## CEO statement

Dear fellow shareholder,

Assuming my new position as CEO of Investor is truly inspiring, but it is also a large responsibility, and I will do my utmost to build an even stronger Investor for the future. I want to thank Börje Ekholm for the pleasure of having been part of his team, and I look forward to continuing our productive collaboration in the new structure.

As a member of Investor's management group and Head of Core Investments during the past ten years, I have been involved in the strategic and operating decisions we have made. I firmly believe that Investor's strategic direction, combined with a professional organization and network, will enable us to continue our efforts to become an even more effective investor and owner of high-quality companies.

#### **New structure**

As of the second quarter, our new structure is in place, which is reflected in this quarterly report. Our holdings are now managed within Listed Core Investments, EQT and Patricia Industries.

The Patricia Industries portfolio consists of our wholly-owned subsidiaries, 3 Scandinavia and Financial Investments. Financial Investments consists of all former Investor Growth Capital (IGC) holdings and other holdings for which the investment horizon has not yet been defined.

With IGC being integrated into Patricia Industries, IGC's management costs, amounting to about SEK 120 m. in 2014, will be reported in Patricia Industries. However, Investor's underlying management costs will remain largely unchanged. The former IGC organization is currently allocating significant resources to realizing the value of our Financial Investments. As we realize investments, the appropriate resources will gradually be allocated to new long-term investments.

Running Listed Core Investments, the EQT investments and our overhead as a listed company costs about SEK 225 m. per year. The annual cost for running Patricia Industries is about SEK 275 m, including IGC's costs. Running a portfolio of unlisted companies is inherently more expensive. However, we believe that the additional costs will be covered by higher growth in intrinsic value longer-term.

Our ambition to maintain strong cost discipline remains firm and our target for the coming years is to remain around the current level, adjusted for wage inflation and currency changes.

The integration also means that the cash previously held by IGC is reported in Patricia Industries, and thereby in Investor's gross cash. Including the previously communicated SEK 6.0 bn. allocation from Investor, Patricia Industries has a cash position of approximately SEK 11 bn. Future cash flow generated within Patricia Industries will mainly be invested to build up our portfolio of unlisted assets, but it will also support our current dividend policy.

## The second quarter

Our net asset value decreased by 3 percent and our total shareholder return was -8 percent. The SIXRX return index declined by 5 percent.

The stock market was turbulent, mainly related to the uncertainty surrounding the difficult situation in Greece and its consequences. After soaring for more than a year, recently we have seen a sharp correction in the Chinese stock markets. A key question is to what extent this will affect consumption and the business climate.

We acquired shares in ABB for a total of SEK 2.5 bn., reaching 9.5 percent of the capital and votes. During the past three years, our investments in ABB amount to almost SEK 7 bn. Based on the company's strong market positions and additional improvement potential, we consider ABB an attractive long-term investment.

EQT performed strongly, with a value change on our investments of 16 percent in constant currency. The net proceeds to Investor amounted to SEK 2.5 bn.

Within Patricia Industries, Mölnlycke Health Care continued to grow with stable profitability and launched two exciting initiatives on the U.S. wound care market. Aleris reported strong growth and significantly improved profitability during the quarter. In Permobil, growth improved following a weak first quarter, as the ramp-up of new products continued.

#### Focus going forward

Investor is well positioned with a strong balance sheet and a portfolio of great companies. That said, we see many opportunities for further improvements and we will make all efforts to capitalize on these.

Over the past few years, the stock market and our portfolio have performed strongly, but that has partly been fueled by lower interest rates and multiple expansion. From the current levels, I personally struggle to see how interest rates could go much lower and multiples substantially higher. Given this, accelerated profit growth in our portfolio companies will be key to ensure attractive long-term returns. To achieve this, we must further sharpen our role as an active owner. Our ambition is that our companies should remain or become "best-in-class", i.e. not only above industry average, but the best performers in their respective industries. This is of course a very tough ambition, but we must aim for the stars. To quote my favorite soccer manager Sir Alex Ferguson: "I've never played for a draw in my life". In order to realize this ambition, we will refine our ownership processes and value creation plans. We will also put more effort into understanding how disruptive technologies and external developments may impact our companies and their positions in the value chain, both when it comes to potential threats and opportunities. Furthermore, for us as a long-term owner. it is vital to encourage and support the development of new talent and future leaders at all levels in our companies.

Our strong cash flow allows us to pursue investment opportunities and to pay an attractive dividend to our shareholders. Near to medium term, we will focus on investments through our existing wholly-owned subsidiaries and strengthening our ownership in selected Listed Core Investments. In addition, we will work to realize value through divestitures of Financial Investments within Patricia Industries. Over time, a key priority is to add a number of new wholly-owned subsidiaries to the portfolio, but we do not rule out new listed investments, should the right opportunities arise.

Our operating priorities to grow net asset value, operate efficiently and pay a steadily rising dividend remain firm. With these priorities as guiding lights, I look forward to working hard together with our team at Investor and with the boards and the management teams in our holdings, to build an even stronger portfolio of long-term successful companies. This continues to be our way to generate attractive value for you, dear shareholder.

A provider of single-use surgical and wound care products for customers, healthcare professionals and patients

#### Activities during the quarter

- Organic sales growth was 4 percent in constant currency, mainly driven by the U.S. The EBITDA margin was stable.
- The Wound Care segment continued to show good growth, driven by Advanced Wound Care.
- Apria Healthcare has started to use Mölnlycke's Negative Pressure Wound Therapy (NPWT) products for home care across the U.S. The cooperation has had only limited contribution to Mölnlycke's sales so far.
- Together with retail pharmacy chain CVS Health, Mölnlycke launched the "Hospital Series", an advanced wound care assortment, available to consumers through 7,700 CVS Health stores across the U.S. from the end of April. The contribution to Mölnlycke's sales is limited so far.
- Growth in the Surgical segment was mainly driven by Surgical Gloves and Procedure  $\mathsf{Pak}^\mathsf{TM}.$
- Operating cash flow was negatively impacted as Mölnlycke discontinued factoring in several countries during the quarter.

A private provider of healthcare and care services in Scandinavia

#### Activities during the quarter

- Organic sales growth was 12 percent in constant currency, largely driven by Healthcare and Care for Youths and Adults in Norway, and the start-up of new Senior Care Homes in
- EBITDA improved significantly compared to the corresponding period last year, and the margin reached 6 percent. While impacted by minor positive non-recurring items, the margin improvement was primarily explained by productivity improvements within Healthcare in Sweden and Norway. Care for Youth and Adults in Norway continued to see price pressure.
- Operating cash flow improved due to the higher EBITDA and improved working capital.

A provider of advanced powered and manual wheelchairs for severely disabled users

## Activities during the quarter

- Performance improved, with organic sales growth of 6 percent in constant currency, supported by positive response for the new powered wheelchair series in both North America and Europe. Reported sales growth was driven by the acquisitions of TiLite and ROHO and positive currency impact.
- Reported EBITDA was SEK 125 m. and the margin was 17 percent, below last year's level due to investments in sales force expansion and product introduction activities.
   Transaction costs and higher costs of goods sold, as a result of inventory step-up related to the ROHO acquisition, also weighed on the margin.
- The operating cash flow was negatively impacted by the investments made in inventory and demo wheelchairs in order to support the ongoing introduction of the new powered wheelchair series.

## Group

### Net debt

Net debt totaled SEK 19,975 m. on June 30, 2015 (20,453). Debt financing of the subsidiaries within Patricia Industries is arranged on an independent, ring-fenced basis and hence not included in Investor's net debt. Within Patricia Industries, Investor guarantees SEK 0.7 bn. of 3 Scandinavia's external debt, but this is not included in Investor's net debt.

#### The Investor share

The price of the A-share and B-share was SEK 301.00 and SEK 308.90 respectively on June 30, 2015, compared to SEK 281.30 and SEK 284.70 on December 31, 2014.

The total shareholder return amounted to 12 percent during the first half of the year (17), of which -8 percent during the second quarter 2015 (11).

The total market capitalization of Investor, adjusted for repurchased shares, was SEK 232,867 m. as of June 30, 2015 (215,705).

## **Parent Company**

## Share capital

Investor's share capital amounted to SEK 4,795 m. on June 30, 2015 (4,795).

#### Share structure

Class of share	Number of shares	Number of votes	% of capital	% of votes

Total	767 175 030	357 239 262	100.0	100.0

On June 30, 2015, Investor owned a total of 5,344,648 of its own shares (5,796,960). The net decrease in holdings of own shares is attributable to repurchase of own shares and transfer of shares and options within Investor's long-term variable remuneration program.

### Results and investments

The Parent Company's result after financial items was SEK 19,824 m. (18,850). The result is mainly related to Listed Core Investments which contributed to the result with dividends amounting to SEK 5,725 m. (5,713) and value changes of SEK 10,179 m. (13,302).

During the period, the Parent Company invested SEK 13,066 m. in financial assets (2,442), of which SEK 9,565 m. in Group companies (1,215), including SEK 9,321 m. attributable to Patricia Industries. Purchases in Listed Core Investments amounted to SEK 3,499 m. (1,180). During 2015 the Parent Company received proceeds regarding redemptions of shares in Listed Core Investments of SEK 1,241 m. and divested SEK 10,288 m. in Group companies (4,355), of which SEK 9,756 m. is attributable to Patricia Industries. By the end of the period, shareholder's equity totaled SEK 239,882 m. (226,768).

## Change in pension plan

The pension and insurance plan for the Parent Company and four smaller subsidiaries within investing activities has been revised in order to modernize and better adapt the plan to market conditions. The main consequence of the revision is that the defined benefit BTP plan has been replaced with a defined contribution pension and insurance plan. In the long term, this change will lead to predictable and lower costs for the included companies as well as the same or better insurance coverage and pension earnings for the employees. For the Parent Company the effect of not having

any formal obligation regarding the defined benefit plan, BTP, is recognized in operating income under Operating costs. The effect in the Parent Company amounts to SEK 55 m. In the Group's consolidated income statement the effect is recognized under Management costs and amounts to SEK 66 m.

## Other

## **Acquisitions (business combinations)**

On February 24, 2015, Aleris signed an agreement to acquire the healthcare provider, Teres Medical Group. The acquisition enables Aleris to strengthen its position as the leading private healthcare provider in Scandinavia. Teres has 17 surgical clinics and private hospitals in Norway, Denmark and Sweden. Through the acquisition, Aleris adds experience, competence and a broader range of high quality within different surgical services in Scandinavia. The transaction is subject to approval from competition authorities.

#### Permobil's acquisition of ROHO

On April 27, 2015, Permobil acquired The ROHO Group, Inc., the global leader in skin protection and positioning solutions for wheelchair users, based in Belleville, Illinois, U.S. The acquisition marks the next important step in Permobil's strategy to become a leading healthcare company, providing innovative advanced rehabilitation solutions for people with disabilities. The consideration amounted to SEK 1,012 m.

In the preliminary purchase price allocation, goodwill amounts to SEK 614 m. The goodwill recognized for the acquisition corresponds to the combined company's opportunities for synergies. The goodwill recognized is not expected to be deductible for income tax purposes.

Identifiable assets acquired and liabilities assumed (SEK m.)

#### **ROHO Group**

SEK m.	Preliminary Purchase Price Allocation
Intangible assets	272

Transaction related costs amounted to SEK 17 m. and derive from external legal fees and due diligence expenses. The costs have been included in the item Administrative, research and development and other operating cost in the Group's consolidated income statement.

For the two month period from the acquisition date until June 30, ROHO contributed with net sales of SEK 74 m. and profit of SEK 10 m. to the Group's result. If the acquisition had occurred on January 1, 2015, management estimates that consolidated net sales for the Investor Group would have increased by SEK 121 m. and consolidated profit for the period would have increased by SEK 4 m.

## Pledged assets and contingent liabilities

Pledged assets have decreased by approximately SEK 3.0 bn. during the year, mainly due to the refinancing of Permobil. Total pledged assets amounts to SEK 1.1 bn.

No material changes in contingent liabilities during the period.

## Risks and Risk management

The main risks that the Group and the Parent Company are exposed to are primarily related to the value changes of the listed assets due to market price fluctuations. The strained economic situation in Greece and the volatility in the Chinese stock markets currently increase uncertainty. The development of the global economy is an important uncertainty factor in assessment of near-term market fluctuations. The development of the financial markets also affects the various unlisted holdings' businesses and opportunities for new investments and divestments.

Investor and its subsidiaries are exposed to commercial risks, financial risks and market risks. In addition, the subsidiaries, through their business activities within respective sector, also are exposed to legal/regulatory risks and political risks, for example political decisions on healthcare budgets and industry regulations.

Whatever the economic situation in the world, operational risk management requires a continued high level of awareness and focused work in line with stated policies and instructions.

Investor's risk management, risks and uncertainties are described in detail in the Annual Report, (Administration report and Note 3). No significant changes have been assessed subsequently, aside from changes in current macro economy and thereto related risks.

## **Accounting policies**

For the Group, this interim report was prepared in accordance with IAS 34 Interim Financial Reporting and applicable regulations in the Swedish Annual Accounts Act, and for the Parent Company in accordance with Sweden's Annual Accounts Act, chapter 9 Interim report. Unless otherwise specified below, the accounting policies that have been applied for the Group and Parent Company are in agreement with the accounting policies used in the preparation of the company's most recent annual report.

### New and changed accounting policies in 2015

New or revised IFRSs and interpretations from the IFRS Interpretations Committee have had no effect on the profit/loss, financial position or disclosures for the Group or Parent Company.

#### Presentation of new structure

As of the second quarter 2015, Investor's presentation of operating segments has been changed. The change is due to a new internal structure for management and reporting. Previously the operations were divided into the two business areas Core Investments and Financial Investments, which had different investment strategies and goals. In the new structure, the operations are divided into the three business areas Listed Core Investments, EQT and Patricia Industries. The business area Listed Core Investments consists of the listed core holdings and the business area EQT of the holdings in EQT. The business area Patricia Industries

includes the wholly-owned subsidiaries, the former IGC portfolio and all other financial investments, except EQT and Investor's trading portfolio. Comparative figures have been adjusted correspondingly.

In connection to the new presentation of operating segments, the definition of management costs have been changed. Historically only the general costs for the investment organization in Sweden have been classified as management cost. The corresponding costs for the operations within IGC was reported as Administrative, research and development and other operating costs. From the second quarter 2015, the general costs for the investment organization within former IGC are included in the management costs. Comparative figures have been adjusted correspondingly.

## **Review Report**

### Introduction

We have reviewed the interim report of Investor AB (publ), corporate identity number 556013-8298, for the period January 1 - June 30, 2015. The Board of Directors and the President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

## **Scope of Review**

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (ISA) and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit.

Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

## **Financial instruments**

The numbers below are based on the same accounting and valuation policies as used in the preparation of the company's most recent annual report. For information regarding financial instruments in level 2 and level 3, see Note 29 in Investor's Annual Report 2014.

#### Valuation techniques, level 3

Group 6/30 2015	Fair value	Valuation technique	Input	Range
Shares and participations	22 289	Last round of financing	n.a.	n.a.
			EBITDA multiples	5.1
		Comparable companies	Sales multiples	0.6 - 6.6
		Comparable transactions	Sales multiples	1.5 - 5.7
		NAV	n.a.	n.a.
Long-term receivables included in net debt	1 578	Present value computation	Market interest rate	n.a.
Long-term interest bearing liabilities	232	Present value computation	Market interest rate	n.a.
Other long-term provisions and liabilities	858	Discounted Cash flow		n.a.

All valuations in level 3 are based on assumptions and judgments that management consider to be reasonable based on the circumstances prevailing at the time. Changes in assumptions may result in adjustments to reported values and the actual outcome may differ from the estimates and judgments that were made.

The unlisted part of Financial Investments portfolio companies, corresponding to 52 percent of the portfolio value, is valued based on comparable companies, and the value is dependent on the level of the multiples. The multiple ranges provided in the note show the minimum and maximum value of the actual multiples applied in these valuations. A 10 percent change of the multiples would have an effect on the Financial Investments portfolio value of approximately SEK 400 m. For the derivatives, a parallel shift of the interest rate curve by one percentage point would affect the value by approximately SEK 1,100 m.

#### Financial assets and liabilities by level

The table below indicates how fair value is measured for the financial instruments recognized at fair value in the Balance Sheet. The financial instruments are presented in three categories, depending on how the fair value is measured:

- Level 1: According to quoted prices in active markets for identical instruments
- Level 2: According to directly or indirectly observable inputs that are not included in level 1
- Level 3: According to inputs that are unobservable in the market
