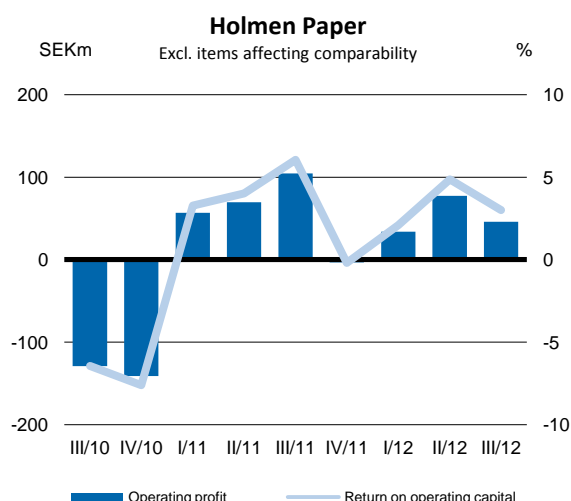

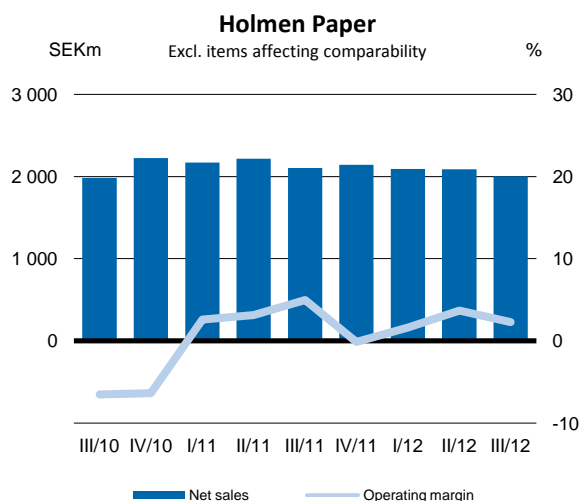

Demand for printing paper in Europe remained weak in the third quarter. Magazine paper deliveries to Europe were 7 per cent lower in January–September than in the same period last year. The decline for newsprint was 10 per cent. Prices fell slightly around mid-year.

Deliveries by Holmen Paper totalled 1 239 000 tonnes in the first nine months of the year. This was slightly lower than the same period last year, as a result of the closure of a paper machine in Madrid in spring 2011. Deliveries of the strategic products MF Magazine and book paper continued to rise. A major maintenance shutdown limited production in the third quarter.

Holmen Paper reports an operating profit of SEK 157 million (231) for the January–September period. Lower prices for recovered paper and rationalisations carried out has to a certain degree counterbalanced lower contribution from currency hedges.

Compared with the second quarter, profit declined by SEK 31 million to SEK 46 million. Earnings were negatively affected by somewhat lower selling prices and lower production levels, whereas staff costs were seasonally low. Results were not affected by the stronger Swedish krona during the third quarter, as the impact is delayed by currency hedges.

On 2 October, it was announced that production at Hallsta Paper Mill was to be concentrated at the two paper machines with strong positions in MF Magazine and book paper, with a capacity of 525 000 tonnes. The third machine at the mill, which produces approximately 140 000 tonnes of SC paper annually, is intended to be closed down in the second half of 2013. At the same time, investments in energy efficiency measures that will improve competitiveness are planned. Overall, this is expected to result in a reduction of approximately 230 employees in the workforce. The result for the third quarter does not take into account any costs relating to the planned adjustment.

Iggesund Paperboard	Quarter			January-September		Full year
SEKm	3-12	2-12	3-11	2012	2011	2011
Net sales	1 261	1 212	1 296	3 804	3 892	5 109

Production, paperboard, '000 tonnes	129	119	108	375	358	471
Deliveries, paperboard, '000 tonnes	126	118	121	368	365	474

The market for SBB and FBB was stable during the quarter. Deliveries to Europe during January–September were 3 per cent lower than in the corresponding period last year, as a result of a weak opening of the year.

Iggesund Paperboard's deliveries amounted to 368 000 tonnes in the first nine months of the year, 3 000 tonnes higher than the same period last year.

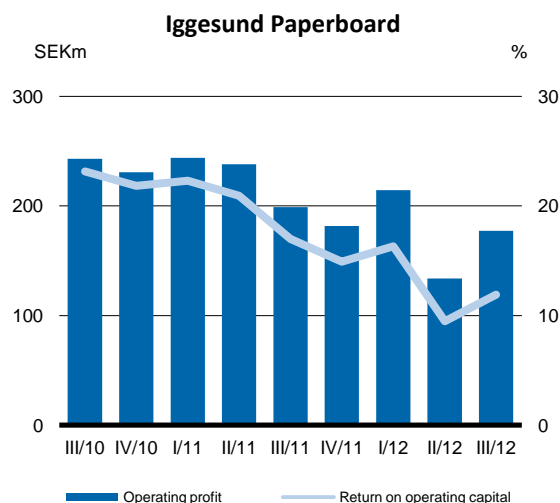

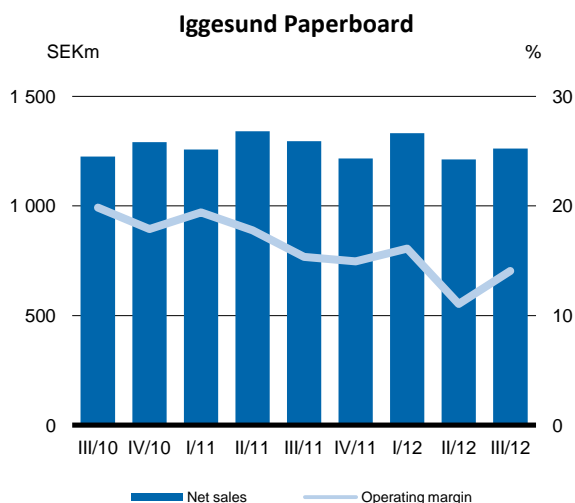

Operating profit for Iggesund Paperboard in January–September totalled SEK 525 million (681). The decline was attributable to lower contributions from currency hedges.

Compared with the second quarter, profit rose by SEK 43 million to SEK 177 million. Production and delivery volumes were high and costs seasonally low. Depreciation increased by SEK 25 million in

connection with the new recovery boiler at Iggesund Mill that entered service in June. Results were not affected by the stronger Swedish krona during the third quarter, as the impact is delayed by currency hedges.

The new biofuel boiler in Workington is planned to enter service in spring 2013. The total investment in the biofuel boiler and the recovery boiler is estimated at SEK 3.4 billion, of which SEK 2.5 billion has been paid out to date.

In September, it was announced that the workforce at Iggesund Mill was to be reduced from 900 to 800 employees over a two-year period. The intention is for the reduction to take place through natural attrition.

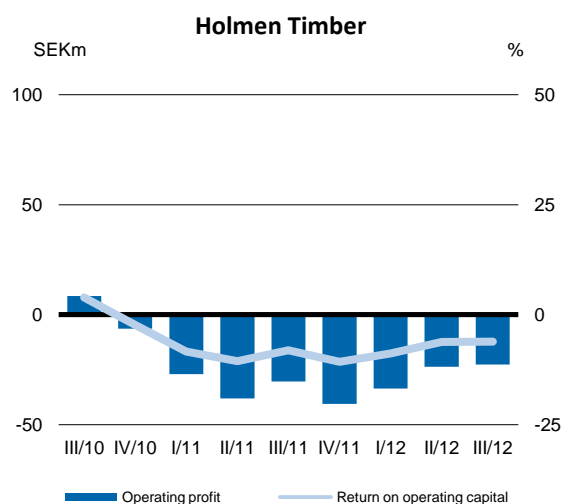

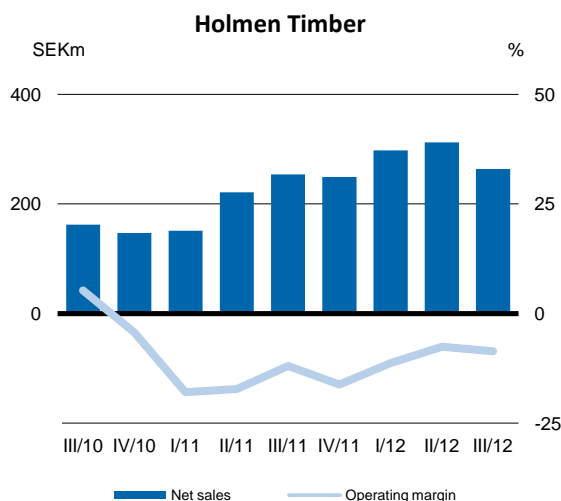

Holmen Timber	Quarter			January-September		Full year
SEKm	3-12	2-12	3-11	2012	2011	2011
Net sales	264	313	254	874	626	875

Deliveries, '000 m ³	151	181	141	505	343	487

The market for sawn timber remained weak. Selling prices were more or less unchanged.

Deliveries by Holmen Timber totalled 505 000 cubic metres during the first nine months of the year, an increase of 162 000 cubic metres from the same period last year, mainly as a result of increased deliveries from Braviken Sawmill. Certain production curtailments were made during the third quarter.

For the January–September period, Holmen Timber reported an operating loss of SEK 80 million (-95). This loss was attributable to a weak market and high raw material prices.

Compared with the second quarter, the operating loss was reduced by SEK 1 million, to SEK -23 million. Staff costs were seasonally low, compensating for a lower level of deliveries and production.

Holmen Skog	Quarter			January-September		Full year

Harvesting company forests, '000 m ³	760	790	734	2 195	2 190	2 988

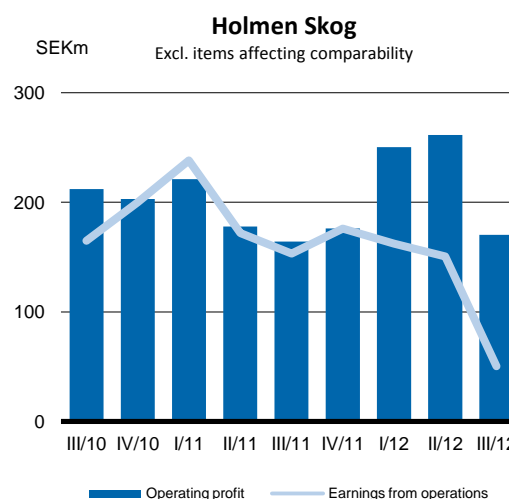

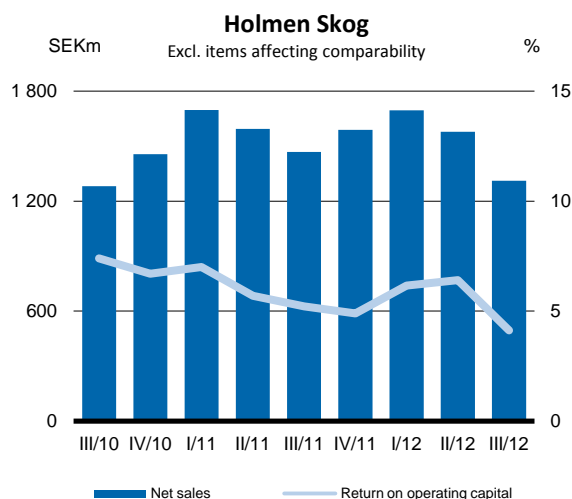

*Revaluation of forests amounts in Q4 2011 to SEK 3 593 million and is stated as items affecting comparability.

Demand for both timber and pulpwood in Sweden was weak in the third quarter and market prices declined.

Holmen Skog's operating profit for January–September amounted to SEK 682 million (563). Earnings from operations totalled SEK 363 million (563). The decline was attributable to a fall of just over 10 per cent in selling prices and higher felling costs as a result of a storm in central Sweden at the turn of the year.

The change in value was reported as SEK million 319 (0), which was higher than normal and resulted from a lower-than-planned volume of felling.

Compared with the second quarter, earnings from operations fell by SEK 100 million to SEK 50 million. The decline arose primarily as a result of a write-down of the value of felling rights, as well as higher costs. Lower selling prices also had negative impact.

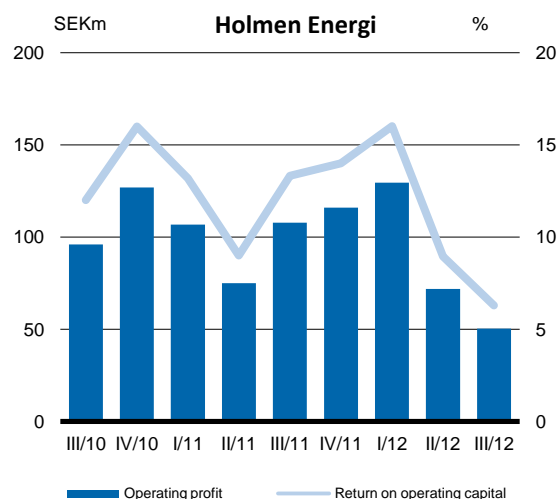

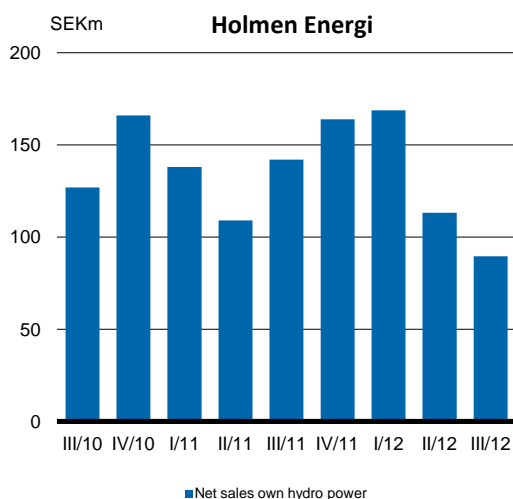

Holmen Energi	Quarter			January-September		Full year
SEKm	3-12	2-12	3-11	2012	2011	2011
Net sales	358	413	437	1 268	1 367	1 807
<i>of which from own hydro power</i>	90	113	142	372	388	552

Production of company hydro power, GWh	282	332	342	992	852	1 230

Holmen Energi's profit for January–September amounted to SEK 252 million (289). With high levels of precipitation during the spring and summer, production up to now this year has been 25 per cent higher than normal, and 15 per cent higher than in the same period last year. Lower market prices for electricity brought down the average price of Holmen Energi's own production by nearly 20 per cent between the periods.

Compared with the second quarter, profit fell by SEK 22 million to SEK 50 million. Production was high for the time of year, but somewhat lower than during the second quarter. The market price for electricity fell, but the effect on earnings was mitigated by price hedges.

The levels in Holmen's water storage reservoirs were normal at the end of the period.

Net financial items and financing

Net financial items for January–September amounted to SEK -173 million (-186). During the period, interest expense of SEK 43 million (22) was capitalised in connection with major investment projects and consequently reduced the recognised interest expense. The major share pertains to projects completed in June 2012. The cost of borrowing was 4.2 per cent (4.4).

Cash flow from operating activities totalled SEK 1 769 million. Cash flow from investing activities was SEK -1 583 million. SEK 672 million in dividends was paid in the second quarter.

During January–September, the Group's net financial debt increased by SEK 425 million to SEK 6 684 million. The debt/equity ratio was 0.33 and the equity/assets ratio 53 per cent. Financial liabilities including pension provisions totalled SEK 6 983 million, SEK 3 638 million of which was represented by current liabilities. Cash, cash equivalents and financial receivables totalled SEK 299 million. The Group has unused long-term contractually agreed credit facilities of SEK 5 246 million, maturing in 2016–2017.

Equity

In January–September, the Group's equity increased by SEK 190 million to SEK 19 963 million. Profit for the period totalled SEK 950 million. The dividend paid was SEK 672 million. In addition, other comprehensive income totalled SEK -89 million.

Tax

Recognised tax for January–September amounted to SEK -319 million. Recognised tax, as a proportion of profit before tax, was 25 per cent.

The Swedish government has proposed a reduction in corporation tax, from 26.3 to 22 per cent, to take effect from the beginning of 2013. If the parliament approves the proposal, Holmen's recognised tax for the fourth quarter will benefit to the extent of approximately SEK 900 million, mainly as a result of a lower deferred tax liability for biological assets.

Hedging exchange rates and electricity prices

The Group hedges parts of future estimated net flows in foreign currencies. Operating profit for January–September includes currency hedges of SEK 239 million (462). At end of the quarter, the Group had hedged its anticipated currency flows for the next four months. Longer-term hedges have been obtained for certain transactions. The fair value of currency hedges not yet recognised as income amounted to SEK 56 million at the end of the quarter.

Prices for the Group's estimated net consumption of electricity in Sweden over the remainder of 2012 are fully hedged. For the 2013–2015 period, approximately 90 per cent has been hedged while for the 2016–2021 period the figure is approximately 40 per cent.

Investments

Cash flow from investing activities in January–September was SEK -1 583 million (-1 243). Scheduled depreciation and amortisation totalled SEK 974 million (941). The majority of the investments were in the new recovery boiler and turbine at Iggesund Mill and the new biofuel boiler in Workington.

Personnel

The average number of employees (full-time equivalents) in the Group was 3 979 (4 069). The reduction is mainly attributable to cutbacks in Holmen Paper.

Share buy-backs

At the 2012 AGM, the Board received authorisation to purchase up to 10 per cent of the company's shares. No buy-backs took place during the period. The company already owns 0.9 per cent of all shares outstanding, in order to secure the company's commitments pursuant to the call option scheme for employees.

Material risks and uncertainties

The Group's and the parent company's material risks and uncertainties relate primarily to changes in demand and the prices of its products, the cost of key input goods, and changes in exchange rates. For a more detailed description of material risks and uncertainties see Holmen's annual report for 2011 (pages 28–31 and note 26).

Transactions with related parties

There were no transactions between Holmen and related parties that had a significant effect on the Company's financial position and performance.

Accounting policies

The report for the Group has been prepared in accordance with IAS 34 Interim Financial Reporting, the Swedish Annual Accounts Act and the Swedish Securities Market Act. For the parent company the report has been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Securities Market Act, which complies with Recommendation RFR 2 Accounting for Legal Entities, issued by the Swedish Financial Reporting Board. The parent company's and the Group's accounting policies used in the report are unchanged from the latest published annual report. The figures in tables are rounded off.

Review report

Introduction

We have reviewed the condensed interim financial information (interim report) for the Holmen Group as per 30 September 2012 and the nine-month reporting period ending on that date. The Board of Directors and the CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Focus and scope of the review

We conducted our review in accordance with the Standard on Review Engagements (SÖG) 2410 "Review of Interim Financial Information Performed by the Independent Auditors of the Entity". A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially smaller in scope than an audit conducted in accordance with ISA and other generally accepted auditing standards.

The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that could have been identified in an audit. Therefore, the conclusion expressed on the basis of a review does not give the same level of assurance as a conclusion expressed on the basis of an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report was not, in all material respects, prepared for the Group in accordance with IAS 34 and the Swedish Annual Accounts Act, and, for the Parent Company, in accordance with the Swedish Annual Accounts Act.

* Items affecting comparability in 2011 refers to revaluation of forest. 2010 refers to write-down of fixed assets (SEK -555 million), provisions for restructuring (SEK -231 million) and revaluation of forest (SEK +1050 million). 2008 refers to provisions and costs due to restructure and closure of mills and result effects from fire (SEK -361 million). 2007 relate to a write-down of goodwill and tangible fixed assets of SEK -1 603 million within Holmen Paper, a reversed write-down of SEK 60 million within Holmen Timber, and a positive revaluation of forests by SEK 2 100 million within Holmen Skog.

** Excl. items affecting comparability.

Stated in accordance with IFRS from 2004. As far as Holmen is concerned, the principal difference between IFRS and previous accounting principles is that forest assets are valued and stated in the accounts at fair value, that goodwill is no longer depreciated according to plan, and that the fair value of financial assets and liabilities that are hedged are taken into the balance sheet.

Holmen in brief

Holmen's business concept is to develop and run profitable business within three product-oriented business areas for printing paper, paperboard and sawn timber as well as two raw material-oriented business areas for forest and energy. Europe is the key market.

The business area Holmen Paper manufactures printing paper for magazines, directories, advertising material, books and daily newspapers at two Swedish mills and one Spanish mill. Iggesund Paperboard produces paperboard for consumer packaging and graphics printing at one Swedish and one English mill. Holmen Timber produces sawn timber at two Swedish sawmills. Annual production capacity is 1 750 000 tonnes of printing paper, 530 000 tonnes of paperboard and 870 000 cubic metres of sawn timber.

Holmen Skog manages the Group's forests covering just over one million hectares. The annual volume harvested in company forests is some 3.2 million cubic metres. Holmen Energi is responsible for the Group's hydro power assets and for developing the Group's business within the energy sector. Normal yearly production amounts to some 1 100 GWh of electric power at wholly and partly owned hydro power stations in Sweden. Holmen Skog and Holmen Energi are also responsible for the Group's wood and electricity supply in Sweden.

Press and analyst conference

On the publication of the interim report, a press and analyst conference will be held at 14.30 CET on Friday, October 26. Venue: IVA Konferenscenter, Grev Turegatan 16, Stockholm. Holmen President and CEO Magnus Hall will present and comment on the report. The presentation will be held in English.

The conference is also directly available as a webcast on Holmen's website, www.holmen.com. You may also participate in the conference by telephone, by calling +46 (0)8 505 598 53 (within Sweden), +44 (0)203 043 24 36 (from the rest of Europe) or +1 866 458 40 87 (from the US) no later than 14.25 CET.
