ABOUT THIS PROSPECTUS SUPPLEMENT

You should read this prospectus supplement along with the prospectus that follows carefully before you invest. Both documents contain important information you should consider when making your investment decision. This prospectus supplement contains information about the specific notes being offered, and the prospectus contains information about our debt securities generally. This prospectus supplement may add, update or change information in the prospectus. You should rely only on the information provided or incorporated by reference in this prospectus supplement and the prospectus. The information in this prospectus supplement is accurate as of September 9, 2014. We have not authorized anyone else to provide you with different information.

To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus, on the other hand, the information contained in this prospectus supplement shall control. If any statement in this prospectus supplement conflicts with any statement in a document which we have incorporated by reference, then you should consider only the statement in the more recent document.

In this prospectus supplement, “we,” “our,” “us” and “Verizon” refer to Verizon Communications Inc. and its consolidated subsidiaries.

RISK FACTORS

An investment in the notes involves risks. Before making an investment decision, you should carefully consider the risks and uncertainties described in this prospectus supplement and the accompanying prospectus, including the risk factors set forth in the documents and reports filed with the SEC that are incorporated by reference in this prospectus supplement and in the accompanying prospectus. Our business, financial condition, operating results and cash flows can be impacted by these factors, any one of which could cause our actual results to vary materially from recent results or from our anticipated future results.

Risks Related to the Notes

If we redeem the notes, you may not be able to reinvest the redemption proceeds and obtain an equal effective interest rate.

We may redeem the notes on each September 23 on or after September 23, 2015, at a redemption price that does not include a redemption premium. Prevailing interest rates for comparable securities at the time we redeem the notes may be lower than 4.80%. As a result, you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate of 4.80%.

An active trading market may not develop for the notes, which could adversely affect the price of the notes in the secondary market and your ability to resell the notes should you desire to do so.

We intend to apply to list the notes on the GreTai; however, we cannot make any assurance as to:

- the development of an active trading market or that the GreTai listing will be maintained;
- the liquidity of any trading market that may develop;
- the ability of holders to sell their notes; or
- the price at which the holders would be able to sell their notes.

Any trading market that may develop for the notes may be adversely affected by changes in the overall market for investment-grade securities, changes in our financial performance or prospects, a change in our credit rating, the prospects for companies in our industry generally, any acquisitions or business combinations proposed or consummated by us, the interest of securities dealers in making a market for the notes and prevailing interest rates, financial markets and general economic conditions. A market for the notes, if any, may be subject to volatility. Prospective investors in the notes should be aware that they may be required to bear the financial risks of such an investment for an indefinite period of time.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the notes for general corporate purposes, including refinancing existing indebtedness.

DESCRIPTION OF THE NOTES

Principal Amount, Maturity and Interest for the Notes

We are offering \$870,000,000 of our notes which will mature on September 23, 2044.

We will pay interest on the notes at the rate of 4.80% per annum on March 23 and September 23 of each year to holders of record on the preceding March 8 and September 8, respectively. If interest or principal on the notes is payable on a Saturday, Sunday or any other day when banks are not open for business in The City of New York or Taipei, Taiwan, we will make the payment on the next business day, and no interest will accrue as a result of the delay in payment. The first interest payment date on the notes is March 23, 2015. Interest on the notes will accrue from September 23, 2014, and will accrue on the basis of a 360-day year consisting of 12 months of 30 days.

We may issue additional notes in the future.

Global Clearance and Settlement

The notes will be issued in the form of one or more global notes (the “global notes”) in fully registered form, without coupons, and will be deposited on the closing date with a common depository (or its nominee) for, and in respect of interests held through, Euroclear and Clearstream. Except as described herein, certificates will not be issued in exchange for beneficial interests in the global notes.

Except as set forth below, the global notes may be transferred, in whole and not in part, only to Euroclear or Clearstream or their respective nominees. No link is expected to be established among The Depository Trust Company and Euroclear or Clearstream in connection with the issuance of the notes.

Beneficial interests in the global notes will be represented, and transfers of such beneficial interests will be effected, through accounts of financial institutions acting on behalf of beneficial owners as direct or indirect participants in Euroclear or Clearstream. Those beneficial interests will be in denominations of \$100,000 and integral multiples of \$1,000 in excess thereof. Should certificates be issued to individual holders of the notes, a holder of notes who, as a result of trading or otherwise, holds a principal amount of notes that is less than the minimum denomination would be required to purchase an additional principal amount of notes such that its holding of notes amounts to the minimum denomination. Investors may hold notes directly through Euroclear or Clearstream, if they are participants in such systems, or indirectly through organizations that are participants in such systems.

Owners of beneficial interests in the global notes will not be entitled to have notes registered in their names, and will not receive or be entitled to receive physical delivery of notes in definitive form. Except as provided below, beneficial owners will not be considered the owners or holders of the notes under the indenture. Accordingly, each beneficial owner must rely on the procedures of the clearing systems and, if such person is not a participant of the clearing systems, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture. Under existing industry practices, if we request any action of holders or a beneficial owner desires to give or take any action which a holder is entitled to give or take under the indenture, the clearing systems would authorize their participants holding the relevant beneficial interests to give or take action and the participants would authorize beneficial owners owning through the participants to give or take such action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by the clearing systems to their participants, by the participants to indirect participants and by the participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Persons who are not Euroclear or Clearstream participants may beneficially own notes held by the common depository for Euroclear and Clearstream only through direct or indirect participants in Euroclear and Clearstream.

Euroclear and Clearstream Arrangements

So long as Euroclear or Clearstream or their nominee or their common depositary is the registered holder of the global notes, Euroclear, Clearstream, such common depositary or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such global notes for all purposes under the indenture and the notes. Payments of principal, interest and additional amounts, if any, in respect of the global notes will be made to Euroclear, Clearstream or such nominee, as the case may be, as registered holder thereof.

Distributions of principal, interest and additional amounts, if any, with respect to the global notes will be credited in U.S. dollars to the extent received by Euroclear or Clearstream to the cash accounts of Euroclear or Clearstream customers in accordance with the relevant system's rules and procedures.

Because Euroclear and Clearstream can only act on behalf of participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in the global notes to pledge such interest to persons or entities which do not participate in the relevant clearing system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

The holdings of book-entry interests in the global notes through Euroclear and Clearstream will be reflected in the book-entry accounts of each such institution. As necessary, the registrar will adjust the amounts of the global notes on the register for the accounts of the common depositary to reflect the amounts of notes held through Euroclear and Clearstream, respectively.

Initial Settlement

Investors holding their notes through Euroclear or Clearstream accounts will follow the settlement procedures applicable to conventional eurobonds in registered form. Notes will be credited to the securities custody accounts of Euroclear and Clearstream holders on the settlement date against payment for value on the settlement date.

Secondary Market Trading

Because the purchaser determines the place of delivery, it is important to establish at the time of trading of any notes where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired date.

Secondary market sales of book-entry interests in the notes held through Euroclear or Clearstream to purchasers of book-entry interests in a global note through Euroclear or Clearstream will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream and will be settled using the procedures applicable to conventional eurobonds in same-day funds.

You should be aware that investors will only be able to make and receive deliveries, payments and other communications involving the notes through Euroclear and Clearstream on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States or Taiwan.

In addition, because of time-zone differences, there may be problems with completing transactions involving Euroclear and Clearstream on the same business day as in the United States or Taiwan. U.S. or Taiwanese investors who wish to transfer their interests in the notes, or to make or receive a payment or delivery of the notes, on a particular day, may find that the transactions will not be performed until the next business day in Luxembourg or Brussels, depending on whether Euroclear or Clearstream is used. Euroclear and Clearstream will credit payments to the cash accounts of Euroclear participants or Clearstream customers in accordance with the relevant system's rules and procedures, to the extent received by its depositary. Clearstream or the Euroclear operator, as the case may be, will take any other action permitted to be taken by a holder under the indenture on behalf of a Euroclear participant or Clearstream customer only in accordance with its relevant rules and procedures.

Euroclear and Clearstream have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of Euroclear and Clearstream. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue those procedures at any time.

ROC Trading

Currently, we have not entered into any settlement agreement with Taiwan Depository & Clearing Corporation (“TDCC”) and have no intention to do so. In the future, if we enter into a settlement agreement with TDCC, an investor, if it has a securities book-entry account with a Taiwan securities broker and a foreign currency deposit account with a Taiwan bank, may settle the notes through the account of TDCC with Euroclear or Clearstream if it applies to TDCC (by filing in a prescribed form) to transfer the notes in its own account with Euroclear or Clearstream to such TDCC account with Euroclear or Clearstream for trading in the domestic market or vice versa for trading in overseas markets. For settlement through TDCC, TDCC will allocate the respective notes position to the securities book-entry account designated by such investor in the ROC. The notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the GreTai as domestic bonds. For such investors who hold their interest in the notes through an account opened and held by TDCC with Euroclear or Clearstream, distributions of principal and/or interest for the notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC’s receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the Taiwan banks with which the holder has the foreign currency deposit account.

Optional Redemption

We have the option to redeem the notes on not less than 30 nor more than 60 days’ notice, in whole but not in part, on each September 23 on or after September 23, 2015 at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest to the date of redemption.

In addition, we may at any time purchase the notes by tender, in the open market or by private agreement, subject to applicable law.

Tax Redemption

The notes may be redeemed at our option, in whole but not in part, at any time on giving not less than 30 nor more than 90 days’ notice to the noteholders (which notice shall be irrevocable), at their principal amount, together with interest accrued to the date fixed for redemption, if:

- (i) we have or will become obliged to pay additional amounts with respect to the notes as provided or referred to under “— Withholding Taxes” below as a result of any change in, or amendment to, the laws, treaties, or rulings of the United States or any political subdivision or any authority thereof or therein having the power to tax, or any change in the application or official interpretation of such laws or regulations or rulings (including a holding by a court of competent jurisdiction in the United States), which change or amendment is enacted or adopted on or after the issue date of such notes; or
- (ii) on or after the issue date of the notes, any action is taken by a taxing authority of, or any decision has been rendered by a court of competent jurisdiction in, the United States or any political subdivision of or in the United States or any authority thereof or therein having the power to tax, including any of those actions specified in clause (i) above, whether or not such action was taken or decision was rendered with respect to us, or any change, amendment, application or interpretation is officially proposed, which, in any such case, will result in a material probability that we will become obliged to pay additional amounts with respect to the notes; provided that, prior to the publication of any notice of

redemption pursuant to this paragraph, we have delivered to the trustee a certificate signed by one of our officers stating that we are entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to our right so to redeem have occurred and a copy of an opinion of a reputable independent counsel of our choosing to that effect based on that statement of facts. However no such notice of redemption shall be given less than 30 nor more than 90 days prior to the earliest date on which we would be obliged to pay such additional amounts if a payment in respect of the notes were then due.

Withholding Taxes

All payments of principal, interest and premium (if any) in respect of the notes by us or a paying agent on our behalf shall be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or other governmental charges ("Taxes") imposed by or on behalf of the United States or any political subdivision thereof or any authority therein or thereof having the power to tax, unless the withholding or deduction of such Taxes is required by law. In that event, we shall pay to a holder that is a Non-U.S. Person (as defined below) such additional amounts as may be necessary to ensure that the net amount received by such holder, after withholding or deduction for or on account of such Taxes, will be equal to the amount such holder would have received in the absence of such withholding or deduction. However, no additional amounts shall be payable with respect to any note if the beneficial owner is subject to taxation solely for reasons other than its ownership of notes, nor shall additional amounts be payable for or on account of:

- (i) any Tax that would not have been imposed, withheld or deducted but for any present or former connection (other than the mere fact of being a holder or beneficial owner of such note) between the holder or the beneficial owner of such note and the United States or the applicable political subdivision or authority, including, without limitation, such holder or beneficial owner being or having been a citizen or resident of the United States or the applicable political subdivision or authority or treated as being or having been a resident thereof;
- (ii) any Tax that would not have been imposed, withheld or deducted but for the holder or beneficial owner of such note being or having been with respect to the United States a personal holding company, a controlled foreign corporation, a "10 percent shareholder" of us, a passive foreign investment company, a foreign private foundation or other foreign tax-exempt organization, or a corporation that accumulates earnings to avoid U.S. federal income tax;
- (iii) any Tax that is payable other than by withholding or deduction by us or a paying agent from payments in respect of such note;
- (iv) any gift, estate, inheritance, sales, transfer, value added, personal property, excise or similar Tax;
- (v) any Tax that would not have been imposed, withheld or deducted but for a change in any law, treaty, regulation, or administrative or judicial interpretation that becomes effective after the applicable payment becomes due or is duly provided for, whichever occurs later;
- (vi) any Tax that would not have been imposed, withheld or deducted but for the presentation of such note more than 30 days after the applicable payment becomes due or is duly provided for, whichever occurs later, except to the extent that such holder would have been entitled to such Additional Amounts on presenting such note for payment on the last date of such period of 30 days;
- (vii) any Tax that would not have been imposed, withheld or deducted but for the failure of the holder or beneficial owner of such note to comply with applicable certification, information, documentation or other reporting requirements concerning the nationality, residence, identity or connection with the United States of such holder or beneficial owner;
- (viii) any Tax that would not have been imposed, withheld or deducted but for the failure of the holder or beneficial owner (or any financial institution or other person through which the holder or beneficial owner holds any notes) having failed to comply with any certification, information, identification,

documentation or other reporting requirements (including entering into and complying with an agreement with the Internal Revenue Service to report information) with respect to itself or any beneficial owner or account holders thereof; or

- (ix) any combination of items (i)-(viii).

For purposes of clauses (i)-(ix) above, references to the holder or beneficial owner of a note include a fiduciary, settlor, beneficiary or person holding power over such holder or beneficial owner, if such holder or beneficial owner is an estate or trust, or a partner, member or shareholder of such holder or beneficial owner, if such holder or beneficial owner is a partnership, limited liability company or corporation. In addition, we will not pay additional amounts to the holder of a note if such holder or the beneficial owner of such note is a fiduciary, partnership, limited liability company or other fiscally transparent entity, or if the holder of such note is not the sole beneficial owner of such note, as the case may be, to the extent that a beneficiary or settlor with respect to the fiduciary, or a beneficiary, partner or member of the partnership, limited liability company or other fiscally transparent entity, or a beneficial owner would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner, partner or member received directly its beneficial or distributive share of the payment. For purposes of “—Withholding Taxes,” the term “Non-U.S. Person” means any person that is, for U.S. federal income tax purposes, a foreign corporation, nonresident alien individual, a nonresident fiduciary of a foreign estate or foreign trust or a foreign partnership one or more of the partners of which is such a foreign corporation, nonresident alien individual or nonresident fiduciary.

Any additional amounts paid on the notes will be in U.S. dollars.

Additional Information

See “DESCRIPTION OF THE DEBT SECURITIES” in the accompanying prospectus for additional important information about the notes. That information includes:

- additional information about the terms of the notes;
- general information about the indenture and the trustee;
- a description of certain restrictions; and
- a description of events of default under the indenture.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a discussion of certain U.S. federal income tax considerations that may be relevant to a beneficial owner of our notes that is a nonresident alien individual or a foreign corporation, or any other person, that is not subject to U.S. federal income taxation on a net income basis in respect of the notes (a “Non-U.S. Holder”). This discussion deals only with notes held as capital assets by Non-U.S. Holders who acquire notes in this offering. It does not cover all aspects of U.S. federal income taxation that may be relevant to the purchase, ownership or disposition of our notes by investors in light of their specific circumstances. In particular, this discussion does not address certain former citizens or residents of the United States, non-resident alien individuals present in the United States for 183 days or more during the taxable year, “controlled foreign corporations” or “passive foreign investment companies,” entities taxed as partnerships or partners therein, or persons otherwise subject to special treatment under the U.S. Internal Revenue Code of 1986, as amended (the “Code”).

This summary is based upon the provisions of the Code, the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof. Such authorities may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax consequences different from those discussed below. This discussion does not address any other U.S. federal tax considerations (such as gift or estate tax) or any state, local or non-U.S. tax considerations. You should consult your own tax advisors about the tax consequences of the purchase, ownership and disposition of our notes in light of your particular circumstances, including the tax consequences under state, local, foreign and other tax laws and the possible effects of any changes in applicable tax laws.

Interest on the Notes

Except in the circumstances described below under “—Information Reporting and Backup Withholding” and “—FATCA Withholding,” payments of interest on notes owned by a Non-U.S. Holder generally will not be subject to U.S. federal income tax or withholding tax, provided that (i) such Non-U.S. Holder does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote; (ii) such Non-U.S. Holder is not, for U.S. federal income tax purposes, a controlled foreign corporation that is related to us through stock ownership, and (iii) such Non-U.S. Holder certifies under penalty of perjury that it is a Non-U.S.-Holder (usually by providing an IRS Form W-8BEN or W-8BEN-E) or provides other appropriate documentation.

Sale or other Taxable Disposition of the Notes

Except in the circumstances described below under “—Information Reporting and Backup Withholding” and “—FATCA Withholding,” a non-U.S. Holder generally will not be subject to U.S. federal income tax or withholding tax on any gain recognized on the sale, exchange, redemption, retirement or other disposition of a note.

Information Reporting and Backup Withholding

Payments of interest on notes owned by a Non-U.S. Holder (including additional amounts, if any), and gross proceeds from the sale or redemption of such notes within the United States or through certain U.S.-related financial intermediaries, generally are subject to information reporting and backup withholding unless the Non-U.S. Holder certifies under penalty of perjury that it is a Non-U.S. Holder (usually by providing an IRS Form W-8BEN or W-8BEN-E) or otherwise establishes an exemption. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against such Non-U.S. Holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Payments of interest on a note to a Non-U.S. Holder and the amount of any U.S. federal tax withheld from such payments generally must be reported annually to the IRS and to such Non-U.S. Holder, regardless of whether withholding is required.

FATCA Withholding

Under the U.S. tax rules known as the Foreign Account Tax Compliance Act (“FATCA”), a Non-U.S. Holder of our notes will generally be subject to 30% U.S. withholding tax on payments made on (and, after December 31, 2016, gross proceeds from the sale or other taxable disposition of) the notes if the Non-U.S. Holder (i) is, or holds its notes through, a foreign financial institution that has not entered into an agreement with the U.S. government to report, on an annual basis, certain information regarding accounts with or interests in the institution held by certain United States persons and by certain non-U.S. entities that are wholly or partially owned by United States persons, or that has been designated as a “nonparticipating foreign financial institution” if it is subject to an intergovernmental agreement between the United States and a foreign country, or (ii) fails to provide certain documentation (usually an IRS Form W-8BEN or W-8BEN-E) containing information about its identity, its FATCA status, and if required, its direct and indirect U.S. owners. The future adoption of, or implementation of, an intergovernmental agreement between the United States and an applicable foreign country, or future U.S. Treasury regulations, may modify these requirements. You should consult your own tax advisor on how these rules may apply to your investment in the notes.

ROC Taxation

The following summary of certain taxation provisions under ROC law is based on current law and practice and that the notes will be issued, offered, sold and re-sold to professional institutional investors as defined under Paragraph 2, Article 19-7 of the Regulations Governing Securities Firms of the ROC only. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisers regarding the tax consequences of an investment in the notes.

Interest on the Notes

As we, the issuer of the notes, are not an ROC statutory tax withholder, there is no ROC withholding tax on the interest to be paid on the notes.

ROC corporate holders must include the interest receivable under the notes as part of their taxable income and pay income tax at a flat rate of 17%. (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (“AMT”) is not applicable.

Non-ROC corporate holders are subject to ROC income tax on ROC-sourced income only and the interest receivable under the notes are not ROC-sourced income. Hence non-ROC corporate holders have no ROC income tax issue with the interest receivable under the notes. AMT does not apply either.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to a 0.1% securities transaction tax (“STT”) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act of the ROC prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds for seven years from January 1, 2010 to December 31, 2016. Therefore, the sale of the notes will be exempt from STT if the sale is conducted on or before December 31, 2016. Starting from January 1, 2017, any sale of the notes will be subject to STT at 0.1% of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are deemed ROC-sourced income but exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the Income Tax Act of the ROC, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over five years to offset against capital gains of same category of income for the purposes of calculating their AMT.

Non-ROC corporate holders with a fixed place of business (e.g., a branch) or a business agent in the ROC are not subject to income tax on any capital gains generated from the sale of the notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-ROC corporate holders without a fixed place of business or a business agent in the ROC, they are not subject to income tax or AMT on any capital gains generated from the sale of the notes.

UNDERWRITING

Subject to the terms and conditions stated in the purchase agreement, dated the date of this prospectus supplement, each underwriter named below has agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of the notes set forth opposite the underwriter's name.

<u>Underwriters</u>	<u>Principal amount of notes</u>
E.Sun Commercial Bank, Ltd	400,000,000
MasterLink Securities Corporation	470,000,000
Total	\$ 870,000,000

The purchase agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all of the notes if they purchase any of the notes. The underwriters may make offers and sales in the United States through their respective U.S. broker-dealer affiliates.

The underwriters propose to offer some of the notes directly to the public at the public offering prices set forth on the cover page of this prospectus supplement and some of such notes to dealers at the public offering prices less a concession not to exceed 0.06% of the principal amount of the notes. The underwriters may allow, and dealers may reallow, a concession not to exceed 0.03% of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the underwriters may change the public offering prices and other selling terms.

The following table shows the underwriting discount that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	<u>Paid by Verizon Communications Inc.</u>
Per note	0.10%

We will pay an aggregate fee of \$5,655,000 (the "structuring fee") to Morgan Stanley & Co. LLC, Blaylock Beal Van, LLC, Great Pacific Securities, Guzman & Company and Muriel Siebert & Co., Inc. in connection with structuring services that they provided in connection with the notes. Morgan Stanley & Co. LLC, Blaylock Beal Van, LLC, Great Pacific Securities, Guzman & Company and Muriel Siebert & Co., Inc. will not underwrite or sell any notes offered hereby.

E.Sun Commercial Bank, Ltd. and MasterLink Securities Corporation are not U.S. registered broker-dealers and, therefore, to the extent that they intend to effect any sales of the notes in the United States, they will do so through one or more U.S. registered broker-dealers as permitted by FINRA regulations.

The notes will constitute a new class of securities with no established trading market. Application will be made to the GreTai for the listing of, and permission to deal in, the notes by way of debt issues to professional institutional investors as defined under Paragraph 2, Article 19-7 of the Regulations Governing Securities Firms of the Republic of China ("ROC") only and such permission is expected to become effective on or about September 23, 2014. The underwriters are not obligated to carry out market-making activities with respect to the notes. Accordingly, we cannot assure you as to the liquidity of, or the trading market for, the notes.

We estimate that our total expenses for this offering (not including the underwriting discount or the structuring fee) will be approximately \$675,000.

We have agreed to indemnify the several underwriters against certain liabilities in connection with this offering, including liabilities under the Securities Act or to contribute to payments the underwriters may be required to make because of any of these liabilities. Separately, in connection with structuring services that Morgan Stanley & Co. LLC, Blaylock Beal Van, LLC, Great Securities Pacific, Guzman & Company and Muriel Siebert & Co., Inc. provided in connection with the notes, we have agreed to indemnify Morgan Stanley & Co. LLC, Blaylock Beal Van, LLC, Great Securities Pacific, Guzman & Company and Muriel Siebert & Co., Inc. against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments made in respect of those liabilities.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. In addition, certain underwriters or their affiliates may provide credit to us as lenders. If any of the underwriters or their affiliates provide credit to us, certain of those underwriters or their affiliates routinely hedge, certain of those underwriters are likely to hedge and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities or instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

We expect that the delivery of the notes will be made to investors on or about September 23, 2014, which will be the tenth business day following the date of this prospectus supplement (such settlement being referred to as “T+10”). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes prior to the third business day before the settlement date will be required, by virtue of the fact that the notes initially settle in T+10, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to the third business day before the settlement date should consult their advisors.

RATIOS OF EARNINGS TO FIXED CHARGES

The following table shows our ratios of earnings to fixed charges for the periods indicated:

Six Months Ended June 30, 2014	Year Ended December 31,				
	2013	2012	2011	2010	2009
4.75	7.69	3.55	3.50	3.74	3.69

For these ratios, “earnings” have been calculated by adding fixed charges to income before provision for income taxes, discontinued operations, extraordinary items and cumulative effect of accounting change, and before noncontrolling interests and income (loss) of equity investees. “Fixed charges” include interest expense, preferred stock dividend requirements of consolidated subsidiaries, capitalized interest and the portion of rent expense representing interest.

Common Stock

Subject to any preferential rights of the preferred stock, holders of shares of our common stock are entitled to receive dividends on that stock out of assets legally available for distribution when, as and if authorized and declared by the board of directors and to share ratably in assets legally available for distribution to our shareholders in the event of our liquidation, dissolution or winding-up. We may not pay any dividend or make any distribution of assets on shares of common stock until cumulative dividends on shares of preferred stock then outstanding, if any, having dividend or distribution rights senior to the common stock have been paid.

Holders of common stock are entitled to one vote per share on all matters voted on generally by the shareholders, including the election of directors. In addition, the holders of common stock possess all voting power except as otherwise required by law or except as provided for by any series of preferred stock. Our restated certificate of incorporation does not provide for cumulative voting for the election of directors.

Preferred Stock

Our board of directors is authorized at any time to provide for the issuance of all or any shares of our preferred stock in one or more classes or series, and to fix for each class or series voting powers, full or limited, or no voting powers, and distinctive designations, preferences and relative, participating, optional or other special rights and any qualifications, limitations or restrictions, as shall be stated and expressed in the resolution or resolutions adopted by the board of directors providing for the issuance of the preferred stock and to the fullest extent as may be permitted by Delaware law. This authority includes, but is not limited to, the authority to provide that any class or series be:

- subject to redemption at a specified time or times and at a specified price or prices;

DESCRIPTION OF THE DEBT SECURITIES

General

We will issue debt securities under an indenture between us and U.S. Bank National Association (as successor to Wachovia Bank, National Association, formerly known as First Union National Bank), as trustee, dated as of December 1, 2000, as amended. To the extent provided in the applicable prospectus supplement, the

debt securities may be convertible into, or exchangeable for, shares of any class or classes of our stock, or our other securities or property.

We have summarized material provisions of the indenture and the debt securities below. This summary does not describe all exceptions and qualifications contained in the indenture or the debt securities. In the summary below, we have included references to article and section numbers of the indenture so that you can easily locate these provisions.

The debt securities will be unsecured and will rank equally with all of our senior unsecured debt. The indenture does not limit the amount of debt securities that may be issued and each series of debt securities may differ as to its terms.

A supplement to the indenture, board resolution or officers' certificate will designate the specific terms relating to any new series of debt securities. (SECTION 301) These terms will be described in a prospectus supplement and, in some cases, a pricing supplement, and will include the following:

- title of the series;
- total principal amount of the series;
- maturity date or dates;
- interest rate and interest payment dates;
- any redemption dates, prices, obligations and restrictions;
- any provisions permitting the debt securities to be convertible into, or exchangeable for, shares of any class or classes of our stock, or our other securities or property, at a specified price or prices or at specified rates of exchange and with any adjustments; and
- any other terms of the series.

Form and Exchange

The debt securities will normally be denominated in U.S. dollars, in which case we will pay principal, interest and any premium in U.S. dollars. We may, however, denominate any series of debt securities in another currency or composite currency. In those cases, payment of principal, interest and any premium would be in that currency or composite currency and not U.S. dollars.

Book-Entry Only Form

The debt securities will normally be issued in book-entry only form, which means that they will be represented by one or more permanent global certificates registered in the name of The Depository Trust Company, New York, New York, which we refer to as "DTC," or its nominee. We will refer to this form here and in the prospectus supplement as "book-entry only."

In the event that debt securities are issued in book-entry only form, DTC will keep a computerized record of its participants (for example, your broker) whose clients have purchased the securities. The participant will then keep a record of its clients who purchased the securities. A global security may not be transferred, except that DTC, its nominees and their successors may transfer an entire global security to one another.

In the case of book-entry only, we will wire principal and interest payments to DTC's nominee. We and the trustee will treat DTC's nominee as the owner of the global securities for all purposes. Accordingly, neither we nor the trustee will have any direct responsibility or liability to pay amounts due on the securities to owners of beneficial interests in the global securities.

Under book-entry only, we will not issue certificates to individual holders of the debt securities. Beneficial interests in global securities will be shown on, and transfers of global securities will be made only through, records maintained by DTC and its participants. Debt securities represented by a global security will be exchangeable for debt securities certificates with the same terms in authorized denominations only if:

- DTC notifies us that it is unwilling or unable to continue as depository;
- DTC ceases to be a clearing agency registered under applicable law and a successor depository is not appointed by us within 90 days; or
- We instruct the trustee that the global security is exchangeable for debt securities certificates.

Certificated Form

Alternatively, we may issue the debt securities in certificated form registered in the name of the debt security holder. Under these circumstances, holders may receive certificates representing the debt securities. Debt securities in certificated form will be transferable without charge except for reimbursement of taxes, if any. We will refer to this form in the prospectus supplement as “certificated.”

Redemption Provisions, Sinking Fund and Defeasance

We may redeem some or all of the debt securities at our option subject to the conditions stated in the prospectus supplement relating to that series of debt securities. If a series of debt securities is subject to a sinking fund, the prospectus supplement will describe those terms. (ARTICLES ELEVEN and TWELVE)

The indenture permits us to discharge or defease certain of our obligations on any series of debt securities at any time. We may defease by depositing with the trustee sufficient cash or government securities to pay all sums due on that series of debt securities. (ARTICLE FOUR)

Liens on Assets

The debt securities will not be secured. However, if at any time we incur other debt or obligations secured by a mortgage or pledge on any of our property, the indenture requires us to secure the debt securities equally with our other debt or obligations for as long as the other debt or obligations remain secured. Exceptions to this requirement include the following:

- purchase-money mortgages or liens;
- liens on any property or asset that existed at the time when we acquired that property or asset;
- any deposit or pledge to secure public or statutory obligations;
- any deposit or pledge with any governmental agency required to qualify us to conduct any part of our business, to entitle us to maintain self-insurance or to obtain the benefits of any law relating to workmen’s compensation, unemployment insurance, old age pensions or other social security; or
- any deposit or pledge with any court, board, commission or governmental agency as security for the proper conduct of any proceeding before it. (SECTION 1004)

The indenture does not prevent any of our affiliates from mortgaging, pledging or subjecting to any lien, any property or asset, even if the affiliate acquired that property or asset from us.

We may issue or assume an unlimited amount of debt under the indenture. As a result, the indenture does not prevent us from significantly increasing our unsecured debt levels, which may negatively affect the resale of the debt securities. (SECTION 301)

Changes to the Indenture

The indenture may be changed with the consent of holders owning more than 50% of the principal amount of the outstanding debt securities of each series affected by the change. However, we may not change your principal or interest payment terms or the percentage required to change other terms of the indenture without your consent and the consent of others similarly affected. (SECTION 902)

We may enter into supplemental indentures for other specified purposes, including the creation of any new series of debt securities without the consent of any holder of debt securities. (SECTION 901)

Consolidation, Merger or Sale

The indenture provides that we may not merge with another company or sell, transfer or lease all or substantially all of our property to another company unless:

- the successor corporation expressly assumes:
 - payment of principal, interest and any premium on the debt securities; and
 - performance and observance of all covenants and conditions in the indenture;
- after giving effect to the transaction, there is no default under the indenture;
- we have delivered to the trustee an officers' certificate and opinion of counsel stating that such transaction complies with the conditions set forth in the indenture; and
- if as a result of the transaction, our property would become subject to a lien that would not be permitted by the asset lien restriction, we secure the debt securities equally and ratably with, or prior to, all indebtedness secured by that lien. (ARTICLE EIGHT)

Events of Default

An event of default means, for any series of debt securities, any of the following:

- failure to pay interest on that series of debt securities for 90 days after payment is due;
- failure to pay principal or any premium on that series of debt securities when due;
- failure to perform any other covenant relating to that series of debt securities for 90 days after notice to us; and
- certain events of bankruptcy, insolvency and reorganization.

An event of default for a particular series of debt securities does not necessarily impact any other series of debt securities issued under the indenture. (SECTION 501)

If an event of default for any series of debt securities occurs and continues, the trustee or the holders of at least 25% of the outstanding principal amount of the debt securities of the series may declare the entire principal of all the debt securities of that series to be due and payable immediately. If this happens, subject to certain conditions, the holders of a majority of the outstanding principal amount of the debt securities of that series can rescind the declaration if there has been deposited with the trustee a sum sufficient to pay all matured installments of interest, principal and any premium. (SECTION 502)

The holders of more than 50% of the outstanding principal amount of any series of the debt securities, may, on behalf of the holders of all of the debt securities of that series, control any proceedings resulting from an event of default or waive any past default except a default in the payment of principal, interest or any premium. (SECTION 512) We are required to file an annual certificate with the trustee stating whether we are in compliance with all of the conditions and covenants under the indenture. (SECTION 704)

Concerning the Trustee

Within 90 days after a default occurs, the trustee must notify the holders of the debt securities of the series of all defaults known to the trustee if we have not remedied them (default is defined for this purpose to include the events of default specified above absent any grace periods or notice). If a default described in the third bullet point under “Events of Default” occurs, the trustee will not give notice to the holders of the series until at least 60 days after the occurrence of that default. The trustee may withhold notice to the holders of the debt securities of any default (except in the payment of principal, interest or any premium) if it in good faith believes that withholding this notice is in the interest of the holders. (SECTION 602)

Prior to an event of default, the trustee is required to perform only the specific duties stated in the indenture, and after an event of default, must exercise the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. (SECTION 601) The trustee is not required to take any action permitted by the indenture at the request of holders of the debt securities, unless those holders protect the trustee against costs, expenses and liabilities. (SECTION 603) The trustee is not required to spend its own funds or become financially liable when performing its duties if it reasonably believes that it will not be adequately protected financially. (SECTION 601)

U.S. Bank National Association, the trustee, and its affiliates have commercial banking relationships with us and some of our affiliates and serves as trustee or paying agent under indentures relating to debt securities issued by us and some of our affiliates.

CLEARING AND SETTLEMENT

The following discussion pertains to debt securities that are issued in book-entry only form.

The Clearing Systems

In the event that the debt securities are issued in book-entry only form, the debt securities may be settled through DTC. In the event that the prospectus supplement to this prospectus so provides, debt securities in book-entry only form may also be settled through accounts maintained at Clearstream Banking, *société anonyme*, Luxembourg, commonly known as Clearstream, or the Euroclear System, commonly known as Euroclear. In this case, links will be established among DTC, Clearstream and Euroclear to facilitate the issuance of the debt securities and cross-market transfers of interests in the debt securities associated with secondary market trading. DTC is linked indirectly to Clearstream and Euroclear through the depository accounts of their respective U.S. depositories. The descriptions of the operations and procedures of DTC, Clearstream and Euroclear described below are provided solely as a matter of convenience. These operations and procedures are solely within the control of these settlement systems and are subject to change by them from time to time. Neither we, the trustee, nor any underwriter, dealer, agent or purchaser takes any responsibility for these operations or procedures, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

The clearing systems have advised us as follows:

DTC

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the U.S. Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered under Section 17A of the Exchange Act. DTC holds securities that its participants, known as DTC participants, deposit with DTC. DTC also facilitates the settlement among DTC participants of securities transactions, such as transfers and pledges, in deposited securities through computerized records for DTC

participants' accounts. This eliminates the need to exchange certificates. DTC participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

DTC's book-entry system is also used by other organizations such as securities brokers and dealers, banks and trust companies that work through a DTC participant. The rules that apply to DTC and its participants are on file with the SEC.

Upon receipt of any payment of principal or interest, DTC will credit DTC participants' accounts on the payment date according to such participants' respective holdings of beneficial interests in the global securities as shown on DTC's records. In addition, it is DTC's current practice to assign any consenting or voting rights to DTC participants whose accounts are credited with securities on a record date, by using an omnibus proxy. Payments by DTC participants to owners of beneficial interests in the global securities, and voting by DTC participants, will be governed by the customary practices between the DTC participants and owners of beneficial interests, as is the case with securities held for the accounts of customers registered in street name. However, these payments will be the responsibility of the DTC participants and not of DTC, the trustee or us.

Clearstream

Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations, known as Clearstream participants, and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Commission for the Supervision of the Financial Sector (*Commission de Surveillance du Secteur Financier*). Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include an underwriter, dealer, agent or purchaser engaged by us to sell the debt securities. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream participant either directly or indirectly. Clearstream has established an electronic bridge with Euroclear to facilitate settlement of trades between Clearstream and Euroclear.

Distributions with respect to interests in the debt securities held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Euroclear

Euroclear was created in 1968 to hold securities for its participants, known as Euroclear participants, and to clear and settle transactions between Euroclear participants and between Euroclear participants and participants of certain other securities intermediaries through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear is owned by Euroclear plc, a U.K. limited liability company, and operated through a license agreement by Euroclear Bank S.A./N.V., known as the Euroclear operator. The Euroclear operator provides Euroclear participants, among other things, with safekeeping, administration, clearance and settlement, securities lending and borrowing and related services. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include an underwriter, dealer, agent or purchaser engaged by us to sell the debt securities.

Indirect access to Euroclear is also available to others that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

The Euroclear operator is a Belgian bank regulated by the Belgian Banking and Finance Commission and overseen as the operator of a securities settlement system by the National Bank of Belgium.

Securities clearance accounts and cash accounts with the Euroclear operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law, collectively referred to as the terms and conditions. The terms and conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear operator acts under the terms and conditions only on behalf of Euroclear participants, and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to debt securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the terms and conditions, to the extent received by the U.S. depository for Euroclear.

Global Clearance and Settlement Procedures

Initial settlement for the debt securities will be made in U.S. dollars, in same-day funds, unless otherwise specified in the prospectus supplement. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in same-day funds using DTC's Same-Day Fund Settlement System. In the event that the prospectus supplement to this prospectus provides that the debt securities may also be settled through Clearstream and Euroclear, secondary market trading between Clearstream participants and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in same-day funds.

Cross-market transfers between persons holding directly or indirectly through DTC participants, on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of the European international clearing system by its U.S. depository; however, these cross-market transactions will require delivery of instructions to the European international clearing system by the counterparty in that system in accordance with its rules and procedures and within its established deadlines (European time). The European international clearing system will, if a transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving interests in the debt securities in DTC, and making or receiving payment in accordance with normal procedures for settlement in DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to their respective U.S. depository.

Because of time-zone differences, credits of debt securities received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. The credits or any transactions in the debt securities settled during this processing will be reported to the Clearstream or Euroclear participants on the same business day. Cash received in Clearstream or Euroclear as a result of sales of the debt securities by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in securities among participants of DTC, Clearstream and Euroclear, they are under no

obligation to perform or continue to perform these procedures and these procedures may be changed or discontinued at any time by any of them.

PLAN OF DISTRIBUTION

We may sell any of the securities:

- through underwriters or dealers;
- through agents; or
- directly to one or more purchasers.

The prospectus supplement or pricing supplement will include:

- the initial public offering price;
- the names of any underwriters, dealers or agents;
- the purchase price of the securities;
- our proceeds from the sale of the securities;
- any underwriting discounts or agency fees and other underwriters' or agents' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any option by the underwriters to purchase additional securities.

If underwriters are used in the sale, they will buy the securities for their own account. The underwriters may then resell the securities in one or more transactions, at any time or times, at a fixed public offering price or at varying prices.

This prospectus should not be considered an offer of the securities in states where prohibited by law.

If there is a default by one or more of the underwriters affecting 10% or less of the total number of shares of capital stock or principal amount of debt securities offered, the non-defaulting underwriters must purchase the securities agreed to be purchased by the defaulting underwriters. If the default affects more than 10% of the total number of shares of capital stock or principal amount of the debt securities, we may, at our option, sell less than all the securities offered.

Underwriters and agents that participate in the distribution of the securities may be underwriters as defined in the Securities Act. Any discounts or commission that we pay them and any profit that they receive from the resale of the securities by them may be treated as underwriting discounts and commissions under the Securities Act. We may have agreements with underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which they may be required to make.

Underwriters and agents may be customers of us or our affiliates, may engage in transactions with us or our affiliates or perform services for us or our affiliates in the ordinary course of business.
