The Board of Directors' proposals for decision

Item 11 - Dividend and Record Date

The Board of Directors and the President propose a dividend to the shareholders of SEK 9.00 per share and that Friday, May 15, 2015, shall be the record date for receipt of the dividend. Should the Meeting decide in favor of the proposal, payment of the dividend is expected to be made by Euroclear Sweden AB on Wednesday, May 20, 2015.

Item 16 - Guidelines for Salary and other Remuneration for the President and other Members of the Management Group and on a Long-term Variable Remuneration Program

The Board of Directors of Investor seeks to attain a remuneration system for the President, other Members of the Management Group and other employees which is in line with market conditions and competitive and thus interesting for the qualified circle of employees that Investor wants to attract and retain.

The Board of Directors' proposal regarding guidelines for salary and other remuneration for the President and other Members of the Management Group to the Annual General Meeting 2015 comply with the guidelines for remuneration decided by the Annual General Meeting 2014, however, with the exception that it is now proposed that pension benefits shall only consist of a premium based pension plan on parts of salary up to 30 basic income amounts, and no longer of a defined benefit pension plan. The change results in a pension plan better adapted to market conditions and does not result in increased costs for the company. Furthermore, as of the Annual General Meeting 2015, none of the Members of Investor's Management Group participate in the profit-sharing program in Investor's trading and Investment organization.

Item 16A - Guidelines for Salary and other Remuneration for the President and other Members of the Management Group

Investor shall strive to offer a total remuneration in line with market conditions which will enable Investor to recruit and retain the most suitable senior executives. The total remuneration shall be based on factors such as position, performance and individual qualification. Comparative studies of relevant industries and markets are carried out

annually in order to determine what constitutes a total level of remuneration in line with market conditions. The total remuneration to the Management Group shall consist of fixed cash salary, variable cash salary, long-term variable remuneration, pension and non-monetary benefits and other remuneration. Fixed cash salary, variable cash salary and long-term variable remuneration programs together constitute the total salary of the employee.

The fixed cash salary shall be reviewed annually and constitutes the basis for calculating the variable salary.

The short-term variable cash salary is dependent upon the individual's achievement to meet annually set goals. The outcome of the short-term variable cash salary is reviewed annually. For the Management Group, the highest possible short-term variable cash salary shall vary due to the position held and employment agreements and shall, for the Members of the Management Group, generally amount to 10-75 per cent of the fixed cash salary. For the President, the short-term variable cash salary amounted to maximum 10 per cent in 2014. The total short-term variable cash salary before tax for all current Members of the Management Group, and considering the change of President as of May 12, 2015, can vary between SEK 0 and SEK 10.0 million during 2015, depending on whether the goals have been met. The short-term variable cash salary might exceed this amount in the event that the Management Group is expanded. The outcome should only be related to the fulfillment of the individual's goals and thus the remuneration is clearly related to the work contributions and performance of the individual. The goals shall be both qualitative and quantitative and be based on factors which support the company's long-term strategy.

The long-term variable remuneration program is dealt with under item 16B.

Pension benefits shall, for Members of the Management Group, consist of a premium based pension plan on parts of salary above 20 basic income amounts as a consequence of which the ratio of pension provisions to fixed cash salary depends on the age of the executive. Pension benefits shall, for all employees, consist of a premium based pension plan on parts of salary up to 30 basic income amounts. The age of retirement for the President and other Members of the Management Group shall be 60 years.

Non-monetary benefits and other remuneration shall be on market terms and shall contribute to facilitating the executive's discharge of his or her duties.

Investor and Members of the Management Group may mutually terminate employment contracts subject to a six months' notice. Fixed cash salary during the notice period and severance pay shall, for Members of the Management Group with employment contracts entered into after the Annual General Meeting 2010, in aggregate not exceed the fixed cash salary for two years. For Members of the Management Group employed before the Annual General Meeting of 2010 the contracts already entered into shall apply. For these Members a mutual termination period of six month applies and severance payment is maximized to 24 months of fixed cash salary.

The Board of Directors may, where particular grounds exist in the individual case, decide to deviate from the guidelines.

Item 16B - Long-term Variable Remuneration Program 2015

As regards the long-term variable remuneration program, it is the Board of Directors' ambition to create a structure which provides a balance between the employees' risk – by the requirement on holding of Investor shares in order to participate in the program – and the employees' possible reward – through performance-related allocation of Investor shares. The holding of Investor shares makes the employees committed to Investor. In addition, part of the remuneration to the employees is related to the long-term development of Investor and the Investor share entailing that the employee is exposed to share price increases and decreases and will have goals equivalent to those of Investor's shareholders.

The Board of Directors has decided to propose to the Annual General Meeting 2015 a long-term variable remuneration program which is substantially identical to the program from 2014 and which is built on a Stock Matching Plan and a Performance-Based Share Program. Both programs are connected to Investor shares of class B.

According to the Stock Matching Plan, all employees, who choose to participate in the program, for each share that qualifies for participation in the Stock Matching Plan ("Participation Share") will receive two options ("Matching Options") and a right to purchase one Investor share ("Matching Share"). The Participation Share may either be a share that the employee already owns or a share which is acquired during a period following the disclosure of Investors first interim report for 2015 as resolved upon by the Board of Directors ("Measurement Period"). The average volume weighted payment price for the Investor share during the Measurement Period is referred to as the "Participation Price". The Matching Share can, after a three-year vesting period, be acquired for SEK 10 during a four-year period. During the same period, each Matching Option entitles the holder to purchase one share at an exercise price corresponding to 120 per cent of the Participation Price.

According to the Performance-Based Share Program, senior management, after a three-year vesting period, has the right during four years to acquire shares ("Performance Shares") at a price corresponding to 50 per cent of the Participation Price conditional upon that the total return on the Investor shares exceeds a certain level. The annual total return (including reinvested dividends) is measured quarterly during the vesting period and must exceed the interest on 10-year government bonds with more than 10 percentage points in order for senior management to be entitled to acquire the maximum number of Performance Shares, which preliminary has been allotted to the respective senior manager.

The allotment of Matching Shares, Matching Options and Performance Shares to an employee is also related to the employee's position and is based on the employee's fixed cash salary.

Assuming a Participation Price of SEK 300, the highest number of shares which can be acquired by the employees as a result of the Matching Options will be 105,000. The highest number of Matching Shares that the employees can have the right to acquire, including estimated remuneration for dividends, amounts to 65,000. The highest number of Performance Shares that Senior Management can have the right to acquire, including estimated remuneration for dividends, amounts to 330,000. The highest number of shares that can be acquired under the long-term variable remuneration program is dependent upon the Participation Price and can thus increase or decrease.

The costs for the 2015 long-term variable remuneration program as shown on the income statement is based on the accounting principles in accordance with IFRS-2 and

amounts, with a Participation Price of SEK 300 and full participation, to approximately SEK 22 million for the Stock Matching Plan and approximately SEK 21 million for the Performance-Based Share Program. Estimated costs for social security charges are included in these amounts.

In order to reduce the costs of the long-term variable remuneration program, the Board of Directors intends to hedge the program through total return swaps with third parties and/or, subject to the shareholders' approval under item 17B on the agenda, repurchases of Investor's shares which can then be transferred to the employees under the Stock Matching Plan and the Performance-Based Share Program.

Item 17 - Purchase and transfer of own shares

Item 17A - Purchase and transfer of own shares in order to give the Board of Directors wider freedom of action in the work with the Company's capital structure, in order to enable transfer of own shares according to 17B below, and in order to secure the costs connected to the long-term variable remuneration program and the allocation of synthetic shares as part of the remuneration to the Board of Directors

The Board of Directors proposes that the Board is authorized, during the period until the next Annual General Meeting, to decide on (i) purchases of Investor's shares on Nasdaq Stockholm and purchases in accordance with purchase offerings to shareholders, respectively, and on (ii) transfer of Investor's shares on Nasdaq Stockholm, or in a manner other than on Nasdaq Stockholm including the right to decide on waiver of the shareholders' preferential rights and that payment may be effected other than in cash. The Company may purchase maximum so many shares that the Company's holding of own shares after the purchase amounts to a maximum of one-tenth of all the shares in the Company. The Company may transfer maximum all own shares held at the time of the Board of Directors' resolution to transfer shares.

The purpose of the proposal is to give the Board of Directors wider freedom of action in the work with the Company's capital structure, possibility to resolve on transfer of own shares according to item 17B below, and possibility to secure the costs, including the social security payments, in connection with the long-term variable remuneration program and with the allocation of synthetic shares as part of the remuneration to the Board of Directors (as regards synthetic shares, see the Nomination Committee's proposal for decision below).

Item 17B - Transfer of own shares in order to enable the Company to transfer own shares to employees who participate in the long-term variable remuneration program 2015

The Board of Directors proposes that the Meeting resolves that transfer of Investor's shares, in a maximum number of 700,000 (or the higher number that may follow from a recalculation because of a split, bonus issue or similar action), to the employees in accordance with the long-term variable remuneration program described in item 16B shall be possible. The number of shares has been calculated with a certain margin as share price fluctuations during the period up and until the measurement period following the 2015 Annual General Meeting may have an effect on the value of the program and, thus, on the number of shares to be included in the program.

The Nomination Committee's proposals for decision

Investor's Nomination Committee, consisting of Hans Wibom (Wallenberg foundations, Chairman of the Nomination Committee), Peder Hasslev (AMF), Lars Isacson (SEB Foundation), Ramsay Brufer (Alecta), jointly representing approximately 60 per cent of the voting rights for all the shares in Investor, and Jacob Wallenberg (Chairman of the Board of Directors), proposes the following:

Item 1 - The Chairman of the Meeting

Axel Calissendorff, member of the Swedish Bar Association, as Chairman of the Meeting.

Item 12A - The number of Members of the Board of Directors

Ten Members of the Board of Directors and no Deputy Members of the Board of Directors.

Item 12B - The number of Auditors

One registered auditing company.

Item 13A - The compensation to the Board of Directors

A total compensation to the Board of Directors of SEK 8,396,000 in accordance with the following:

- SEK 7,340,000,
 - whereof SEK 2,340,000 (2,175,000) to the Chairman and SEK 625,000 (580,000) to each of the other eight Members of the Board which are not employed by the Company in cash and in so-called synthetic shares (see below) and,
- SEK 1,056,000 in cash as remuneration for work in the committees of the Board of Directors,
 - to be allocated as follows:
 - The Chairman of the Audit and Risk Committee SEK 250,000 and the three other Members SEK 165,000. (The two committees, the Audit Committee and the Finance and Risk Committee, are merged into one committee, the Audit and Risk Committee.)
 - The Chairman of the Remuneration Committee SEK 155,000 (143,000) and the two other Members SEK 78,000 (72,000) each.

The proposed increase of Board compensation for 2015 is part of a market adjustment of the fee, which was unchanged between 2006 and 2011, in order to reach the same real value level as was decided by the Annual General Meeting in 2006. As a basis for the proposal, the Nomination Committee has inter alia compared with the development of Board compensation in other companies on Nasdaq Stockholm and on general salary developments over the last ten years. The proposed increases entail an average annual increase in Board compensation per Board Member of 2.5 per cent since 2006.

The Nomination Committee recommends the Board of Directors of Investor to, as in 2011-2014, establish a shareholding policy pursuant to which the Members of the Board, that do not already have such holding, are expected to, over a five year period, acquire an ownership in Investor shares (or a corresponding exposure to the Investor share, for example in synthetic shares) with a market value which is expected to correspond to at least one year board remuneration, before taxes, excluding remuneration for committee work.

In order to facilitate the establishment of such holding or exposure the Nomination Committee proposes that the nominated Member of the Board shall be entitled to elect

to receive 50 per cent of the proposed remuneration before taxes, excluding remuneration for committee work, in the form of synthetic shares and 50 per cent in cash, instead of receiving 100 per cent of the remuneration in cash.

The synthetic shares will be valued in connection with allocation after the Annual General Meeting 2015 and shall be based on an average market price of shares of class B during a measurement period in conjunction with the allocation.

A synthetic share carries the same economic rights as an Investor share of class B, which means that the value of the Board of Director's remuneration in synthetic shares, in the same way as shares of class B, fluctuate with the share price and dividend amount during the five year period until 2020, when each synthetic share entitles the Member of the Board of Directors to receive an amount based on the then prevailing share price of an Investor share of class B.

The synthetic shares have the right, during the fifth calendar year after the beginning of term of office, on four occasions to receive payment, in respect of 25 per cent of allocated shares on each occasion, in an amount in cash per synthetic share corresponding to the market price, at each respective occasion for payment, of an Investor share of class B. The synthetic shares shall be regarded as continuously vested during the term of office, with 25 per cent per quarter. Dividends on Investor shares of class B, during the period up and until payment shall be credited the Member of the Board of Directors in form of allocation of additional synthetic shares.

The Company's undertaking to effect future payments regarding the synthetic shares as described above, should be hedged by the Company, either by re-purchasing of its own shares, which then shall be sold on the market in connection with the payment to the Members of the Board or by hedging agreements with banks. The financial effect for the Company, if the Members of the Board receive part of their remuneration in synthetic shares compared to receiving the full remuneration in cash, is due to the hedging arrangements, assessed to be very limited.

The proposal thus entails that the Annual General Meeting approves remuneration to the Board of Directors in an amount of, in aggregate, SEK 8,396,000 whereof not less than SEK 0 and not more than SEK 3,670,000 shall consist of synthetic shares.

Item 13B - The compensation to the Auditors

Auditors' fees to be paid upon approval of their invoice.

Member of Investor's Management Group and Head of Core Investments since 2006 and is a Member of the Board of Directors in Atlas Copco AB since 2008 and Saab AB since 2010.
