

BASE PROSPECTUS

SANDVIK AB (PUBL)

(incorporated with limited liability in the Kingdom of Sweden)

€3,000,000,000

Euro Medium Term Note Programme

This Base Prospectus has been approved by the United Kingdom Financial Services Authority (the "FSA"), which is the United Kingdom competent authority for the purposes of Directive 2003/71/EC (the "**Prospectus Directive**") and relevant implementing measures in the United Kingdom, as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the United Kingdom for the purpose of giving information with regard to the issue of notes ("**Notes**") issued under the Euro Medium Term Note Programme (the "**Programme**") described in this Base Prospectus during the period of twelve months after the date hereof. Applications have been made for such Notes to be admitted during the period of twelve months after the date hereof to listing on the Official List of the FSA and to trading on the Regulated Market of the London Stock Exchange plc (the "**London Stock Exchange**"). The Regulated Market of the London Stock Exchange is a regulated market for the purposes of Directive 2004/39/EC on markets in financial instruments. The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer (as defined herein).

Tranches of Notes (as defined in "*Terms and Conditions of the Notes*") to be issued under the Programme will be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) described herein or the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms (as defined herein). Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued by a credit rating agency established in the EEA and registered (or which has applied for registration and not been refused) under Regulation (EC) No. 1060/2009 (the "**CRA Regulation**"), (2) issued by a credit rating agency which is not established in the EEA but will be endorsed by a credit rating agency which is established in the EEA and registered under the CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA but which is certified under the CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the CRA Regulation unless (a) the rating is provided by a credit rating agency operating in the EEA before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration has not been refused, (b) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the CRA Regulation or (c) the rating is provided by a credit rating agency not established in the EEA which is certified under the CRA Regulation. As at the date of this Base Prospectus, the senior unsecured debt securities of the Issuer have been assigned a rating of "BBB+" by Standard & Poor's Credit Market Services Europe Limited ("**S&P**") and the Notes to be issued under the Programme have been assigned a rating of "BBB+" by S&P. S&P is established in the EEA and is registered under the CRA Regulation. The Notes issued under the Programme may be rated or unrated. Where the notes are rated, such rating will not necessarily be the same as the rating assigned to the Programme and may be specified in the applicable Final Terms.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the Issuer to fulfil its obligations under the Notes are discussed under "Risk Factors" below.

IMPORTANT NOTICES

Sandvik AB (publ) (the “**Issuer**” or “**Sandvik**”) accepts responsibility for the information contained in this Base Prospectus and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under “Terms and Conditions of the Notes” (the “**Conditions**”) as amended and/or supplemented by a document specific to such Tranche called final terms (the “**Final Terms**”) or in a separate prospectus specific to such Tranche (the “**Drawdown Prospectus**”) as described under “*Final Terms and Drawdown Prospectuses*” below. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise. This Base Prospectus must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Notes which is the subject of Final Terms, must be read and construed together with the relevant Final Terms.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

Neither the Dealers nor any of their respective affiliates have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or, if later, the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see “*Subscription and Sale*”. In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the “**Securities Act**”) and Bearer Notes are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or, in the case of Bearer Notes, delivered within the United States or to U.S. persons.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms or any other information supplied in connection with the Programme or the issue of any Notes shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should: have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement; have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio; have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or

where the currency for principal or interest payments is different from the potential investor's currency; understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme and the Issuer's SEK 15,000,000,000 Swedish medium term note programme will not exceed €3,000,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into euros at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement as defined under "*Subscription and Sale*".

In this Base Prospectus, unless otherwise specified, references to a "**Member State**" are references to a Member State of the European Economic Area, references to "**Sweden**" are to the Kingdom of Sweden, references to "**U.S.\$**", "**U.S. dollars**" or "**dollars**" are to United States dollars, references to "**€**", "**EUR**" or "**euro**" are to the single currency introduced at the start of the third stage of European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended, references to "**SEK**" or "**Swedish kronor**" are to the lawful currency of the Kingdom of Sweden and references to "**Renminbi**", "**RMB**", "**Chinese Yuan Renminbi**" or "**CNY**" means the lawful currency of the People's Republic of China (the "**PRC**").

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

This Base Prospectus has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by Final Terms or a Drawdown Prospectus in relation to the offer of those Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

This overview must be read as an introduction to this Base Prospectus and any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole, including any information incorporated by reference.

For the avoidance of doubt, Swedish Registered Notes can only be issued in one type of denomination for the same Series.

Each Tranche of Swedish Registered Notes will be issued in uncertificated and dematerialised book entry form, with the legal title thereto being evidenced by book entries in the register for such Swedish Registered Notes kept by Euroclear Sweden on behalf of the Issuer. For the avoidance of doubt, the TEFRA C and TEFRA D Rules will not be applicable to Swedish Registered Notes. Definitive Notes will not be issued in respect of any Swedish Registered Notes.

Currencies:

Notes may be denominated in euro or U.S. dollars or Swedish kronor or Renminbi or in any other currency or currencies, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements. Payments in respect of Notes may,

subject to such compliance, be made in and/or linked to, any currency or currencies other than the currency in which such Notes are denominated.

Status of the Notes:	The Notes constitute direct, unsubordinated and unconditional obligations of the Issuer which will at all times rank <i>pari passu</i> among themselves and at least <i>pari passu</i> with all other present and future unsecured obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

The price and amount of Notes to be issued under the Programme will be determined by the Issuer and the relevant Dealer(s) at the time of issue in accordance with prevailing market conditions.

Notes may also be redeemable in two or more instalments on such dates and in such manner as may be specified in the relevant Final Terms.

Subject thereto, Notes will be issued in such denominations as may be specified in the relevant Final Terms, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements.

Governing Law:	English law. Swedish Registered Notes must comply with the SFIA Act.
Enforcement of Notes in Global Form:	In the case of Global Notes, individual investors' rights against the Issuer will be governed by a Deed of Covenant dated 13 February 2009, a copy of which will be available for inspection at the specified office of the Fiscal Agent.

Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued by a credit rating agency established in the EEA and registered (or which has applied for registration and not been refused) under the CRA Regulation, or (2) issued by a credit rating agency which is not established in the EEA but will be endorsed by a credit rating agency which is established in the EEA and registered under the CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA but which is certified under the CRA Regulation will be disclosed in the relevant Final Terms.</p> <p>As at the date of this Base Prospectus, the senior unsecured debt securities of the Issuer have been assigned a rating of "BBB+" by S&P and the Notes to be issued under the Programme have been assigned a rating of "BBB+" by S&P.</p>
Selling Restrictions:	For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of offering material in the United States of America, the European Economic Area (including the United Kingdom and the Kingdom of Sweden), Japan, the PRC, Hong Kong and Singapore, see " <i>Subscription and Sale</i> " below.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme and are not exhaustive, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Risk related to Sandvik's Business

New strategic direction

The Group's long-term growth and profitability is dependent in part on the success of its new strategy. There is no certainty or guarantee that the new strategy of the Issuer will be implemented successfully or that it would generate higher growth and profitability, any cost savings or increased quality, or strengthen any market position. Any failure in the Group's new strategy could have a material effect on the Group's business, results of operations and financial condition.

New product innovation

The Group's long-term growth and profitability is dependent on its ability to develop and successfully launch and market new products. The Group's revenues and market share may suffer if it is unable to introduce new products successfully in a timely fashion or if any new or enhanced products or services are introduced by its competitors that its customers find more advanced and/or better suitable for their needs. If the Group is not able to keep pace with global product development and technological advances, including also shifts in technology in the markets in which it operates, or to meet customer demands, this could have a material adverse effect on the Group's business, results of operations and financial condition.

The markets for the Group's products are highly competitive in terms of pricing, product design and service quality, the timing of development and introduction of new products, customer service and terms of financing. The Group faces intense competition from significant competitors (including, in Sandvik's opinion, IMCO Carbide Tool, ISCAR and Kennametal) and to a lesser extent small regional companies. If it does not compete successfully in all its business areas and does not anticipate and respond to changes in evolving market demands, including the demand for new products, it will not be able to compete successfully in its markets, which could have a material adverse effect on the Group's business, results of operations and financial condition.

The planning and implementation of the Group's business operations seeks to take into account market opportunities and opportunities to acquire new businesses. Any failure in the Group's business development could have a material adverse effect on the Group's business, results of operations and financial condition.

The Group's products are used in industries which are either cyclical or affected by general economic conditions

The demand for the Group's products and services is affected by changes in customers' investment plans and production levels. Customers' investment plans could change materially if the economic situation in an industry, country or region changes. In addition, changes in the political situation in a region or country or political decisions affecting an industry or country could also materially impact on investments in equipment. Also, the replacement needs of existing production capacity, new competing technologies, competitive pressures and other economic factors in its customer industries could also have a material adverse effect on the Group's business, financial condition and results of operations. Although the Issuer

believes that the Group's sales are well diversified with customers in many industries and operations in more than 130 countries, the Group may be affected by a downturn in the general economic situation in the markets in which it operates.

If the Group's or its sub suppliers manufacturing and production facilities are damaged, destroyed or closed for any reason, its ability to distribute its products will be significantly affected

The Group has a global manufacturing strategy based on manufacturing core components complemented with sourcing of other components from sub suppliers. The core component manufacturing is concentrated into few locations per region and if these facilities are destroyed or closed for any reason or the equipment in the facilities is significantly damaged, or there are severe interruptions in its productions, the Group is likely to face setbacks in its ability to manufacture and distribute its products. Such circumstances, to the extent it is unable to find an alternative manufacturing and production facility or repair the damaged facilities or damaged equipment in a timely and cost-efficient manner, could have a material adverse effect on the Group's business, results of operations and financial condition. In addition, the availability of non-core components is dependent on the sub suppliers and if they have interruptions or if they do not have enough capacity, this could have an adverse effect on the Group's business and results of operations.

Financial risks

Through its comprehensive international operations, Sandvik is exposed to currency, interest and financing risks.

Currency risk

Foreign-exchange movements affect the Issuer's earnings, shareholders' equity and competitive situation in different ways:

- Earnings are affected when sales and purchases are made in different currencies (transaction exposure). Sandvik's earnings are reported in Swedish kronor while sales and purchases are made in various currencies including in euros and U.S. dollars. Sandvik's transaction exposure (i.e. the Group's net flow of currencies, after full off-setting of the countervalue in the exporting companies' local currencies) amounted to SEK 10,965 million in 2010 (compared to SEK 9,386 million in 2009).
- Earnings are affected when assets and liabilities are denominated in different currencies (translation exposure). Sandvik has assets denominated in Swedish kronor and liabilities denominated in various currencies including in euros and U.S. dollars.
- Earnings are affected when the financial results of subsidiaries are translated to Swedish kronor (translation exposure).
- Shareholders' equity is affected when the net assets of subsidiaries are translated to Swedish kronor (translation exposure). As at 31 December 2010, the Group's net assets in subsidiaries in foreign currencies were SEK 34,485 million (compared to SEK 32,063 million in 2009).

If the exchange rates for the exposure currencies were to change by 5 per cent. in an unfavourable direction for the Group, the total operating result over a 12-month period based on 2010 figures and structure would change by approximately SEK 1 billion. The net effect on other comprehensive income of a similar change to exchange rates would be approximately SEK 350 million. This net effect primarily comprises translation exposure in equity.

Interest risk

Changes in market interest rates may affect the Group's net financial items adversely. The speed with which a change in interest rate affects net financial items depends on the fixed-interest period of the assets or loans. Interest risk arises in two ways:

- The company may have invested in interest-bearing assets, the value of which changes when the interest rate changes. The average interest rate duration for the Group's interest-bearing assets in the pension portfolio is 4.8 years and 17.7 years for the pension commitment. Since the durations

of the assets and liabilities differ, a change in interest rates of 1 per cent. would have a net impact of approximately SEK 1.3 billion using 2010 figures.

- The cost of the company's borrowing fluctuates when the general interest rate situation changes. If market interest rates were to rise by 1 per cent. across all terms at 1 January - using the figures as at 31 December 2010 in relation to loans for which the interest rate will be renegotiated during 2011 - net interest expenses would be impacted by an additional SEK 127 million.

Liquidity and financing risk

Liquidity and financing risk is defined as the risk that costs will rise and financing possibilities will be limited when loans must be refinanced, and that payment commitments cannot be met as a result of insufficient liquidity. In Sandvik's finance policy, the liquidity and financing risks are regulated such that the sum of guaranteed credit facilities and cash and cash equivalents must exceed the total of all borrowings falling due within the next six months. As of 31 December 2010, cash and cash equivalents amounted to SEK 4,783 million and unutilised guaranteed credit facilities, maturing in 2012 and 2013, to SEK 1.5 billion, while the borrowings falling due within 6 months amounted to approximately SEK 3,440 million. If refinancing of short-term borrowings and the guaranteed credit facilities is not possible when they fall due this may have a material adverse effect on the Group's business, results of operations and financial condition.

Credit risk

The Group's financial transactions give rise to credit risk in relation to financial counterparties. Sandvik has entered into agreements with the banks that it has outstanding derivatives contract with on such matters as the right to offset receivables and liabilities that arise from these financial transactions, so-called ISDA agreements. As at 31 December 2010, the total hedged amount for transaction exposure was SEK 6,458 million (compared to SEK 6,426 million as at 31 December 2009). The Issuer has, on the other hand, a credit risk in the form of outstanding customer accounts receivable. As at 31 December 2010, the Group had trade receivables of SEK 13,399 million and provided in their accounts for 5 per cent. of bad debt amounting to SEK 661 million. The Group's credit losses amounted to SEK 108 million in 2010 (compared to SEK 135 million for 2009) and credit losses have not exceeded 0.1 to 0.2 per cent. of sales for recent years. If weak financial situations lead to customers not paying their payables to Sandvik this may have a material adverse effect on the Group's business, results of operations and financial condition.

Raw materials price exposure

Sandvik's operations give rise to risks due to changes in the price of market-quoted raw materials, mainly nickel, molybdenum and of electricity. The price can vary significantly during a year. If the market does not permit a transfer of the effects of changing raw-material prices into the end-price of the products this may have a material adverse effect on the Group's business, results of operations and financial condition.

The Group is dependent on the efficiency of its distribution centres, distributors and aftermarket organisation

The Group most often distributes its products and services directly to the end customers, but also through distributors. A significant part of physical distribution of products is concentrated to a number of distribution centres and the provision of services depends on the efficiency of the Group's aftermarket organisation. Should the Group's distribution centres, distributors or other aftermarket organisations be subjected to disruptions its sales may be affected, which in turn could have a material adverse effect on the Group's revenues and results of operations.

Lack of retention of skilled employees may affect the Issuer's business

The success of the Group's business depend in large part on the ability to attract and retain key management and operating personnel. The Group's future growth and ultimately its success depends on its ability to hire and retain qualified personnel with the level of expertise, knowledge of its products or industry necessary to conduct its operations. Given that the Group constantly needs to introduce new or enhanced products, it is important that it is able to attract people with sufficient expertise in its product areas, particularly its research and development functions. In addition the Group continuously monitors

its need for people or to outsource certain parts of its non-core manufacturing in order to make sure it can fulfil its customers' orders. If the Group fails to monitor its need for employees or if it fails to continue to attract and retain highly qualified management and other skilled employees on acceptable terms it may not be able to sustain or further develop parts of its business which may have a material adverse effect on the Group's business, results of operations and financial condition.

International political, economic and other uncertainties may affect the Issuer's penetration of international markets

Changes in regulatory requirements, tariffs and other trade barriers, price or exchange controls or other governmental policies in the countries in which it conducts business may result in risks, such as (i) effective legal redress in the courts of such jurisdictions, whether in respect of a breach of law or regulation or in an ownership dispute, being more difficult to obtain, (ii) a higher degree of discretion on the part of governmental authorities, (iii) the lack of judicial or administrative guidance on interpreting applicable rules and regulations, (iv) inconsistencies or conflicts between and within various laws, regulations and decrees, or (v) relative inexperience of the judiciary and courts in such matters. Also, the protection of intellectual property rights may be less developed and less strictly enforced in these countries. There can be no assurance that the Group's licences, licence applications or other legal arrangements of the effectiveness of the enforcement thereof will not be adversely affected by the actions of government authorities or others. In addition, the uncertainty of the legal environment in certain regions could limit the Group's ability to enforce its rights under contracts or otherwise.

The Group also has extensive operations in emerging markets such as certain countries in South America, Africa and Asia. Its business operations in these countries may be subject to various political, economic and social conditions which include nationalisation of assets, social, political or economical instability, volatility in currency exchange rates and in gross domestic product or restrictions on repatriation of profits and transfers of cash which all could have a material adverse effect on the Group's business, results of operations and financial condition. Operations in emerging markets may present risks that are not encountered in countries with well-established economic and political systems, including economic instability, which could make it difficult for the Group to anticipate future business conditions in these markets, which may have a material adverse effect on the Group's business, results of operations and financial condition.

Environmental compliance

Like most industrial companies, the Group affects the environment in its production processes, through the use of natural resources, and the generation of emissions and wastes, in the distribution of, as well as in the use and final disposal of its products. Compliance with environmental requirements is a significant factor in its operations, and substantial resources are required to maintain compliance with applicable environmental laws and regulations and to manage environmental risks. The Group is subject to a variety of environmental laws and regulations, particularly in relation to air emissions, waste management and the protection of natural resources. These laws and regulations, the violations of which can lead to substantial fines, injunctions or criminal penalties, have generally become stricter in recent years and may in the future become more stringent and the cost of complying with future changes may be substantial. In addition, the Group could also become subject to liabilities and claims relating to personal injury (including exposure to substances used in its production), property damage or damage to natural resources.

Although the Issuer believes that the Group is in material compliance with applicable environmental laws, substantial environmental costs and liabilities are inherent in industrial operations and there can be no assurances that substantial costs and liabilities will not be incurred in the future or that the adoption of increasingly strict environmental laws, regulations and enforcement policies could not result in increased costs and liabilities in the future. Any such costs and/or liabilities could have a material adverse effect on the Group's business, results of operations and financial condition.

IT Risks

The Issuer's operations in research and development, production, distribution, marketing and administration are dependent on a large number of complex IT-systems and solutions. Routines and procedures are implemented to protect hardware, software and information from being damaged,

manipulated, lost or misused. A major break-down of these systems with loss of information may have a material adverse effect on the Group's business, results of operations and financial condition.

Any difficulties the Group encounters relating to the integration of recent or future acquisitions could have a material adverse effect on the Group's business, results of operations and financial condition

In addition to organically growing the Group's business, the Group continuously evaluates potential value added acquisitions in the core areas of its business to complement its existing product portfolio, to gain access to new markets and to create synergies. For example, on 9 October 2011, Sandvik completed its acquisition of 80 per cent. of shares in Shanghai Jianshe Luqiao Machinery Co. Ltd. ("SJL") with the brand Shanbao. The process of co-ordinating and integrating acquired businesses with the Group's own business will continue to require managerial and financial resources. In addition, the integration process could also cause the interruption to, or a loss of momentum in, the activities of its business, which could have a material adverse effect on the Group's business, financial condition and results of operations.

The management of integration of the businesses, systems and culture of any acquired business requires, among other things, the continued development of the acquired businesses financial and management controls, including the integration of information systems and structure, the integration of product offerings and customer base and the training of new personnel, all of which could disrupt and place a strain on the Group's management resources as well as require significant expenditure. Any significant diversion of the Issuer's executive management's attention and other resources or any major difficulties encountered in the integration of an acquired business could have a material adverse effect on the Group's business, financial condition and results of operations.

In agreeing to acquire new businesses, the Issuer makes certain assumptions and determinations on, among other things, future sales and need for capital expenditures, based on its investigation of the respective businesses and other information then available. While the Issuer believes it is well positioned to assess the opportunities and risks associated with these acquisitions, the Issuer cannot provide assurance that its assumptions and determinations will prove to be correct and liabilities, contingencies or losses, if realised, could have a material adverse effect on the Group's business, results of operations and financial condition.

Success of the Group depends on protection of intellectual property rights

The protection of the Group's intellectual property is important to its business. The Issuer can not give any assurance that its competitors do not seek to utilise its patents, trademarks and logos when they market their products thereby infringing or challenging its intellectual property rights. In addition, existing laws of certain countries in which the Group conducts its business may offer only limited protection of its intellectual property rights, if at all. If the Group's intellectual property and in particular its registered patents and trademarks cannot be protected, for whatever reason, the Group's business could be materially and adversely affected.

Property and product liability insurance

Sandvik has the customary insurance programmes with respect to the Group's property and product liability risks. As a natural part of Sandvik's different activities, measures to limit the effects of damages are continually taken, often in co-operation with Sandvik's external insurance advisors. In such context, standards for desired safeguard levels are established in order to reduce the probability of material damages and to guarantee deliveries to the customers. While the Group holds property, including business interruption, and product liability insurance in amounts the Issuer believes to be appropriate, there can be no assurances that the Group will be able to fully recover such amounts or that recovered amounts will be sufficient to cover the Group's losses.

Legal issues

Sandvik is party to litigation related to its business operations in the ordinary course of business. Sandvik is also party to legal and administrative proceedings related to its responsibility for products, environment, health and safety. There is currently no litigation in relation to the Group which may have a significant effect on the financial position or profitability of the Group. However, there can be no assurance that the Group will not be subject to legal disputes in the future which may have an adverse effect on the Group's business, financial condition and results of operations.

Provision for pensions and similar obligations

Sandvik has comprehensive pension plans for its employees in all countries in which it operates. The pension provisions vary depending on legislation and local agreements. The most comprehensive agreements are found in Finland, Germany, Sweden, the United Kingdom and the U.S.. In 2010, the managed capital for pensions totalled SEK 12,447 million and the corresponding pension commitments amounted to SEK 13,486 million which is equal to a funding level of 92 per cent. (compared to 89 per cent. in 2009). To ensure the efficient administration of the substantial pension plans in each of these countries and an equally efficient management of funds reserved for pension plans, Sandvik has established a separate entity for this purpose, the Sandvik Pensions Supervisory Board. In addition, local pension Boards are established in each country that are responsible for compliance with legislation and local agreements. Calculating pension and similar obligations require management to make assumptions on discount rates, expected return on plan assets and rate of compensation increase. Actual results could differ from the assumptions made. Sandvik may be required to contribute additional amounts to its pension schemes which could have a material adverse effect on the Group's business, results of operations and financial condition.

Work stoppages or strikes could adversely affect the Group's business.

Many of the Group's employees are covered by collective bargaining agreements. The Issuer cannot provide any assurance that it will not encounter strikes or other disturbances occasioned by its unionised labour force, or that, upon the expiration of existing agreements; it will be able to reach new collective bargaining agreements on satisfactory terms or without work stoppages, strikes or similar industrial actions.

Non satisfactory terms on any bargaining agreements could cause the Group's labour costs to increase, which would affect its profit margins negatively. In addition, it is required to consult and seek the advice of its employee works' council in respect of a broad range of matters, which could delay or prevent the completion of certain corporate transactions. While the Group has not experienced any major work stoppages in recent years and expect its current process to proceed amicably, the Issuer cannot provide any assurance that it will not experience lengthier consultations or even strikes, work stoppages or other industrial actions in the future. Any industrial action could disrupt its operations, possibly for a significant period of time, and result in increased wages and benefits or otherwise have a material adverse effect on the Group's business, results of operations and financial condition.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "**Relevant Factor**"). In addition, the Issuer may issue Notes with principal or interest

payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable likely will be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Index Linked Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Index Linked Notes and the suitability of such Notes in light of its particular circumstances.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining terms of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification and waivers

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

EU Savings Directive

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the EU Savings Directive.

Change of law

The conditions of the Notes are based on English law in effect as at the date of this base prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this base prospectus.

Notes where denominations involve integral multiples: definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risks related to Renminbi-denominated Notes

Notes denominated in RMB (“**RMB Notes**”) may be issued under the Programme. RMB Notes contain particular risks for potential investors.

Renminbi is not freely convertible; there are significant restrictions on remittance of Renminbi into and outside the PRC

Renminbi is not freely convertible at present. The PRC Government continues to regulate conversion between Renminbi and foreign currencies, including the euro, despite the significant reduction over the years by the PRC Government of control over routine foreign exchange transactions under current accounts. Participating banks in Hong Kong have been permitted to engage in the settlement of RMB trade transactions under a pilot scheme introduced in July 2009. This represents a current account activity.

The pilot scheme was extended in August 2011 to cover the whole nation and to make RMB trade and other current account item settlement available in all countries worldwide.

On 7 April 2011, the State Administration of Foreign Exchange of the PRC (國家外匯管理局) (“**SAFE**”) promulgated the Circular on Issues Concerning the Capital Account Items in connection with Cross-Border Renminbi (國家外匯管理局綜合司關於規範跨境人民幣資本項目業務操作有關問題的通知) (the “**SAFE Circular**”), which became effective on 1 May 2011. According to the SAFE Circular, in the event that foreign investors intend to use cross-border Renminbi (including offshore Renminbi and onshore Renminbi held in the accounts of non-PRC residents) to make a contribution to an onshore enterprise or make a payment for the transfer of an equity interest of an onshore enterprise by a PRC resident, such onshore enterprise shall be required to submit the relevant prior written consent from the Ministry of Commerce of the PRC (商務部) (the “**MOFCOM**”) to the relevant local branches of SAFE of such onshore enterprise and register for a foreign invested enterprise status. Further, the SAFE Circular clarifies that the foreign debts borrowed, and the external guarantee provided, by an onshore entity (including a financial institution) in RMB shall, in principle, be regulated under the current PRC foreign debt and external guarantee regime.

On 12 October 2011, the MOFCOM promulgated the Circular on Issues in relation to Cross-border RMB Foreign Direct Investment (商務部關於跨境人民幣直接投資有關問題的通知) (the “**MOFCOM RMB FDI Circular**”). Pursuant to the MOFCOM RMB FDI Circular, the MOFCOM and its local counterparts are authorised to approve RMB foreign direct investments (“**RMB FDI**”) in accordance with existing PRC laws and regulations regarding foreign investment, with certain exceptions which require the preliminary approval by the provincial counterpart of the MOFCOM and the consent of the MOFCOM. The MOFCOM RMB FDI Circular also states that the proceeds of RMB FDI may not be used towards investment in securities, financial derivatives or entrustment loans in the PRC, except for investments in PRC domestic listed companies through private placements or share transfers by agreement under the PRC strategic investment regime.

On 13 October 2011, the People's Bank of China, the central bank of the PRC (中國人民銀行) (the “**PBOC**”) issued the Measures on Administration of the RMB Settlement in relation to Foreign Direct Investment (外商直接投資人民幣結算業務管理辦法) (the “**PBOC RMB FDI Measures**”), to commence the PBOC’s detailed RMB FDI administration system, which covers almost all aspects of RMB FDI, including capital injection, payment of purchase price in the acquisition of PRC domestic enterprises, repatriation of dividends and distribution, as well as RMB denominated cross-border loans. Under the PBOC RMB FDI Measures, special approval for RMB FDI and shareholder loans from the PBOC which was previously required by the PBOC Notice (as defined in “*PRC Currency Controls*”) is no longer necessary. The MOFCOM RMB FDI Circular and the PBOC RMB FDI Measures, which are new regulations, will be subject to interpretation and application by the relevant PRC authorities. See “*PRC Currency Controls*”.

There is no assurance that the PRC Government will continue to gradually liberalise the control over cross-border RMB remittances in the future, that the pilot scheme introduced in July 2009 will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC.

Holders of beneficial interests in the Notes denominated in Renminbi may be required to provide certifications and other information (including Renminbi account information) in order to allow such holder to receive payments in Renminbi in accordance with the Central Moneymarkets Unit.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of RMB Notes and the Issuer’s ability to source Renminbi outside the PRC to service such RMB Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. Since February 2004, in accordance with arrangements between the PRC Central Government and the Hong Kong government, licensed banks in Hong Kong may offer limited Renminbi-denominated banking services to Hong Kong residents and specified business customers. The PBOC has also established a Renminbi clearing and settlement system for participating banks in Hong Kong. On 19 July 2010, further amendments were made to the Settlement Agreement on the Clearing of RMB Business (the “**Settlement Agreement**”) between the PBOC and Bank of China (Hong Kong) Limited (the “**RMB Clearing Bank**”) to further expand the scope of RMB

business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open RMB accounts in Hong Kong; there is no longer any limit on the ability of corporations to convert RMB; and there will no longer be any restriction on the transfer of RMB funds between different accounts in Hong Kong.

However, the current size of Renminbi-denominated financial assets outside the PRC is limited. As of October 2011, the total amount of Renminbi deposits held by institutions authorised to engage in Renminbi banking business in Hong Kong amounted to approximately CNY618,546 million. In addition, participating banks are also required by the Hong Kong Monetary Authority to maintain a total amount of Renminbi (in the form of cash and its settlement account balance with the RMB Clearing Bank) of no less than 25 per cent. of their Renminbi deposits, which further limits the availability of Renminbi that participating banks can utilise for conversion services for their customers. Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The RMB Clearing Bank only has access to onshore liquidity support from the PBOC to square open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement and for individual customers of up to RMB20,000 per person per day. The RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreement will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of its RMB Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

If the Issuer cannot obtain Renminbi to satisfy its obligation to pay interest and principal on its RMB Notes as a result of Inconvertibility, Non-transferability or Illiquidity (each, as defined in the Terms and Conditions), the Issuer shall be entitled, on giving not less than five or more than 30 days' irrevocable notice to the Noteholders prior to the due date for payment, to settle any such payment (in whole or in part) in U.S. dollars on the due date at the U.S. Dollar Equivalent (as defined in the Terms and Conditions) of any such interest or principal, as the case may be.

Investment in RMB Notes is subject to exchange rate risks

The value of the Renminbi against the euro and other foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The Issuer will make all payments of interest and principal with respect to the RMB Notes in Renminbi. As a result, the value of these Renminbi payments in euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the euro or other applicable foreign currency between then and when the Issuer pays back the principal of the RMB Notes in Renminbi at maturity, the value of a Noteholder's investment in euro or other applicable foreign currency terms will have declined.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Specified Currency or the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the CRA Regulation unless (1) the rating is provided by a credit rating agency operating in the EEA before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration has not been refused, (2) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the CRA Regulation or (3) the rating is provided by a credit rating agency not established in the EEA which is certified under the CRA Regulation.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

FORMS OF THE NOTES

Bearer Notes

Each Tranche of Notes in bearer form (“**Bearer Notes**”) will initially be in the form of either a temporary global note in bearer form (the “**Temporary Global Note**”), without interest coupons, or a permanent global note in bearer form (the “**Permanent Global Note**”), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each, a “**Global Note**”) which is not intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank S.A./N.V. (“**Euroclear**”) and/or Clearstream Banking, société anonyme, Luxembourg (“**Clearstream, Luxembourg**”) and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), *provided that* certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

In the case of each Tranche of Bearer Notes, the relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the “**TEFRA C Rules**”) or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes (the “**Exchange Date**”) upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership, within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; *provided, however, that* in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Bearer Notes in definitive form (“**Definitive Notes**”):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or

- (ii) at any time, if so specified in the relevant Final Terms; or

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

- (ii) at any time, if so specified in the relevant Final Terms; or

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is five days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifth day (except to the extent that there is any subsequent default in payment).
- (c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.
- (d) *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose a “**sub-unit**” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

7. **Floating Rate Note and Index-Linked Interest Note Provisions**

Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 7 (*Floating Rate Note and Index-Linked Interest Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on

behalf of the relevant Noteholder and (ii) the day which is five days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such fifth day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

(d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where “ISDA Rate” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

- (g) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- (h) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (i) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents, the Swedish Issuing and Paying Agent (in respect of Swedish Registered Notes) and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (j) *Notifications etc.:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7 (*Floating Rate Note and Index-Linked Interest Note Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

8. **Zero Coupon Note Provisions**

- (a) *Application:* This Condition 8 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.

- (1) where the Notes may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due; or

- (2) where the Notes may be redeemed only on an Interest Payment Date, 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Fiscal Agent (or in the case of Swedish Registered Notes to the Swedish Issuing and Paying Agent) (A) a certificate signed by two directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred of and (B) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment. Upon the expiry of any such notice as is referred to in this Condition 10(b) (*Redemption for tax reasons*), the Issuer shall be bound to redeem the Notes in accordance with this Condition 10(b) (*Redemption for tax reasons*).

- (c) *Redemption at the option of the Issuer:* If the Call Option is specified in the relevant Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 15 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date). In respect of Swedish Registered Notes, the notice shall furthermore specify the Closed Period.
- (d) *Partial redemption:* If the Notes are to be redeemed in part only on any date in accordance with Condition 10(c) (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be selected by the drawing of lots in such place as the Fiscal Agent approves and in such manner as the Fiscal Agent considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and, in the case of Swedish Registered Notes, the then applicable rules and procedures of Euroclear Sweden and the notice to Noteholders referred to in Condition 10(c) (*Redemption at the option of the Issuer*) shall specify the serial numbers or, in the case of Swedish Registered Notes, otherwise specify the Notes or amounts of the Notes so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.
- (e) *Redemption at the option of Noteholders:* If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the holder of any Note redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. In order to exercise the option contained in this Condition 10(e) (*Redemption at the option of Noteholders*), the holder of a Note must, not less than 15 nor more than 60 days before the relevant Optional Redemption Date (Put), deposit with any Paying Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. In the case of Swedish Registered Notes, a Put Option Notice will not take effect against the Issuer before the date of which the relevant Swedish Registered Notes have been transferred to the account designated by the Swedish Issuing and Paying Agent and blocked for further transfer by such Swedish Issuing and Paying Agent (such date will be the first date of a Closed Period). No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 10(e) (*Redemption at the option of Noteholders*), may be withdrawn; *provided, however, that* if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its

Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 10(e) (*Redemption at the option of Noteholders*) the depositor of such Note and not such Paying Agent shall be deemed to be the holder of such Note for all purposes.

Notwithstanding the above, in the case of Swedish Registered Notes, the right to require redemption of such Notes in accordance with this Condition 10(e) (*Redemption at the option of Noteholders*) must be exercised in accordance with the rules and procedures of Euroclear Sweden and where there is any inconsistency between the foregoing and the rules and procedures of Euroclear Sweden, the rules and procedures of Euroclear Sweden shall prevail.

- (f) *No other redemption:* The Issuer shall not be entitled to redeem the Notes otherwise than as provided in Conditions 10(a) (*Scheduled redemption*) to 10(e) (*Redemption at the option of Noteholders*) above.
- (g) *Early redemption of Zero Coupon Notes:* Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:
 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 10(g) (*Early redemption of Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

- (h) *Purchase:* The Issuer or any of its Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, *provided that* all unmatured Coupons are purchased therewith. Such Notes so purchased may be held, reissued, resold or, at the option of the Issuer or the relevant Subsidiary surrendered to any Paying Agent and/or the Registrar for cancellation.
- (i) *Cancellation:* All Notes so redeemed or purchased by the Issuer or any of its Subsidiaries and any unmatured Coupons attached to or surrendered with them that are not held, reissued or resold shall be cancelled.

11. **Payments - Bearer Notes**

This Condition 11 (*Payments – Bearer Notes*) is only applicable to Bearer Notes.

- (a) *Principal:* Payments of principal shall be made only against presentation and (*provided that* payment is made in full) surrender of Bearer Notes at the Specified Office of any Paying Agent outside the United States by cheque drawn in the currency in which the payment is due on, or by transfer to an account denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency (in the case of a sterling cheque, a town clearing branch of a bank in the City of London).

- (c) *Payments in New York City:* Payments of principal or interest may be made at the Specified Office of a Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the interest on the Notes in the currency in which the payment is

No commissions or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.
- (e) *Deductions for unmatured Coupons:* If the relevant Final Terms specifies that the Fixed Rate Note Provisions are applicable and a Bearer Note is presented without all unmatured Coupons relating thereto:
 - (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; *provided, however, that* if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;
 - (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the “**Relevant Coupons**”) being equal to the amount of principal due for payment; *provided, however, that* where this sub-paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; *provided, however, that*, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 11(a) (*Principal*) above against presentation and (*provided that* payment is made in full) surrender of the relevant missing Coupons.

- (f) *Unmatured Coupons void:* If the relevant Final Terms specifies that this Condition 11(f) (*Unmatured Coupons void*) is applicable or that the Floating Rate Note Provisions or the Index-Linked Interest Note Provisions are applicable, on the due date for final redemption of any Note or early redemption in whole of such Note pursuant to Condition 10(b) (*Redemption for tax reasons*), Condition 10(c) (*Redemption at the option of the Issuer*), Condition 10(e) (*Redemption at the option of Noteholders*) or Condition 14 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.
- (g) *Payments on business days:* If the due date for payment of any amount in respect of any Bearer Note or Coupon is not a Payment Business Day in the place of presentation, the holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.
- (h) *Payments other than in respect of matured Coupons:* Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Bearer Notes at the

Specified Office of any Paying Agent outside the United States (or in New York City if permitted by paragraph (c) above).

- (i) *Partial payments:* If a Paying Agent makes a partial payment in respect of any Bearer Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.
- (j) *Exchange of Talons:* On or after the maturity date of the final Coupon which is (or was at the time of issue) part of a Coupon Sheet relating to the Bearer Notes, the Talon forming part of such Coupon Sheet may be exchanged at the Specified Office of the Fiscal Agent for a further Coupon Sheet (including, if appropriate, a further Talon but excluding any Coupons in respect of which claims have already become void pursuant to Condition 15 (*Prescription*)). Upon the due date for redemption of any Bearer Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.
- (k) *Payment of U.S. Dollar Equivalent:* Notwithstanding the foregoing, if by reason of Inconvertibility, Non-transferability or Illiquidity, the Issuer is not able, or it would be impracticable for it, to satisfy payments of principal or interest (in whole or in part) in respect of the Notes when due in Renminbi in Hong Kong, the Issuer may, on giving not less than five or more than 30 days' irrevocable notice to the Holders prior to the due date for payment, settle any such payment (in whole or in part) in U.S. dollars on the due date at the U.S. Dollar Equivalent of any such Renminbi denominated amount.

Any such notice shall be deemed to have been given on the fourth Business Day after the day of which it was mailed.

21. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the “**first currency**”) in which the same is payable under these Conditions or such order or judgment into another currency (the “**second currency**”) for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

22. **Rounding**

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

23. **Governing Law and Jurisdiction**

- (a) *Governing law:* The Notes and all non-contractual obligations arising out of or in connection with the Notes are governed by English law. In addition, the Swedish Registered Notes must comply with the SFIA Act.
- (b) *English courts:* The courts of England have exclusive jurisdiction to settle any dispute (a “**Dispute**”) arising from or connected with the Notes including a Dispute relating to any non-contractual obligation arising out of or in connection with the Notes.
- (c) *Appropriate forum:* The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.
- (d) *Rights of the Noteholders to take proceedings outside England:* Condition 23(b) (*English courts*) is for the benefit of the Noteholders only. As a result, save in respect of the limited exception set out in Condition 23(e) (*Proceedings in respect of Swedish Registered Notes*), nothing in this Condition 23 (*Governing law and jurisdiction*) prevents any Noteholder from taking proceedings relating to a Dispute (“**Proceedings**”) in any other courts with jurisdiction. To the extent allowed by law, Noteholders may take concurrent Proceedings in any number of jurisdictions.
- (e) *Proceedings in respect of Swedish Registered Notes:* Notwithstanding that, under the SFIA Act or the operating procedures, rules and regulations of Euroclear Sweden (together, the “**Swedish Remedies**”), Holders of Swedish Registered Notes may have remedies against the Issuer for non-payment or non-performance under the Conditions applicable to such Swedish Registered Notes, a Swedish Registered Note Holder must first exhaust all available remedies under English law for non-payment or non-performance before any Proceedings may be brought against the Issuer in Sweden in respect of the Swedish Remedies. Notwithstanding Condition 23(d) (*Rights of the Noteholders to take proceedings outside England*), and in this limited respect only, a Registered Holder of Swedish Registered Notes may therefore not take concurrent Proceedings in Sweden.
- (f) *Service of process:* The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to Sandvik Limited at Manor Way, Halesowen, West Midlands, B62 8QZ or at any address of the Group’s in Great Britain at which service of process may be served on it in accordance with Part 34 of the Companies Act 2006. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law. This Condition 23(f) (*Service of Process*) applies to Proceedings in England and to Proceedings elsewhere.

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

In relation to any Tranche of Notes represented by a Global Note in bearer form, references in the Conditions to “Noteholder” are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

In relation to any Tranche of Notes represented by a Global Registered Note, references in the Conditions to “Noteholder” are references to the person in whose name such Global Registered Note is for the time being registered in the Register which, for so long as the Global Registered Note is held by or on behalf of a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or a nominee for that depositary or common depositary.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note or a Global Registered Note (each, an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the holder of such Global Note or Global Registered Note and in relation to all other rights arising under such Global Note or Global Registered Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note or Global Registered Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note or Global Registered Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the holder of such Global Note or Global Registered Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or

- (b) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Conditions or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Conditions or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Exchange of Global Registered Notes

Whenever a Global Registered Note is to be exchanged for Individual Note Certificates, the Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the

principal amount of the Global Registered Note within 15 days of the delivery, by or on behalf of the holder of the Global Registered Note to the Registrar of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Registered Note at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled thereto and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Note Certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth day after they are due to be issued and delivered in accordance with the terms of the Global Registered Note; or
- (b) any of the Notes represented by a Global Registered Note (or any part of it) has become due and payable in accordance with the Conditions or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Registered Note in accordance with the terms of the Global Registered Note on the due date for payment,

then the Global Registered Note (including the obligation to deliver Individual Note Certificates) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the holder of the Global Registered Note will have no further rights thereunder (but without prejudice to the rights which the holder of the Global Registered Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Registered Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Global Registered Note became void, they had been the holders of Individual Note Certificates in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Conditions applicable to Global Notes

Each Global Note and Global Registered Note will contain provisions which modify the Conditions as they apply to the Global Note or Global Registered Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note or Global Registered Note which, according to the Conditions, require presentation and/or surrender of a Note, Note Certificate or Coupon, will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note or Global Registered Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

Exercise of put option: In order to exercise the option contained in Condition 10(e) (*Redemption at the option of Noteholders*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 10(c) (*Redemption at the option of the Issuer*) in relation to some only of the Notes, the Permanent Global Note or Global Registered Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg

(to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Record Date: Each payment in respect of a Global Registered Note will be made to the person shown as the Holder in the Register at the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment (the “**Record Date**”) where “**Clearing System Business Day**” means a day on which each clearing system for which the Global Registered Note is being held is open for business.

Payment Business Day: Notwithstanding the definition of “Payment Business Day” in Condition 2(a) (*Definitions*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) or a Global Registered Note and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are), or the Global Registered Note is deposited with a depositary or a common depositary or a common safekeeper for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, “**Payment Business Day**” means:

USE OF PROCEEDS

The Issuer will use the net proceeds from the issue of each Series of Notes for its general corporate purposes or as may otherwise be disclosed in the Final Terms.

PRC CURRENCY CONTROLS

The following is a general description of certain currency controls in the PRC and is based on the law and relevant interpretations thereof in effect as at the date of this Base Prospectus, all of which are subject to change, and does not constitute legal advice. It does not purport to be a complete analysis of all applicable currency controls in the PRC relating to the Notes. Prospective holders of Notes who are in any doubt as to PRC currency controls are advised to consult their own professional advisers.

Renminbi is not a freely convertible currency. The remittance of Renminbi into and outside the PRC is subject to control imposed under PRC law.

Current Account Items

Under the applicable PRC foreign exchange control regulations, current account items refer to any transaction for international receipts and payments involving goods, services, earnings and other frequent transfers.

Since July 2009, the PRC has commenced a pilot scheme pursuant to which Renminbi may be used for settlement of imports and exports of goods between approved pilot enterprises in five designated cities in the PRC including Shanghai, Guangzhou, Dongguan, Shenzhen and Zhuhai and enterprises in designated offshore jurisdictions including Hong Kong and Macau. On 17 June 2010, the PRC government promulgated the Circular on Issues concerning the Expansion of the Scope of the Pilot Programme of Renminbi Settlement of Cross-Border Trades (Yin Fa (2010) No. 186) (關於擴大跨境貿易人民幣結算試點有關問題的通知) (the “**Pilot Programme of Renminbi Settlement Circular**”), pursuant to which (i) Renminbi settlement of imports and exports of goods and of services and other current account items became permissible, (ii) the list of designated pilot districts were expanded to cover 20 provinces and cities, and (iii) the restriction on designated offshore districts has been uplifted. Accordingly, any enterprises in the designated pilot districts and offshore enterprises are entitled to use Renminbi to settle imports and exports of goods and services and other current account items between them. Renminbi remittance for exports of goods from the PRC may only be effected by approved pilot enterprises in designated pilot districts in the PRC. In August 2011, the PRC government further expanded Renminbi cross-border trade settlement nationwide.

As a new regulation, the Pilot Programme of Renminbi Settlement Circular will be subject to interpretation and application by the relevant PRC authorities. Local authorities may adopt different practices in applying the Pilot Programme of Renminbi Settlement Circular and impose conditions for settlement of current account items.

Capital Account Items

Under the applicable PRC foreign exchange control regulations, capital account items include cross-border transfers of capital, direct investments, securities investments, derivative products and loans. Capital account payments are generally subject to approval of the relevant PRC authorities.

Settlements for capital account items are generally required to be made in foreign currencies. For instance, foreign investors (including any Hong Kong investors) are required to make any capital contribution to foreign invested enterprises in a foreign currency in accordance with the terms set out in the relevant joint venture contracts and/or articles of association as approved by the relevant authorities. Foreign invested enterprises or relevant PRC parties are also generally required to make capital item payments including proceeds from liquidation, transfer of shares, reduction of capital, interest and principal repayment to foreign investors in a foreign currency. That said, the relevant PRC authorities may grant approval for a foreign entity to make a capital contribution or a shareholder's loan to a foreign invested enterprise with Renminbi lawfully obtained by it outside the PRC and for the foreign invested enterprise to service interest and principal repayment to its foreign investor outside the PRC in Renminbi on a trial basis. The foreign invested enterprise may be required to complete registration and verification process with the relevant PRC authorities before such Renminbi remittances.

On 7 April 2011, SAFE promulgated the SAFE Circular, which became effective on 1 May 2011. According to the SAFE Circular, in the event that foreign investors intend to use cross-border Renminbi (including offshore Renminbi and onshore Renminbi held in the accounts of non-PRC residents) to make contribution to an onshore enterprise or make payment for the transfer of equity interest of an onshore

enterprise by a PRC resident, such onshore enterprise shall be required to submit the relevant prior written consent of the MOFCOM to the relevant local branches of SAFE of such onshore enterprise and register for foreign invested enterprise status. Further, the SAFE Circular clarifies that the foreign debts borrowed, and the external guarantee provided by, an onshore entity (including a financial institution) in Renminbi shall, in principle, be regulated under the current PRC foreign debt and external guarantee regime.

On 12 October 2011, the MOFCOM promulgated the MOFCOM RMB FDI Circular. In accordance with the MOFCOM RMB FDI Circular, the MOFCOM and its local counterparts are authorised to approve RMB FDI in accordance with existing PRC laws and regulations regarding foreign investment, with the following exceptions which require the preliminary approval by the provincial counterpart of the MOFCOM and the consent of the MOFCOM: (i) RMB FDI with the capital contribution in Renminbi of RMB300 million or more; (ii) RMB FDI in financing guarantee, financing lease, micro financing or auction industries; (iii) RMB FDI in foreign invested investment companies, venture capital or equity investment enterprises; or (iv) RMB FDI in cement, iron & steel, electrolytic aluminium, shipbuilding or other policy sensitive sectors. In addition, RMB FDI in real estate sector is allowed following the existing rules and regulations of foreign investment in real estate, although Renminbi foreign debt remains unavailable to foreign invested real estate enterprises. The proceeds of RMB FDI may not be used towards investment in securities, financial derivatives or entrustment loans in the PRC, except for investments in PRC domestic listed companies through private placements or share transfers by agreement under the PRC strategic investment regime.

On 13 October 2011, PBOC promulgated the PBOC RMB FDI Measures, pursuant to which, PBOC special approval for RMB FDI and shareholder loans which is required by the PBOC Notice concerning Clarification of Certain Issues on Cross-border RMB Settlement (《中國人民銀行關於明確跨境人民幣業務相關問題的通知》) (the “**PBOC Notice**”) promulgated on 3 June 2011 is no longer necessary. The PBOC RMB FDI Measures provide that, among others, foreign invested enterprises are required to conduct registrations with the local branch of the PBOC within 10 working days after obtaining the business licenses for the purpose of Renminbi settlement, a foreign investor is allowed to open a Renminbi expense account (人民幣前期費用專用存款賬戶) to reimburse some expenses before the establishment of a foreign invested enterprise and the balance in such an account can be transferred to the Renminbi capital account (人民幣資本金專用存款賬戶) of such foreign invested enterprise when it is established, commercial banks can remit a foreign investor's Renminbi proceeds from distribution (dividends or otherwise) by its PRC subsidiaries out of the PRC after reviewing certain requisite documents, if a foreign investor intends to use its Renminbi proceeds from distribution (dividends or otherwise) by its PRC subsidiaries, the foreign investor may open a Renminbi re-investment account (人民幣再投資專用賬戶) to pool the Renminbi proceeds, and the PRC parties selling stake in domestic enterprises to foreign investors can open Renminbi accounts and receive the purchase price in Renminbi paid by foreign investors. The PBOC RMB FDI Measures also state that Renminbi debt and foreign currency debt of a foreign invested enterprise from its offshore shareholders, offshore affiliates and offshore financial institutions constitute its foreign debt quota, and a foreign invested enterprise may open a Renminbi account (人民幣一般存款賬戶) to receive its Renminbi proceeds borrowed offshore by submitting the Renminbi loan contract to the commercial bank and make repayments of principal of and interest on such debt in Renminbi by submitting certain documents as required to the commercial bank.

As new regulations, the SAFE Circular, the PBOC Notice, the MOFCOM RMB FDI Circular and the PBOC RMB FDI Measures will be subject to interpretation and application by the relevant PRC authorities. Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in such rules.

DESCRIPTION OF THE ISSUER

BUSINESS OVERVIEW

Sandvik Aktiebolag (publ) was established in 1862 and incorporated in 1897 under the laws of Sweden as a public company (Aktiebolag). Sandvik is registered at the Swedish Companies Registration Office with registration number 556000-3468. Sandvik's registered office and principal place of business is at Storgatan 2, 811 81 Sandviken, Gävleborgs län, Sweden and the telephone number is +46 (0) 26 26 00 00.

The Issuer is the ultimate parent company of 300 subsidiaries (as at 31 December 2010) which are situated in Sweden as well as internationally. References in this business description to the "Group" are to the Issuer and its subsidiaries.

History and development

Sandvik was founded in 1862 by Göran Fredrik Göransson, who was first in the world to succeed in using the Bessemer method for steel production on an industrial scale. Sandvik is a high-technology, engineering group with advanced products within selected areas. Sandvik's business concept is based on specialist competence and expertise in materials technology. Sandvik operates in three core areas:

- tools for metal cutting produced of cemented-carbide and high-speed steel as well as components produced of cemented carbide and other hard materials.
- equipment and tools for the mining and construction industries.
- products in advanced stainless materials, titanium, special alloys, metallic and ceramic resistance materials and process systems.

Sandvik's business concept is to develop, manufacture and market high-tech products and services that facilitate higher customer productivity and profitability.

Worldwide business activities are conducted in 130 countries. As at 31 December 2010 the Group had 47,000 employees and annual sales of approximately SEK 83 billion compared to 44,000 employees and annual sales of approximately SEK 72 billion as at 31 December 2009.

STRATEGY

Overview of strategy

Sandvik develops, manufactures and markets products and services with a high technology content that contribute to enhancing the productivity and profitability of Sandvik's customers. This is Sandvik's business concept. All industrial companies must enhance efficiency in production so that rising costs for raw materials, wages, energy and other items are balanced with the gains provided through higher prices. For many products the possibility to increase prices is limited. Sandvik helps to close this productivity gap in customer operations by offering products that result in cost savings and reliable and cost-efficient processes for its customers.

Sandvik creates customer value through a strong global presence; customers worldwide are offered solutions that encompass products, services and technical support.

Manufacturing and Research and Development

Conducting core operations, such as manufacturing, on a proprietary basis, ensures that Sandvik's products adhere to the Group's high and globally standardised performance and quality parameters. Sandvik's production organisation is strongly integrated with research and development ("R&D"). This creates favourable conditions for the ongoing development of new products and is a key competitive advantage for the Group.

Comprehensive and goal-oriented research and development is a prerequisite for the Group's continued profitable growth. R&D activities are customer oriented and projects are managed in close co-operation with the customer. To ensure maximum customer value, the Group's R&D is based on leading, unique

technology and active patent work. R&D also enhances manufacturing processes and facilitates more efficient production lines. Sandvik invests about SEK 3 billion in R&D and has approximately 2,400 employees working within R&D.

New Strategic Direction

Sandvik has a new strategic direction the purpose of which is to achieve world class performance in value creation through higher growth and profitability and thereby make Sandvik an even more attractive company for customers, employees and shareholders. The new strategy is focused on increasing profitability, strengthening position in attractive markets and segments and being more active in portfolio management. The strategy is based on four cornerstones:

- AMBITION to be world class in every core area;
- higher SPEED in every process;
- increased FOCUS in selected core businesses; and
- become truly GLOBAL in mindset and organisation but with strong LOCAL adaptations.

To succeed with the new strategic direction and to increase transparency and operational focus the organisation will be split into five business areas instead of three and a stronger platform for utilising common resources will be developed. The new organisation will be effective from 1 January 2012.

The strategy entails a stronger and more enhanced focus on growth in strategically important, fast growing and profitable markets. Furthermore the strategy aims to shorten decision making in order to faster adapt to changing market conditions. Capital allocation will be more strictly directed towards areas of high returns and value creation. A new model for performance management will be implemented to secure continued improvements. Alternative structural solutions will be evaluated on a regular basis for units that are of lower strategic importance or do not reach acceptable returns.

The Sandvik business model is founded on unique knowledge in excavation, development and shaping of metals and other materials. The new organisation will ensure better pre-conditions for every core business to develop and optimise product offering as well as production, distribution and market channels. The new, leaner and more simplified organisational structure together with better coordination of common functions in shared service centres is expected to generate cost savings and increased quality.

The Group's financial targets over a business cycle are, for the time being, kept unchanged.

Three Business Areas turn into five

In order to create maximum leverage within each core business and to optimise the organisation for growth and profitability including for new and smaller adjacent businesses, the operation will be organised in the following five business areas:

Sandvik Mining

Sandvik Mining is focused on global leadership on products, solutions and services for high-performing hard rock and soft rock underground and surface mining operations. Its medium term targets are:

- to maintain the strong growth rate;
- to maintain and strengthen a leading market position; and
- to increase profitability relative to key peers.

Sandvik Machining Solutions

Sandvik Machining Solutions holds a clear global leadership by offering productivity enhancing products and solutions for advanced industrial metal cutting. Its medium term targets are:

- to maintain and strengthen the global leadership;

- to increase growth and profitability; and
- to evaluate opportunities to expand in adjacent areas.

Sandvik Materials Technology

Sandvik Materials Technology offers high value-added advanced metal products for demanding applications in selected niches. Its medium term targets are:

- to within 2 to 3 years turn around this business area to achieve significantly higher profitability; and
- subsequently evaluate alternatives for growth and expansion.

Product area Process Systems and the parts of product area MedTech comprising medical devices (implants and instruments) will be moved into the new business area, Sandvik Venture. Unless a credible path to acceptable profitability is visible in the medium term this business area will be evaluated for full or partial divestment.

Sandvik Construction

Sandvik Construction offers high-performing products, solutions and services within selected niches of the global construction industry. Its medium term targets are:

- to within 2 to 3 years turn around this business area to achieve significantly higher profitability; and
- subsequently evaluate different alternatives for growth and expansion.

Unless a credible path to acceptable profitability is visible in the medium term this business area will be evaluated for full or partial divestment.

Sandvik Venture

Sandvik Venture is a business area aiming to create the best possible environment for growth and profitability in attractive and fast-growing operations. It will primarily be focussing on product areas with limited connections to other business areas or closely linked to several other business areas.

The different product areas within Sandvik Venture will be evaluated on a regular basis from structural, strategic and value creation aspects. The following product areas will be included in Sandvik Venture: Sandvik Process Systems, Sandvik Hard Materials, Diamond Innovations, Wolfram and Dormer as well as the parts of Sandvik MedTech comprising medical devices.

Coming activities

The new organisation will be effective from 1 January 2012. Key activities to prepare for this will include manning of the different business areas, development of detailed targets and strategies as well as activities aimed at coordinating and separating different units.

Due to limited strategic fit and poor financial results a process has been initiated to divest the parts of Sandvik MedTech comprising implants and instruments. The operation had in 2010 sales of around SEK 650 million and about 600 employees. As a consequence of the proposed divestment the result in the third quarter of 2011 was charged with an impairment of goodwill value in the amount of SEK 1,160 million.

RECENT EVENTS

Lars Josefsson, President of Sandvik Mining and Construction and member of the Group Executive Management, will leave Sandvik at the latest by 31 December 2011. Lars has contributed successfully for 8 years to the very positive development both of Sandvik Mining and Construction and the Sandvik Group.

Peter Larson, Executive Vice President of Sandvik and member of the Group Executive Management since 2000, will retire on 1 January 2012. Peter has served and contributed successfully to Sandvik's development for 20 years in different positions.

Svante Lindholm, country manager in China, retired in October 2011. A process to find his successor has been initiated.

On 1 October 2011, Tomas Nordahl, formerly partner and President of Boston Consulting Group Sweden, assumed a position at Sandvik as head of IT, sourcing and strategy implementation. Tomas will also be a new member of Sandvik's Group Executive Management from 1 January 2012.

Sandvik Mining and Construction received two large project orders during the third quarter of 2011. One of these, valued at nearly SEK 500 million, was secured in Australia by the Construction product segment and the second, valued at approximately SEK 300 million, was secured in Brazil by the Surface Mining product segment.

On 9 October 2011, Sandvik completed its acquisition of 80% of the shares in SJL with the brand Shanbao. SJL manufactures crushing and screening equipment and has about 1,000 employees. In 2010, SJL reported sales of nearly SEK 1 billion.

On 12 October 2011, Sandvik formally founded a joint venture with Shandong Energy Machinery Co. for manufacturing and sales of equipment for coal mines. The jointly owned company, Energy Machinery Group ZhongRui Mining Equipment Manufacturing Co. Ltd. Energy Machinery, is scheduled to be operational in early 2012.

A service technician at Sandvik Mining and Construction in Russia was tragically involved in an fatal accident while performing service on an underground drill rig on 8 September 2011. A full investigation into the causes of the accident was undertaken and a number of corrective actions are being implemented. This accident strongly emphasises the importance of continuing the focus on improving the safety systems and culture across the company.

On 7 November 2011, Sandvik announced a recommended public offer to acquire all remaining shares in its subsidiary Seco Tools AB ("**Seco Tools**"), one of the world's largest manufacturers of innovative metal-cutting tools (the "**Offer**"). For each class B share in Seco Tools, Sandvik has offered 1.2 shares in Sandvik. The Offer is part of Sandvik's strategy to continue to strengthen its world-leading position within the new business area Sandvik Machining Solutions. The Offer is recommended by the Board of Directors of Seco Tools. Further, Alecta Pension Insurance and Swedbank Robur Funds, major shareholders of both Seco Tools and Sandvik, are positive towards the Offer.

Overview

The global business climate improved significantly during the first nine months of the year compared to the weak situation in early 2010. The improvement was tangible for all business areas and, due to a steadily improved global economy combined with a strong market offering, sales and production volumes rose significantly. Sandvik's order intake for January to September 2011 developed positively and amounted to SEK 75,088 million (compared to SEK 66,972 million for the same period in 2010), up 12% in total and 20% at fixed exchange rates for comparable units. Invoiced sales were SEK 68,980 million (compared to SEK 59,378 million for the same period in 2010), up 16% in total and 22% at fixed exchange rates. Operating profit for January to September 2011 improved, primarily as a result of higher volumes, higher cost efficiency and a favourable product mix, but was adversely impacted by such items as goodwill impairment charges of SEK 1,160 million, and amounted to SEK 8,498 million (compared to SEK 7,900 million for the same period in 2010). The operating margin corresponded to 12.3% (compared to 13.3% for the same period in 2010) of invoiced sales. Changed exchange rates had an impact of nearly - SEK 1.2 billion on earnings during the first nine months of 2011 compared with the same period for 2010, while changed metal prices impacted the result by - SEK 100 million. Net financial items amounted to - SEK 1,459 million (compared to - SEK 1,242 million for the same period in 2010) and the result after net financial items was SEK 7,039 million (compared to SEK 6,658 million for the same period in 2010). The tax rate was 28% and profit for the period amounted to SEK 5,058 million (compared to SEK 4,757 million for the same period in 2010). Earnings per share was SEK 4.02 (compared to SEK 3.83 for the same period in 2010). Cash flow from operating activities was + SEK 4,452 million (compared to + SEK 8,891 million for the same period in 2010). The Group's investments in fixed assets amounted to SEK

3,346 million (compared to SEK 2,079 million for the same period in 2010), with company acquisitions accounting for SEK 265 million (compared to SEK 726 million for the same period in 2010). After investments, acquisitions and divestments, cash flow was + SEK 980 million (+ SEK 6,249 million).

The third quarter of 2011

Market and sales

With the exception of certain segments, the business climate was positive in the third quarter and favourable development was reported for order intake and invoiced sales. While both Sandvik Mining and Construction (which will be split into Sandvik Mining and Sandvik Construction as part of the new strategy and organisation effective from 1 January 2012) and Sandvik Tooling (which will be part of Sandvik Machining Solutions as part of the new strategy and organisation effective from 1 January 2012) registered high demand, the trend for some of Sandvik Materials Technology's product groups weakened. The order backlog increased further for equipment and projects for the mining industry. At fixed exchange rates, order intake and invoiced sales for the Group increased by 21% and 22%, respectively, amounting to SEK 24.8 billion and SEK 23.5 billion, respectively. Changed exchange rates had a negative impact of 5% on order intake and invoiced sales, respectively. Despite the uncertainty in many markets linked to government finance concerns in Europe and the US, demand for Sandvik's products and solutions remained favourable in the third quarter, particularly for Sandvik Mining and Construction and Sandvik Tooling. Demand from the North American market was highly favourable during the quarter, as was also the case for South America and Australia. There were signs in Europe and Asia of a leveling-off in some segments and among certain customer groups.

Demand for advanced cutting tools remained high, with the strongest growth recorded in North America and Europe, while, for example, the automotive industry in China displayed signs of leveling-off. Activity in the global mining industry was high and a number of major orders for mining equipment used in surface and underground mining operations were received.

In South America, Sandvik Mining and Construction secured a large order for a material handling system valued at just over SEK 300 million. In Australia, a contract was signed to design and construct a new quarry plant valued at nearly SEK 500 million, which confirms Sandvik's strong market position. The trend in the construction industry remained weak mainly in Europe and China, due to macroeconomic uncertainty and government austerity packages.

Aside from the usual seasonal drop-off at Sandvik Materials Technology, demand weakened further for low value-added products and products for consumer-related applications. Activity in such key segments as the oil and gas industry remained strong, as was also the case for the petrochemical and aerospace industries. Order intake amounted to SEK 24,825 million (compared to SEK 21,523 million for the same period in 2010), a total increase of 15%, or of 21% at fixed exchange rates for comparable units. Changed exchange rates had an impact of -5% on order intake. The increase at fixed exchange rates for comparable units was 14% for Sandvik Tooling and 44% for Sandvik Mining and Construction. Order intake for Sandvik Materials Technology declined 13% compared with the third quarter of 2010, including an impact of about -2 percentage points related to changed metal prices.

Invoiced sales in the third quarter amounted to SEK 23,528 million (compared to SEK 20,241 million for the same period in 2010), a total increase of 16%, or of 22% at fixed exchange rates for comparable units compared with the third quarter of the preceding year. Changed exchange rates had an impact of -5% on invoiced sales. Invoiced sales at fixed exchange rates and for comparable units increased 18% for Sandvik Tooling, 32% for Sandvik Mining and Construction and 7% for Sandvik Materials Technology compared with the previous year, including an impact of about -1 percentage point related to changed metal prices.

Earnings and return

Earnings and return in operating activities, excluding one-off items, improved markedly compared with the corresponding third quarter of 2010. This improvement was primarily attributable to higher volumes, increased capacity utilisation and a lower cost level in relative terms. Earnings in the third quarter of 2011 were charged with impairments to goodwill and other one-off costs in the total amount of SEK 1.7 billion and about - SEK 120 million (compared to none for the same period in 2010) related to changed metal prices. Changed exchange rates had no material impact on consolidated earnings. The reported operating

profit thus amounted to SEK 1,665 million (compared to SEK 2,532 million for the same period in 2010), 7.1% of invoiced sales (compared to 12.5% for the same period in 2010), while earnings adjusted for the impairment of goodwill and restructuring costs amounted to SEK 3,378 million, or 14.4% of invoiced sales.

During the third quarter of 2011, sales and production volumes increased, primarily within Sandvik Tooling and Sandvik Mining and Construction, compared with the preceding year. Combined with stable price increases, this contributed to higher productivity and profitability. The earnings of mainly Sandvik Materials Technology were charged with a goodwill impairment totaling SEK 1,160 million related to the Sandvik MedTech operations and a further approximately SEK 500 million attributable to planned and approved restructuring measures and impairments. This contributed to a lower gross margin in the quarter.

Net financial items decreased to - SEK 555 million (compared to - SEK 412 million for the same period in 2010), mainly due to currency effects, and the reported result after net financial items was SEK 1,110 million (compared to SEK 2,120 million for the same period in 2010), or 4.7% of invoiced sales. Income tax was - SEK 406 million (compared to - SEK 560 million for the same period in 2010) and the net result for the period amounted to SEK 704 million (compared to SEK 1,560 million for the same period in 2010), or 3% of invoiced sales. The tax rate for the third quarter of 2011 rose to 37% due to the fact that the goodwill impairment is partially non-deductible.

Earnings per share amounted to SEK 0.53 for the third quarter of 2011 (compared to SEK 1.33 for the third quarter of 2010). Working capital rose slightly compared with the preceding quarter, due to a partly seasonal rise in inventories in certain areas and longer delivery times, and amounted to 28% of invoiced sales (compared to 27% for the same period in 2010). Due to the increase in working capital, cash flow from operations declined to + SEK 2,614 million (compared to + SEK 3,978 million for the same period in 2010). Investments totaled SEK 1,241 million (compared to SEK 1,131 million for the same period in 2010), of which company acquisitions accounted for none (compared to SEK 258 million for the same period in 2010). Cash flow after investments was + SEK 1,427 million for the third quarter of 2011 (compared to + SEK 2,886 million for the third quarter of 2010). Return on capital employed over the past 12 months in respect of Sandvik rose to 18.6% (compared to 12.9% for the preceding 12 months) and return on total equity amounted to 21.7% (compared to 15.2% for the preceding 12 months).

Sandvik Tooling

The demand trend for cutting tools and products from Sandvik Tooling remained favourable in most markets in the third quarter of 2011. Both order intake and invoiced sales improved significantly in the majority of markets compared with the preceding year. Operating profit improved due to the increase in invoicing, a higher rate of production and greater internal efficiency. In the third quarter of 2011, order intake and invoiced sales rose 14% and 18%, respectively, at fixed exchange rates for comparable units. Operating profit increased to SEK 1,483 million (compared to SEK 961 million for the same period in 2010), or 22.2% of invoiced sales. Changed exchange rates impacted the result by - SEK 130 million for the third quarter of 2011 (compared to - SEK 130 million for the third quarter of 2010).

The market situation remained strong in most major markets and order intake increased compared with the same period in 2010. Order intake and invoiced sales were on par with the highest levels ever recorded in a third quarter for Sandvik Tooling. The growth in demand was most discernable in North America and Europe, driven primarily by high activity in the automotive, aerospace and oil and gas industries as well as in energy-related segments. In Asia, the People's Republic of China showed signs of leveling-off on a high level, mainly as a result of governmental financial constraints reducing the willingness of companies and private individuals to invest. In the automotive industry, this impacted the number of vehicles sold and production rates. Order intake was stronger for cemented carbide-based products and material than for other products. Activity in the nuclear power industry remained low against the background of the ongoing safety reviews. Demand was strong from the aerospace and process industries, but weakened for consumer goods and electronics industries as well as for low value-added products for which global production capacity exceeds demand. The rise in invoiced sales resulted in higher production rates, giving rise to higher capacity utilisation, which in turn had a positive impact on profitability. The rate of price increases was stable compared with earlier quarters. During the third quarter of 2011, Wolfram's raw material inventories increased, which, combined with a seasonally lower invoicing, led to a temporary situation of slightly higher tied-up capital. Other inventory levels remained largely unchanged in line with the goal of a continued reduction in working capital. During the third

quarter of 2011, working capital amounted to 26% of invoiced sales (unchanged from the same period in 2010). Compared with the third quarter of 2010, operating profit improved and amounted to SEK 1,483 million (compared to SEK 961 million for the same period in 2010), which was 22.2% of invoiced sales. Earnings were impacted by about - SEK 130 million due to changed exchange rates. Return on capital employed over the past 12 months in respect of Sandvik Tooling amounted to 27.5% (compared to 13.6% for the same period in 2010).

Sandvik Mining and Construction

Activity in the global mining industry remained strong during the third quarter of 2011 compared with both the previous year and earlier quarters. The mining industry grew robustly particularly in terms of equipment and project orders while demand in the construction industry was fragmented, with some markets performing strongly while China and Europe reported weak growth during the quarter. Order intake and invoiced sales rose 44% and 32%, respectively, at fixed exchange rates compared with the previous year. Changed exchange rates had a marginal impact on earnings. Activity in the mining industry, both in underground and surface mines, remained very high during the quarter, and both order intake and invoiced sales were substantially higher than in the previous year. The increase was robust in all regions but strongest for underground mining in Europe and South America, and surface mining in Asia and Australia. Demand increased primarily for equipment and projects, while aftermarket activity was unchanged at a high level. The rate of price increases was stable compared with previous quarters. Demand in the construction industry was weaker than in the mining industry, which was mainly due to a continued weak trend in Europe and China, where financial uncertainty and austerity measures have resulted in the deferral of many projects. Invoiced sales for the business area were about SEK 1.5 billion below order intake. This was due to high order intake for equipment and projects with extended delivery periods and the fact that large portions of the supply chain are being utilised to maximum capacity, giving rise to long delivery times. The high level of demand has also lengthened the lead times of many sub-suppliers, which has made production and stock control more difficult. The aftermarket portion of invoiced sales was 48% (compared to 57% for the same period in 2010), while equipment and projects comprised 37% (compared to 36% for the same period in 2010) and 15% (compared to 7% for the same period in 2010), respectively. Compared with the second quarter of 2011, working capital rose slightly due to higher inventories and accounts receivables and amounted to 26% (compared to 25% for the same period in 2010) of invoiced sales. Operating profit in the third quarter of 2011 amounted to SEK 1,550 million (compared to SEK 1,257 million for the same period in 2010), or 14.3% (compared to SEK 14.5% for the same period in 2010) of invoiced sales. Return on capital employed over the past 12 months in respect of Sandvik Mining and Construction amounted to 31.5% (compared to 19.2% for the preceding 12 months).

Sandvik Materials Technology

The demand scenario was fragmented at Sandvik Materials Technology during the quarter. Order intake declined by 13% compared with the third quarter in 2010, while invoiced sales rose 7% at fixed exchange rates. Order intake for products for the oil and gas sector remained strong, while the decline accelerated for low value-added products and products for consumer-related segments. The result was charged by a total of about SEK 1.7 billion related to goodwill impairment and restructuring costs and decreased by SEK 120 million (compared to none for the same period in 2010) due to changed metal prices. The global market situation was relatively fragmented during the third quarter of 2011, with continued uncertainty because of the financial constraints in China and the financial turmoil in Europe. The third quarter is also seasonally the weakest, which increases the uncertainty of trend analyses. In North America, demand remained favourable, primarily in the energy and aerospace industries, while order intake declined in Europe and Asia. Activity in the oil and gas industry remained high and demand for high-alloy tubes grew further. Activity in the nuclear power industry remained low against the background of the ongoing safety reviews. Discussions with Chinese customers regarding timetables for orders have confirmed delays of some orders. Demand was strong from the aerospace and process industries, but weakened for consumer goods and electronics industries as well as for low value-added products for which global production capacity exceeds demand. During the third quarter of 2011, working capital was reduced slightly but, despite this, amounted to 37% of invoiced sales due to the seasonally low invoicing level (compared to 33% for the same period in 2010). As a result of the new strategic direction and the improvement programme announced in September 2011, operating profit for the third quarter of 2011 was charged with SEK 1.2 billion for a goodwill impairment of the Sandvik MedTech business and a further approximately SEK 500 million in costs for restructuring and write-downs. In addition, changed metal prices had an impact of - SEK 120 million (compared to none for the same period in 2010) on

operating profit. Currency effects impacted the result by + SEK 60 million compared with the previous year. The reported result amounted to - SEK 1,542 million (compared to SEK 203 million for the same period in 2010) or -35.9% of invoiced sales (compared to 4.9% for the same period in 2010). Adjusted for the impairment of goodwill, restructuring costs and metal price effects, the operating result was SEK 241 million, or 6% of invoiced sales. Return on capital employed for the past 12 months in respect of Sandvik Materials Technology was -2.7% (compared to 8.5% for the preceding 12 months).

PARENT COMPANY

The Parent Company's invoiced sales for the third quarter of 2011 amounted to SEK 3,760 million (compared to SEK 3,917 million for the same period in 2010) and the operating result was - SEK 757 million (compared to - SEK 13 million for the same period in 2010). For the January to September 2011 period, invoiced sales amounted to SEK 13,255 million (compared to SEK 12,754 million) and the operating result was - SEK 1,074 million (compared to + SEK 283 million for the same period in 2010). The operating result for the third quarter of 2011 was negatively impacted by changed metal prices and the impairment of property, plant and machinery. The result from shares in Group companies consists primarily of dividends from these and amounted to SEK 268 million in the third quarter of 2011 (compared to SEK 203 million for the same period in 2010). Interest-bearing liabilities, less cash and cash equivalents and interest-bearing assets, amounted to SEK 16,483 million as at 30 September 2011 (compared to SEK 10,554 million as at 31 December 2010). In terms of accounting, the Parent Company's indebtedness and shareholders' equity were impacted by approximately SEK 1.4 billion through the signing of a share swap agreement pertaining to the hedging of an approved employee share-based incentive program. The debt will be reversed in connection with future redemption of share options. Investments in property, plant and machinery amounted to SEK 1,096 million (compared to SEK 845 million for the same period in 2010).

ACQUISITIONS AND DIVESTMENTS

No acquisitions or divestments were performed during the first nine months of 2011. During the first quarter of 2011, further part payments were made relating to the acquisition of Wolfram, and of Seco Tools' acquisitions of Niagara Cutter Industries ("NCT") and Diamond Tool Coating ("DTC"), which had a negative impact of SEK 265 million on cash flow after investments. Seco Tools also acquired AOB, based in Mortagne sur Sevre near Nantes, France, in July 2010. AOB is one of the leading suppliers of

PCD tools to the aerospace, automotive and woodworking industries and has special expertise and experience in machining of composite materials.

There is currently insufficient information to provide disclosure in accordance with IFRS 3 in relation to the acquisition of SJL on 9 October 2011.

Acquisitions during the most recent 18-month period

Business area	Company/unit	Closing date	Annual revenue (SEK million)	No of employees
Seco Tools	AOB, France	23 July 10	40	50
Seco Tools	NCI and DTC, USA	29 Dec 10	275	180
SMC	SJL, China	9 Oct 11	< 1,000	1,000

In December 2010 an agreement was reached to acquire 80% of the shares in the Chinese company, SJL. The acquisition strengthens the customer offering in equipment for crushing and screening for new substantial customer segments in China and globally.

Further, in April 2011 Sandvik Mining and Construction signed an agreement with Shandong Energy Machinery to form a joint venture in China for manufacturing and sales of equipment to the coal mining industry. The operation is expected to start before the end of 2011 and will be fully consolidated in Sandvik's annual financial statements.

No divestments were made during the most recent 18-month period.

Committees of the board of directors

Remuneration Committee

According to the Board's work procedures, the Remuneration Committee shall undertake the tasks prescribed by the Code, which includes preparing proposals to the Board of Directors regarding proposed guidelines for remuneration of senior executives that the Annual General Meeting is to resolve on by law. In 2010, the members of the Remuneration Committee were the Board's Chairman Anders Nyrén (also Chairman of the Remuneration Committee), Georg Ehrnrooth and Egil Myklebust. The Remuneration Committee's recommendations to the Board cover:

- principles for remuneration;
- the distribution between fixed and variable salaries;
- pensions and severance pay; and
- other benefits to senior executive management.

Based on the proposal by the Remuneration Committee, the Board of Directors decides the remuneration of the President and CEO. The Board of Directors utilised its right to deviate from the guidelines resolved by the Annual General Meeting pertaining to severance pay for Lars Pettersson in conjunction with his departure from the company. He will receive remuneration until his 60th birthday, which is the age of retirement stipulated in his employment contract. This deviates from the provision of the Code by nine months. The deviation was made to span the period until Lars Pettersson's contractual retirement. The President decides on the remuneration to be paid to the other senior executives following consultation with the Remuneration Committee. Key guidelines relating to remuneration policies in the Group have

been presented to the Remuneration Committee. During 2010, the Remuneration Committee was convened on seven occasions.

Audit Committee

Since the 2010 Annual General Meeting, the members of the Audit Committee have been Hanne de Mora (Chairman), Anders Nyrén and Simon Thompson. In 2010, the Committee held four meetings at which the company's external auditors and representatives of the company's management were present. Areas addressed by the Audit Committee mainly related to:

- financial reporting;
- planning, scope and follow-up of the internal and external audit for the year; and
- the Group's systematic processes for risk management, including legal disputes, accounting procedures, taxation, finance operations and pension issues.

Nomination Committee

A Nomination Committee has been established in accordance with the decision reached at the Annual General Meeting of Shareholders on 4 May 2009. The four largest shareholders known to Sandvik each appoint one member and together with the Chairman of the Board they make up the Nomination Committee. The Nomination Committee shall submit a proposal for the election of the Chairman at the Annual General Meeting. It shall further propose how many board members shall be elected and how a Nomination Committee shall be formed to act at the next Annual General Meeting and what its assignment shall be.

As from 12 September 2011 the Nomination Committee comprises Carl-Olof By, Håkan Sandberg, Staffan Grefbäck, Marianne Nilsson and Anders Nyrén.

CORPORATE GOVERNANCE

Corporate governance defines roles and responsibilities for shareholders, the Board of Directors and executive management. It also covers the Group's control and management system.

Corporate governance within Sandvik is based on applicable legislation, the rules and regulations of the OMX Nordic Exchange in Stockholm, Swedish Code of Corporate Governance Code (the "**Code**") and internal guidelines. For additional information on the Swedish Code of Corporate Governance and information on the annual meeting of shareholders, refer to the website of The Swedish Corporate Governance Board, www.bolagsstyrningskollegiet.se.

Anders Nyrén is the president of Industrivärden. Fredrik Lundberg is a member of the board of Industrivärden. Industrivärden owns shares representing slightly more than 10% of the voting rights in Sandvik. Anders Nyrén and Fredrik Lundberg are thus not independent in relation to major shareholders as defined in the Code. The remaining four members elected at the Annual Meeting on 4 May 2009 are all independent in relation to Sandvik and major shareholders. The composition of the Board is, therefore, meeting the requirements laid down in the Code that a minimum of two of those members that are independent in relation to the company and its management shall also be independent in relation to major shareholders, and that the members that are independent in relation to the company and major shareholders have the required experience to serve public listed companies.

There are no potential conflicts of interest between the duties to Sandvik of the persons who listed under "Members of the Board" and "President and Group Executive Management" above and their private interests or other duties.

Matters may come before the Board of Directors as to which one or more members of the Board of Directors has a potential conflict of interest. If such a matter arises, any member of the Board of Directors with a potential conflict of interest will not participate in the discussion or voting with respect to such matter in accordance with the rules and regulations of the Code.

The information set out in this Base Prospectus shall be read in conjunction with Sandvik's audited financial statements for 2010 and 2009 and the consolidated unaudited interim financial statements for the nine months ended 30 September 2011.

STATEMENT OF COMPLIANCE

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("**IFRS**") adopted by the International Accounting Standards Board ("**IASB**") and interpretations of such standards by the International Financial Reporting Interpretations Committee ("**IFRIC**"), as endorsed by the EU Commission. In addition, the standard RFR 1:2, supplementary accounting standards for group accounts, issued by the Swedish Financial Accounting Standards Council has been applied. The financial statements are presented on pages 42 to 95 of the Annual Report for 2010 and pages 34 to 87 of the Annual Report for 2009.

The quarterly financial statements are prepared under IFRS and are unaudited.

Changes in accounting policies

Revised IAS 1, *Presentation of Financial Statements*, IFRS 8, *Operating Segments*, which replaces IAS 14 Segment Reporting, amendments to IFRS 7, *Financial Instruments*, and revised IAS 23, *Borrowing Costs*. No new IFRSs have been adopted early.

TAXATION

The following is a general description of certain EU tax considerations relating to the Notes and also certain Swedish tax considerations relating to the holders of the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in those countries or elsewhere. The section on Swedish taxation does not address the rules regarding reporting obligations for, among others, payers of interest. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

EU Savings Tax Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**EU Savings Tax Directive**”), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent.. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. Belgium has replaced this withholding tax with a regime of exchange of information to the Member State of residence as from 1 January 2010.

A number of non-EU countries and certain dependent or associated territories of certain Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Tax Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

Swedish Taxation

Holders not resident in the Kingdom of Sweden

Payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes to the holder of Notes should not be subject to Swedish income tax, *provided that* such a holder is not resident in the Kingdom of Sweden for Swedish tax purposes and *provided that* such a holder does not have a permanent establishment in the Kingdom of Sweden to which the Notes are effectively connected. However, and somewhat simplified, *provided that* the value or the return of the Notes is related to securities taxed as shares, private individuals who have been residents of the Kingdom of Sweden or have had a habitual abode in the Kingdom of Sweden at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption, are liable for capital gains taxation in the Kingdom of Sweden upon disposal or redemption of such Notes. In a number of cases though, the applicability of this rule is limited by the applicable tax treaty for the avoidance of double taxation. Swedish withholding tax, or Swedish tax deduction, is not imposed on payments of any principal amount or any amount that is considered to be interest for Swedish tax purposes to a holder, except for certain payments of interest to a private individual (or an estate of a deceased individual) with residence in the Kingdom of Sweden for Swedish tax purposes.

Holders resident in the Kingdom of Sweden

Generally, for Swedish corporations and private individuals (and estates of deceased individuals) with residence in the Kingdom of Sweden for Swedish tax purposes, all capital income (e.g. income that is considered to be interest for Swedish tax purposes and capital gains on Notes) will be taxable. Specific

tax consequences, however, may be applicable to certain categories of corporations, e.g. life insurance companies. Further, specific tax consequences may be applicable if, and to the extent, a holder of Notes realises a capital loss on the Note and to any currency exchange gains or losses. If amounts that are considered to be interest for Swedish tax purposes are paid by Euroclear Sweden or by another legal entity domiciled in the Kingdom of Sweden, including a Swedish branch, to a private individual (or an estate of deceased individual) with residence in the Kingdom of Sweden for Swedish tax purposes, Swedish preliminary taxes are normally withheld by Euroclear Sweden or the legal entity on such payments. The Swedish Parliament has decided to enact amendments to current Swedish law which mean that Swedish preliminary taxes will normally also be withheld on other returns on securities and receivables (but not capital gains), if such returns are paid out together with an amount that is considered to be interest for Swedish tax purposes. The new rule will enter into force on 1 January 2012 and be applied to amounts that are paid out by Euroclear Sweden or by another legal entity domiciled in the Kingdom of Sweden, including a Swedish branch, after the end of year 2011.

Hong Kong Taxation

Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the Notes may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (i) interest on the Notes is derived from Hong Kong and is received by or accrues to a company carrying on a trade, profession or business in Hong Kong; or
- (ii) interest on the Notes is derived from Hong Kong and is received by or accrues to a person, other than a company, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business; or
- (iii) interest on the Notes is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap.112) of Hong Kong) and arises through or from the carrying on by the financial institution of its business in Hong Kong.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal or redemption of Bearer Notes will be subject to profits tax.

Sums derived from the sale, disposal or redemption of Bearer Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source. Similarly, such sums in respect of Registered Notes received by or accrued to either the aforementioned person and/or a financial institution will be subject to Hong Kong profits tax if such sums have a Hong Kong source. The source of such sums will generally be determined by having regard to the manner in which the Notes are acquired and disposed.

Stamp Duty

Stamp duty will not be payable on the issue of Bearer Notes provided either:

- (i) such Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap.117) of Hong Kong (the “**SDO**”)).

If stamp duty is payable it is payable by the Issuer on the issue of Bearer Notes at a rate of 3 per cent. of the market value of the Notes at the time of issue. No stamp duty will be payable on any subsequent transfer of Bearer Notes.

No stamp duty is payable on the issue of Registered Notes. Stamp duty may be payable on any transfer of Registered Notes if the relevant transfer is required to be registered in Hong Kong. Stamp duty will, however, not be payable on any transfer of Registered Notes provided that either:

- (i) the Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) the Registered Notes constitute loan capital (as defined in the SDO).

If stamp duty is payable in respect of the transfer of Registered Notes it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the value of the consideration. If, in the case of either the sale or purchase of such Registered Notes, stamp duty is not paid, both the seller and the purchaser may be liable jointly and severally to pay any unpaid stamp duty and also any penalties for late payment. If stamp duty is not paid on or before the due date (two days after the sale or purchase if effected in Hong Kong or 30 days if effected elsewhere) a penalty of up to 10 times the duty payable may be imposed. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Issuer to any one or more of the Dealers. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealers are set out in an amended and restated Dealer Agreement dated 22 December 2011 (the “**Dealer Agreement**”) and made between the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Each Dealer has agreed, and each further Dealer appointed under the Programme will agree, that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Fiscal Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Each issuance of Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms.

Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it had not made and will not make an offer of Notes which would be the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto (or would be the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.
