

## **Lindab receives an important order for chilled beams in the UK**

Lindab's Comfort division has received an important order, together with business partner Frenger Systems Ltd, valued at approximately EUR 1 million.

Lindab will deliver "Pilot" chilled beams to the extension and refurbishing projects for two London hospitals, St. Barts and the Royal London Hospital. Skanska is the main contractor. Rigorous demands were placed on the overall quality of the equipment, especially in terms of maintenance, operation and hygiene. The "Pilot" chilled beams were chosen on these criteria and are characterised by being easy to clean and for having adjustable airflows and pattern.

The order will be delivered during 2008 and 2009.
