03 July 2007

Lindab reports healthy order book for Building Systems

Lindab has received an order of approximately €2.6 million from 3M for a building project in Wroclaw, Poland. The project includes two buildings - an 8,000 m² plant and warehouse building and a 1,500 m² two-floor office building. The building is expected to be completed by the end of 2007. This is the third time that 3M has chosen *Astron* buildings, the previous two were in Turkey and Russia.

“This deal is one in a string of important orders that we have received in the last few months and we have a healthy order book,” says David Brodetsky, Manager for Lindab’s Building Systems Division. “We are pleased to be working with 3M on another part of their expansion programme. The fact we can announce repeat business with successful companies, such as 3M, is a credit to the Building Systems Division.”

About Lindab:

Lindab is an international group that develops, manufactures and markets sheet metal products and system solutions for the construction sector.

The two business areas, [Profile](#) and [Ventilation](#) offer complete solutions for construction systems and indoor climate, as well as individual construction and ventilation components for all types of buildings.

Lindab is listed on the Stockholm Stock Exchange, Nordic Large Cap under the ticker “LIAB”.

The Lindab group has approximately 4,900 employees in 29 countries and generated sales of SEK 7,609 million in 2006. Its head office is located in

Grevie near Bastad in southwestern Sweden. For more information visit www.lindab.com

About Building Systems:

Building Systems is a division of Lindab (within the Profile business area), which designs, produces and distributes single storey and multi-storey pre-engineered steel buildings under the product brand "**Astron**".

It produces up to 1,000 buildings a year primarily for the non-residential market, throughout Europe. The buildings are mainly distributed through a network of approximately 360 accredited independent Builder-dealers, present in 36 countries.
