SWECO to design Radisson SAS Hotel in Ukraine

SWECO's architects have been selected to design a new hotel and office complex outside the Ukrainian capital of Kiev. The SWECO Group's building service systems consultants will also create smart solutions for the buildings' HVAC and plumbing systems. The contract is worth a total of nearly EUR 1.3 million.

"We have designed many hotels and office buildings in the Baltic countries and Russia, but this is our first architectural assignment in Ukraine – a country that is investing ambitiously in construction of new hotels and properties," says Jan Mattsson, Managing Director of SWECO FFNS.

For Radisson SAS Hotel, to be located between the airport and downtown Kiev, the architects at SWECO FFNS will design some 350 rooms, a conference facility and a large spa. The seven-storey office building will sit on an adjacent lot. The assignment is being carried out on behalf of Eurocon OÜ, one of Estonia's largest construction companies. The hotel will be operated by the Rezidor hotel group, whose portfolio includes the Radisson SAS brand.

"We have completed the program drawings and started on detail design of the hotel," says Aare Saks responsible for the assignments at SWECO FFNS.

SWECO Theorells' task is to prepare overall system documents for all HVAC and plumbing work in the project. Detail planning will be handled by local sub consultants. The company has previously performed several assignments in Ukraine to assist cities and municipalities with energy efficiency measures.

SWECO is the Nordic region's leading provider of consulting services with combined expertise in engineering, environmental technology and architecture. SWECO has around 4,900 employees in ten countries and recorded annual sales of around SEK 3.9 billion in 2006. The company has projects currently underway in some 75 countries worldwide. The SWECO share is quoted on the Stockholm Stock Exchange. SWECO is a member of OMX Nordic Exchange in Stockholm.
